

TAFT WILL GO INTO CABINET.

Expected He Will Succeed Root as Secretary of War.

LATTER GOES OUT JAN. 1.

Gen. Luke Wright Will Probably Become President of the Philippine Commission.

Oyster Bay, N. Y., Aug. 11.—(Elliott) Root will resign as secretary of war, the resignation to take effect about the first of next January. He will be succeeded, unless present plans miscarry, by Judge William H. Taft, now governor of the Philippines.

For a long time Secretary Root has desired, for pressing private reasons, to retire from the cabinet. When Mr. Roosevelt became president Secretary Root indicated his wish to leave the cabinet within a year, but his friendship for the president and his interest in pending questions before the war department persuaded him to remain for a longer period than he had intended.

Even now he has not indicated to the president just when he may leave the cabinet, but he and the president have discussed the subject many times and have a mutual understanding regarding it.

It is not expected that the secretary will present his resignation to the president before he leaves for England to take up the work of the Alaskan boundary commission. He has not presented his resignation yet and has not informed the president when he will present it.

It can be said that the president expects that the country will have the benefit of Secretary Root's services yet for several months, certainly until the beginning of the next year.

That Gov. Taft will be Mr. Root's successor as secretary of war, there can be little or no doubt. He is familiar with many of the problems which the secretary of war will have to meet and solve; he is a warm personal friend of the president, who has an abiding confidence in his ability and patriotism, and it is understood that he would welcome the change involved. Of course his appointment as secretary of war would necessitate the appointment of a new president of the Philippine commission. In all probability Gen. Luke Wright will succeed to the presidency of the commission, his work as a member of the body having been eminently satisfactory to the administration. Some other changes also would be involved in the appointment of Gov. Taft as secretary of war but nothing definite concerning them can be said at this time.

Arnold White Fined.

London, Aug. 11.—Arnold White, the author, was fined \$500 by the high court today for contempt of court in writing an article in a Sunday newspaper, just before the arrival in England from New York of Whitaker Wright, the director of the London & Globe Finance corporation, who is awaiting trial on charges in connection with the failure of that concern, to prejudice the trial, and with the object of preventing the granting of bail. The editor and manager of the newspaper apologized for the publication of the article and were fined in the costs of the hearing. Arnold White refused to pay the fine and was taken to the Brixton jail, from which he has just been released.

AUTOMOBILIST DROWNED.

He and His Machine Plunged into The Erie Canal.

Fort Plain, N. Y., Aug. 11.—Henry F. Spaulding, aged about 45 years, an enthusiastic automobilist, from West Orange, N. Y., rode to his death four miles east of this village this afternoon.

He was on the tow path of the Erie canal. Owing to the unusual heat of the day, and while turning out for a swimmer's rig, his automobile swerved more than he intended, and man and machine plunged into the water.

Two linemen rushed to aid Spaulding, but in their excitement let go entirely of a rope, one end of which they had thrown to the drowning man. The body was recovered badly entangled in the rope which had been thrown to him.

Mr. Spaulding was en route to Chicago and met with an accident one week ago today that kept him in Amsterdam for repairs until this afternoon. Meanwhile he was traveling with his wife and her mother, had gone on to Syracuse, where they were waiting in order to continue the journey with him.

Spaulding was a veteran automobilist and at Amsterdam was advised that owing to the dangerous condition of the roads he should at least ship his automobile to Syracuse. Mr. Spaulding replied that he considered the roads equal to the task, and before him, and continued his journey.

Boy Shoots Companion.

Kamloops, B. C., Aug. 11.—William Edmonds, aged 18, was last night shot and killed by Charlie Newman, aged 17.

Charlie took a revolver from the room of H. G. Asbury, one of his mother's hangers-on, and loaded it. William Edmonds, his playmate, said "shoot it." Young Newman fired, the bullet entering Edmonds' forehead. He died in a few moments.

HIS SILVER WEDDING.

A Widower Celebrates It with a Regular Orgie.

New York, Aug. 12.—Despite the strenuous objections of the members of his family, Henry Michael, an east side merchant, has celebrated his silver wedding two years after his wife's death. It is said his two daughters appealed to the police who refused, however, to interfere.

According to Michael and his friends, his married life was not a happy one, so that he decided to celebrate the anniversary in his own way. Eight hundred guests gathered in a hall rented for the occasion. Seventy-five kegs of beer, 1,500 bottles of wine and enough chickens, turkeys, fish, soup, etc., to satisfy everybody present were served as fast as they could be consumed and Michael footed the bill of several thousand dollars. The guests in an effort to account for the disappearance of a number of United States revenue stamps, involving several hundred dollars. This morning a wholesale whisky dealer sold five barrels of whisky to a saloonkeeper, the whisky was delivered and left on the pavement in front of

the store. The proprietor's pet went into the revenue stamps of the heads of the barrels, and soon after a government inspector inspected the whisky and found the necessary stamps missing. He threatened to prosecute the proprietor. The proprietor explained that the stamps had been used to seal the barrels, and that the inspector had accepted this explanation. After a conference it was agreed to seal the barrels with the necessary stamps in order to protect the saloonist from a heavy fine.

Machen Still in Washington.

Washington, Aug. 11.—The persistent rumors that August W. Machen, under indictment for alleged offenses in connection with postal contracts, had left

GEORGE J. GOULD, WHO WILL HAVE A NEW YORK OUTLET FOR HIS RAILROAD SYSTEM.

By the building of the Whippany River railroad in New Jersey and his recent coup in acquiring control of the Western Maryland railroad, which gave him entrance to Baltimore, George Gould seems to be in a fair way to secure something for which he has been striving for many years—a New York outlet for his trunk line railroads. Persons who are usually well informed on such matters declare that the enterprise has passed beyond the paper stage and that land has been purchased for the necessary links to connect the roads which Mr. Gould already controls in the east.

RIGHTS OF ARTISTS.

Court Forbids Alteration of William Dodge's Decorations.

New York, Aug. 12.—Justice McCall, of the supreme court, has granted a temporary injunction restraining a New York studio from altering the paintings made by William Dodge as decorations for a new hotel in Toronto, Canada. The action was taken until the justice shall have passed upon the right of Mr. Dodge to have his paintings remain as he finished them. Recently the artist filed a long petition with the court, setting forth that his work had been accepted by the architect, as originally agreed upon, and the changes that are now to be made will mutilate the paintings such as removing the heads of a party of French settlers depicted in one scene.

IDAHO SPRINGS LABOR TROUBLES

Warrants Are Served on Members Of Citizens' Protective League.

MEN PLACED UNDER BONDS.

Expelled Miners Who Returned from Denver Arrested and Placed in Jail—Looking for Others.

Georgetown, Colo., Aug. 11.—The warrants issued against members of the Idaho Springs Citizens' Protective League by order of Judge Frank Owens of the district court, upon application of the attorneys of the Western Federation of Miners, were served today upon forty-seven members of the league at Idaho Springs, and the persons served were arrested and brought before Judge Owens in this city.

After a brief hearing they were placed under bonds to keep the peace, and notified to appear before Judge Owens on notice. These warrants were issued as a result of the explosion from Idaho Springs of a number of union miners after the blowing up of the building of the Sun and Moon mine recently.

Altogether something over eighty warrants were issued, but only forty-seven were served today. Among

FINDS HUSBAND IN SALT LAKE

Man She Thought Dead Discovered In Ringling's Parade.

SEPARATED FOR 20 YEARS.

Mrs. Mills Happened to be Visiting Here When She Espied Her Long Lost Companion.

The following story of a meeting in Salt Lake after a separation of 20 years, is from a late issue of the Denver Post:

Mrs. Laura S. Mills, or Mrs. Floyd Crawford, nee Eldridge, is 42 years of age, and during her life has seen romance enough to furnish material for the average dime novel writer. It is with the idea of setting herself right with the world that she gives her life history to the Post.

Married to Floyd Crawford in Evanston, Wyo., between twenty-six and twenty-seven years ago, she lost track of her husband six years later and did not see him again for twenty years, when a few days ago she found him in Salt Lake City, where he had gone with Ringling Bros' circus as one of the star performers. Meantime Mrs. Crawford had reason to believe her husband dead and had been married to A. Mills three years, fifteen years of which have been spent in Denver. Of the first marriage there were two children born, a daughter, who died in infancy, and a son, who is now 23 years of age and makes his home in this city. The second marriage has resulted in the birth of no children.

Mrs. Mills, though her first husband having been dead for many years, she has not, however, made any difference in her manner of living and her relations with Mr. Mills are the same as before. Mr. Crawford makes his home with his son at 612 West Second street, and Mrs. Mills are living at 724 Fifteenth street.

TELLS HER OWN STORY.

Put Mrs. Crawford tells her story as follows:

"I was married about twenty-seven years ago in Evanston, Wyo., to Floyd Crawford, who was a barber by trade, and is now twenty years of age. A few years later we moved to Kansas City, Kan., where we lived happily for several years. One child was born to us in Evanston, a daughter, but she died in Kansas City at the age of one year and four months. Next came a son, whom we christened Edward S. We lived happily in Kansas City until our son was three years old, then my husband became infected with the circus craze for excitement. He was always of a roving disposition. He left me to join a circus.

"I went back to my parents in Laramie, Wyo., taking my little son with me. We had then been married for six years. In the circus he was a rider and tumbler, and in said to be a good one. It couldn't have been more than a year later that the circus train was wrecked in Missouri. Mr. Crawford was picked up for dead, with one leg broken three times, his collar bone crushed and one arm fractured. Several newspapers published an account of his death. I never heard of him again until Thursday morning in Salt Lake, when I saw him in the circus parade.

"Well, I tried to verify the reports of his death, but couldn't make anything out of it. I mourned for him for seven years and remained true to his memory. Then I had a lawyer obtain a divorce for me, and I am sure that I was doing nothing wrong.

"I married L. A. Mills, a stage manager, when my son was 10 years old. We moved to Denver a year later and have been here continuously for fourteen years. We have had no children, but have been happy. Seven years ago, many Denver people will remember, my boy was stricken with a fatal wagon crash near lying down. He survived and has lived to become popular, efficient and well liked. He is now employed by the Mills Bros. Automobile company, and has a wife and a daughter.

THEIR OLD MEETING.

"That that has nothing to do with my story. I am so worked up I can't talk calmly. Three weeks ago I went to Salt Lake on a visit, and while I was there Ringling Bros. showed me to town. It was last Thursday morning that I stood on the street, watching a parade, and saw a man who I knew I saw Crawford riding with all his spangles on a richly caparisoned horse. It had been more than 20 years since I had seen him, and I had every reason to believe him dead, but I knew him the moment my eyes rested on his face. He did not see me, but after the first part of the afternoon performance was over I looked him up in the big tent.

"Isn't your name Crawford?" I asked.

"Great God, girl," he replied, "what's come to life?"

"No, it is you!" I answered, but he said: "No, it is you!"

"Then we found how each had thought the other dead. It seems that Crawford had spent the intervening years roaming the world over. He had lived in South America, then he came back and went to California. Later he took a trip to China and went on around the world bringing up at New York a few months ago, and joining Ringling Bros' circus, which was just starting out for its season's tour. He said he had written again and again to Laramie, but that his letters were returned, and he had concluded that we were dead.

TOGETHER IN DENVER.

"I brought him straight home to Denver to see his son. We left Salt Lake

A RUNAWAY LOCOMOTIVE.

Going Seventy-five Miles an Hour Rails on Curve Gave Way, Landing it.

New York, Aug. 12.—A runaway locomotive on the Erie has caused no end of excitement near Caldwell, N. J., on a branch line. The engine was a big six-wheeler. Its driver and fireman had dismounted to assist a brakeman. Suddenly it steamed away. The road ahead was down grade and the ponderous machine gathered speed rapidly. Passing Caldwell it was rattling 40 miles an hour. Another incline added to the speed and after passing Pompton the engine was going 75 miles an hour. On a sharp curve the rails gave way and the locomotive tore across a field. A chicken house was wrecked and many domestic animals about the place were killed. Pieces of iron fell in all directions and the farmer's wife, at work in her garden, narrowly escaped death.

PERTH ANBOY SHIPPING CO. RECEIVER

New York, Aug. 12.—William P. Voorhees of New Brunswick, N. J., has been appointed receiver of the Perth Anboy Shipping and Engineering company. The order was granted on application made at Trenton last week by Allen L. Ramsey, treasurer and a large stockholder of the concern. It was said that, although the company was solvent, owing to the condition of the money market it could not realize on its assets so as to carry on its business. The liabilities of the company were placed at \$311,000, including a mortgage of \$250,000. The assets were put at \$117,000.

Friday afternoon, I telegraphed Edward from Minton, Colo., and he was at the Union depot to meet us when we arrived at 1 o'clock yesterday morning. You should have seen the meeting between father and son. It was the most affecting thing that I ever witnessed.

"Mr. Crawford says he has led the most miserable life that could be imagined and that he greatly regrets having deserted me and his son. He will spend the rest of his life with his son and will go to work soon to help him build a home. No, I have no feeling for him only that I want to see him do his duty by his child and it would be a tragedy for me if he should get the roving fever again. I don't think he will."

"There is little more to tell. My son, Edward, has been hunting for his father for many years and only recently found that his grandparents lived in Evanston. They, however, knew no more about their son than we did. Edward is a good boy and I have brought him up to be a sober, steady man. He belongs to the militia and to the Woodmen."

"This story I tell to set myself right with the world, that people may see that what has happened is not my fault. I have done my best to rectify matters. I am glad that the suffering caused by Mr. Crawford's roving disposition."

The Circle Land & Cattle company in Sherman and Wallace counties are charged with having 14,000 acres of the public domain fenced.

The Powell Cattle company, 5,000 acres in Cheyenne and the Mills-Wood Cattle company about 10 sections. Twelve other suits are in course of preparation against western cattlemen of the same nature. PHILO BENNETT'S DEATH.

His Associates First Learned of the Disaster from the Papers.

New York, Aug. 11.—The fact that Philo S. Bennett, senior member of the law firm of Bennett, Sloan & Company had been killed at Thunder Mountain, Ida., was not known by the members of the firm until the news was read in today's papers. Later a telegram from Dr. R. McVieville Cramer, from Boise, telling of the accident, was received.

Mr. Bennett, accompanied by Dr. Cramer, S. B. Whitaker of Brooklyn, and G. J. Cases of Philadelphia, went to Idaho about three weeks ago to inspect some mines, as well as on pleasure. Mr. Bennett's home was in New Haven, Conn. He had formerly been a leading Republican but became one of Mr. Bryan's most intimate friends in the east and was a presidential elector from Connecticut for the Bryan ticket in the last campaign.

Humbert Trial Resumed.

Paris, Aug. 11.—The Humbert trial was resumed today. Mr. Parmentier, the lawyer who used to represent the Crawford brothers in their suits, was examined and said that Henry Crawford engaged him in October, 1901, as his lawyer. Henry told him that one of his relatives died at Nice, leaving the bulk of his fortune to Mice, Humbert, and a second will was discovered, changing the disposition of the inheritance.

Mr. Parmentier gave details of the complicated litigation, maintaining his belief that the Crawford brothers actually existed. Mice, therefore, was quietly interrupted, denying certain of Mr. Parmentier's statements.

Mob Conference at Chautauqua.

Chautauqua, N. Y., Aug. 11.—Unique among all summer gatherings is the "mob conference," now in progress here. The increase of mob spirit shown by lynchings, burnings, riots, assassinations, and other lawless proceedings gives great importance to this conference. Among today's speakers was John Temple Graves, of Atlanta, Ga., who spoke on "The Mob Spirit of the South." He declared lynching as a remedy for the crime for rape, holding that though lynching is a crime, it is justified by the crime, which provokes it, and will never be discontinued until that crime is eliminated. The remedy for lynching must be the elimination of the crime of rape, and this he maintained, could be done only by the separation of the two races in the United States.

Arrested for Selling Toy Pistols.

Philadelphia, Aug. 11.—The police this afternoon arrested four merchants charged with violating the law regarding the sale of firearms to minors. Since July 4, a number of deaths have occurred from lockjaw which developed from toy pistols. Dist. Atty. Bell, after an investigation, ordered today's arrests.

REPORT ON IMMIGRATION.

British Royal Commission Favors its Control by the State.

London, Aug. 11.—The report of the royal commission on alien immigration is issued today. It recommends that the immigration of certain classes of aliens into the United Kingdom be subjected to state control, and proposes a number of regulations and the establishment of a department of immigration. The specific recommendations made in the report are similar in many respects to the provisions of the United States immigration law, except that no educational requirement is proposed. In some directions the regulations are more stringent than the American regulations. The "undesirable" classes stated in the report include prostitutes, lunatics, convicted criminals, and any one who is in danger of becoming a public charge.

Provision is made for the deportation

of immigrants who may be proved to be undesirable within two years of their landing, and the vessel transporting them will be compelled to repatriate them without compensation. The proposed medical inspection is similar to that in the United States. The penalty for supplying false data by the immigration inspectors is deportation.

The immigration department may specify certain over-populated areas as prohibited territory for fresh immigrants. In case of the conviction of an immigrant for felony or misdemeanor or the court may allow deportation as part of the sentence.

Magowan's Mansion to be Sold.

New York, Aug. 12.—An execution has been issued by the sheriff for the sale of the \$250,000 mansion at Trenton, N. J., which ex-Mayor Frank A. Magowan built in the height of his power. The palace was bought in at the time of last mayor's term, and the creditors, who have been unable to rent it. The suit is brought on an unsatisfied mortgage for \$25,000 held by an insurance company. Magowan five years ago was the city's largest manufacturer, and was believed to be worth \$1,000,000. After a long chapter of domestic trouble he is said to have gone away penniless.

LT. Com. Carter Reprimanded.

Washington, Aug. 11.—By order of the president a letter of reprimand will be sent to Lieut. Com. Fidelio R. Carter, U. S. N., for negligence in navigation in failing to have casts of the lead taken frequently while under way on a voyage. Carter was guilty of neglect in failing to take casts of the lead in connection with the grounding of the United States tug Piscaquias Dec. 23 last near Subic bay, Philippine islands. The court found him guilty on all charges and sentenced him to dismissal from the service.

After a careful review of the testimony of Lieut. Com. Carter, who has spent months of study on the case, prepared a brief review of the findings for submission to the president. The acting secretary expressed the opinion that Carter was guilty only of neglect in navigation and not guilty on the other four charges. He recommended that he be reprimanded. This recommendation the president adopted.

Business at Kieff Paralyzed.

London, Aug. 11.—Firms here have received mail advices from Kieff, Russia, dated last Saturday, which say that the strikers have completely paralyzed business and will not allow finished machinery to be delivered from manufacturers. The men turned girls out of dressmaking and other workshops under threat of death. The streets are full of soldiers, according to these advices, and shooting occurs daily. "The" Allen's Poolroom Raided.

New York, Aug. 11.—The alleged pool room conducted by "The" Allen in Sixth avenue was raided tonight for the eighty-eighth time according to the count kept by the police. The challenge was accepted by Parry within the next few days. When told of the challenge, Mr. Parry, who is president of the National Manufacturers' association, said he would await the delivery of the challenge with great interest.

He also said he had no desire to parade Mr. Gompers as a rival attraction at a "baby show."
