BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

AMERICAN.

The Commerce Bill.

WASHINGTON, 26. — Mr. Page, of California, chairman of the committee on commerce, states that it is not true that he is hostile to the inter-state commerce bill, that he voted for one of the bills in the last Congress. And without committing himself now to any particular measure, he says he shall give any bill relating to that subject a fair chance so far as he can control the committee.

Congress of American Nations.

It is rumored in diplomatic circles that Blaine sent instructions to diplomatic representatives in Central and South America to submit to the governments which they are accredited a proposition for the revival of the much-talked of Congress of Panama for the better union of American nations. If the idea met the approval of the majority of the different American Governments, it would probably have been issued, asking each nation on the western continent to send delegates to meet in this city in the fall of 1882. Whether the new administration will carry this idea into effect, remains to be seen.

The Stars.

In a recently published letter, George Bliss, Esq., special counsel for government in the Star route prosecutions to Postmaster-General James, mention was made of several great combinations against whom criminal proceedings would be begun before the grand jury in this district early in the new year. One of the first, if not the first, of these combinations against which proceedings will be taken is known at the Postoffice Department as the Dorsey Combination. Ex-Senator Stephen W. Dorsey, of Arkansas, is at the head of the syndicate. There are 34 Star routes in the Dorsey combination. At the letting of July 1st, '78, which was the beginning of the present contract term, these routes were awarded to J. W. Dorsey, S. W. Dorsey's brother, John M. Peck, John R. Miner and J. H. Watts. Mr. Watts had but four of the routes and after a short time he failed and is now practically out of the mail contract business. J. W. Dorsey, Peck and Miner were in reality the dummies for S. W. Dorsey who at the time of the beginning of the present contract term was a Senator; his name did not appear on the books of the Department as either contractor or subcontractor until after he had left the Senate, March 4, 1879. The routes in the Dorsey combination covered a point in 16 States and Territories. The total original contract pay for services on 134 routes was $143,169. Brady allowed the combination for increased trip and expedition of running time an amount sufficient to bring their annual pay up to $622,808; a small part of the increase was due to the lengthening of the route, etc., at the start, but the additional compensation allowed pure and simple, amounted to $504,168. There were curtailments amounting to $25,000. The total original mileage on these 134 routes was 9,887 miles, but Brady made changes in the interest for the combination reducing the mileage over 1,000 miles. Of the total number of routes belonging to the combination 25 alone received an increase of pay amounting to over $50,000. The records of the department show clearly that in a vast majority of cases the increased services ordered were unnecessary, and the rottenness of the allowance is thereby inferentially proven. But the case of the government against the combination will be supplemented by the reports of government inspectors sent over the routes, the sworn affidavits of postmasters, mail carriers, stage drivers, etc., proving clearly the fraudulent character of the service. A sample of the way in which the service was increased and money taken without adequate returns from the treasury, is subdivided in the case of the route from Dallas to Baker City, Oregon. This route is 275 miles long and was let for two trips a week at an average speed of two and a quarter miles per hour for $8,288. Within a year the pay was raised to $72,550, a majority of which was for expedition, although the speed was only increased to three and four-fifths miles per hour.

Threatening Guiteau.

The prosecuting attorney declares that he will insist upon having Guiteau removed to the prisoner's dock if he undertakes to renew the shades of abuse which he has indulged in since the opening of the trial, and especially last week.

Recovering.

Senator Miller has made such speedy progress towards recovery from his recent attack of illness, that he was this afternoon to leave his house and take a drive.

For New York.

Representative Page goes to New York City to-night to remain there until next Saturday.

Gag and Gibbet.

Corkhill received to-day, by express from Kansas, a package found to contain a very ingeniously devised gag for Guiteau, which was made out of a corn cob.

Scoville is in receipt of several letters, one contained a miniature gibbet with Guiteau suspended upon it. Another contained a number of liver pills labelled "wholesale advice for Guiteau."

Guiteau's Sister.

Marshal Henry in an interview to-day, referring to Mrs. Scoville's statement said she did not go to him and ask him to have her husband protected. She came into my office with a bundle of letters and said her husband was in danger. I told her I did not think any one would hurt him, but if she did need a guard, I had not men at my command to furnish it. She said she would see Justice Carter. She did not want a guard stationed at the house. She had seen Mayor Brock and failed to get any satisfaction and came to me. She wanted the authorities to be warned and to be on the lookout. If she was not seeking protection, I do not know what she did want.

Is there any danger of Scoville being attacked? asked the reporter.

None at all. Why should any person attack him? Mrs. Scoville is a peculiar woman and reminds one considerably of Guiteau. I think they are a good deal alike.

In what other way has she complained?

Well, she says the whole country is against her brother and the government with its hordes of money is doing all it can to commit him and possibly hang him. At the same time she is pushing down in her pocket $200 of government money, she has been paid for coming here to testify for her brother. She don't think how much money the government is paying out to let the man have a fair trial.

What does she think you ought to do?

That is hard to tell. She complained the other day that I did not protect Guiteau, and it was my duty to do so. I told her my first duty was to see he did not escape and that was being attended to. She seemed to be surprised at this statement and wanted to know what the world would get if he did get away. I told her I did not know; that was not my business, but it was my business to see he did not get away. I think she is a strange woman.

In what respect?

Why, look at her. Do you know any lady of your acquaintance who would go into that room and question witnesses being examined on the stand? I don't believe you do. Then she will sit there and laugh at the sayings of Guiteau as if she thought them smart, and it only encourages him to keep it up. I tell you she is like him, only she may not have as much egotism as he has.

Has she gone home?

I believe she has. She got her money from the Government that she says is against them, and is doing nothing for them, and I understand has left for home.

What do you think of the idea of putting Guiteau in dock? I think he should have been put there long ago. If I had my say he would have been there. I would take the guard away from around him, move the ladies from that locality and let men occupy their seats. I think then he would behave himself and be more decent. I would not be surprised if the Judge sent him to the dock pretty soon, for he is getting tired of his conduct.

Do you think the jury will convict him?

Certainly, how can they do otherwise? It is a pretty plain case against him, I should think, and one that ought not to require much time to deliberate over.

Three Ocean Steamers Missing.

CHICAGO, 26.—A New York special says: The probabilities increase of the loss of three Atlantic steamers, the *City of London*, of the Centaur line, out since Nov. 13th, from London; the *Henry Edge*, from Antwerp, Nov. 21st, and the *Lord Byron*, from Hamburg, Nov. 28th. None carried passengers, but all should have made the trip in three weeks with the most adverse winds, etc.

Minister West's Family.

A Washington special says: There has been a good deal of chatter about the minister of Great Britain here being a bachelor and yet a father of children. The fact is, Great Britain never commissions a man to a high office whose social record is not good. The present minister, when a young attache of the British legation at Madrid, married an estimable Spanish lady not of equal rank, and lived happily with her for years and recognized her as his wife. Although the court journals never announced the marriage, yet he was legally married. That is the whole story. Since his wife's death, he has lived single.

Chicago Smallpox.

The smallpox seems to continue in the city at the same rate of mortality and increase as heretofore. One of the chief causes is that the country towns send their cases to this city for the authorities to care for. One man was discovered in the outskirts of the city who had been taken with the disease while working on a farm in Du Page County, and had at once been hustled off on foot to Chicago. His face was a mass of blotches, and he was steering for the pest house. The disease has broken out at the county hospital, three cases being discovered there. They of course were taken away, and all visiting at the hospital has been interdicted for the present.

Gen. Sherman.

Gen. Sherman having missed his train here yesterday on his way to Washington from Leavenworth, spent Christmas at his hotel and started east this morning.

Chicago's Growth.

Building operations in Chicago the past year have cost $11,500,000.

Blaine.

The *News* has an interesting Washington letter, evidently written from a stalwart point, which discusses the question of Blaine's candidacy in 1881. It says: Blaine, though out of office, is not by any means out of politics; he is as active and ambitious as ever. He finds himself opposed, however, by the man in the White House, who is as great a politician as himself and who knows that his acts are being keenly observed by Blaine and that errors will be used to Blaine's advantage. Blaine is especially anxious not to have Chandler appointed to a cabinet position. He would prefer an entirely stalwart cabinet, as that would give him more capital. Chandler is looked upon as a man of great honor. One of the 306 said Chandler gave us more trouble at Chicago than anybody else; but he always fought fair. As Garfield's friend and legatee, Blaine will have the strongest hold on the American people, and that is the light in which his friends knew him and would have him viewed.

Mill Burned.

Jet Best's Mill at Millwood was burned yesterday morning. Loss $16,000; insurance $3,000.

Butchered with a Knife.

CINCINNATI, 26. — Special dispatches from Ryseh tell of the brutal murder of a man named Black, deputy tax collector last Friday afternoon, at Hamilton, Brane County, Ky. Mitchell Rich and Pascal Lampkins had quarrelled over a trifling matter at a saloon, and Lampkins cut Rich, not seriously. Black and an officer interfered to keep peace, when Lampkins literally disembowelled him. Lampkins escaped by swimming the river amid a shower of bullets fired at him.

Bloody and Fatal Fight.

TAMPICO, Ohio, 26.—To-night a number of laborers on the Indiana, Bloomington and Western railroad engaged in a bloody fight at Shetler's saloon, Charles Hanes, of Illinois, was killed, his skull being crushed by boulders. Another unknown man supposed to be fatally injured.

A Serious Explosion.

JEFFERSONVILLE, Ind., 26.—John McClellan, in order to celebrate Christmas and amuse his wife and children, indulged in a lot of fire-crackers and bottles with powder in them. These became mixed and there was a terrific explosion which resulted in fatal injury to a guest, Miss Berry, and the terrible burning of Mr. and Mrs. McClellan and the children whose clothes were burned off, and a universal cutting from broken glass.

Abandoned at Sea.

SAN FRANCISCO, 26.—The German bark *Schmidt* 165 days from Newcastle, England, reports that on the morning of July 28th, she saw two ships close together to westward. In the afternoon at 3 o'clock, one started off, at 5 p.m. she reached the ship laying to, the *Sarah Douglas*, of Liverpool. The lower hold was full of water. No men were on board and she was stripped of everything movable. Even the cabin and galley everything was smashed and spoiled, the rigging was loose, the ship rolling very heavily, being in a fair way of shipping they set fire to her and proceeded on their voyage.

Murderous Rioters.

NEWBERG, 26. — During the riot among the West Shore railroad laborers, on Christmas night, an Italian was shot and an Irishman fatally stabbed. A negro did the shooting. The military was called out and six Italians arrested.

Mexican Changes.

CITY OF MEXICO, 26.—Gen. Trevino has resigned the portfolio of the war department; Gen. Naranzo is appointed his successor. Trevino will resume command on the frontier. His command extends to and includes Chihuahua. Other cabinet changes are rumored.

$300,000 Fire.

DENVER, 26.—Fire yesterday, destroyed the shaft house and all the other buildings except the concentrating works of the Hazeltine mine in Willis Gulch, owned by the Hazeltine Mining Co., of Philadelphia. Loss from $30,000 to $40,000; insured $5,000.

Recovered.

CLEVELAND, 6. — The 170,000 bonds stolen from the Commercial National Bank, three weeks ago, have been recovered by the payment of about $30,000. Mr. Earl does not yet confess that he has secured them by compromise, but that is the fact.

Murder.

PUEBLO, Col., 26.—Later advices from Coolidge, Kansas, show conclusively that the killing of Barney Elliott on Tuesday was simply a murder, and that the story of having outraged Hardesty's wife was manufactured to shield the murderer.

Increase of Scarlet Fever.

NEW YORK, 26.—Scarlet fever is increasing in this city at an alarming rate. According to returns it is unusually malignant. For the week ending December 17, 244 cases were recorded and 64 deaths. The number of deaths during the following week from that disease was 82. On Saturday 17 persons died from the same cause; on Sunday 9, and today 18.

President Arthur.

President Arthur received a number of callers at his home to-day.

$2,500,000 Fire in New York.

The losses by fire in the United States bonded warehouse, occupied by Moore, Wood & Co., are estimated at between two and three millions of dollars. The principal losers are W. T. Milton & Co., Wetmore, Creder & Co., F. Garcia & Bros., Antonia Gonzales, M. & E. Solomon, whose loss is estimated at $300,000, and Clement Ardt & Co., whose loss is said to be $150,000. A fireman has been arrested on suspicion of trying to break into the safe.

Another Big Fire in New York.

The building No. 359 Broadway, owned by Travers & Colgate, was burned this evening. A. T. Moore & Co., dealers in linen and dress goods, lose $140,000. Alvah Hall & Co., umbrella manufacturers, sustain a loss of $50,000. John Stewart, dealer in linen, white goods, silks, etc., suffered to the extent of $80,000. The building was damaged $10,000, and there were a number of minor losses.

Conflagration at Sullivan, Ind.

SULLIVAN, Ind., 25.—At 10.30 to-night a fire broke out in the notion store of Kollenskey Bros. The fire department of Terre Haute arrived on a special train at 11 o'clock. At this writing (1 a. m.) the whole west side of the square, consisting of 25 buildings is destroyed and the fire still spreading with great rapidity.

FOREIGN.

Gladstone on "Mormon" Converts.

LONDON, 26.—Gladstone, in replying to a correspondent who had called his attention to the fact that bands of Mormon missionaries visit Great Britain annually, decoying thousands of young persons to a life of immorality in Utah, and inquired if government could not do something to prevent the practice, says, he fears it is not a matter in which he can interfere, as it is to be presumed that the young persons do it voluntary.

Another Attempt to Assassinate the Czar of Russia.

ST. PETERSBURG, 26.—A plot has been discovered for assassinating the Czar in Karavanian street, which it was expected he would traverse while proceeding to the *fete* of St. George. It has not yet been possible to obtain full details as to the plans of the conspirators, who were arrested, a few days ago at a meeting of revolutionists in the outskirts of the town. From information which the police possess it is authoritatively stated that nothing could have saved the life of the Czar had he passed along the street where he expected to pass.

Nihilist Incendiaries at Work.—The whole Naval Port of Cronstadt on Fire.

VIENNA, 26. — A telegram from St. Petersburg reports the whole naval port of Cronstadt on fire. One quarter of the town is reported already destroyed. The loss is enormous, the fire is believed to be the work of Nihilists.

Body Snatchers Detected.

LONDON, 26.—The police have obtained an important clue in the case of stealing the body of the Earl of Crawford and Balcarres. They expect to make an arrest shortly.

200 Persons Drowned.

CHAN, 26.—The flood having subsided, 204 bodies were recovered in the plain of Habra; of these 163 were natives, 33 Spaniards and five French.

St. JACOBS OIL
TRADE MARK.
THE GREAT GERMAN REMEDY.
