WHO WAS THE
REAL HERO OF

SAN JUAN HILL?

A much mooted question since the war closed has been the charge upon San Juan Hill. Friends of the various gallant officers who faced the grim battle of death have claimed the distinction for themselves of being the real heroes of the historic charge. According to the military standard, that man is the hero of an event whose presence prescribes a different outcome. Captain George L. Kellner, the famous authority and writer on military topics, has investigated the claims of the different officers by exhaustive conversations with every one who could possibly do so, and light upon the subject, from General Shafter and Wheeler down to the soldiers private. The result is that he has found the real hero of San Juan Hill to be Captain Kellner. For those there might have been a difference to tell. His reasons for his decision Captain Kellner will set forth interestingly in the Saturday Evening "News."

BEFORE HOUSE COMMITTEE.

Arguments in Favor of the Proposed
Law are Presented by Mrs.
Tibbles.

Mr. N. H. Tibbles, state superintendent of schools, who has been instrumental in the proposed legislation, was interviewed by a "News" reporter concerning the bill now pending, which provides for teaching in the public schools, the effects of alcohol and narcotics on the human system.

The scientific temperance instruction bill, which has been brought before the Legislature by the State Woman's Christian Temperance Union, and has been presented in the House by Mrs. Morris, and in the Senate by Mrs. Cannon, was given a hearing by the committee on education and public health, Mrs. F. G. Smith of Ogden, Mrs. C. C. Atiles, Mrs. F. R. Richards and Mrs. C. G. Carlson of this city, spoke for the bill. A very enthusiastic discussion was paid to all who spoke. There was quite a large number of influential women present, who had their interests in the bill, and much more to the discussion of our fair state.

The arguments in its favor showed that the children have a right to this teaching, that we are behind the times if we have no such law, and having it, we are one of only four states in this Union that have no temperance education law.
