GEYSER-MARION PICKING UP STRENGTH.

Prospective Buyers Examining the Deer Trail—The Gray Eagle Mine—Miscellaneous Items.

Geyser-Marion, Northern Light, Bi-centennial Chloride Point and Dalton, were the stocks dealt in on the exchange today, the trading indulged in making up a fair day's business, and giving the market a tone similar to that which marked the close of yesterday's session.

In the bidding Alice was a favorite at 9 cents, but none could be had under 9½, while Alliance was called as a mixed stock and was bid for at 26 cents.

Transfers among a hundred per cent assessable Jubilee-Beck remained firm at 4½, Centennial Eureka was bid at $13.50 and Daly West called at $11.50 and ready takers at $12.25. Geyser-Marion picked up strength on the call and sold at from 73 to 81 cents, while those the bid was quite wide at 80 cents. Galena could have been purchased at 40 cents, but was not sold for above 45, hence no sales. Ontario fell a trifle and had to be bid $3 at $2.92, while Mercur was heavily sold and Northern Light sold at 20½ cents, followed by sales of 20¾ cents.

Sargents at 13½ cents.

Chandler & Taylor opened the business exchange with quiet stocks, and changed hands as from 54 to 55½ cents. Dalton or else at 2½ cents, while Bi-centennial sold at ¾ of a cent per share, and offered at 1 cent. Jubilee-Beck sold the Lost Deal for a bid of 10 cents, while Gold Chain sold at 20 cents, Bullion-Beck at 3½, and South Swansea one for $ 1.42 bid, and Swansea was in good shape at $1.25. Omaha was in the pit anxious to get it at 22 cents.

THE GRAY EAGLE MINE.

Purging in the Front as a Heavy Producer of High-Grade Ore.

The Gray Eagle mine, located on Helen gulch, about four miles distant from Betts, is developing into one of the richest bonanzas ever opened up in the West, and is taking front rank as a heavy producer, says the Butte Miner. The owners, J. J. Holmes and Boney Dahlman will at once put in considerable machinery and will open up the property on a larger scale, since they have demonstrated to their complete satisfaction that they have a big enough and a rich enough mine to justify the expenditure of the large amount of money necessary to do this work.

Mr. Dahlman was in Butte the first of this week and made arrangements for a 40-horse power compressor. Mr. Dahlman says they will put in five machine drills, and before spring it would not be surprising if they were working as many as a hundred or a hundred and fifty men. He said that they were taking out a large amount of ore that runs as high as $1,000 to the car. Much of this ore assays as high as $150 to the ton in gold and also carries values in silver and lead.

The mine is now being worked through two tunnels, of which the lower or main one is located at a depth of 150 feet, from which drifts, or levels, are now being pushed and one of the lead. The third tunnel will be run to cut the vein at 150 feet deeper than the present workings.

The first shipments of ore were made from the Gray Eagle about one year ago, and the mine has been made a steady producer ever since.

Road to Seven Devils.

The Weiser, Idaho & Spokane Railroad company, through its local attorney, C. A. Jackson, has filed its maps, profiles and certification in the office of the secretary of state. Mr. Jackson was also in the office of Statesman reporter and asked for a statement concerning the purposes of the company. He said: "It is not at liberty to go into details at this time."

The new officers of the company are: President, Franklin Edson of New York; vice president, T. W. Bates of Weiser; secretary, James C. Aiken of Weiser. As we projected, the road will be about 70 miles in length, the route being via Meadows, Council, Meadows and Seven Devils. Meadows and Seven Devils have been found along the line of the projected road. Work will be pushed as rapidly as possible, being one of the most important contributing factors to the success of the enterprise.—Boise Statesman.

He Finds Ore Bodies.

W. S. Croft, a young railroad man, who came into the city from Alaska a few days ago, found it to his liking and decided to locate. He is thinking of resigning his position as train dispatcher on the Oregon Short Line railroad, and going into the mining business. Croft has constructed a small but very convenient contrivance, which he calls a mineralometer, which he holds in his hand. The principle of the compound-ore of the instrument he will not divulge.

A company Henry Michelsen to Hensley and Tompkins of the Gulf to puzzled locating mineral ores. The latter, Hensley, of Croft, took him to a prospecting of English, Calif., in which he is interested. The point of contact of the two mine had been ascertained by the company before Croft was taken over the ground. He stepped exactly on the spot where the contract had been determined.

Croft has loaded ore bodies for the Delaware Gold Gulch Mining company, H. J. Froelich and other individuals and mining corporations. He refuses to accept remuneration until the vein has been uncovered according to his predictions. If successful his bill is then presented.—Boise Post.

EXAMINING THE DEER TRAIL.

Prospective Buyers Looking Into the Ground—The Pelmetin Group.

David and Charles Kuns, who have taken up a promising claim on Big Cottonwood, have struck a vein of ore that they think will prove valuable and lay to development. The claim is unique. They have sent samples out to be assayed and until they get the returns are not very much excited about it.

If the Deer Trail property is sold to the parties who are now investigating its values, it is among the possibilities that old Jug town will be re-named for the wealth of Gladstonian. The remark was made by one of the worthies that there was plenty of water and a good deal of it, to be had on the above property. They will have to build bridges and sluices for the accommodation of their patrons, and they will offer special inducements to married men to build their homes up there if they take hold.

A. Munderback, manager of the Pelmetin group on Gold Hill, was in town Thursday night. He says the ledge has just passed through a thirty-foot vein of ore in there turned that shows gold enough to make it profitable to work, but they are pushing the tunnel on to another vein, about ninety feet ahead, where they expect to strike a body of high grade ore. He has ore enough now in sight, to keep a mill running for a month, two and the company expects to erect a mill when spring opens.

Dan R. Phillips, Robert O'Neill and W. R. Deveraux, the combine who are figuring on buying the Deer Trail property, were in town on Thursday evening. They went up to the property yesterday and took another lot of samples, some of which they will have tested here; others will be assayed in Salt Lake City. This is the first time the latter gentleman has been here. He expressed himself as highly pleased with the appearance of these claims and the amount of ore in sight, and, without doubt, the sale will be made if the values in the samples show anything like what is expected. Mr. Deveraux is considered a leading authority on smelting and ore treatment in Colorado, and can command unlimited capital.—Park Pioneer.

Prominent Mining Man Ill.

The San Francisco papers announce the serious illness in that city of Alexander Hamm, a man well known in this city and throughout the entire West, because of his mining exploits here and elsewhere. Mr. Hamm was one of the early settlers of Salt Lake, and at one time was a heavy holder in the Bullion-Beck, as well as in a number of other properties throughout the state. About the year 1890 he removed to California, which time he has been a prominent figure in state politics. He is in affluent circumstances, and his present affliction is the result of asthma from which he has long been a sufferer.

Mammoth Record Notes.

The Mammoth Mining company has a force of men doing assessment work.

Regular shipments from the Grand Central mine now average three cars a week.

Work on the Emerald drift on the 700 level is progressing rapidly and the indications are that it is drawing near the vein.

The extra shift which was recently put on the Sioux Sux tunnel has been taken off, the ground air cock having stood by the blasting.

The damage suit of Potter vs Ajax Mining company, which was to have been heard in the Fifth district court at Nephi yesterday, was postponed owing to the fact that the jury was drawn during 1897, under the old law, and was declared to be illegal.

Has a Good Coal Mine.

Jos. G. Brinsen of Idaho Falls is in the city looking for a market for the product of a coal mine which he is opening up. The mine is located seven miles south of Idaho Falls in the Blackfoot range. Mr. Brinsen is down on the coal vein about 100 feet and he now has four feet and one inch of excellent coal and about 12 feet of what is about half coal. He had only about six inches of coal, but he has widened steadily and he expects it to grow still wider. The coal is of excellent quality and burns freely and with intense heat.—Pocatello Tribune.

Pipe and Bars.

Silver, spot, 57⅝; 30 days, 57¼; lead $3.55.

John A. Kirby of the Bullion-Beck went out to the mine this morning.

E. G. Woolley, one of Salt Lake's most popular young bankers, leaves for the Southern States mission field April 12th.

A strike of ore that runs 1,400 ounces silver and 75 per cent lead, with traces of gold and copper, is reported from a claim near Fish Springs.

Work will be resumed right away in the development of the Blue Pencil at Tintic, operations to be superintended by Messrs. E. N. Jenkins and W. M. Nolan.

The Ruby mine in the Lowland district, Butte, Mont., produced about $70,000 during the month of December, 1897, and the mine has been put in a condition to take out even more than this amount for the months to come.

The sale of delinquent Buckeye stock took place in Provo yesterday afternoon, 491 shares only were transferred under the hammer. The company will hold a meeting next Saturday to determine future development of the mine.

Fred Dorn has returned from Golden Cede, where he has been attending the school of mines. His trip there was occasioned by an attack of typhoid fever, from which he has now recovered. Mr. Dorn says there are 300 pupils enrolled in the school mentioned.

"King" Carver, writing from Beaver Lake, reports a good ore showing in the bottom of the Silver Moon Mining shaft. He says the Beaver Lake will show 3 or 4 feet of ore shortly, and that 10 feet more on the tunnel will

New York E. and M. Journal: Capt. J. R. De Lamar left Paris a few days after Christmas for a sojourn in Egypt of a month or more. It is possible he may cross the Atlantic to Persia in January and June to note the doings of the mammoth crushing plant on his property at El Paso, Utah.

Butte Miner: The fire retaining wall is now being put in at the Katie smelter. Al Bassi and the masonry work is rapidly nearing completion. The working force still numbers about 50 men. Along this wall is to strike a body of high grade ore. He has ore enough now in sight, to keep a mill running for a long time and the company expects to erect a mill when spring opens.

The Grand Gulch Mining company is considering the advisability of changing its principal place of business from Washington county to Salt Lake, and to this end has called a meeting for the purpose of so amending its by-laws. The meeting will be held at Mt. George Feb. 15, 1898. Thomas W. Jennings is president of the company and Frank J. Jennings secretary.

Hermit Hill, a leading spirit on the stock exchange, will leave Monday morning on his pleasure trip to Asia, Africa and Europe. He goes as one of a German excursion party, which will sail from New York Jan. 27 on the steamer Augusta Victoria. Before leaving, Mr. Hill has pigeon-holed a good supply of gilt-edged mining securities, from which he expects to gather dividends when he returns.

Greenings, per box, $1.25 @ 1.50; Utah, W. Pearmain, per box, $0.75 @ 0.85; Idaho, Ben Davis, per box, $1.25 @ 1.50; Eastern, red, per box, $1.50; Eastern, red, per box, $1.35 @ $1.50.

GRAPES—Cal. Ferrera, per crate, $1.75; Cal. Verdoli, per crate, $1.25.

PEARS—Utah, per box, $1.00.

Apples have advanced and demand for good red stock free from worms is greater than the supply at the lower figure quoted below.

VEGETABLES.

POTATOES—Utah, per lbs. $0.50 @ $0.75.

ONIONS—Utah, per lbs. $0.75 @ $1.00.

CARROTS—Utah, per lbs. $0.20.

CABBAGE—Utah, per cwt. $1.50.

CELERY—Utah, per doz. $0.30 @ $0.40.

There is no material change in the vegetable market. Potatoes are advancing some and it is predicted they will reach the 40 cent mark before spring. Onions are in good demand and price is advancing. Good demand for small hard headed cabbage.

POULTRY.

There is a better demand for poultry and prices are firmer with no particular advance. There is a fair demand for turkeys. Dressed poultry drawn, with head and feet off bring figures as follows:

Turkeys, per lb.. ....12@13

Hens ....@6½@6½

Roosters ....@6

Springs ....@7

Ducks ....@9

Geese ....@8

EGGS.

Utah eggs, strictly fresh, are in good demand at $0.20. The market is a shade easier, and the poorer quality sells at a lower figure per case.

BUTTER AND CHEESE.

Dealers report the better market well supplied thus lessening the demand.

Creamery butter ....per lb. 18

Dairy (choice) 12½

Dairy cooking 10

Cheese, Utah 10½

The above are wholesale buying figures on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

GRAIN.

Wheat, per bushel..... ..... $ 75

Corn, per hundred..... 85

Chopped corn, per hundred 90

Oats, per hundred 80

Barley, per hundred 75

Rye per hundred, ... 1 00

Bran, per hundred 60

HAY.

Hay, salted, per ton..... ..... $ 8 00

Timothy, per ton .... 10 00@12 50

Alfalfa, baled, per ton..... ..... 8 00

Straw, baled, per ton..... ..... 5 00

Just now the grain market is about at a standstill except in wheat which has a steady upward tendency—and dealers do not apprehend much change in the immediate future either one way or the other. The products above mentioned all find a ready home and it is predicted they will demand being occasioned by the approach of winter and unsettled weather.

COMMERCIAL.

New York, Jan. 13.—The stock market was unsettled at the opening by the news from Havana of uniformly demonstrations against the United States consulate and the cables were down and the exceptions were few. The railroads generally showed losses, extending up to 1 to ½ to Burlington. Northern Pacific preferred was off ½, Sugar and National Lead lost nearly a point.

The bulls rallied in the support of the market after the opening, and heavy buying orders in Manhattan and Northern Pacific steadied values, which moved up to about yesterday's closing level. The bears then made a renewed attack on sugar and the Coalers, which developed into a general selling movement. Sugar lost 2½, and many other shares a point.

A good demand for New York Central and Lake Shore caused a rise of over a point in the former and of two points in the latter. Rock Island also gained two points. Manhattan recovered to the best. The reaction in the general list was severe and prices stiffened slightly all around.

Bonds were less active, but firm.

UTAH EXHIBIT AT OMAHA.

Judge Shurtliff Tells the People of that City What this State Will Do.

Omaha Bee: Lewis W. Shurtliff of Ogden, Utah, vice president of the exposition for that state, arrived in the city yesterday and has been in conference with the exposition officials all day regarding the exhibit to be made by Utah. Judge Shurtliff brought with him some samples of sandstone which the state offers as its contribution to the arch of the states. These samples are of gray and red sandstone, respectively.

"I didn't bring any specimens of granite," said he, because we thought it would not be practicable to cut it in time for the exposition. We have plenty of stone, but we overlooked that the two varieties I brought with me are the best for the purpose.

"We are going to have a good exhibit from Utah," said Judge Shurtliff in a positive manner. "Our mining exhibit is now being made up by Tom Maguire, one of our most experienced men in that line. He is down, about the State, making a collection of specimens and will have an exhibit of minerals which will compare with any that can be made by any state. Mr. Maguire has been away for about a month and he has not visited one half of the mining districts.

"Our agricultural display is being made up by Hyrum Bennion, who is meeting with good success in collecting fine specimens of our products. The manufacturing interests are being looked after by T. R. Cutler, who is superintendent of one of our beet sugar factories. He is doing good work and will have a fine display.

"One other point of displays," continued the Judge, "will be the irrigation display to be made by the Bear River Irrigation company. That company will have an irrigated farm in full operation, showing the complete system in use in our state. Our people are taking a great interest in the exposition and will be here in force."

Garden City Notes.

J. Hon. S. A. Kenyon was in the city Tuesday on business connected with the Utonian, with which he expects to be connected as a writer.

The new board of education has assumed management of the educational affairs of the city, and elected the following officers: M. L. Pratt, president; Sidney C. Newell, secretary; M. J. Jensen, clerk; John R. Twelves, treasurer.

Elders G. A. Iverson of Manti and Hyrum Lee of Spanish Fork are in the city as M. I.A. missionaries; they report a very successful session through the south.

The funeral of the 2-year-old son of Bro. and Mrs. Charles McCoard of Salt Lake, took place this afternoon from the residence of Mrs. McCoard's parents, Bro. and Mrs. A. A. Noon. The child died Tuesday from bronchitis.

The school population of Provo is 2,500. The enrollment is 2,000 and the average attendance is 1,400.

The Provo school district is free from debt and the old bonds turned over to the state.

The stockholders of the First National Bank have re-elected the old board of directors.

The cold weather brings many tramps to the city jail for lodging. Several drunks have also been run in for losing around the railway stations.

FITS CURED

[From N. Y. Journal of Medicine]

Prof. W. H. Pooley, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; has successes astonishing. We have one full account of his wonderful cures by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P. O. and Express address. We advise everyone wishing a cure to address, Prof. W. H. PEAKE, P. D., 4 Cedar St., New York.

Elbow-grease (with a little soap) used to be the thing to clean house with. Now-a-days it's Pearline. Pearline is easier and quicker and better than elbow-grease. One reason why millions of women prefer Pearline, rather than anything else, in cleaning house, is that it saves the paint and woodwork. But the principal reason, of course, is that it saves so much work.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled; if your grocer sends you an imitation, be honest—send it back. JAMES PYLE, New York.

This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of Chas. H. Fletcher on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

March 8, 1897. Samuel Pitcher, M.D.

Do Not Be Deceived.

Do not endanger the life of your child by accepting a cheap substitute which some druggist may offer you (because he makes a few more pennies on it), the ingredients of which even he does not know.

"The Kind You Have Always Bought"

BEARS THE FAC-SIMILE SIGNATURE OF

Chas. H. Fletcher.

Insist on Having The Kind That Never Failed You.
