MINING, BUSINESS AND STOCKS.

GREAT FUTURE FOR ELY COPPER MINES

Fred A. Somers of Ely Expositor Says Railroad Projects Will Give Great Impetus to Mining.

"Riy to certain to be the greatest * Fomers of Ely today, "It is almost a certainty that next spring will see construction work started on the Tonopah & Tide Water road which will connect it with Los Angeles. I understand that there is a new roud to be built from Ward into Kimberly in the opring Further than that there is a plan now being figured out and on which several surveys have been made for the building of a road through the Deep Creek district and into Utah.

With these avenues there will be a greater stimulus for mining than ever before. All the old properties are being whipped into shape and it will not be long before a stream of ore will be coming out of the Robinson district that will surprise the world. It is a gigantic territory.

will in five years have 50,000 inhabitants and it will be the most prosperous community in Nevada Everybody there meetes to come from Salt Lake. The place is full of Suit

"Work has been started on the Ely Centennial, the new property recently purchased by E. W. Griffith and other Sait Lakers. The blackstoith shop has just been finished and work on the tunnel has probably been started. This tunnel will get about foot for foot as it advances. The greatest depth will be 160 feet and will crosscut five big high grade copper veins, which on the surface in some places are nearly 20 feet wide. The veins are cross cut by a number of east and west veins.

"The formation is practically the same as that on the Ely Calumet. This property will also be pushing things in rapid shape shortly."

Mr. Somers is manager of the Ely Mining Expositor and is at the Kenyon hotel, while in Sait Lake City for a few days on business.

COLUMBUS REBOUNDS

Stock Sold to \$1.6214 This Morning-Sioux and Iron Blossom Stronger.

Prices were generally firmer on the exchange this morning, though the improvement was most noticeable in Columbus, Iron Blessom and Sioux Con Is spite of some talk yesterday that the worst was over in the Columbus squeeze, and the efforts made to send the stock back. It rebounded to 1.55 at the call this morning, and later sold up to 1.62% on the open board. That it will go higher before the end comes there is little doubt, as the improved conditions at the mine will tend to make mastern investors hold on to the stock until higher prices are reached.

make eastern investors hold on to the stock until higher prices are reached. Sioux was active up to 47½, and closed strong. Lower Mammoth was also in better shape owing to the fact that some interesting developments are expected anon. Mountain Lake, which was bought by a number of local people at 1.90 went down to 64 this morning, but Iron Biossom advanced from 63 at the opening to 66 at the close. Colorado was stationary around 56. Mason Valley advanced to 1.37½ and Nevada Hills hung around 74. Prince Con, sold at 1.15.

Among the unitsted stocks, Demijohn was the most active this morning, a

Among the unisted stocks, Demijoan was the most active this morning, a 5.000-share lot going at 7½. Opex was also active at 17½, 1.500 shares being transferred at that price. A 500-share lot of Old American sold at 3, and McDonald Ely was traded in from 36 as likeh as 29.

DIVIDENDS RESUMED.

Tennessee Copper Company Pays \$1.25 A Share After Lapse of Year.

New York, Nov. 24.—The Tennessee Copper company today resumed the payment of dividends on its stock, de-claring a dividend of \$1.25 a share. The last previous dividend was in Septemas that declared today.

CALUMET AND HECLA PAYS.

Company Will Pay \$8.00 Per Share-

Total to Date \$105,550,000. Boston, Nov. 24.-A quarterly divitend of \$8 a share was declared today by the directors of the Calumet & Hecia Mining company. The rate is the same as that of three months ago and brings the total divide des for the year, to 27 compared to 20 in 1908. With the payment of today's dividend the stockholders will have received \$105,-550,000 since the formation of the company.

D. C. JACKLING RETURNS.

Knows Nothing of Copper Combination but Says Mines Look Good.

General Manager D. C. Jackling of General Manager D. C. Jackling of the Utah Copper company has returned from a trip of inspection, which in-cluded the Utah Copper, the Ray Con. and Gila properties in Arizona and the Chine in New Mexico, as well as a run to Ely. The trip was made primarily for the benefit of a number of eastern capitalists who are heavily interested in the above mines, and all of whom are said to be pleased with conditions. After making the round of the mines Mr Jackling accompanied the party to Mr. Jacking accompanied the party Garden City, Kansas, where he l

Regarding the copper combination about which so much is being said in the east. Mr. Jackling says he knows nothing outside of the press reports. Good progress is being made at the different properties in the south. A the Ray Con. the concrete foundation for the 6,000 ton mill are being put it and the Chino and Gila are both re-

DEMAND FOR TUNGSTEN.

With the increased demand for steel owing to improving industrial conditions, there is also a greater demand for taugsten, according to a report which has been prepared by P. L. Hess, of the United States geological survey. This is of interest to mining men in the west where there are several good taugsten mines, as it will probably mean better prices in the near future.

The most important use of tungsten is as an alloy for tool steel, to which it imparts the property of holding temper at a much higher temperature than high-carbon steels. When lathe tools are made of tungsten steel the tathe may be speeded un until the chips leaving the tool are so hot that they turn blue. It is said that about five times as much work can be done by a lathe built for such speeds and work and fitted with tungsten steel tools as can be done by the same lathe with carbon-

be done by the same lathe with carbon-sisel tools.

The mineral is of wide occurrence but The mineral is of wide occurrence but the deposits are not large. Generally they are pockety and consist of small shoots widely separated. Tungsten ninerals used as ore include hubnerits, a tungstate of manganese and iron; a tungstate of manganese and iron; forberits, a tungstate of fron; and scheelite, a tungstate of calcium.

UTAH COPPER HAS BOSTON CON. CONTROL

Eastern Reports to This Effect Denied By D. C. Jackling-No Official Negotiations Made

Rumors that the control of the Boston Consolidated had passed to the Utah Copper company were current la fown today, but they could not be verified. One report, purporting to come from Boston stated that the deal had been closed on the basis of one share of Utah Copper for two and a half shares of Boston Con,, but nothing could be learned here that such a deal

had been made.

General Managor D. C. Jackling of the Utuh Copper denied all knowledge of the deal. He not only disclaimed all knowledge of it but intimated that it was unlikely, as he said that in spite of reports that a deal has been under consideration, no "official negotiations" have been under way at any time looking to the acquisition of the Beston Con.

the feeling is quite general here that there is a "hen on," and that if such a deal has not been made it is only a question of time before announcement vill be made. In the opinion of the best will be made, in the opinion of the less informed mining men in the city, such a deal would be to the interest of both companies and the only question to be decided is the ratio of exchange of Boston Con, stock for Utah Copper,

OPOHONGO STRIKE

Property Owners North of Claim Will

Begin Developing Claims. Some fine looking rock from the new trike in the Opohongo claim ying south of the Mammoth in Tintle, was brought to town today by a prominent mining man of this city. The ore is almost identical in appear-ance with the ores of the Mammoth and is similar to some of the ore in the Centennial Eureka, and is said In the Centennial Eureka, and is said to carry 10 per cent copper, besides good values in gold and some silver. The disclosure is said to be exciting much attention among property owners to the north of the Opohongo claim. As the result of the strike, The News informant states that Ed Loose News informant states that Ed Loose has already started a long drift to intercept the probable course of the Opongo ore fissure, in the Champiain claim which has a northerly strike in the Champiain claim. This, it is said will mean driving a 600 foot drift, but those who know the country consider it very likely that the Champiain claim may disclose the same fissure at depth. If it passes into the Champiain claim, there is a pessibility of its being found in the Bom Pedro claim, an undivided half interest in which is owned by the Golden Chain Mining company and the Mammoth. This claim has been rierced by the Sloux-Apax tunnel, but as the depth attained was only 500 or 100 feel, the fact that fissure was not found in the tunnel is said to have no significance.

UTAR COPPER IN 1910.

With the commencement of 1910 the Utah Copper company will find itself Ctah Copper company will find itself in a strong financial position, says the Wall Street Journal. Production in 1910 will be at the rate of 75,000,000 pounds, according to the estimates of those in closest touch with affairs. At a cost of 8.5 cents a pound net profits for 1910, figuring the average seiling price of the metal at 18.5 cents per pound, would be \$3,750,000. Not counting outside income, it is apparent from the foregoing that with any kind of a year for copper the company would be in a position to conservatively make a considerable increase in its dividends distributions.

BUSINESS AND REALTY

State street near Third South received a start yesterday when a first payment was received by Tuttle Bros. company The transaction, which will take severa weeks to perfect, involves over \$50,000. The same firm has practically completed negotiations for the sale of a large warehouse site just north of the new Denver & Rio Grande-Western Pacific passenger station.

NEW INCORPORATIONS.

The Fisher Oil & Land company of Cripple Creek, Colo., filed a copy of its articles of incorporation yesterits articles of incorporation yester-day with the secretary of state. The concern has a capital stock of \$100,000, divided into shares of a par value of \$1 each. The officers are D. C. Wil-hams, president and W. L. Turner, secretary. Peter Fisher of San Juan was appointed as resident agent for the company for Utah.

The Capital Security company of Dover, Del., qualified to do business in Itah yesterday by filing a certified copy of its articles of incorporation with the secretary of state and naming Joseph K. Haas of Salt Lake City as the Utah agent. The company has a capital stock of \$100,000, S. L. Harris is president and J. G. Thalker is secretare.

ARM BADLY MANGLED.

Arthur Owens, an apprentice employed in the Denver & Rio Grande machine shops, residing at 446 Post street, sustained a break in his left arm above the wrist and had the arm hadly mangied through being caught in a machine at the shops at 1:30 o'clock this afternoon. The young man was removed to St. Mark's hospital.

SERVICES AT TABERNACLE.

Thanksgiving services in the tabermacle will begin at 12 o'clock Thursday.
Mathonihah Thomas will be the
speaker, Organist J. J. McClellan will
officiate at the organ, John Robinson
will sing a baritone solo and Mrs. Lizzle
ThomasEdward will sing a soprane solo.
Organ numbers will be as follows:
Overture, Oberon, von Weber; Communion, by Batiste; old melody, arranged
by performer; excerpts from Wagner.

ESTABLISHED BUTTE AGENCY.

The Salt Lake Route will have a permanent resident representative at Butte, Mont., in consequence of the recent installation of a through sleeper ervice between Butte and Los Ange service between Butte and Los Angeles. Adolph Heilbronner, railroad man of Butte has been appointed as district freight and passenger agent, and District Freight Agent Manderfield and District Passenger Agent Kenneth Kerr will go north to formally establish the agency and install the local officials.

FIRING UP NEW ENGINES.

The new Western Pacific locomotives The new Western Pacino locomorives are being connected and fired up in bunches, and sent out three at a time over the road for such points as they may be intended, in preparation for the opening of the road for freight traffic Dec. 1. The new freight cars are also being sent out as fast as possible.

The Bamberger road has been rebal-lasted, and the depot building pre-pared at Lincoln avenue and Twenty-fifth street, Ogden, while fifth street. Ogden, while the concrete overhead crossing of the Union Pacific at Thirty-first street will be completed before the close of the year,

W. N. Cleveland, the Union Pacific's oldest station agent in point of service in Utah, has resigned his position at Morgan after 25 years service. He was formerly chief dispatcher for the Grand Trunk road but was compelled to remove to this state for his health. Mr. Cleveland will go into business

LATE LOCALS

Waiting For Report-The waiting to receive the annual report of Plute county from the local auof Plute county from the local au-ditor's office, to complete the full list of county returns from over the state.

Thanksgiving at Infirmary—At the County Infirmary there will be all sorts of a good time for the invalidation of the invalidat ed a menu from which there is noth-ing missing, the bill beginning at turkey and ending with the real and hot mince pie.

Georgians to Organize—Plans have been perfected for the organization of a Georgia state society, to be composed of all former residents of Georgia now in the city. A meeting for organization will be held at the home of Mrs. Clarence Smullyan, No. 5 Bungalow apartments, Third East and South Temple streets, Friday, Nov. 26 at 3 p. m. Those desiring to make further inquiry may call Mrs. Smullyan over Bell telephone 1436.

Holiday Hours Tomorrow—Thankagiving will be very generally observed throughout the city Thursday. Practically all of the business houses will close their doors, there will be no work in most of the offices, and there will be a general suspension of business. The windows of the postoffice will be open from 11 to 1 o'clock and there will be a morning delivery in the business section of the city.

DR. COOK'S RECORDS READY FOR COPENHAGEN UNIVERSITY

New York Nov. M.—The records which Dr. Cook, the arctic explorer, will submit to the University of Copsubages in proof of his claim that he reached the north pole on April 2, 188, are to day in completed form.

Walter Lonsdale, secretary to Dr. Cook.

will sail tomorrow on the steamer United States for Copenhagen, taking with
him the respects. Mr. Louislaie said today the task of arranging the original
records and compiling the report upon
them has occupied several weeks. Dr.
Cook's report, he said, contained between
2 de and 20,000 words.

"I don't infink the general public understands the work we have been diing," continued Mr. Lonsdale. "It has
been said that we were preparing the
records. Such a statement is inaccurate.
The original records go to the university just as they were made by Dr.
Cook in the arctic region. What we
have been preparing its the report to accompany."

mpany Mr. Lousdale said he expected to reach openhagen Dec. 7, and would pince the exords in the hands of the university

officials.

"How long the university will take in examining them and in making known its findings, of course, I cannot tell," be continued. "I should assume that it would be possible for the university's amountement to be made by New

HOMESTAKE MINE WILL BE CLOSED DOWN

Lead, S. D., Nov. 24.—It was officials announced at the Homestake Mining company's office here today that the mine would be closed at 5 p. m. in anticipation of a strike at 8 o'clock tonight in which 3,500 miners employed

The miners demanded closed shop and the officials refused. The controlling interest in the mine, it is said, is held by Mrs. Phoebe Hearst, mother of Wil-

J. L. DAVENPORT TO BE COMMISSIONER OF PENSIONS

Washington, Nov. 24.-James L. Dav enport, first deputy commissioner of sensions, has been selected for the office of commissioner, made vacant by the resignation of Vespasian Warner

Mr. Davenport is from New Hampshire and has occupied the position of deputy commissioner for 12 years. He has been in the pension office since

SOCIAL AND PERSONAL

A most interesting announcement to Sait Lakers is that of the marriage yesterday at Bogeman, Mont., of f.ev. Elmer I Goshen of this city and Miss Jean Melvin of Montana. The meeting took place in this city some three years ago, when Miss Melvin was here visiting her aunt, Mrs. A. D. Melvin now residing in Washington. The event, while a surprise to most of the public to whom the popular Congregational pastor is well known has been expected for some time by his intimate friends. The wedding was a quiet one and the bridal couple will probably and the bridal couple will probably come directly to Sait Lake where they will make their home. The hosts of friends wil lextend hearty congrutuations and good wishes.

Mr. and Mrs. George Badger give a large dancing party tonight at Whitney

Mrs. L. C. Robinson and Miss Noble entertain today at a luncheon at the Alta club.

A half dozen weddings take place today, the list including those of Miss Frances Castleton and Anchor Schade, Miss Catherine Williamson and James M. Biakely, Miss Mary Condie and Richard Sanders, Miss Pearl Allen-baugh and Scott A. Jones, Mabel E. Franklin and Edwin C. Dayis, Mise Josephine Aveson and Ralph H. Lud-low, and others.

The Daughters of Utah Pioneers meet this afternoon with Mrs. M. T. Dougail on North State street.

The Governor's club has issued invitations for a dancing party for Friday night at the Odeon. Mrs. Thomas Marioneaux and Mrs. G. W. Snow have issued invitations for a bridge ten for next Wednesday.

Mrs. David Keith will entertain at bridge on Friday afternoon.

Last night Miss Zella Gurley and Carl N. Stevenson were married the cermony being performed by Rev. D. M. Hogan at the home of the bride's parents at 8 o'clock. The rooms were prettily decorated in white carnations and violets the dining room being es-pecially effective with its table done in violets with a mound of them for a pecially effective with its table done in violets with a mound of them for a centerpiece and festoons brought from the chandeller to the four corners. White carnations were at each place, and covers laid for the bridal party. Mr. and Mrs. Stevenson will make their home here and will reside at 641 west First North street.

Mrs. Susa Y. Gates leaves today for Mexico to be absent about a month.

LEGAL BLANKS.

PRICES HESITATED, **CLOSE IRREGULAR**

New York, Nov. 24-Business in stocks at the opening today was not large and prices showed some hesitation. There were good recoveries in the coppers, with running sales of 6,000 shares of Amalgamated Copper at 90% down to 90, o pared with 834 last night. This gain was lost within a few minutes. Utah Copper and United States Rubber rose Reading ran off a point and New

York Central % Continuous selling of New York Central with the realizing in the copper stocks made the market Beavy. ing encountered supporting orders when

tral with the realizing in the copper stocks made the market Many. Reading emountered supporting orders when it reached 168, and it was pushed up at intervals, touching 170%. The pressure on New York Central, which lost 2%, was the greeting to the new issue of stock at par to stockholders. United States Realty 1%. A few stocks moyed independently of the general course of prices for a time, Consolidated Gas going up 1%, Rock Island preferred 1% and North American 1. At 11 o'clock Reading was rising briskly and some recovery was also made by other stocks. The rise in Reading of 2% gave some sympathetic strength to the rest of the list which showed a few railless of a point. The coppers and New York Central then fell back to the low point. Great Northern preferred gained 1 and 8t. Louis Southwestern preferred gained 1 and 8t. Louis & San Francisco second preferred ind American Cotton Oil preferred 2. American Vulcan Detiming preferred fell 2½, Iowa Central preferred 1% and Utah Copper 1. Bonds were irregular. Heavy buying for both accounts continued in Reading and its upward course was not impeded until it had reached 172. Profit-taking then lowered it a point and the rest of the list also ran off. American Lecomotive and Anaconda Mining sagged a point and Wahash preferred 1½. New York Central weakened afresh to 121%. Some severe inroads were made on prices. New York Central weakened afresh to 121%. Some severe inroads were made on prices. New York Central weakened afresh to 121% and Union Pacific, Chesapenke & Ohio Denver & Rio Grande, American Sugar. American Smelting, Louisville & Nashville and Colorado Puel 1. There was a subsequent stight rally when Southern Pacific was hid up a point over yesterday's closing.

The market closed heavy and unsetted. Southern Pacific rose again a fraction higher than before and Amalgamated Copper gained 1 and United States Steel declined 1. The general movement was irregular but lowards recovery.

WOOL.

ST. LOUIS. St. Louis, Nov. 24—Wool, dull. Ter-ritory and western medium, 24@25; fine mediums, 22@26; fine, 14@20.

BOSTON.

Boston, Nov. 22—A small selection has placed the local wool market on a very quiet busis. There is some sampling of California and Texas 12-months stock but trade is very dull in territory and fleece wools. Interest in the 1910 clip is not so marked, although all dealers are preparing to have representatives in the west earlier than usual.

Scoured values:
Texas—Fine, 12 months, 54.73; fine, 6 to 5 months, 68.79; fine, fall, 58.99.
California—Northern, 68.979; middle county, 63.985; fall free, 30.972.
Gregon—Eastern, No. 1 staple, 78.980; sastern clothing, 70.972; valley No. 1, 57.658.

Territory—Fine staple, 77.680; fine BOSTON.

Times.
Territory—Fine stuple, 77680; fine medium stuple, 70972; fine clothing, 70 872; fine medium clothing, 8298; half blood, 78976; three-eighths blood, 859 70; quarter-blood, 65808.
Pulled—Extra, 73915; fine A. 68870; A supers, 60. LONDON.

London, Nov. 23.—The sixth series of the wool sales opened today, with a large attendance of buyers present. The offerings numbered 6.871 bales and were readily absorbed. Merinos sold at unchanged rates and crossbreds realized secover the last series. Coarse crossbreds showed improvement, the bulk being taken by America. The American buyers also purchased a few merinos. Faulty merinos were occasionally 5 per cent under the last sale.

PRODUCE. CHICAGO.

Chicago, Nov. 24.—Fresh confirmation of unfavorable harvesting weather in Argentina caused moderate strength in the wheat maries at the start today but trading was not large owing to the impending holiday tomorrow. A cablegram was received by a local concern stating that the weather in Argentina was wet and cold. The market opened from with prices a shade to 5 bigher than yesterday. Decomber opened at 1.05 und May at 1.055 to 1.05%. Early in the day December advanced to 1.55% and May to 1.05% and 3.

day. Decomber opened at 1.08% and May at 1.05% to 1.08%. Early in the day becomber edvanced to 1.05% and May to 1.08% and May to 1.08%. Oats were firm because of a fair demand by elevatur interests. December opened unchanged at 28, and then advanced to 18%.

Active bidding by shorts caused a sharp advance in provisions. Demand for ribs was especially urgent. The continued light movement of live hogs throughout the west was the chief factor. Prices of provisions opened 5 to 1.08 higher.

Wheat—The market became weak during the later part of the session. The pressure was greatest on the December delivery which declined to 1.08% May sold off from 1.06% 9 % to about the opening low point. The market higher at 1.08% of May was 1.08% by the lighter at 1.08% of May was 1.08% by the close December was a shade higher at 1.08%.
