FIFTY-FIRST YEAR THE NEW YORK AGREEMENT HAS NOT BEEN SIGNED Secy. Long Orders the Armored | Turkish Finances Are in An In- | A Republican Authority on Finance

Time Expired Last Night-The Probabilities Are That It Will Be Shortly-Negotiations Continue-Result Uncertain.

signed the Matchurian agreement last night when the time expired.

The ministers of the powers do not consider that the murder of Rev. J. Stonchouse, of the London Missionary suciety, who was killed by Chinese brigadd if miles cast of Tien Tsin recently, uffects the Chinese situation politically. They are perfectly aware that the counor around Shi Nan is infested with robbers who are naturally hostile to forsigners and would take such an opportunity as in the present case to kill one. Mr. Rackhill, the special commissioner of the United States, says he of the Onited States, ships no trave alme in the country districts and guards cannot be supplied to the ulsionaries. Consequently those going into the country take considerable The district in which the murder first. The district in which the murder was committed is policed by foreign troops. Therefore, China is not officially troops. Therefore, China is not officially responsible. The foreign troops practi-cally gutted Shi Nan of everything worth taking, and the people there are independent at all foreigners. The mis-independent at all foreigners. The mis-sionaries attribute the murder to the lemency of the powers toward China, which exists them seem to be afraid. which makes them seem to be afraid. The ministers have many different views on the indemnity question which may result in considerable delay in the negotiations on that subject.

BRITAIN MAKES PROTEST.

Washington, March 27 .- A dispatch was received here today from one the foreign offices to its representative stating that the British government had made a protest against China's had made a protest against China s negotiating a convention with any power touching territorial or financial affairs until the present troubles in China are settled. The protest was made through Sir Ernest Satow, Brit-ish minister at Pekin. It is under-stood to have been made within the last The Present agreement day or two. The Russian agreement is not specifically referred to, but, it s stated, the British action is clearly irected against that agreement.

MUST NOT SIGN CONVENTION. London, March 27 .-- The officials of

Pekin, March fi-The Chinese had not Liu Kun Yi, the viceroy of Nankin, ordering that the Manchurian convention should not be signed March 25, the date fixed by Russia. An intima-tion of this decree has been telegraphed to the various governments concerned. CONVENTION WILL BE SIGNED SOON.

St. Petersburg, March 27.-The cor-respondent of the Associated Press is informed on competent authority that the Russo-Chinese agreement probably will be signed shortly. However, the negotiations continue, and the result is not yet certain. While it is possible the details will be slightly modified, the arrangements will be substantially as demanded. According to the Russian point of view, an abatement of what are here regarded as moderate demands would be inconsistent with Russian interests and would not sufficiently safe. guard the frontier and railroad. The draft of the agreement now being discussed does not mention and does not affect Mongolia or Turkestan. It concerns Manchuria exclusively. Mongolia or Turkestan has never been included in the formal draft, as the correspond-ent of the Associated Press is in formed, but they formed a subject. with Manchuria, of an exchange of ideas preliminary to formal negotia-tions. The agreement will be designed for the protection of existing interests and rights and not for the acquisition of new things. It is diplomatically ad mitted that Russia is seeking certain guarantees for future security, and it is positively certain that no powers

have protested, even Japan refraining from this attempt to interfere between two other governments. However, the Japanese ministers discussed this and other phases of the Chinese question with the foreign officers. The statement of the Japanese foreign minister that Japan will necessarily demand compensation if the agreement is signed has not made a decisive impression, for, as the authority of the correspondent of the Associated Press says, promises or threats and their performance are often quite different. Russia does not object to the principle of Count von Juelow, (the German imperial chancellor), that the agreement will not diminish substantially China's ability to pay an indemnity, since the arrangement does not affect the existing commercial rights of other nations in Manchuria. Obstacles Not Placed in Way of Con-Proclaim Mohammed Resha Effendi Sultan - Tension Between Bulgasul Gummere Getting Access to the Court-All Moving Smoothly.

COES TO MANILA

Cruiser from Tangier.

Washington, March 27 .- Secy. Long today cabled an order to Admiral Rogers, on board the cruiser New York, at Tangier, to proceed at once with that vessel to Manila. This is an abandonment of the plan to have the New York convey United States Consul-General Gummere from Tangier to Mazargan, in the attempt to collect American claims, It is the purpose of the state departmen to endeavor to adjust these claims and other outside issues against Morocco without any show of force and in the ordinary practice of diplomacy.

It is said that the United States consul-general who has conceived that ob. stacles were purposely placed in the way of his access to the court, has received assurances that the actual reason for the departure of the court from Morocco was to pay a long due visit to another section of the country. It also was promised that the court would return within a month or six weeks and would receive Mr. Gummere probably even at Mazargan, thus obviating the necessity on his part for an overland journey to the capital. In this view of the case, and the New York being badly needed in the east to take the place of the Newark, it was decided to let the vessel proceed at once on her voyage. Mr. Gummere probably will now en-ter into fresh communication with the Moorish government to secure another

appointment for a meeting.

Rathbone to Have New Bail.

Havana, March 27 .- Estes G. Rathbone, former director general of posts in Cuba, will be given an opportunity to secure another bondsman before the order for his rearrest is carried out. His attorneys are hopeful of getting new bail. In any event, the attorneys will ask for an immediate trial.

Miners and Operators Agree.

Massilion, March 27 .- The miners and operators in conferênce reached an agreement whereby the new scale goes into effect April 1. The operators gained some alterations in the working rules, but all changes repwho was in this city last night, seemed to be much concerned about the seizresenting dollars and cents are in the miners' favor. The most important are ure of Manchuria by Russia and In-clined to believe that if other powers an advance of 2 cents a car for slack, the reduction of 10 cents per keg in the allowed China to be forced to part with price of powder and a reduction of 10 cents per ton in the price of house the province the result would be the partition and dismemberment of China.

London, March 27 .- Advices received from Constantinople are to the effect that affairs are rapidly reaching a dangerous pass there. Turkish finances are in an inextricable confusion. Government salaries are from six to eight

months in arrears. Upwards of a million Turkish pounds are due for war material, while the military expenditures are daily increasing, in order to cope with the rebellion in the province of Yemen, in southern Arabla, and the possible rising in Macedonia. There is no doubt that the Ottoman troops received a severe check at the hands of the Arab insurgents, who, in a manifesto denouncing the sultan, pro-

claimed his brother, Mohammed Resha Effendi, to be sultan with the title of Mohammed V. The young Turks party have adhered to the Arabian proclama-tion, and the open enmity of Abdul Hamid, the sultan, has spread to the palace and the sultan's advisers. Izzet Bey is said to be preparing for flight. The patrols of Constantinople have been doubled. Mohammedans and Christians are arrested hourly, and large numbers

The tension between Bulgarians and Mussulmans in Macedonia is extreme. It is reported that another band of marauders has crossed Bulgaria into Macedonia.

Alex. Brown Resigns Directorships.

Baltimore, March 27.-Alexander Brown, the head of the banking house of Alexander Brown & Sons of this city. has resigned all the directorships held by him in financial institutions and will temporarily retire from active busi-ness. He does this on the advice of his physician as a preliminary step to a prolonged tour through Europe. Mr. Brown has financed a large number of important deals, involving more than \$200,000,000 during the past three years,

BILL HERE.

AUTHOR OF HILL.

Visits Salt Lake.

Chinlesp

Congressman E. J. Hill of Connecticut, accompanied by Dr. W. F. Acton, of Norwalk, Conn., came in this morning and registered at the Knutsford. Congressman Hill represents the Fourth district of his State in the national Congress, and is a member of the banking and currency and the coinage, weight and measures committees. He was the author of the "Hill bill," which was favorably reported upon by the banking and currency committee, but did not come up before Congress at the last session, on account of the subsidy bill, which took so much

time. The measure proposed by Congressman Hill dealt with the interchangeability of gold and silver as a means to give to the secretary of the ireasury the power to maintain a parily between the two metals, as the law provides that he shall do. Congressman Hill and Dr. Acton are

en route to San Francisco, and expect to sail on the Buford on Monday for the Philippines. After a trip over the islands to gather information respect-ing their condition, government, and finacial situation, they will proceed to China, thence to Hongkong and Japan. They will then go by way of Shang-hal, China, to the Trans-Siberian rail-way, which they will take to St. Petergurg, Russia. Congressman Hill says the trip is one of pleasure and that he goes in no official capacity whatever.

"Dr. Acton and I made the trip to Porto Rico directly after the war, said the Congresman, "and we are try ing to keep pace with the growth of the country in seeing the new possessions. These trips will enable me to vote much more intelligently at the next session of Congress on some vexing questions

This morning the distinguished visit-This morning the distinguished visit-ors to Salt Lake were met by Con-gressnan King and by him were shown the places of interest. The party lunched at the Alta club and this after-noon are seeing Saltair. The Con-gressman and Dr. Acton leave for San Francisco tomorow morning

During the coming season the Rio | be put into the construction of the cut. Grande Western, or to be more correct, the Colorado-Utah line, will inaugurate a year of railroad construction in this State along lines that will have the effect of circulating money in

"SCENIC CIRCLE"

Sevier and La Sal Branches Will Also

Be Extended and Iron County

Resources Tapped.

Utah to a welcome extent, At the present time, with the exception of the \$250,000 bridge work, everything is at a standstill; even the letting of the contracts for the excavation for, and the erection of, the power plant and machine shops here has been postponed until "further notice." It is said, however, that as soon as the mammoth incorporation to cover the Utah-Colorado lines is perfected here that that the dirt will begin to fly in ail directions.

THREE PROJECTS.

Among the projects which were looked into by the Bogue party when they were here three weeks ago were the feasibility of building a line to Cedar City, presumably to tap the extensive coal and iron deposits; the building of the La Sal branch and the completion of the Scenic Circle by extending the line from Heber to the Ontario tunnel at Park City.

SCENIC CIRCLE.

This latter proposition has been talked for several years past but the Western apparently did not see its way clear to build the dozen miles over that difficult country which lies between the termini of the Park City and Heber branches. But Park City is constantly becoming a greater producer and also a large consumer of coal. By building that extra few miles of road the Rio Grande Western would save the long haul of ore via Salt Lake en route to Pueblo, where all the Park City ore is shipped to the smelters. In the matter of coal also, the fuel can be shipped direct from Castle Gate, a distance of 70 miles against 146 via Salt Lake, a saving of over half the distance,

off. The residents of Park City as well as the financiers who have a mint of money invested in and around that camp, will hall the building of the cutoff with delight.

TO BE BUILT.

WILL BE WELL PATRONIZED.

From a passenger standpoint also the Scenic Circle would be well patronized; for there is not another trip in the State which affords such grand and varied scenery, cool summer retreats and splendid fishing as does Provo canyon, with its crags, waterfalls and rushing river.

It is said that the Bogue party was very much impressed with the feasi-bility of the extension of the Heber City branch, and the matter will be among the first to receive attention under the new order of affairs. The road is scheduled in the construction work for an early date.

SEVIER BRANCH EXTENSION.

In addition to the La Sal branch it is also said that the present Sevier branch it is also said that the present Sevier branch will be extended for over 130 miles be-yond Marysvale to tap the coal fields in the vicinity of Cedar City. With plenty of coal thus at their disposal the future of the Western is brighter than ever and the Sanpete branch would be placed first on the list when it came to tonnage.

COAL COMBINATIONS.

The proposition of tapping the Iron county deposits has been under consid-eration for some time past by the Pleasant Valley Coal company whose interests are so interwoven with the Rio Grande Western. It is stated that this company has had agents in the field for some time past getting options on the various properties in the vicinity various properties in the vicinity of Cedar City, and that a consolidation of the coal interests of this State, under the name of the Utah Fuel company, will be a feature of the will be a feature of the near future. As has been before stated the coal prop-trties of the Pleasant Valley Coal company at Castle Gate. Sunnyside, Sco-field, Clear Creek and Winter Quarter's are said to be included in the pending D. & R. G.-R. G. W. deal, but, it is said, that far from affecting the properties, on the other hand the development of coal lands adjacent in the Ric Grands on the other hand the development of coal lands adjacent to the Rio Grande Western branch lines will be pushed to the limit until Utah will take the lead among the coal producing States of the

OXFORD-CAMBRIDGE RACE. Crews of Both Universities Do Some

Very Fast Rowing. London, March 27 .- Both the Oxford and Cambridge crews did some fast rowing this morning with scratch crews from the Thames and Leander clubs, respectively, both easily leaving their pace-makers behind.

Seldom has there been such uncertainty as to the result of the university boat race as pertains to the contest that is to take place next Saturday. Even the most confident river proph-ets hesitate to definitely forecast the outcome of the race. Experts consider the two crews to be the most evenly matched in years. Oxford is generally admitted to have the best style and fin-ish, but this is supposed to be minimized by the superior strength and staying powers of Cambridge. The result of the toss for position and the state of the water are likely to settie the event. The betting has veered frequently. Today it is 6 to 4 on Oxford.

Continued Bitter Cold in Europe.

London, March 27 .- The weather in Europe continues as bitter as ever. There is frost and snow everywhere. Seven to ten degrees of frost were reg. istered in the London suburbs early this morning. There is considerable thickice on the lakes. Heavy snow ness of storms have swept over northern France, and there are several inches of snow on the streets of Paris.

ENCOUNTERS WITH BOERS.

Many Indecisive Ones at Separated Points Daily. Capetown, March 27,---Indecisive en-

counters at widely separated points are reported daily. Fighting took place yesterday at Tarkastadt and Henning fontein, both in Cape Colony. The cas-

ualties were few. A commando numbering 200, under The most important case is that of Commandant Fourie, was dispersed at the ship Itata, which during the Clilian Thaba N'Chu.

troubles some years ago, left San Diego, California, with alleged arms Thaba N Chu. According to reports received here the hills above Dewetsdorp, just re-occu-pied by Gen. Bruce Hamilton, were also the scene of a fight lasting sevand contraband goods on board. Chill has made, a large claim for this alleged breach of neutrality. The case will be about the last one disposed of. It eral hours yesterday.

Japan and Russia.

New York, March 27 .-- A special to the World from Washington says:

Mr. Krogore Takahira, the Japanese minister, when asked if the opinions attributed to Mr. Mastu, first secretary of the Japanese legation at London. orrectly represented the attitude Japan toward Russia, said: "At this moment I know there have been exchanges of views between the governments concerned. I suppose some of them are still under consideration and I have no doubt that every one is study-ing the matter with the hope of coming to a peaceful solution. There-fore I am not in a position to say what action will be taken by the Japanese in case the Manchurian negotiation reaches the consummation, and I can-not be certain as long as I do not know

in what shape it will be concluded. I must however, say that the Japanes government has been acting through out the whole negotiation with the hope of safeguarding the peace and interests -* all parties concerned.

Yard authorities refuse to confirm or

country to give a series of lectures.

Francisco tomorow morning.

When seen by a representative of the "News" after their luncheon at the Alta club, Congressman Hill said, "This is my first visit to Salt Lake, and you have a most delightful city. I en-joyed seeing the historic Tabernacle and should have liked to hear the organ. Ex-Congresman King is very well thought of indeed on the Republican side of the House and though we differ in politics I am happy to claim him as a friend. I stayed over a day to see him.

"No, the bill known as the 'Hill bill would not have affected the price paid for silver bullion; it would have simply enabled the secretary of the treasury pay gold for sliver or vice versa as desired by the holder of either, and in that way to maintain the parity of the two metals. Nothing can affect price paid for silver bullion except the relationship of supply to demand and no legislation in the world will affect that except in a general way, "What will be the action of the next

Congress on the financial question?

'It is rather a broad subject but I think that the drift of congressional pinion is towards the establishment of what is known as an 'asset banking system.' I think a measure will be ntroduced providing for the ultimate withdrawal of government bonds ecurity for the circulation of the banknotes and other currency; the use of he government property, and institutions as security, the use of currency gold and silver instead of paper money, in denominations less than \$10; and providing for the interchaneability of gold and silver.

Judge King said today that Congress man Hill is one of the ablest Republi-cans in Congress and is not only one of the best posted congressmen on finanial questions but is an authority on them.

DR. LEWIS HEAVILY FINED.

Charges Criminal Carelessness.

"In this case there has been criminal carelessness, and the court has no hesitancy in saying that the defendant is guilty. Where a man goes to a doctor's office with eruptions on his face, especially when smallpox is prevalent, and the doctor prescribes for him. isolates him and provides for a nurse to wait upon him and then neglects to report the case to the authorities, there is criminal carelessness and the defendant is found guilty."

Judge Timmony in the police court this aft. 1 aoon and were directed to Dr. Alva Lewis, who was charged with failing to report to the board of health a case of

The evidence in the case showed that on March 14th William Gray went to the office of the defendant with an eruption on his face and asked for medical advice. Dr. Lewis prescribed and instructed the patient o secure a house and an attendant and remain there pending the development of the case. This was done and the place secured was 544 south Second East. On the 20th Dr. King and other city officials discovered the case and pronouncing it to be smallpox sent the patient to the isolation hospital. Dr. King testified that the case was of several days' standing when he discovered it, and no report had reached him from Dr. Lewis. The latter main-tained that he did not know that Gray had smallpox, but admitted taking the precautions and prescribing for Gray. The prosecution was conducted by

City Altorney Stephens. Dr. Lewis made a brief statement, the effect of which has already been stated, and the court told him to stand up.

"The sentence of the court is that you pay a fine of \$50. In default of pay. ment you will be committed to the city jail at labor for fifty days."

Dr. Lewis gave notice of an appeal.

to say nothing of the long an expensive haul, which more than represents a good interest of the money which would

BOY GETS SIXTY DAYS. Charges of Burglary and Housebreak-

ing Against Renshaw Dismissed.

A youth named Horace Renshaw was taken before Justice Nielson this morningon thecharge of housebreaking. and upon motion of the county attorney the charge was dismissed, but Renshaw was immediately re-arrested upon the charge of petit larceny. This makes the third time the young man has been arrested for the same offense, viz, the stealing of an 8-gallon keg of beer from an ice house of the Rio Grande Western.

When first arrested Renshaw was with two other boys, namely George Powell and Andrew Burt. They were charged with burglary, but that charge was withdrawn, and Powell and Burt were given ten days in the county jail for petit larceny. This morning Ren-shaw entered a plea of guilty to the lesser charge. Justice Nielson called attention to the fact that Renshaw had been very fortunate in having the grave charges against him dismissed, in view of the fact that numerous complaints had been made against him. He then sentenced him to sixty days in the county jail.

LATE LOCALS.

A. C. Mayer, of 220 J street, drove up in front of Gallagher's trunk factory on Third South street this afternoon, and while in the store a man stole a \$3 sack of salt from his buggy and made away with it.

Nine new smallpox cases were report. ed to the health office today. They are Bessle, Ethel and Myrtle Morgan, corner of Eighth North and Fifth West streets; C. H. West, 737 south Eighth West; Eliza Powell and her children,

Edward, Janie, Harriet and Elsie, 1045 west Eighth South. In announcing last night that M. H. Weight, formerly of this city, was a candidate for mayor of Pasadena, the typo wrote Wright by mistake. But it Weight, at one time manager of Saltair.

The friends of Francis M. Lyman, Jr., will be pleased to know that he enjoyed restful night last night quite soundly. As a result his condition is much improved today it lieved that a few night's sleep will put him on the road to recovery. His great trouble has been insomnia. That overcome it is thought all danger will have been passed.

Another Railroad Rumor.

Chicago, March 27.--A special to the Record from the City of Mexico says: Chicago and New York capitalists have, it is said, practically secured a concession for a railroad through th northern part of the republic. It is be leved the road will connect with the Mexican Central at or near Chihuahua, and will run through the state of Son-ora to the Gulf of California.

Still Another Denial.

Chicago, March 27 .-- In regard to the umor that the Chicago. and Pacific rallroad would absorb the Mexican Central, President W. G. Rock Island Mexican Central, President Purdy of the Rock Island said:

"There is no truth to the report that the Rock Island is contemplating any consolidation with the Mexican Cep-tral railroad."

Edward D. Kenna, first vice presi-dent of the Atchison, Topeka and Santa Fe, said: "The Santa Fe road has made connection with the Mexican Central for a number of years at El Paso, and has been sending through sleepers into Mexico. This arrangement will con-tinue, though no consolidation is planned."

West, and will mine fuel not only for the inter-state consumption but for shipment to the coast,

GERMAN CROWN PRINCE.

Story that He Is to Wed an Austrian Princess Denied.

Berlin, March 27 .- The Cologne Gazette says regarding the rumors that the crown prince, Friederick Wilhelm, intends to marry an Austrian princess, that the Gazette is reliably informed that the crown prince will, in no circumstances, marry a Catholic, but either a German or an English princess.

Man Murders a Little Boy.

Williamson, West Virginia, March 27. Near Six Mile yesterday, Charles Core, 20 years of age, shot and instantly killed a seven-year-old son of John Hogar and seriously wounded the father, because some one had stoned his horse, He escaped to Kentucky.

Men Working on Marcseilles Docks.

Mareseilles, March 27 .-- Twenty-five hundred men are working on the docks this morning while the street car and dray traffic of the city is almost normal. The strikers unsuccessfully attempted to get the drivers to quit. Numerous patrols are on the street but everything is quiet.

English Iron Wages Reduced.

London, March 27 .- In consequence of the reduction of the selling price of iron, wages throughout the north of England in the manufactured iron trade will be reduced 7½ per cent April 1. This is the largest reduction recorded since the

adoption of the sliding scale in 1889. The production of manufactured iron for the months of January and Febru-ary of this year is 2,000 tons less than for any preceding two months since

Offer to Put Up Armor Works.

Berlin, March 27 .- The Rhenish papers announce that an important Rhenish iron and steel firm has made a proposition to the German government to establish armor plate works at its wn cost and furnish Germany with armor plate at the same price the Krupp firm furnishes it to the United States if the German government will guarantee to give the firm at least a part of the naval orders. The govern-ment is said to have the proposition under consideration

Inquiries made by the Associated Press show the United States government has bought no Krupp armor abroad but the government has used armor made in this country by the Krupp process.

No Election in Nebraska.

Lincoln, Neb., March 27 .-- With but one more day left in which to bailot for United States senator, the vote today showed little change, Senator Arends, who has been voting for D. E. Thompson, the caucus nominee, chang-ed to a new candidate, Judge Paul Jes. sen, of Nebraska City. Four members who have been remaining out of the caucus went with him. The senator explained his vote by the declaration that it was time to desert all candidates

and take up new ones. The ballot: D. E. Thompson, 57: Hinshaw, 7: Meiklejohn, 24: Crounse, 7: Currie, 7; Rosewater, 29: Allen(fusion), 48: Hitch-cock (fusion), 44: W. H. Thompson (fu-Lyman(fusion), 21; Baldsion). ridge, 2; Jessen, 5.
