Senator Heyburn Addresses Senate on Secy. Hitchcock's No Patent Order.

IT IS HARSH AND UNJUST.

A Whole Generation Deprived of Right To Avail Itself of Benefits of the Public Land Laws,

Washington, Jan, 30 .- Senator Heyburn of Idaho today addressed the senate on Senator Carter's resolution nullifying the order of the secretary of the interior providing that no patent to public lands should be issued without an order first being made on the ground by special agent of the interior department

Mr. Heyburn took the position that the order was legally an order of the

the order was legally an order of the president. He said the president in a recent message had said practically that he (the president) had ordered the secretary of the interior not to exc-cute the public land laws. Mr. Heyburn declared that the order had absolutely destroyed the right of one generation to avail itself of any benefits to be derived from the public land laws, and he announced his in-lection to criticize the order in un-stined words. He then took up the president's mes-sage referred to, analyzing and criti-

He then took up the president's mes-sage referred to, analyzing and criti-cizing its statements. "The president says," continued Mr. Heyburn, "for much of this fraud the present laws are responsible.'" Mr. Heyburn asserted that the frauds came in under the rules and regula-tions of the department. "We are retting to be a government

tions of the department. "We are getting to be a government of rules and regulations," said Mr. Heyburn, who added that he was going to bring forward a resolution asking every department for all of its rules

and regulations. Mr. Spooner asked if the order in question prevented the issuance of final title to a homestead where a family lived on the homestead the required five years and otherwise complied with the law, where no fraud is charged. "It says so in terms," answered Mr.

"It says so in terms," answered Mr. Heyburn. "It not only says so, but it is being so administered." interjected Mr. Ful-ton. "My mail is burdened daily." Mr. Fulton continued, "with complaints of just such procedure." Mr. Clark of Wyoming said there were thousands of such "held up" cases on the records of the department. "What is the ground taken by the

"What is the ground taken by the department for this broad falling of the axe on the heads of these entry-men?" asked Mr. Hale. "There is no ground that would satisfy the senator." answered Mr. Heyburn, who added there was no way of knowing what the secretary had

of knowing what the secretary had said to the president. "Buf," he said, "we know that the president said it was because of the prevalence of fraud.

Mr. Heyburn concluded by explaining Mr. Heyburn concluded by explaining the hardship the executive order was working. A homesteader, he said, was put entirely at the mercy of the "special agent," was not allowed to know that the report was made against him and given no opportunity to an-swer if. It made no difference whether the settler had rendered his sworn affi-davit and the affidavit of two of his neighbors, in compliance with the law, the report of the special agent was placed above the evidence. As it was to the advantage of the special agent to find trouble, the reports so made were likely to be bad.

entirely naked, in mud huts, held to-gether by matting. Medical supples and skill are badly needed. The native officials and authorities are doing their utmost to control the situation, but the talk is now far be-yond them and outside aid is badly needed. Relief committees have been formed in various centers. Everything possible is being done. The government has opened public relief works, where men can secure employment. The Grand canal is being deepened at Hal Chow, the work upon the improvement being started merely to give employment to some of the starving. The estimates have been made of the cost of feed-ing each starving person, and the total amount will reach close to \$20,000 daily. This estimate is based upon calcula-tion that four million people are act-ually starving. Some of the incidents of the famine related in the Chinese press are most revolting. A story is told of one fam-ily—a mother, father and two children. The mother left her home on a search for food. While away, the father, de-spairing of aid, threw both children into the river. The mother returned and learning what had happened, threw herself into the river and drowned. The father followed, and thus the whole family perished. The government is selling grain and salt where it can. In some instances the public selling places had to be closed because of the great rush of na-tives to buy. The price of vegetables has doubled, and coal and coke costs more than ever before.

BROWNSVILLE INVESTIGATION.

Washington, Jan. 30.—Senator War-ren, chairman of the senate committee on military affairs, Senator Foraker and Senator Taft today conferred in regard to the investigation of the Brownsville affair, which begins next Monday. The purpose was an agree-ment so that the demand for certain witnesses would not conflict with a sim-ilar demand for them at a court-martial witnesses would not conflict with a sim-ilar demand for them at a court-martial of officers of the battallon, which court will be in session at the same time. It was finally arranged that the witnesses for the court-martial should first testi-fy at Brownsville and then come to Washington. The inquiry here will be-gin with the testimony of enlisted men of the discharged neares be tiglion of the discharged negro battalion,

John M. Mack, and D. J. McNichol. Sixteen contracts, amounting to about \$10,000,000, were involved in the suits. Judge Beilter declares null and vold five contracts aggregating \$2,745,462, which were awarded at the time Sena-tor McNichol was a member of the council, which body ratified the con-tracts. He decides that they were ob-tained illegally, sustaining the conten-tion of the city that Mrs. McNichol and D. J. McNichol were never more than figureheads in the firm. The court dé-cided the five contracts were wrongfully obtained and instructed the contractors to make an accounting to the city of the actual costs of material and work done on these contracts, and to refund to the city any profit.

SUICIDE OF DR. H. H. REED.

Los Angeles, Jan. 30.-Dr. H. Harvey Reed of Rock Springs, Wyo., committed suicide this afternoon by shooting him-self in the temple. Reed was dead be-fore he was reached by the hotel em-ployes, who were attracted by the sound of the shot. The suicide is at-tributed to ill-bealth and despondency. Reed had been living at the hotel for several weeks, and during most of the time has been confined to his room in charge of a nurse who accompanied him charge of a nurse who accompanied him from Wyoming. It is said that while the nurse left the patient for a few mo-ments today, Reed procured a revolver in the room and ended his life.

TERRIBLE SUFFERING FROM FAMINE IN CHINA.

Washington, Jan. 30.—The appalling conditions in China as the result of the famine, as told in Chinese newspapers and other mail advices reaching the state department, coupled with the warning given by Consul General Rod-gers of the possible effects of the out-breaks which daily occur in the famine districts, have attracted the attention of the government authorities and de-

of the government authorities and de-velopments will be closely watched. One of the greatest dangers the re-lief workers confront is an epidemic. In the great concentration camps which have been formed by refugees who have field from the stricken districts by the tens of themsands the people live some tens of thousands, the people live, some of them only partially clothed, others

AN INVESTIGATION BEFORE RESIGNATION.

Albany, N. Y., Jan. 30.—Gov Hughes created a mild sensation tonight by re-quiring Adit.-Gen. John H. Henry to revoke the military orders issued last night, which would have permitted Capt. Lewis W. Wendeil of the First battery to leave the military service of the state by the acceptance of his resignation without further investiga-tion of the much-discussed charges against him of irregularities in the management of the armory under his charge.

management of the armory under his charge. The order directs the court of in-quiry appointed, to convene and con-tinue its proceedings. The resignation of Capt. Wendell, dated Jan. 22. came up through nation-al guard headquarters to which the artillery organizations are attached, and is said to have been indorsed with the approval of Maj.-Gen. Charles F. Roe, commanding the national guard. Later came through the same chan-nels a waiver dated Jan. 26, by which the accused officer agreed to waive any right to honorable discharge and accept any form of discharge which might bo accorded him.

PHILADELPHIA FILTER PLANT. Judge Beitler Renders Decision Declaring Five Contracts Null and Vold.

claring Five Contracts Null and Vold, Philadelphia, Jan. 30.—Judge Beltler tonight handed down a decision in the suits of the city against the firm of J. M. McNichol & Co. to recover \$5,000,000, which it was alleged had been fraudu-fently received by the firm on contracts for the construction of the city's filtra-tion plant. The members of the firm at the time the original contracts were awarded were Mrs. McNichol, wife of State Semator James P. McNichol, Is-rael M. Durham, the Republican leader;
