 Continued Daily by BANK OF DENVER.  
 Buying at \$110.00, selling at \$111.00.  
 SALT LAKE CITY, September 2, 1972.

## LOCAL AND OTHER MATTERS.

Thermometer 76° in the shade at two o'clock today.

**THEATRE.**—On Saturday evening the "Seven Sisters," a capital extravaganza, was performed in a spirited style to an appreciative and applauding audience, which would also have been much larger had it not been for the circus. For an unmitigated "out-and-out" Yankee girl, comeliness to Miss Walters. Her representation of the Misses Highboy was a worthy counterpart to which was "George" (Duhame). The cast also comprises Messrs. Marden, Harris, Thorne, Paul and Wilton, Miss D. Clawson and Mrs. Bowring. Here is an array of talent which cannot fail to satisfy, and cause the play to pass off with vim and elasticity.

**CIRCUS.**—The big show, on F. Little's lot, gave another fine performance on Saturday night. There will be a matinee this afternoon, and in the evening the company give their last entertainment in this city, after which they will proceed to Ogden, give one performance there and then leave for San Francisco.

This company affords the most varied and one of the most entertaining exhibitions of the exhibitor presented to the public of this city. Not one of the feats performed is clumsily done.

Some more glorious showers yesterday, and the vegetation sparkled this morning with rain drops and dew drops, like the diamonds of Arizona.

**INFORMATION WANTED.** of Bro. Spinks, who came in the last company of emigrants from Liverpool. Address Thomas Williams, Treasurer, C. C. M. I., Salt Lake City.

**THE PRINTER ANTIZAN.** is a very new trade monthly, published by C. C. Child, 56 Federal Street, Boston.

**DAY.**—The Junction complains that Ogden has not been favored with a good dashing, refreshing shower of rain for months. It spat a little for a few minutes on Friday, and then stopped. The Ogdenites, in the absence of rain, have been overwhelmed with heat, flies and dust.

**NOT TO BE OVERT-LOOKED.**—Brother John R. Winder says he is not going to be outdone in the way of turns, and to prove it showed us a specimen, which on measuring and weighing, we found to be twenty-seven inches in circumference, and nine pounds twelve ounces in weight. This turnip was raised on Brother Winder's farm, Mill Creek, and he says by the time the fall comes on he will probably be ready with another specimen larger. We should judge that such turnip as the one described above would be a decent meal for any cow with an ordinary appetite. The weight in proportion to the measurement shows the turnip was sound.

[Per Deseret Telegram]

**ST. GEORGE, Sept. 2nd.**—During the past several days heavy rains have fallen around here, causing heavy floods and doing considerable damage to fields, orchards, water ditches, etc. The stream at the Santa Clara dam was washed away, damage, about \$1,700; also the dams of the Rio Virgen Manufacturing Co., at Washington, damage, about \$500. The water on Saturday evening was over thirty feet deep in the Santa Clara stream, and flooded almost all the lowlands on both sides of the stream.

**COOL.**—Nights are cool in American Fork Canyon. Ice half an inch thick.

**A NEW DAILY.**—We understand the Ogden Junction, now published semi-weekly, will resolve itself into a daily on or about September 16th. Success to the enterprise.

**ATTENTION, FRUIT COMMITTEE!**—The Awarding Committee, of Class C, fruit and flowers, will please meet at the Historian's office tomorrow evening at 7 o'clock, and on Friday evening at the same hour. Gardeners and amateur horticulturists are respectfully invited to attend.

**LEVI RICHARDS,** Chairman of Committee.

**VISIT TO THE WALKER HOUSE.**—On Saturday afternoon, by invitation of the proprietor, Mayor Wells and the City Council, and a few other leading citizens, visited the Walker House, and were politely shown through it by Mr. Greeley, after which an elegant lunch was served, of which all present partook. The members of the party were sorely prepared to find an establishment so elegant, and so completely provided with every modern improvement and convenience as is the Walker House. The visit lasted about two hours, and was evidently enjoyed by all who participated therein.

**UNIVERSITY OF DENVER.**—The Primary and Intermediate departments of the University opened for tuition today. There is room for a few more pupils.

**MESSAGES AT THE DESERET TELEGRAPH OFFICE.**—For C. Hampshire, Henry Greenleaf, E. S. Jones, William Giles, James Cowles, Thomas Couch, 2, and J. Shoudy.

**THE GALAXY.**—For September contains a number of very interesting articles, among which we may mention Mr. John Anthony Froude, Descriptive Sketches (of various public celebrities), The French at Home, Had She But Known, My Life on the Plains, Our Household Servants, A Sabbath among Orthodox Jews, No Flying Trucks with Love, Sangar's Simpson, Sensitive People, Fireworks, and Jim Smith. Can be had at Dryer's or Campbell & Patterson's.

**TABERNACLE MEETINGS.**—Yesterday morning the speakers at the Tabernacle were Elders Edw. Edwards, Hannah and George Romney, and Bishop R. F. Sneath; in the afternoon the time was occupied by President George A. Smith.

**GONE EAST.**—W. C. Staines, Esq., Emigration Agent, left for the East this afternoon, to attend to forwarding the last of the present season's emigration. His address is W. C. Staines, Utah Emigration Agent, No. 8 Battery Place, New York. The number of his post office box is 397.

**UTAH COUNTY.**—Editor Deseret News:—Will you correct the notice which appeared in the List of Officers of Agricultural Societies and Gardeners' Clubs for this county. The President of the Utah Co. Agricultural and Manufacturing Society is Wm. Bringham, Springfield; Secretary, D. Graves, Grove Gardeners' Club, which was not reported.

**CHAS. TWILLES, President.**  
**CHAS. D. MILLER, Secretary.**

**AS USUAL.**—Our old and esteemed friend, Brother Joseph Young, every season, as regularly as fruit time comes round, pays our office a visit and treats all hands to a feast of delicious fruit. This morning, and several times, and the last occasion was accompanied by a young man carrying a basket of excellent apples. This is the method of Brother Joseph, taking of pressing his good feelings for all connected with the establishment, by whom his kind good will is duly appreciated as well as the fruit.

THEIR STYLISH, and of some of the apartment, being at this city—

## "BRIGHAM'S INFAMOUS POLICE."

"A House of Ill Fame Denoted by the Salt Lake Police, and Sick Women Dragged from their Beds." (Special Dispatch to the (San Francisco) Chronicle.)  
 "SALT LAKE, August 29.—This afternoon a warrant of a Justice of the Peace, issued on two houses of ill-fame, and with axes totally wrecked and destroyed all the furniture, carpets, and women's clothing, and destroyed the premises. Eighteen thousand dollars worth of property were taken and destroyed. The unfortunate women were ill with fever. They were rudely dragged from their beds, and great crying and wailing was heard. The people are deeply incensed, and bitter threats of retaliation on the Mormon leaders' houses are freely uttered. The police will be arrested tomorrow for robbing and breaking into houses. Brigham Young witnesses and contemplated the monstrous outrage."

This is the way certain characters endeavor to make political and immoral capital against this community. It is no matter who is on the opposition, how depraved and base they may be, adulterers, whoremongers, outlaws, all are welcomed with open arms, if they will only join in the opposition, for the cry and goad are with an illimitable latitude in lawlessness—anything to browbeat and every way beat the elected authorities and the people of Salt Lake. The outrageous lies in the above dispatch are too glaring to need refutation from us.

**FRUIT AND FLOWER GROWERS, READ THIS!**—All persons having summer fruits and flowers, and desire to enter the same for competition at the forthcoming fair in this city, are desired to leave their specimens at the Historian's Office, tomorrow afternoon, and on the afternoon of Friday next.

**EXCURSION.**—The excursion to Ogden of the people of South Cottonwood, Draper and West Jordan Wards passed very pleasantly with one exception, the apartment which occurred to Bishop Reuben Miller and family. While at Ogden the Bishop hired a conveyance, for himself, Mrs. Miller and a number of their children and grandchildren. The driver took rather a sharp turn near the depot, and the wheels of the vehicle to fall over off the running gears upon its side. Some of the ladies inside put their arms out of the windows of the omnibus, causing them to be severely bruised by receiving the full weight of the box upon them; none, however, were seriously injured, with the exception of Sister Reuben Miller, who had been suffering for some time previous from chronic rheumatism and who felt the effects of being badly shaken by the accident.

**SPRINGS.**—"Springs of living water" are very well in their place, but when they burst forth not to make the wilderness glad, but to make housekeepers mad, they may justly be viewed in the light of nuisances and should straightway be abated. When streams burst out near the dwellings, up from the floor of a cellar, bubble and rush under the floor of a building or disgorge in disagreeable close proximity to a foundation, they are destructive institutions, and some means should be adopted to their removal. It would prove much cheaper to provide some efficient means to that end than to have the water destroy much valuable property. We believe that that part of the city south of Temple street and east of Temple street could be almost if not quite freed from springs by the digging of a deep drain or ditch along a portion of the south side of the first named street. From observation we are of opinion that at that point the water causing the springs to break out below the surface of the soil, and therefore could be caught in a drain there. The course of the present water seep could be dug deep enough to form the drain and then covered over, leaving a sufficient depth for the ordinary water ditch. Our belief that the water causing the springs to appear below the surface of the ground on South Temple street was indeed a seep, and that it borers a day or two since digging into the earth in places where formerly ditches existed across the street, but which had become completely filled up. When the ground was tapped in those places the water immediately burst out in tolerably large streams. This water, being merely under the surface of the ground, could not fall to break out at some point lower, in a spring formation. As springs in some parts of the city are increasing yearly, and have damaged, and sometimes even threatened the absolute destruction of valuable property, we deem their prevention a matter demanding attention. The proper quarter, even if it should incur considerable outlay and expense.

## Special Notices.

**LOST.**—Between the city and West Jordan, a red and black plaid shawl. Please return it to A. White, at Bowring & Crow's Harness Shop and be rewarded.  
 CHAS. H.
