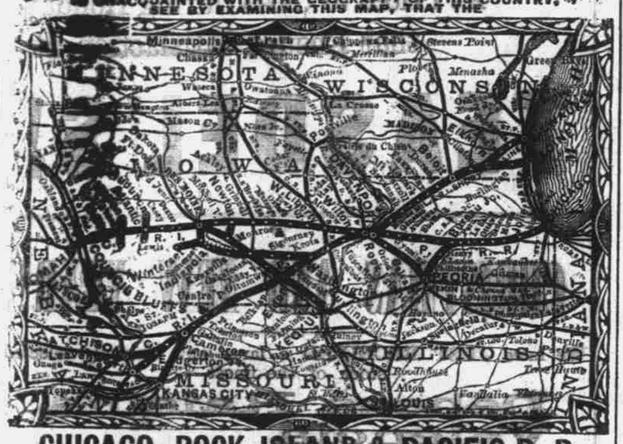
A MAN

IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WHO DOES NOT SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND & PACIFIC R. R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST & THE WEST!

Its main line runs from Chicago to Council Bluffs, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, Wilton Junction to Peoria; Wilton Junction to Muscatine, Washington, Fairfield, Eldon, Belknap, Centreville, Princeton, Trenton, Gallatin, Cameron, Hamilton, and Kansas City; Washington to Sigourney, Oskaloosa, and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independence, Eldon, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe, and Des Moines; Newton to Monroe; Des Moines to Indianola and Winterset; Atlantic to Lewis and Audubon; and Avoca to Harlem. This is positively the only railroad, which owns, and operates a through line from Chicago into the State of Kansas.

Through Express Passenger Trains, with Pullman Palace Cars attached, are run each way daily between CHICAGO and PEORIA, KANSAS CITY, COUNCIL BLUFFS, LEAVENWORTH and ATCHISON. Through cars are also run between Milwaukee and Kansas City, via the "Milwaukee and Rock Island Short Line."

The "Great Rock Island" is magnificently equipped. Its road bed is simply perfect, and its track is laid with steel rails.

What will please you most will be the pleasure of enjoying your meals, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining Cars that accompany all Through Express Trains. You get an entire meal, as good as is served in first-class hotels, for seventy-five cents.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes (and the immense passenger business of this line warranting it), we are pleased to announce that this Company runs *Pullman Palace Sleeping Cars* for sleeping purposes, and *Palace Dining Cars* for eating purposes only. Another great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by this line, and transfers are avoided at Council Bluffs, Kansas City, Leavenworth, and Atchison, connections being made in Union Depots.

THE PRINCIPAL R. R. CONNECTIONS OF THIS GREAT THROUGH LINE ARE AS FOLLOWS:

At Chicago, with all diverging lines for the East and South.

At ENGLEWOOD, with the I. S. & M. S., at 2d P. W. & C. R. Rds.

At WASHINGTON HEIGHTS, with P., C. & St. L. R. R.

At LA SALLE, with Ill. Cent. R. R.

At PEORIA, with P. P. J. & D. & E.; I. B. & W.; Ill. Mid.; and T. P. & W. Rds.

At ROCK ISLAND, with "Milwaukee & Rock Island Short Line;" and Rock Isl'd & Peo. Rds.

At DAVENPORT, with the Davenport Division C. M. & St. P. R. R.

At WEST LIBERTY, with the B., C. R. & N. R. R.

At GRINNELL, with Central Iowa R. R.

At DES MOINES, with D. M. & F. D. R. R.

At COUNCIL BLUFFS, with Union Pacific R. R.

At OMAHA, with B. & Mo. R. R. R. in Neb.

At COLUMBUS JUNCTION, with B., C. R. & N. R. R.

At OTTUMWA, with Central Iowa R. R.; W., St. L. & Pac., and C. B. & Q. R. Rds.

At KEOKUK, with Tol., Peo. & Wat.; Wab., St. Louis & Pac., and St. L., Kan. C. & N.-W. R. Rds.

At CAMERON, with H. St. J. R. R.

At ATCHISON, with Atch., Topeka & Santa Fe; Atch. & Neb. and Cen. Br. U. P. R. Rds.

At LEAVENWORTH, with Kan. Pac., and Kan. Cent. R. Rds.

At KANSAS CITY, with all lines for the West and Southwest.

PULLMAN PALACE CARS are run through to PEORIA, DES MOINES, COUNCIL BLUFFS, KANSAS CITY, ATCHISON, and LEAVENWORTH.

Tickets via this Line, known as the "Great Rock Island Route," are sold by all Ticket Agents in the United States and Canada.

SAUSAGES

A SPECIALTY. 446

EVENING NEWS.

Monday, . Dec. 18, 1882.

Things Learned by Experience.

If your coal fire is low throw on a tablespoonful of salt and it will help it very much.

A little ginger put into sausage meat improves the flavor.

In icing cakes dip the knife frequently into cold water.

In boiling meats for soups use cold water.

If the meat is wanted for itself alone plunge into boiling water at once.

You can get a bottle or barrel of oil off any carpet or woolen stuff by applying dry buckwheat plentifully and faithfully; never put water to such a grease spot, or liquid of any kind.

Broil steaks without salting; salt draws the juices in cooking; it is desirable to keep these in if possible; cook over a hot fire, turning frequently, searing on both sides; place on a platter, salt and pepper to taste.

Beef having a tendency to be tough can be made very palatable by stewing very gently for two hours; pepper and salt, taking out a pint of liquid when done, and letting the rest boil into the meat. Brown the meat in the pot. After taking up, make a gravy of the pint of liquid saved.

A small piece of charcoal in the pot with boiling cabbage removes the odor.

Clean oilcloths with milk and water; a brush and soap will ruin them.

Tumblers that have had milk in them should never be put in hot water.

A spoonful of tomatoes in the gravy of either roasted or fried meats is an improvement.

The skin of a boiled egg is the most efficacious remedy that can be applied to a boil. Peel it carefully, wet and apply it to the part affected; it will draw off the matter and remove the soreness in a few hours.

A Cure for Sciatica.

A cure for neuralgia and sciatica—and; as I am told, an unfailing one—is too valuable not to be recorded.

An English officer, who served with distinction in the war with Napoleon, was once laid up in a small village in France with a severe attack of sciatica. It so happened that at time a tinman was being employed in the house where he lodged, and that this tinman, having been himself a soldier, took an interest in the officer's case, and gave him the cure which, in this case succeeded immediately and forever, and which I am about to set down. It is at any rate so simple as to be worth a trial.

Take a moderate sized potato, rather large than small, and boil it in one quart of water. Foment the part affected with the water in which the potato has been boiled as hot as it can be borne at night before going to bed; then crush the potato and put it on the affected part as a poltice. Wear this all night and in the morning heat the water, which should have been preserved, over again, and again foment the part with it as hot as can be borne. This treatment must be persevered with for several days. It occasionally requires to be continued for several days. It occasionally requires to be continued for as much as two or three weeks, but in the shorter or longer time it has never yet failed to be successful.—*Vanity Fair.*

What Electricity May Do.

Although the following statements of a professional electrician have been publicly criticised, they are at least ingenious enough, if based at all on possibility to excite a very wide and popular interest. He says he would not be suprised to see the firemen in our cities have a lively time encountering fires some day. If one of those wires were to foul a telephone wire on the roof of a burning building, or even on exposed gas pipe, with its ground connections, the hoseman, standing on wet ground, would experience a terrible shock in case the stream from his hose should strike this wire and form a circuit. Electricity, he says, might be used with a frightfully deadly effect as a defensive measure in time of war. A steam fire-engine being placed in a fort, with a hose capable of throwing a quarter inch stream for three hundred feet, if a man had one end of a Brush machine grounded and the other end connected with the passing through the hose, the instant this stream of water struck a line of troops advancing to attack a fort it would kill them. The stream would be a flexible electric wire, and as it swept along the line it would mow them down like grass. A thousand men in a body would all be killed in ten seconds.

Why Should Not Women Whistle?

If the mere act of whistling can help and cheer a man so much, why should it be denied to a woman? If whistling will drive away the blues and be company for a lonesome person, surely women have much more need of its services than their brothers, for to them come many more such occasions than to men. There are many who have not the gift of song. Why should they not whistle as they rock the cradle or perform their household duties; or accompany themselves on the piano? But there is a physical or hygienic advantage in whistling which should excuse it against all the canons of property or "good form." It is often remarked that the average girl is so narrow-chested, and in that respect compares so unfavorably with her brother. May this not be due in some measure to the habit of whistling which every boy acquires as soon as he arrives at the dignity of pants, and girls seldom do? Let any one try for five minutes the inhaling and exhaling of the breath as it occurs in the act of whistling, and the effect on the lungs and chest cannot fail to be noticed. A daily practice of this kind would be of more benefit than all the patent inspirations and chest-expanders in the market.

Baby Lions.

About 9 o'clock yesterday morning the attention of Keeper Weiners, at the Zoological Gardens, was called to a great commotion in the lion's cage. "I knew what was the matter," said Mr. Weiners. "I went to the lion's cage, and there lay the lioness licking a pretty little cub about a minute old. She was as proud as only such animals can be, but as savage as a meat axe. The old lion sat back on his haunches in one corner looking very much interested, but he knew better than to offer his congratulations. She would have scratched his eyes out. Lions, tigers, and all these flesh-eaters are curious about that. The mother of cubs will not let her lord near her or the young for weeks after their birth, for the reason, I suppose, that he may eat them. They are apt to do it, especially in captivity. After a good deal of trouble this morning I got the lion and lioness separated, and put her with her cub in a separate cage, with a dark compartment for the cub. She went into the latter place at once and was in there a couple of hours, and I think, from the variety of noises this afternoon, there is more than one cub now."

Yesterday afternoon the lioness appeared in her outer cage and seemed the picture of contentment. The old lion, in his cage adjoining, watched for her growl and her step and seemed all curiosity and anxiety. But when feeding time came he grabbed his fourteen pounds of meat and buried himself, with it, apparently to the exclusion of all other thoughts. When the lioness got her meat she carried it at once to the dark cage where her cubs lay.—*St. Louis Globe.*

How to Kill a Rattlesnake.

A working party on a railroad here is made up of mountaineers and Georgians. One of the latter performed a foolhardy feat the other day that made the blood of the unaccustomed spectators run cold. They were at work clearing away the thick underbrush in advance of the engineer, when some one shouted, "Ware of rattlesnakes!" He saw one of these reptiles about four feet long and five or six inches in diameter lying just ahead. The Georgian cut a short stick with a forked end, and creeping up to the snake he deftly pinned it to the earth by pushing the forked end on either side of his neck. Then seizing the tail in his right hand, he ran his left down the snake's body, and grasping it firmly just back of the head he held it up at arm's length and called on the others to "look at the varmint's mouth." It was anything but a pleasant sight, and most of the spectators were horrified. After holding it a few minutes for general inspection, he suddenly swung the snake over his head with his right hand, letting go the hold of the left, and dashed it with great force against a rock, killing it instantly. It was a cool and dexterous feat, but very trying to the lookers-on, who censured the man for his "folly," at which he seemed to be mightily amused.—*North Carolina Letter.*

A Simple Cure.

A correspondent writes to an exchange as follows about the flowers of a well known plant. "I have discovered a remedy for consumption. It has cured a number of cases after they had commenced bleeding at the lungs, and the hectic flush was already on the cheek. After trying this remedy to my own satisfaction, I have thought that philanthropy required that I should let it be known to the world. It is common mullen steeped strongly with coffee and sugar and drunk freely. Young or old plants are good, dried in the shade, and kept in clean bags. The medicine must be continued from three to six months, according to the nature of the disease. It is very good for the blood vessels also. It strengthens and builds up the system, instead of taking away the strength. It makes good blood and takes inflammation away from the lungs." It is the wish of the writer that every periodical in the United States, Canada and Europe should publish this receipt for the benefit of the human family.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. Also excellent for human flesh. Read proof below.

FROM

COL. L. T. FOSTER,

YOUNGSTOWN, Ohio, May 10th, 1880.

DR. B. J. KENDALL & Co., Gents:—I had a very valuable Hambletonian colt that I prized very highly, he had a large bone spavin on one joint and a small one on the other which made him very lame; I had him under the charge of two veterinary surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express. I determined at once to try it and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial. I used it according to directions and the fourth day the colt seemed to be lame and the lumps have disappeared. I used but one bottle and the colt's limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that of the two of my neighbors have the remaining two bottles who are now using it. Very respectfully,

L. T. FOSTER.

Kendall's Spavin Cure

Is sure in its effects, mild in its actions as it does not blister, yet is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargements, such as spavins, splints, curbs, ringbones, callous, swellings and any lameness and all enlargements of the joints or limbs, or for contraction in man or for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mildly and yet certainly in its effects.

Send address for illustrated circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1. per bottle, or six bottles for $5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

SOLD BY ALL DRUGGISTS.
