Best live Geese Feathers at 80 cents a pound, and all kinds of Fancy Baskets very cheap at Dinwiddie's.

WOULD NEVER USE THEM.—If persons were aware of the injurious character of most Baking Powders now for sale in every town in our country they would never use them. A baking powder to be good and wholesome can not be made by ignorant persons, who know no more about the chemical combinations necessary for such results than a school boy. The only good baking powder prepared by a physician is Dr. Price's Cream. And for his True Flavoring Extracts, we have only to say that they are the finest, purest, and best to be found in this or any other country.

PURE OLIVE OIL.—Constantly on hand the genuine article directly imported from France, for sale by Louis A. Bertrand, at his residence, half a block west from the Valley House and three doors from the Utah Hotel, and by Mr. Brien, watchmaker, opposite the Brien's Office, price from fifty cents to two dollars, according to the size of the bottles.

As a Frenchman, I do testify that my olive oil is the very best in the market. d8

HEREDITARY CONSUMPTION RAPID.—Because there is an inherited tendency to consumption it does not follow that the heir to this disease must die of the disease. The early symptoms of danger are marked by a cough, being the first and most prominent. Meet this first indication of peril with Hale's Honey of Horsebalm and Tar, and in three days it will have vanished, and with it all cause of apprehension. No matter how delicate the lungs may be, or how strong the predisposition to consumption, a speedy cure is absolutely certain.

Pike's Toothache Drops.—Cure in one minute.

WHY IS IT?—That cheap, adulterated baking powders and flavoring extracts are warranted equal to Dr. Price's, when it is known that Dr. Price's Cream Baking Powder and true Flavoring Extracts are the purest and healthiest made? It is because the adulterated kinds are bought less and give a better profit. Good goods have a value and afford a less profit to the seller as well as the manufacturer. Unprincipled dealers, like unprincipled manufacturers, will palm off adulterated articles upon a community to engender disease, because it puts a few more dollars in the pocket. This is the reason and consumers should know it, and demand those articles, which are used in food, that are made by manufacturers who defy competition in price, and make the quality of their goods the primary consideration.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the **CHICAGO & NORTH-WESTERN RAILWAY** is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore &

Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburgh, Fort Wayne & Chicago, Rock Island, Line and Pan Handle Routes, at all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should by all means purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information, with maps, time tables, etc., may be had at all of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Hall, Ticket Agent at Ogden, or to J. H. Mount, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago.

W. H. GREEN, custom Boot and Shoe maker, 9 First South Street, nearly opposite Theatre. Orders solicited, all work warranted. A perfect fit guaranteed. Repairing neatly and promptly done.

WARRANTEE DEEDS.—Most approved form, Quit Claim Deeds, Mining Deeds, Townsite Deeds, Leases, Official Bonds, Incorporation Bonds, and other Blanks, sale at the News Office.

WRAPPING PAPER, of various sizes, some of the best ever manufactured here, for sale at the News Office.

Blood Diseases.—The blood being the source from which our systems are built up and from which we derive our mental as well as physical capabilities, how important that it should be kept pure. If it contains the seething poisons all organic functions are weakened thereby. Settling upon important organs, as the lungs, liver or kidneys, the effect is most disastrous. Hence it behooves every one to keep their blood in a perfect healthy condition and more especially does this apply at this particular season of the year than at any other. No matter what the exciting cause may be, the real cause of a large proportion of all diseases is bad blood. Now Dr. Pierce does not wish to place his Golden Medical Discovery in the catalogue of quack patent nostrums by recommending it to cure every disease, not of which he recommends it, on the contrary there are hundreds of diseases that he acknowledges it will not cure, but what he does claim is this, that there is but one form of blood disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that disease, yet he recommends it to cure the most searching blood cleanser yet discovered, and that it will free the blood and system of all other known blood poisons, be they animal, vegetable or mineral. The Golden Discovery is warranted by him to cure the worst forms of Skin Diseases, as all forms of Eruptions, Pimples and Eruptions, also all Glandular Swellings, and the worst form of Scrofulous and Ulcerated Sores of Neck, Legs or other parts, and all Scrofulous Diseases of the Bones, as White Swellings, Fever Sore, Hip Joint and Spinal Disease, all of which belong to Scrofulous Diseases.

CONFIRMED-MIP-JOIN DISEASE CURED.

W. GROVE STATION, Ia., July 14, 1872.

Dr. PIERCE, Buffalo, N. Y.:

Dear Sir—My wife first became lame nine years ago. Swellings would appear and disappear on her hip, and she was gradually becoming reduced, and when she was afflicted with this disease, in 1871, a swelling broke on her hip discharging large quantities, and since that time there have been several openings. Have had five doctors at an expense of \$125, who say nothing will do any good but a surgical operation. July 1871, 1873, he writes that my wife has certainly received a great benefit from the use of your Discovery, for she was not able to get to her bed and was not expected to live to what she has now attained using it a year ago. She has been doing most of her work for over six months. Her recovery is considered as almost a miracle, and we attribute it all to the use of your valuable medicine. It is really recommended to me as a blood purifier and strength restorer.

EVENING NEWS.

Wednesday, Feb. 24, 1873.

Local and Other Matters.

THESEMONS 23 degrees F in the shade at 1 p.m. to-day. Dull.

Messages at the Western Telegraph Office for Mrs. McLaughlin and W. A. Harris.

Departed.—It will be seen by an obituary notice, in another part of the News, that a little daughter of Elder Robert F. and Sister Eliza S. Neslen departed this life last evening. The little one was unusually bright and intelligent.

Lecture.—To-morrow (Thursday) evening Prof. Karl G. Master will deliver a lecture at the 20th Ward School-house, under the auspices of the Institute of that Ward, on "The Characteristics of Youth of Different Ages and Nations," free to the public.

Prof. Master is one of the best lecturers in the Territory.

From the Sandwich Islands.—Elder F. A. Mitchell returned yesterday from his mission to the Sandwich Islands, accompanied by his family, and a native of the islands, the latter about thirty-seven years of age, all in good health.

We might also say that there was another native of the Islands in the party, a little one of which Brother and Sister Mitchell are the parents. Elder Mitchell left his family at Ogden yesterday, to visit friends there, and in passing to go there this afternoon, to bring them down to this city. ON SATURDAY.

At Home Again.—Elder F. A. Mitchell called in this afternoon, in good health and spirits, with the common exception of a slight cold. He left late Jan. 25, and Honolulu on the barque D. C. Murray, Feb. 18th, after a very pleasant voyage. He left the mission in the Islands in his condition, and with good prospects, having enjoyed himself well while there. With Elder Mitchell came Bro. Kaulaiaimoku, a stout specimen of the native race, who is also in excellent health and appears to enjoy his visit to this country. We extend a hearty welcome to these brethren, one on his return to his home, and the other on his first visit to this Territory.

Theatre.—Yesterday Winter came again, after our unpleasant period of weather, and the new inclemency affected disadvantageously the attendance at the Theatre last evening, but there was a larger audience than might have been expected under the foregoing meteorological conditions.

The entertainment is a refined one, quiet rather than boisterous, but everything is done neatly and artistically. The bell ringing, the songs, duets, choruses, etc., were nicely rendered, and elicited much applause, particularly in the humorous parts. But the three portions of the performance most relished by the audience appeared to be that on the musical glasses by Mr. Benjamin, that by the silver orchestral band, and the comical eccentricities of Mr. Sam Collins, all of these eliciting enthusiastic applause. Two or three more pieces by the silver orchestral band would have been appreciated. All of the troupe are skillful, well trained and versatile, and some of them especially so. Precision is one of the great excellences of the performances of the troupe, and evenness is another. In fact, all of their songs, choruses, etc., vocally and instrumentally, are soft and sweet, rather than vigorous and demonstrative, and all are in excellent good taste.

The troupe perform again to-night, when those who wish an evening's unusual enjoyment should be there.

District Court.—The Third District Court met to-day, J. R. McKean, C. J., presiding.

A number of aliens were admitted to citizenship. They were put through the judge's usual categorical examination with regard to their family relations.

Mr. Lewis, formerly a member of the bar of the Supreme Court of Louisiana, was admitted to the bar of the Third District.

J. S. District Attorney Cary stated that it was probable the case of the People of the United States, &c., vs. George Reynolds, indicted for polygamy, would be ready for trial to-morrow morning.

The points raised in a plea of abatement filed by the defendant's attorneys were identical with those raised in the Hicks case, with the exception of one point.

The Court said that he would not hear any points re-argued that had been discussed before, until the questions were brought before the Supreme Court, but would only hear the one point in the case that differed from the others.

The District Attorney said he was preparing his replications, which would probably be ready in the morning.

Mr. Tifford, attorney for the defendant, in the case of the People, &c., vs. E. X. Field, independent of an embarrasment, died December 21st, 1872, stated that he had filed with the clerk a motion to quash the grounds of which were that the indictment contained seven counts, each of the three first of which charged the defendant with stealing articles of a less value than \$20, while each of the other four counts charged him with stealing articles of a higher value than \$20, therefore in the nature of a misdemeanor, and the remaining four in that of a felony, this being, in the opinion of Mr. Tifford, an improper joining, the one being an offence at common law and the other a statutory offence.

When our reporter left the Court, the gentleman was arguing, and citing authorities in favor of his motion.

In Honor.—The entertainment last evening, in honor of the birthday of Washington, given in the Sixteenth Ward school room, for the benefit of the organ, was well attended, the storm, however, detaining many at home.

The various pieces were finely performed. Some disappointment was occasioned by the failure of the young lady representing the month-

City Council.—The Council met last evening, Mayor Wells presiding.

Petition of Charles Sanson and others, asking for the construction of a water tank, for fire purposes, on South Temple street, between Fourth and Fifth East streets; referred to the committee on fire department, with instructions to select a suitable site for a tank in the locality named.

Isaac Evans was granted the privilege of placing his boot-black stand opposite Hale's saloon, under the direction of the chief of police.

Petition of Sumannah Higham, asking for the opening of a certain street near the north-east corner of the City; referred to the committee on streets and alleys.

Bill of Henry Grow, for carpenter work done on the Bath-house, \$1,000; referred to committee on claims.

Adjourned till next Tuesday evening.

Obsequies.—The funeral services over the remains of the daughter of Miss Jean Clara Walters were conducted this afternoon, at St. Mary's Church, and were attended by a large number of the friends of the deceased and her mother. The remains were followed to their last resting place by a large cortege of carriages filled with mourners.

In Honor.—The entertainment last evening, in honor of the birthday of Washington, given in the Sixteenth Ward school room, for the benefit of the organ, was well attended, the storm, however, detaining many at home.

The various pieces were finely performed. Some disappointment was occasioned by the failure of the young lady representing the month-

er in the "Flower Children," thus depicting the presentation of that beautiful little melody. The tableau of the twelve girls, dressed in white, with bouquets of natural flowers artistically arranged by Mrs. John Reading in their hands, and with their hair representing the flowers, was a beautiful sight, together with the six very small boys and girls representing the mosses and ferns, with leaves of the century plant in their hands, was a sight not soon to be forgotten. Though they had not the opportunity of singing and reciting, in their charming appearance the audience was amply recompensed.

"Cherella, or the Glass Slipper," with the marriage tableau, was delightfully performed throughout, as were also "The True Philosopher," "Faith, Hope and Charity," "The Housewife of the 'Stupid Servant'" kept the house in laughter till the close.

The recitations, "Phillips' Eulogy on Washington," "Spartacus to the Gladiators," and "Calline's Defence," were given in classic manner. The singing by the choir, opening with "The Birthday of Washington," and closing with the sublime anthem, "Praise waiteth for Thee," was executed with the brilliancy and sweetness that characterize all their performances.

The comic songs were no insignificant feature of the occasion; and, in numbers, variety and genuine mirth-provoking element, afforded the fullest opportunities for well-timed applause.

Shooting a Coyote.—A man named Castle shot a coyote in his yard, and up his produce lately. He took the law in his own hands and fired a shot from a gun at it, inflicting a wound in the shoulder. The owner of the cow, a Mr. Brighton, entered complaint against him, and he was fined \$20, in Justice Poyer's Court this morning.

Firemen's Ball Committee.—We are asked to announce that the committee of the firemen's late ball are requested to meet at 7 o'clock this evening, at the office of the chief engineer, to close up the business.

On Time—Weather.—The wires inform us that the U. P. western bound train was on time at Green River to-day.

TO-DAY'S DISPATCHES.

CONGRESSIONAL.

SENATE.

Petition Presented.—Admission of Colorado.

WASHINGTON, 24.—Window presented petitions signed by 48,883 farmers of the northwest, asking an appropriation for the improvement of the Fox and Wisconsin rivers, referred.

At the expiration of the morning hour the bill for the admission of Colorado was called up as the unfinished business.

The new tax and tariff bill were received from the House, and referred to the committee on finance.

EASTERN.

Failed.

NEW YORK, 24.—A. S. Baker & Co., fruit dealers, 268 Washington St., have failed; they are estimated to have lost at least \$100,000, and hope to present a favorable statement to their creditors and to resume business.

Cause of Bristol's Hesitation.

The Sun shows the statement under the heading "Bristol's Hesitation," that the decision to admit Colorado was made in the case of a preferred Erie stockholder, suing for his dividends, that the interest and rent must be paid out of the net profits before the preferred shareholders could receive dividends. This can't be turned so as to enable the overland route to receive the interest as well as the dividends. Having the balance on which said route are paid to the government. This view is understood to be the basis of Bristol's hesitation to accept the Union Pacific's offered compromise.

Opening of the Court.

The Brooklyn City court appeared on Monday morning, crowded this morning, a large portion being lawyers, gathered to hear the opening address for the defence in the Becker trial. From the fact that there were great interests involved in this case, and that they could not be estimated as they involved the religious and moral interests of society. His client would go out from the trial either fully vindicated, or with a stain on his life and character, and he took the stand here alone, but supported by his God and the justice of his cause. They then drew an eloquent picture of Becker's life, career as a preacher, friend and citizen, and referred to his eminent services in the cause of all good, and to his beautiful story of Theodore Tilton, who, he said, began life as a reporter on a newspaper, embraced the world would follow in the way he led. He became a deist, denounced marriage as a fraud and as hindering the advancement of world. Having a high eminence, he fell to the bottom of an abyss, and in the blind impotence of his rage, he determined to visit his anger on the man that he had been the cause of his destruction. Becker had been the friend of both Tilton and his wife, and the children must be trampled down to secure a vindication for which he was willing to barter his soul.

Cable Traffic.

President Order of the Western Union Telegraph Co. has received a telegram from the London cable agent of the Anglo-American cable company, saying that from May 1st, New York to the United Kingdom and France will be fifty cents per word, and that the company's system of charging messages will be extended to Europe and elsewhere.

Weather.—On time.

OMAHA, 24.—Five inches of snow; thermometer ten deg. above zero.

GREEN RIVER, 24.—The Union Pacific Express west is on time.

Colorado and New Mexico to be Admitted.

WASHINGTON, 24.—The republicans, in caucus this morning, agreed that immediately after the passage of the pending bill for the admission of Colorado, the bill for the admission of New Mexico should be taken up and passed.

Attempted Murder and Suicide.

Dempsey, the bailkeeper, who shot Lotia Warren last night, and afterwards made a suicide attempt on his own life, is reported to be somewhat better; the woman is not expected to live.

Nominated—Payment of Interest.

The President has nominated Harvey Jewell, of Massachusetts, judge of the court of commissioners on the Alabama Claims; Jewell is brother of the F. M. general.

The treasury department will commence payment of the interest on the ten-forties, due March first, without rebate.

Prohibitionists in Convention.

COLUMBUS, O., 24.—The State prohibition convention met this morning. About one hundred persons were present.

Directors Elected.

CHICAGO, 24.—The annual meeting of the stockholders of the Chicago, Burlington and Quincy Railroad Company was held here to-day, and, contrary to general expectation, was very harmonious, and a new board was elected by a large majority. The following were elected: Sidney Bartlett, J. W. Brooks, C. S. Colton, Erastus Corning, J. M. Forbes, John C. Greene, J. N. A. Griswold, Nathaniel Thayer, J. M. Walker, Chas. J. Felt, W. J. Retch, J. H. Clifford, and J. N. Dennison. All but Forbes, Griswold and Felt had been members of the previous board. This body was increased from the meeting from twelve to thirteen, the added member being Felt.

After the election the meeting passed the following: "Resolved, that the stockholders of the Chicago, Burlington, and Quincy Railroad desire to express their thanks for the past services of J. F. Jay and J. H. Burnham, retiring members of the late board of directors."
