The Coast Third and Line Limited left the Townsend streets depot at 8 o'clock this morning. It is scheduled to reach Los Angeles at 10:50 tonight. Included in the train was a cafe car, reach which is a new feature on the South ern Pacific system.

The Coast Line Limited is the first through train to leave San Francisco. Heretofore all through trains started from and stopped at Oakland mole. the ferry boats being used. Hereafter all Los Angeles and passengers in the through Sunset trains will use the and Townsend streets depot. Menlo Park, Stanford, San Jose, Santa Cruz, Del Monte, Monterey and Pacific, Among the other attractons which will be in the overland path are the brae, the Lick observatory, the homes of millionaires, the great Stanford uni-versity and the wonders of mountain, valley and seaside scenery.

A RETICENT MAN.

Stetch of Horace G. Burt. President of the Union Pacific.

As befits a man who is at the head of business which represents an invest-ment of an hundred odd millions, and whose operation some thousands of men are employed, Horace G. Burt keeps very much to himself. His reticence has won for him the name of be ing a hard man to interview. In reality he is one of the easiest, for he in-variably tells the reporter he has nothing to say, and the interview is over so far as Mr. Burt is concerned. Or Or such matters as the public is, in his opinion, entitled to be informed, Mr. Burt talks briefly, but plainly; but he never takes the reporter into his confidence. fidence concerning his plans or the plans of his employers in the manage ment of the great railroad of which he is the executive head. He is probably the hardest worker on the Union Pacife pay roll, and finds very little time from his duties to devote to a discus-sion of the affairs of the road for the edification of outsiders.

Horace G. Burt began his railroad ca-retr as a member of a surveying party which was running a line for a branch of the Chicago & Northwestern road over in lowa. He soon left the plonee to become superintendent of the construction work. Advance was steady and rapid and he was successfully made assistant superintendent and sup-erintendent of the northern Iowa lines of the Chicago & Northwestern, and then chief engineer for the whole system. It was while acting in this lat-ter capacity that he first came into general notice as a railroad man. He laid out the Great Northern switchyards in Chicago, anachievement which uttracted a great deal of attention in the railroad world.—Omaha Bee.

Will Build Into Washington.

Spokane, Wn., April 1 .- Traffle Manager G. M. Mosworth of the Canadian Pacific railway, accompanied by sevcral assistants, is here. He held a con-sultation with the manager of the Trail Smelter last night and today will meet prominent British Columbia mine owners. He is on a tour of inspection. He announces that the Canadian Pacific Railroad will build to Republic, Wash., from Grand Forks, B. C., but says definite arrangements have not been made. Lower rates on silver lead ores, he sava only follow increased output. He makes no promise of immediate reduc tion, and does not speak hopefully of the silver-lead markets.

"Orange Special" Arrives.

A special to the Spokane Spokesman-Review on March 29 says: The Great Northern "orange special," which made a sensational flight across the country from Puget sound to St. Paul, arrived from Puret sound to St. Paul, arrived at 11:65 a.m., having smashed all records. The time actually consumed in the trip from Scattle was 68 hours and 56 minutes. The train was delayed three hours and 35 minutes by land-sildes, hot boxes and "set outs." At one time the train stood still an hour and 50 minutes while the train crew re-moved a rock from the track. At angeneral manager of the Baltimore & Ohio railroad, the vacancy being caused the resignation of Frederick B derwood. Mr. Willard has been as-Inderwood. sistant general manager.

Announcement is made that the Schenectady locomotive works have secured the patent right to build railroad engines of the so-called prairie type. In this same connection the Burlington management has given an order for 50 engines at a cost of \$750,000.

Colonel H. B. Maxon of Reno, Nev. who has charge of the government surveys in southern Nevada, is registered Kenyon. He states that since at the Jan. 1 there have been over 18,000 acres of land filed adjacent to the proposed right of way of the new road through to Los Angeles.

According to the Nevada State Herald, the following are the reasons why engines are always spoken of as "she:" They wear a jacket, an apron, shoes hose, and drag a train after them; they have a lap, need guides, ride wheels, will not turn out for pedestrians, and sometimes foam and refuse to work; they attract men, are sometimes very contrary, and it always takes a man to manage them.

J. Ross Clark announces that actual work on the Sait Lake road will begin within thirty days. "We are having some little trouble over our right of sald Mr. Clark in Los Angeles on Saturday, "but we are so confident that every obstacle in that direction will be shortly overcome that within a few days we will let our first contract." The first contract will be a spur from Hobart Junction into the ranch where ma. terial yards are to be established, and from now on it is expected that work on the new road will be steadily pushed

Dyspepsia

Is difficult digestion, due to a weakened condition of the stomach and its inability to properly churn the food; or to unhealthy condition of the gastric juice, too much or too little acid, too much or too little pepsin

Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and tones up their mucous membranes. So prompt is its effect in many cases that it seems to have almost

a magic touch. Begin to take it NOW.

Suffered Everything-"I was trou-bled with dyspepsia, suffered everything but death, could not est without terrible distress. Since taking Hood's Sarasparilla I cat heartily and I am well." Mas. Evens MURPHY, Danbury, Conn.

afternoon C. L. Drumm was convicted on the charge of allowing women in saloon between the hours of 7 p. m. and 7 a. m. Attorney J. M. Hamilton, who appeared for the defendant, prea demurrer to the comp laint sented which Judge Timmony overruled, and fined Drumm \$25. fined Drumm \$25. In Justice Dana Smith's court the names of Mike Gordon and Louis

Jacobson were called to answer to the charge of attempted bribery. Failing to answer to the "call," Justice Smith declared there bail, \$200, forfeited. These men were accused of bribing Detective Ed Alford in the junk case, and the \$150, which they gave to him as part payment, also went into the treas-ury. The suretles for the accused were Morris Levy and Isaac Cine, and upon demand of Justice Smith promptly paid over the money.

TO CURE A COLD IN ONE DAY Take Laxative Bromo-Quinine Tablets. 250 RICH FIND.

Councilman Davis Believes That He

Has a Bonanza. Councilman Davis, who is also

steward of the Knutsford, believes that he is on the short road to wealth. Last week he received two samples of ore from a former employe in the Knutsford culniary department, who is now in Arizona on his way to California. The sender thought that there was copper in the samples and requested Mr. Davis to test them. There was a vein of it seven feet wide, he said. He had only stumbled on to it. He was not prospecting. Mr. Davis put the samples of ore in a retort and subjected them to a high degree of heat. The result was marvelous. Instead of copper, however, the pieces of rock were thick-ly studded with beads of a yellower and more precious metal-gold. An estimate has been made that the samples will assay \$25,000 to the ton, and if the vein is as wide as Mr. Davis' friend reported both will probably become rich men. The friend asked Mr. Davis if he would help him to develop the vein if

he located it. Davis believes that he will, and will start to meet the discov-erer as soon as he hears from him in California.

PARLEY'S CANYON CASE.

Test Suit Will be Tried Before Judge Stewart Thursday.

Attorney H. A. Smith appeared before the board of county commissioners this morning and stated that the suit of David B. Brinton and others against the city would be tried before Judge Stewart next Thursday. The action is to test the question whether or not owners of cattle have the right to drive cattle up Parley's canyon. Mr. Smith stated that the only time that the wa-ters of the creek had ever been disturbed was one time last summer, when a deputy land and water commissioner stopped Mr. Brinton's cattle, causing one of the animals to leap down into the creek. He contended that the roadway up the canyon was a public thoroughfare owned by the county; and public the city had no right to stop cattle from being driven on that roadway. On motion of Commimssioner Horne the matter was referred to the commit

tee on roads and bridges with power to act, the county attorney associated the county attorney associated with the committee. David Proctor submitted a proposi-tion of the sale to the county of be-tween 300 and 400 feet of bridge timber. The committee on roads and bridges was authorized to purchase as much of it as might be necessary. Secretary J. A. Wright of the State board of horticulture submitted the names of John P. Sorenson, Salt Lake;

PEOPLE WHO ARE PASSING

H. E. Soesbe, vice president and treasurer of the Greene and Western Telephone company, of Iowa, which is part of the Western Electric system. today arrived from the coast. There are over 1,200 miles of toll line in this system and twelve exchanges. The gentleman is one of the bankers who are back of the Mutual company which is after a franchise in this city and when seen at the Knutsford, today said: "I am surprised to learn that there has been any question raised as to our representative's backing and should recommend to those interested that they look us all up. I have had an enjoyable time today seeing your city and was much impressed with the streets and mountain scenery. have just come from the coast where

have spent the winter. The hotels are crowded and it seems to me that you should have great crowds of visitors in the near future."

J. M. Shawhan, representing the Empire Transportation company, which owns a line of steamships from San Francisco and Seattle to Nome and Francisco and Seattle to Nome and other Alaskan points, is a guest at the Knutsford. "We will send our first boat from San Francisco on May 25 and one from Seattle on June 1," said Mr. Shawhan. "The travel will be only about 60 per cent this year of what it was last year and the output from the mines at Nome will probably amount to four times as much as last year. The facilities for working the locations are much improved and the country has scarcely been touched yet."

HOTEL ARRIVALS.

The following are the names of the guests registered at the hotels today at

Knutsford-H. N. Sannius, Miss Mary F. Sannius and Miss Grace A. Sannius, York, Pa.; Charles H. Dickey and wife, Baltimore; D. W. Macdonald, New York: F. P. Coughlin and wife, Den-ver; Mrs. Richard Stingley, Denver; H. ver; Mrs. Richard Stingley, Denver; H. E. Rooklidge, John Rooklidge, Mr, and Mrs. William Winfield, Andrew H. Field, San Francisco; John Y. Calahan, Chicago; Mr. and Mrs. E. M. Burgess, Denver; Thomas H. Benton, Lincoln, Neb.

Kenyon-Blanch Walsh and maid Kenyon-Blanch Wilsh and Inder, Ben Stern and wile and nine members of the company: R. S. Rubel, of Ogden: William Humphrey and wife, of New York; James J. Burke, J. S. Eusstein, I. Woolf, Mrs. M. R. Hunt, City; G. W. Prince, San Francisco; W. S. Mer-cer, San Francisco; George J. Mohler, Partland Oracon. Portland, Oregon.

H. Chapin, Jr., of New York is a guest at the Knutsford. He is cashier of the National Bank of North Ameri-ca-one of the strongest banks in New York.

Colonel H. B. Maxson, secretary of the Nevada State association of Civil Engineers and United States deputy surveyor, is at the Kenyon, en from Reno to southern Nevada, where he will meet two surveying parties which will survey and subdivide that portion of Nevada, under his direc-tion. The influx of settlers, occasioned by the reports that the San Pedro, Los Angeles and Salt Lake railroad will soon he built, make it necessary that the land should be surveyed at once.

PERSONALS.

say that last season Pace established a hitting percentage of 314. Clarkson of

the Anaconda team last year, and Young Sheppard, who it will be remem-

bered pitched a great fourteen inning game here last year, will be seen in the box. Bert Margetts, one of the very best players in the country, will adorn for the second players in the country.

"Blakey" Has Arrived.

Fred Welcke, known as "Blakey, who is to play third base for Jimmy Clippinger's Railways, arrived here last night, and is feeling well and is anxious to begin work on the diamond.

MAY OUIT THE TURF.

It is said That T. W. Lawson is Tired of It.

New York, April 1.-A special to the World from Boston, says:

World from Boston, says: Thomas W. Lawson has decided to quit the turf game, at least for the present. Boralma is the only horse of the many valuable ones owned by him that will appear on the track this year under his colors. This announcement may appear remarkable, in view of the fact that his horses are already entered for early-closing trotting classes at Readville, Detroit, Cleveland and Syracuse, but its verification may be ex-pected in a day or two from Mr. Lawson himself

His reasons for this course are as yet a mystery. Possibly the prominent part he expects to take in this season's

yachting may have something to do with his edcision to race only Boralma this season. Mr. Lawson has forty horses in training-slx at Balitomer, twenty-eight at Charter Oak and the remainder at Louisville. They represent a fortune None of them will be sold, but will be brought to his South Shore farm as soon as the paddocks are ready for occupancy. This leads to the belief that his retirement from the turf is only

temporarily M'GOVERN QUITS.

Fighting Machine Terry Terminates

His Career on the Stage.

One short week more and Terrence McGovern, champion featherweight of the world, aspiring lightweight of the same territory, and the legitimate successor of Booth and Barrett retires from the glimmer of the footlight forever. What a loss to the stage. It seems that the famous fighter does not admiring spectators as he steps to the eenter of the stage. In a recent inter-view Terry states his reasons, and to best enlightened readers on the subject it is herewith given:

"I shall terminate my stage career on the 1st of April. While I do not suppose my characterization of the chief role in 'The Bowery After Dark has caused any special feeling of jeal-ousy on the part of John Drew, Henry Irving and others of riper experience, yet I have nothing to reproach myself for. Money? Yes, it has come plenti-fully, but it is small recompense for the

fully, but it is small recompense for the drudgery and annoyance that beset the start of a theatrical company. I am deprived of the comforts and luxuries of the puglilist who lives at home. "Most assuredly in my salad days my surroundings were of a nature to dis-courage any but a man of the most pronounced courage. Assisting in the support of a large family without the
