OFFICIALS MUCH AT FAULT

Decisions at Times Cause Much III Feeling Among Athletes and Crowds of Spectators.

London, July 23 .- The unfortunate series of disputes which has arisen since the opening of the Olympic games, not only between Americans and the officials of the Amateur Athletic association, but between the athletes of other nations and the same officials, culminated this afternoon in occurrence which threatened to wreck the inter-Olympic meetings.

The trouble was over the final heat of the 400-meter race, for which J. C Carpenter, Cornell university; J. B. Taylor, Irish-American Athletic club;

Taylor, Irish-American Athletic club; W. C. Robbins, Cambridge, Mass., and Lieut, Wyndham Halswell, United Kingdom, qualified. With the excep-tion of Taylor, the men got off quick-ly on the firing of the pistol, and Rob-bins sprinted in front, taking the pole from Carpenter, who was just behind, with Halswell trailing along beside him. It looked like anybody's race as they approached the last turn, the three leaders being bunched. Their spurt for the final 500 yards was be-gun, when suddenly one of the officials Tushed onto the track, the tape across

THE CROWD IN UPROAR. An uproar followed such as seldom or never was witnessed on an athletic field. Officials of the Amateur Ath-letic association, with which the arean had been filled since the opening of the games, ran along the edges of the track shouting "foul," and appeared even more excited than the runners, who, with the exception of Taylor, continud the race to the finish, Car-penter passing the post first, Robbins second and Halswell third. Taylor, who was a considerable distance in the rear, was dragged off the track by one of the excited officials, who shout-ed all the while that it was no race. The American contingent sent up a yell of delight, as their man had ap-parently captured the race, which had been predicted for the Britisher, while the vast audience filling the other stands sat silent, not knowing the cause of the excitement in the arena. Then the amouncer made the brief sause of the excitement in the arena.

Then the announcer made the brief statement through a megaphone that the race had been declared void, but no reason was given. CHEER AT DECISION.

It was hard for a time to understand what had occurred, but the official pronouncement was that Carpenter had fouled Halswell at the turn.
Everybody close to this spot had nortice that the three men had swerved toward the outside of the track as they came around the bend at a terrific pace, but there was no sign of a

Half an hour, and as the people poursed out of the stands, the arguments were taken up in the alsies and gateways by excited thousands and the race is still the subject of bitterest wrangling everywhere. Matthews P.

the met and passed a resolution ordering the men not to run on Saturday. James E. Sullivan, the American com-missioner to the games, and Barlow S. Weeks, J. B. McCabe, Gustave T. Ker-by, Everett C. HANDICAPPED TAYLOR. "Let us, in the first place," said Mr. "Let us, in the first place, said Mr. Sullivan, "discuss the arrangements of the track. It was unfair, especially to Taylor, and apparently the arranging was done by a man who did not want all the contestants to get a fair start. Taylor's position caused him to give away yards which he could never re-rain

gain. "Now, for the race. Carpenter at the crack of the pistol took the lead and did the only thing he could do and win, and that was to take all the running out of Halswell in the first 300 yards. As a result he gave the spectators the fastest 300 yards over seen in a stall-um. The 220 yards he covered in 23 seconds, and at 300 yards he had Haisseconds, and at 300 yards he had Hais-well out. Carpenter had the pole, but he did not run close to it. He ran well out at the first bend, and coming to the second bend, leading the straight-away, he ran wide, as he had a per-fect right to do. "Halswell, instead of taking advant-age of the chance and cutting into the past, remained in his old position. At that point, probably 110 yards from home, Carpenter turned his head to see who was there, and then, swinging

up the stretch, gave the English pub-lic a 110 yards they had not seen equaled this week. Halswell was all out before the stretch was reached, and America had found in Carpenter a wonder at this distance.
