

Wednesday Sept. 1, 1886

FRAGMENTS.

THERE was a heavy storm of rain and hail this morning on the sandridge between Keyville and Oakes.

AUGUST BERTHAM was arrested early this morning, by the police, and lodged in jail to await trial on the charge of drunkenness.

CHARLES A. DAVIS and R. C. Campbell, press agents of Cole's circus, have been in the city, and on their way to the circus which will perform here on the 22nd and 23rd of this month.

LOCAL NEWS.

A Good Improvement.—Workmen yesterday, commenced the putting in of a cut stone culvert along the south side of the Temple Block, in the bed of the present water race. It is needed, and will be a neat looking improvement.

Washout.—This morning the south bound Utah Central passenger train was stopped at the point of the mountain by a washout which had occurred above the track during last night's storm. Considerable gravel was washed on to the track. After about an hour's delay the train proceeded on its way.

Thanks.—From "Observer" and also from "W. H. C." of Snowville, we have received particulars of the fatal accident to the son of J. S. Larkin, which happened at that place on Thursday last, but not until another account of the occurrence was in type. These correspondents have our thanks, however.

To Be Tested.—The necessary steps have been taken to have determined whether or not Commissioner McKay was justified in refusing to discharge H. J. Foulger, J. P. Ball and W. H. Lee. *Hibbs* corpus proceedings in their cases were to be had before Judge Zane this afternoon at 3 o'clock.

To Justices of the Peace.—Justices of the Peace in the Third Judicial District will please make a note of the fact that they should have the papers in all cases referred by them to the grand jury, forwarded to them by the second Monday in September. This ought to be done, that persons who are under bonds, or imprisoned may have their cases brought before the grand jury without unnecessary delay.

Emigrants.—A private telegram received this afternoon states that forty-four members of the last company of emigrants have been detained in New York, for no reason except that they are "Mormons." The rest of the company were to leave New York this evening, and will reach this city via the D. & R. G. The total number of the company on leaving Liverpool was 301 souls.

Fatal Accident.—On Thursday last an accident occurred at Snowville, Box Elder County, which resulted in the death of Elijah Alma Larkin, a six-year old son of J. S. Larkin, and nephew of Brother George Larkin of this city. It appears that the little fellow was playing with a companion beneath a wagon loaded with hay, when his brother, who did not see him, started the team, and the wheel passed over the child's head, inflicting injuries to which he succumbed about twelve hours afterwards. The remains were brought here for interment, and the grief-stricken parents, as well as the neighbors in Snowville, rendered in the bereavement, are duly appreciated.—*Ogden Herald.*

"The History Company."—We are in receipt of a circular containing the information that, for the publication of the historical works of Hubert Howe Bancroft, which has been withdrawn from the house of A. L. Bancroft & Co., there has been incorporated, with ample capital, The History Company, which will occupy quarters as soon as ready, in the elegant structure, to bear the name of The History Building, now in course of erection on the site of the former Bancroft building, 711 and 723 Market Street, San Francisco, the incorporators being H. H. Bancroft, President; N. J. Stone, Vice President; and Manager; M. G. Bancroft, O. A. Stone and K. K. Bancroft.

Accidents.—Last Wednesday a little son of James Chadwick of Franklin, was riding a horse, and the animal threw him against a post. His right arm was broken near the elbow, and cracked just above that point. Dr. Ormsby attended the wound, and on Thursday evening about 11 o'clock a man named Jensen was brought from Hyrum and taken to Dr. Ormsby's office. He had been eating plums about 7 o'clock and one had lodged in his throat. He suffered from difficulty in swallowing. With great difficulty the doctor forced the plum downward into the stomach, and the last account the man was a little better, but the plum was still bothering him and his throat was very sore. We trust he will recover, it may prove a serious affair.

The Indian boy whose leg was run over at the Logan depot last Monday died at Blackfoot Tuesday night, from the effects of the injury.—*Utah Journal.*

Under Bonds.—Last evening a couple of deputy marshals called at the residence of Isaac Brockbank, with a warrant of arrest for that gentleman and subpoenas for his family to appear before Commissioner McKay. The witnesses were also notified that they were wanted by the grand jury on September 10th. Mr. Brockbank was not at home at the time, having gone down to his farm south of the city. When he returned he was informed of what had taken place and this morning gave himself up to the U. S. Marshal. He was taken to the Commissioner's and waived the preliminary examination. The complaint against the defendant was filed on July 10th, and is made by Hugh S. Glenn. It alleges that from August 1, 1885, to July 1, 1886, the accused lived with Kate Howard Brockbank and Mary Ann Parks as his wives, contrary to the provisions of the Edmunds law. Bill in the sum of \$1,000 was given. Wm. Groesbeck and Hyrum Groesbeck being sureties.

Humorous Comments.—A correspondent writing from a point near Soda Springs, signing himself "A Subscriber," jocosely speaks of that town in the following strain:

Soda Springs is destined in the near future to be the Saratoga of the West. There are only two drawbacks now that hinder it from having a boom: one is the strong tendency everything has in and around the springs, or around the town, to petrify. Everything you see is more or less affected. A few shade trees have been set out every year and have turned to stone. This, though, might add to the novelty of the scenery. Even the goods in the stores are looking that way, and the clerks are no exception to this general rule. Imagine a store with petrified clerks.

The other great trouble is experienced after drinking the water of the Springs. After a person has drunk three or four gallons of soda water the reaction commences, and he continues to "spout" and "gas" for several days. The writer has known men of good reputation, whose veracity was never questioned, until they commenced visiting the famous springs, in whose statements he cannot now put much confidence. But of course they pass away in a few days after they return home.

CITY COUNCIL.

The City Council met in regular session at 7 o'clock last evening, Mayor Armstrong presiding.

T. W. Ellerbeck and others, residents of "Heber's Bench," called the attention of the Council to the huge excavation at the head of Main Street, and the danger to life and limb. They therefore asked that the hole be filled. They also asked that a sidewalk be constructed upon the upper side of Arsonal Hill, where now there was a steep and dangerous trail. Referred to the committee on streets and alleys.

Edward Atken, having sold out his business at 75 W. Second South Street, asked that this license be transferred to Alfred Smith. Granted.

James M. Harvey had eight houses he desired to move a couple of blocks, and asked that he be allowed to use the streets for such purpose. Petition granted, the work to be done under the direction of the street supervisor.

W. W. Cole applied for license to carry on the business of circus and menagerie for two days, commencing September 22d, 1886. After considerable discussion, the petition was granted under the usual restrictions.

The committee on water works, to whom was referred the petition of Emma McGill, asking that she be allowed to draw water from the mains for her own use, reported as follows:

SALT LAKE CITY, Utah, August 20th, 1886.

To the Honorable the Mayor and City Council:

Gentlemen:—The committee on water works, by the Mayor associated, to whom was referred the petition of W. H. Shearman and other residents of Heber's Bench, asking that the petition of Emma McGill, asking that she be allowed to draw water from the mains for her own use, reported as follows:

THOMAS G. WEBSTER, FRANCIS J. GRANT, Committee on water works.

The committee on police, to whom had been referred the Marshal's report for the month of July, 1886, reported that they had examined and found it correct.

The following amounts were approved:

To Dr. Anderson \$150, and Dr. Hamilton \$10, for professional services to S. M. J. Scullen, who had his foot caught on the gravel train while in the city's employ.

To the Marshal's contingent fund, \$500.

To the Watermaster's fund, \$1,000.

To the City Engineer, \$1,000.

For improvements on Liberty Park, \$500.

The council then adjourned until Tuesday next.

RAID ON FARMINGTON.

THREE ARRESTS MADE BY MARSHAL DYKE AND DEPUTIES.

At daylight this morning Marshal Dyer, Deputies Greenman, Vandercook and several others began the work of making arrests at Farmington about 3 o'clock the house of

EMMA T. CLARK was visited, and that gentleman placed under arrest. When brought before Commissioner McKay this afternoon he pleaded not guilty to a complaint made by Daniel W. Rench charging him with unlawful cohabitation with Mary Clark, Susan Doe Clark and Nancy Roe Clark, from September 1, 1885, to August 1, 1886. The complaint was filed on August 12th.

Assistant District Attorney Varian appeared for the prosecution and J. H. Moyle, Esq. for the defense.

Alice Clark was the first witness called, she testified: The defendant is my father; my mother's name is Susan; she is married to my father; my father is also my father-in-law; I don't know where Nancy Clark lives; Annie Clark is my sister; Mary Clark is my mother; my mother has nine children, as married my father does not live with my mother but with Mary Clark; he has eaten at my mother's house with the hired men who work the farm; my mother has seven children, the youngest four or five years old; Mrs. Mary's house is opposite my mother's, on the other side of the street; my father owns both houses; he lives all the time with Mary Clark; I saw Mrs. Nancy Clark last week, when she called at Mary's house; she said that her husband had stayed there over night; my father was there; I never saw all three of them at one time; Nancy is reported to be father's wife; she has had children; I do not know where any of them are; I saw her about a year ago; I last saw Nancy a week ago Sunday at father's house; in the afternoon; I also saw her at meeting; I don't know where she is now; three years ago she lived on father's farm, next to my mother's house and across the street; my brother lives there now; I saw Nancy moving away; she went north; she hasn't lived in Farmington since; she came on the train last week; she has visited occasionally and stayed at my brother's; I have seen her at meetings but they were not together; my father has not stayed at mother's during the last two or three years.

Cross-examined by Mr. Moyle.—My father takes meals at mother's only when he is working there; he is sometimes away for months at a time; my father was at home when Mrs. Nancy Clark called.

To Mr. Varian: I never heard my father say Nancy lived at Kanab. Miss Annie Clark was next called and testified: I was subpoenaed this morning and refused to give my name. I am the defendant's daughter; I never told the Marshal I was a hired girl; I live at Mrs. Mary's house at present; I have been at Farmington during the last year; I have been at Bear Lake; my home is at mother's; I know Nancy Clark; she was reported to be father's wife; my father's child is perhaps 25 years old; I do not know where she lives; I was not home when she moved away; she was at Farmington last week at my brother's house; father never made any money there; he lived at home during the last three years.

The examination was in progress when at 5:30 a.m. Captain Greenman served a warrant of arrest on

W. H. WATSON, under the name of John Doe Watson. The complaint in this case charges the defendant with having, from Sept. 1, 1885, to August 1, 1886, lived with Jane Doe Watson and Jane Newbold as his wives, and is sworn to by Daniel W. Rench. When asked what plea he had to make, Mr. Watson replied that he had two wives, and the interpretation given by the courts to the Edmunds law, he was guilty. His second wife had lived on a farm in Cache Valley since July 16, 1884. He had lived at Farmington, where he was section foreman on the Utah Central.

Ball in this case was fixed at \$1,000, and Joseph E. Robinson and James R. Miller became sureties.

Another of the number arrested was

LEONARD G. RICE, also of Farmington. The offense charged in this case is unlawful cohabitation. The home of

JONATHAN WOOD was also called at by the deputies, but Mr. Wood was not at home, so no arrest was made.

The Nebraska State Fair will be held at Lincoln, Neb., from September 10th to 17th.

Grist Mill at Soda.—We are informed that there is a probability that a grist mill will shortly be erected near the town of Soda Springs, on Soda Creek, to be run by water. It will be a great convenience to settlers in that vicinity who are now compelled to travel from 20 to 100 miles to get a grist ground. Build the mill by all means.

Y. L. M. I. A.—The Secretaries of the Y. L. M. I. A. of the different States will please prepare their semi-annual reports and forward them as quickly as possible so that the Young Ladies' Association may be creditably reported at the October Conference. Reports must not be later than the 20th of September. Secretaries are requested to use the new and improved blanks for the Y. L. M. I. A. now for sale at the DESKERT NEWS OFFICE.

LOUIE M. WELLS, Sec. Central Board, Y. L. M. I. A.

Electric Storm.—The shower last evening brought to a great extent, in Davis County as well as here, the character of an electric storm. Along the east shore of the Lake there were very frequent flashes of lightning, of the most vivid character. One would naturally apprehend, under such circumstances, that there would be danger of the explosion of one or more of the powder magazines north of this city. Such apprehensions would be heightened by the recollection of the disaster in Chicago the other day, caused by lightning striking a powder magazine.

Mortality Report.—Following is the City Sexton's report of deaths during the month of August, 1886:

JOSEPH E. TAYLOR, City Sexton.

Notice to Relief Societies.—It is now quite time to prepare State reports for the general report to be handed in at the October Conference, and presidents and secretaries are hereby notified to be prompt in sending in the same. The headings designated on the blanks. Nothing is to be reported except under one or the other of the printed heads. Missionary and Indian donations are included in charitable disbursements. What is computed by bushels. If real estate increases in value send in increase. Show in the receipts for the six months. Presidents and secretaries are requested to attach full names and addresses to reports. Reports are hereafter to be sent to Dr. Roman B. Pratt, office over Goodie & Pitts' drug store, Salt Lake City, Utah, and the current report must be sent in promptly by the 15th of September, and if later than the 20th they cannot be used. Any items of interest or important facts relating to the Relief Society worthy of record in the books kept by the secretaries, should be sent to the Central Board should be sent carefully, and duly authenticated, to Mrs. Sarah M. Kimball, Secretary Central Board, Relief Society, No. 74 S. Second West Street, Salt Lake City, Utah.

DR. R. B. PRATT, Ass't. Sec.

From Tennessee.—Elder Alvin J. McCullison of Tooele City, who has just returned from a mission to the Southern States, called upon us this morning. He left Utah April 18th, 1884, and labored during the whole period of his absence in the Western Tennessee Conference, which embraces the counties of that State and a few of the northern counties of Alabama. Elder McCullison reached this city last evening, bringing with him a company of eight Saints from Tennessee and North Alabama. He met some serious obstacles in bringing this company through, but at length succeeded in the undertaking. He is under special obligations to J. M. Sutton, Esq., Traveling Agent of the Virginia, Tennessee & Georgia Air Line, who comprises several roads; and also to Ed. M. Sutton, Esq., Southern Passenger Agent of the Atchafalaya, Topeka & Santa Fe road at Chattanooga. Elder McCullison expresses his sincere appreciation of the courtesies extended to him by these gentlemen, and also by other railroad officials with whom he came in contact.

The condition of the work in the conference named is good. Elder McCullison baptized nine persons shortly before leaving his field of labor, and he reports that in neighboring counties there are a number of persons thoughtfully converted, who will likely be baptized soon.

Recently, in West Tennessee, Elders Peterson of Sanpete and Stanger of Weber County, baptized a man and his wife. In the evening a large congregation attended the confirmation meeting, which was held in a private house. After the meeting a crowd of mobocrats made threatening demonstrations, but about a dozen young fellows announced their intention to defend the Elders. The mob then contented themselves with serving upon the Elders a written warning to leave the neighborhood. The warning was not heeded, but up to last accounts no violence had been used to enforce it.

WANTED.

Active Agents to sell Mining Specialties; big money. Send for prospectus, salary and expense paid. Address, H. P. S. F. & M. Co., box 118, Newport, Ky.

At A. J. Peterson's.

The only Norwegian dealer in Salt Lake City, is the only place in town where you can get the genuine Norway and Holland herring. Norway anchovies and codfish. A full assortment of first-class groceries at lowest prices. Produce taken in exchange. No. 71 Third South Street, Salt Lake City, Utah.

Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs, and tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, he used it and was entirely cured by use of a few bottles. Since that time he has been in the best of health, and has used it in his family for all Coughs and Colds with best results. Those who have been afflicted with Coughs and Colds have been saved by this Wonderful Discovery.
