TOFARMERS, STOCK & PORK GROWERS.

LAST year I introduced into these valleys a prolific
tuberous root called the Jerusalem Artichoke,
which from the product of four stalks last year, I am
enabled to furnish a limited number seed sufficient to
make a fair commencement. This root is exceedingly
productive and under favorable circumstances will pro-
duce one thousand bushels to the acre, and it is readi-
ly devoured by horses, cattle, sheep, hogs, and even
pigs, and makes an excellent pickle. It is perfectly
hardy, standing out all winter, grows on all kinds of
soil, is subject to no disease, and never fails making a
crop.

Seed may be obtained at my residence, or of D. T.
Le Baron, 15th Ward, Salt Lake City.
