FRAGMENTS.

"TAKEN FROM LIFE," for the last time to-night.

See what Mrs. C. E. Dye, the popular milliner, has to say in another column.

The President's party were at Pinto last night, and will be at Pine Valley tomorrow.

Another freight war is said to be probable, which means cut rates once more.

Owing to the land slide on the D. & R. G., trains will arrive at 2 a.m. until the break is repaired.

The water pipes are being laid on North Temple Street, north of the aqueduct, from Main Street west.

"The unavoidable tumult of a free crowd," clamoring for free whisky, is one of the most soul-stirring sights of modern times.

J. L. Blythe has lost a seamless sack of lucern seed, near Gen. D. H. Wells' farm. Return it and get the reward.

An excited crowd gathered on the corner south of the News office this morning. A reporter rushed to the spot and found that three Indians playing cards was the nucleus.

The probabilities are that the West Jordan Republicans will fuse with the Beaver convention for Blaine as President. Now if Goose Creek should amalgamate with these two powerful organizations, it's a gone case with Arthur.

A Bingham miner named Jacob Erickson, was shot in the face Sunday by Deputy McDermott, in a quarrel resulting from the refusal of the former to pay his poll tax. He was brought to this city and is now in the hospital.

LOCAL NEWS.

Y. M. C. A.—The presidents of the above associations of this State are requested to see that the blanks which have been distributed are filled up and returned to me at this office, so as to reach here not later than the 25th inst.

J. A. Evans, Sec'y.

The Exponent.—The latest issue of the Exponent contains: "Let There Be Light," by Hannah T. King; Extracts from a letter, by a Gentle, J. B. C.; A Woman's Testimony, M. A. P. Hyde; Our Travels, Beyond the Mississippi; Helen Mar Whitney; Thoughts on the Future Life, M. A. Greenhalgh; Visit to Sweden, E. H. Bird; Desultory Thoughts, Editorial; To the Relief Societies of the Swiss and German Mission, Annie W. Cannon; and other interesting articles.

Frozen to Death.—It is reported that the dead body of a Chinaman was found a few days ago, lying in the snow between Wasatch and Alta. The news was brought to Sandy by mail carriers who discovered the corpse. It has not yet been brought down from the cañon, but was identified as that of a wax-flower peddler, who had been seen around Sandy and Bingham for several days previous, disposing of his wares. His stock of flowers was found with him. He no doubt went by rail to Wasatch, and started to walk from there to Alta, when he fell a victim to the recent storms.

The Gigantics.—The town is being billed and posted for the coming nights of Leavitt's Gigantic Minstrels at the Theatre. They make their introductory bow to-morrow evening. The following is from the Portland (Me.) Press:

Portland Theatre was packed last night with a delighted audience. Leavitt's Gigantic Minstrels give a most excellent entertainment. In the first part appeared forty performers, and the portion of the entertainment presented by them was a superb display of singing of the octave, and enthusiastic and frequent encores followed the entertainment to a late hour. For picturesque beauty, handsome groupings and elegant costumes, they have no equal in any of its many predecessors, and we echo the sincere wish of every auditor when we say that we trust they may soon return to us.

Fire in Ogden.—"Weber" writes that at a quarter to two o'clock this morning a fire which might have proved more disastrous than it did, broke out in a large two-story frame building, belonging to Messrs. Wahalen & Barry, between Third and Fourth streets, on Young. The Tower bell, the Court House bell and the steam whistle rang out the alarm, and soon the firemen and a host of others, with the hose, were on the spot subduing the flames.

Adjoining the building which at the time was unoccupied, is a general merchandise store, also of frame, belonging to the same parties. The flames, however, communicated to it and but for the timely help and incessant labors of the boys, the store and its contents would soon have been consumed. The merchandise was soon removed to a place of safety, and the fire on the store was soon extinguished. The other building is a total wreck. The damage will not exceed \$10,000, all of which is said to be covered by insurance. The fire originated in the upper room of the house, and being empty at the time, it was evidently the work of an incendiary. No clue, however, has been as yet obtained, and the perpetrator of the wicked deed, there was a number of other frame dwellings in the immediate vicinity of the scene, but by the sturdy efforts of the firemen they were saved from destruction.

Birthday Celebration.—Quite a gathering of the "good sisters" took place at Sister Elizabeth Roundy's, in North Ward, on the 21st inst., to celebrate the birthday of that widely known and respected mother in Israel, Judith Higbee. While claiming to be seventy-three years of age, Sister Higbee possesses more vitality, and seems to enter more fully into what is often called "a good time," than many who have not passed near so long a life. The feast was simple, and prepared in Sister Roundy's best style, after which the time was spent by the older ladies in singing old songs of Nauvoo, the Plains, and Battalion life, and also in the recitation of many items of history, trials, persecutions and difficulties of early "Mormon" life.

PROVO POINTS.

FROM PERSONAL OBSERVATION.

Fine weather the past two days. Sky clouding up for more rain.

The Asylum grounds are to be improved by tree planting soon.

The Home Dramatic Club played "Married Life" in Lehi, Monday night, for the benefit of the B. Y. Academy.

Men with scrapers are at work leveling the Court House Square. This will improve the appearance of the grounds.

Provo River is rising rapidly. Higher water is expected this season than since 1882. It is even higher now than at the same time in that year, and eight inches higher than at any time last season. A heavy brush and rock dam is being constructed at the head of the Factory gates, about a mile and a half north of the city, to prevent the water from flooding the town. Half the year's revenue will be expended in that direction. The work has been going on for about two weeks and \$1,200 is already laid out. In 1882, the entire city revenue was expended there and afterwards the men turned out en masse to fight back the water. It is said that at the headwaters of the river the snow is packed hard to an average depth of 18 feet, and in some places between Provo and Ashley's Fork, it is as deep as 20 feet.

Street Locomotion.—Many will remember the old-time busses run by Messrs. Townsend and Luffkin from the Townsend House, now the Continental, some ten or twelve years ago, and the high estimation in which they were held. But changes, as usual, are an indication of the steady growth of the means of street-locomotion in the capital city of Utah. It may be well to note the progress made by the Salt Lake Street Car Company in the interim. This company, commenced its operations from the Utah Central Railway depot, ran a line to Fourth East on Third South (about 1 1/2 miles), whence it was in less than two years extended to the Warm Springs.

At the present writing the company's lines radiate, as nearly as may be, north, south, east and west—from the Central depot, on Second East, near First S., and extend to the Warm Springs; Twentieth Ward, Eleventh Ward, First Ward, Liberty Park, Sixth Ward, and lastly to the D. & R. G. depot, seven lines, entailing some twenty miles of track, traversed daily by the company's cars.

Owing to the easy gradients in the city and neighborhood, the work on these lines is accomplished by some thirty employees and six score horses. Notwithstanding the confessedly quiet times just now from the depot, the appearance of unyielding progress. New buildings are going up for the accommodation of stock, and alterations are being made for greater convenience and to suit the altered requirements of the day.

Flax Seed for Farmers.—It is expected that the shipment of flax seed from St. Louis, ordered by the Germania Company for distribution among farmers, will arrive here in a few days, having left St. Louis on the 17th. Applicants for the seed may communicate with Mr. T. R. Jones, President of the company, or with Mr. John Beck, of Lehi, and should apply as soon as possible for the amounts they may need. The distribution is in no sense a speculation, except in so far as the Germania works are interested in the home production of flax seed, and their white lead manufactory. The seed costs in St. Louis \$2 per bushel, and with freight added would be sold here, we are informed, at \$2.60 or \$2.65 per bushel. The shipment now on the way (200 bushels in all) is in the nature of a loan to the farmers, who are expected to return it in the fall, with a quarter of a bushel extra on each bushel for shrinkage. The seed is of first-class quality. The co-operative stores are invited to take hold of their production in the interests of their patrons, and, for the security of the company, making the loan, to assume the responsibility of the return of the seed to its owners in the fall. The soil here is well adapted for flax seed, which will no doubt realize a profit to its cultivators.

Matters in Mesquit.—John Hansen, writing from Mesquit, Lincoln County, Nevada, April 10th, says: When Bro. Samuel Whitmore met his accident on the road coming up from the Muddy, our dam and part of the head of the ditch went down the Beaver. We built another dam, but we have had high water since, and the Beaver is still high, so it is feared this dam will go all. Still there are a few men who would stay to the very last. If our wheat crop and cotton is a failure, we will plant corn and sugar-cane. I wish we had a few of the farmers around Salt Lake, and some capitalist with them, to put up some machinery. We can raise the cotton here and the wheat to bread the families while they are at work. Lucerne does well here, and we can cut it four times in the season. Keeping up the ditch is nothing, and it is about six miles long, and I have cleaned over one mile of it myself in less than five weeks. Ten men with teams could build a dam in two weeks, and there are 1,000 acres that could be watered under our ditch. I see my subscription to the News is out. I would like it to continue, without it I am like a fish out of water.

Not so Bad as Reported.—Apropos of the "dill times" clarion sounded far and wide, we are informed by Mr. S. P. Teasdale, the popular merchant of Lehi, which would indicate that matters are not so bad in this respect as generally supposed. A few days ago, being induced to examine his books in order to ascertain what grounds existed for the generally accepted idea of hard times, he was not a little surprised to find that at the retail sale for the past three months were several hundred dollars in advance of those for the same month last year.

He had himself previously thought that business was unusually dull this spring, especially during several days of the recent wet weather, but "figures cannot lie," and his own books prove it, he is assured that matters might be, and have been worse in this direction, and that too without availing the wide spread apprehension so needlessly felt in many quarters.

Third District Court.—Proceedings before Chief Justice Hunter, on Wednesday, April 24, 1884: Mary Hewitson vs. George Hewitson; motion to strike out statement and argument. Motion was allowed. The People vs. Robert Hunter, et al., with intent to defraud. The defendant was indicted for a plea of not guilty was recorded with statutory time to withdraw. Bonds fixed at \$1,000. Court adjourned till to-morrow at 10 a.m.

PERSONAL.

President A. O. Smoot came up from Provo the past two days.

Mr. H. C. Hart, Esq., of Provo, was in town to-day.

Mayor P. T. Farnsworth is up from Beaver for a few days. He returns Friday.

B. W. Driggs, Esq., of Pleasant Grove, is in town on business. He goes back to-morrow.

Mr. W. C. Borland, of the U. P. office, came back from Omaha last evening.

Harry Brown, of Logan, the sculptor, is still in the city.

"Taken from Life."—The farewell performance of the great melo-drama "Taken from Life," will be given to-night. All should see the real baby, the great explosion, and the escape on the race horse "Comet." At the Theatre to-night.

Closing the Season.—The final meeting for the season of the Y. M. C. A. of the 11th Ward, was held last evening. The chief feature of the exercises was the reports of the officers of the Association, who are young men and ladies. The reports showed marked advancement and improvement, and prove that, for intelligence and ability, the youth of Utah will compare favorably with the youth of any country or nation. The Bishop and his Counselors were present and congratulated the young folks on their success. The exercises were varied with songs, recitations and music. The latter furnished by the 11th Ward orchestra band under the leader H. A. Tuckett, presiding of the Association, was a delightful feature. After the meeting a couple of hours were taken up in dancing and all went home happy.

Eureka School and Meeting-House.—Brother John Beck, of Lehi, informs us that a school has been instituted at Eureka, Juab County, in the Tintic Mining District, and about 33 children enrolled as pupils. Our informant bought the building, furnished it and devoted it to this end, and the no less worthy purpose of Sabbath meetings. There are about forty Latter-day Saints there in all. Next Sunday a branch of the Church will be organized in the place. Apostle George Teasdale and President Wm. Paxon are expected to be present.

FARMERS' ATTENTION.—A plow trial will be held in Salt Lake City Saturday April 26th, to show the relative draft between a walking plow and John Deere and Single Lever (Gipkin Sulky), for particulars as to time of day and locality, inquire of Grant, Ogden & Co., half block South of Theatre, April 22nd, 1884.

FLY DOORS.—Sandberg & Burton keep on hand and make to order, on short notice, all kinds of Fly Doors and Window Screens, and 110 South Temple street West.

ASSIGNED'S SALE.—The entire stock of elegant millinery goods of Miss N. Colebrook, will be sold regardless of cost. Call and see. Sale commences to-morrow. First store east of Deseret National Bank. J. H. ALMOND, Assignee.

AUCTION AUCTION.—Thursday, April 24th, at 11 a.m., at 129 E. Fourth Street, consisting of parlor, bed-room, dining-room and kitchen furniture, carpets, stoves, etc. Sale positive. H. A. REED, Auctioneer.

Finest Photographs ever made in the West, are those from Howe and Newcomb Gallery, just west of the Opera House.

BRITANNIA STANDS UNRIVALLED.—Those troubled with rheumatism, have tried cod liver oil, and still are uncured will certainly obtain relief within three days' and generally within six hours by taking Britannia. This great remedy was discovered by an eminent English physician of great experience, who has never lost a patient to whom this medicine was administered. Britannia is not a lotion; it is an external permanent remedy, cures rheumatism, which is a disease of the blood. Britannia is prepared with the greatest skill and a teaspoonful being taken in a wineglass of cold water immediately finds its way to the blood, where it is absorbed, the pain-causing element, removes it immediately by purifying the life-giving fluid, and breaks the entire chain of disease. Persons who have used this valuable preparation in Utah, tell us that nothing ever helped them as fast as Britannia. Many references in Salt Lake City and elsewhere can be given.

Advocates of prohibition need have no fears of "Pekky Ain Bitters," as it is a medicine, and by reason of its cathartic properties cannot be used as a beverage. It is manufactured from the purest materials, and acts directly on the liver, kidneys, stomach and bowels. As a blood purifier it has no equal. Is pleasant to the taste, and effective in its action.

HORSFORD'S ACID PHOSPHATE.—No Physician need Hesitate. Dr. S. V. Clevering, Chicago, Ill., says: "Horsford's Acid Phosphate should be made official in the most eligible form for the administration of phosphorus, and no physician should hesitate to order it on his prescription blanks."

IS YOUR BLOOD PURE?—For impure blood the best medicine known, Scott's Sarsaparilla, or blood and liver system may be implicitly relied on when everything else fails. Take it in the spring time, especially for the impure secretions of the blood, incident to that season of the year; and take it at all times for Cancer, Scrofula, Liver Complaints, Weakness, Boils, Tumors, Swellings, Skin Diseases, Marasmus, and the thousand ills that come from impure blood. To remove the impure blood, take Scott's Sarsaparilla, and liver system will be purified, and the mind to its natural equilibrium.

EXCITED THOUSANDS.—All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life-saving remedy, causes them to go nearly wild in its praise. It is guaranteed to cure every case of Croup, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, Loss of Voice, or any affection of the Throat and Lungs. Treatises free at Z. C. M. I. Drug Store.
