# BUSINESS DULL ON THE EXCHANGE

Lower Mammoth Plays the Role Of Hero and Saves the Board From a Whitewash.

#### STOCK MAKES STEADY ADVANCE

Market Was Fairly Firm But Brokers Found it Impossible to Make Sales.

The most that can be said of this morning's call on the exchange is that it was dull, with a big D. To save the board from the humiliating spectacle of a whitewash, Lower Mammoth came forward and on the regular call disposed of a board lot at 33 cents, while on the open board it went speeding up to 35%, the total sales reaching 1,700 215. while United States Mining stood against offerings at \$39 flat. Duly-Judge maintained its firmness of the day before and there were those in the fit willing to give the sum of \$1.40 for blocks of Wabash. The total sales amounted to 1,800 shares which had a The closing figures were as follows.

# STRIKE IN THE MAJESTIC.

High-Grade Silver-Load Ore in the Harrington Hickory.

Manager Lafayette Hanchell of the Millord in Beaver county, has just re-turned from the mine with news that is tee good to keep. He says that in the incline on the Harrington-Hickory they have encountered 12 feet of ors which shows values of 61 ounces silver and 37 percent lead, mineral which the and 37 per-cent lead, mineral which the company expects to ship from this on. "We are now loading the first car of ore from this shoot," said Mr. Hanchett, "and while I have no idea that the car will average as well as the sample referred to, I believe that the ore will not us from \$20 to \$25 per ton. The mine looks very promising at the present time and the shareholders have every reason to feel encouraged."

# STRUCK IT RICH.

Coast Miner Makes a Discovery in the Wednesday Near Bodie.

dispatch from Bodie to the Reno Evening Gazette reports one of the most sensational strikes ever made in that section of the state. The claim on which the strike was made is the Wednesday in the Masonic district, unof Bridgeport.

The tist of the week B. E. Stevens, an expert and practical prices.

an expert and practical miner, came in from Los Angeles and visited the Ma-

from Los Angeles and visited the Masonic district, making a careful examination of the different properties in a quiet way.

While examining the Pittsburg he accidentally stumbled on the Wednesday claim, and motions the outeropping he broke diff several places at different places for samples, which upon examination convinced him that he had discovered one of the biggest honanzas of this section. He lost no time in getting to Bridgeport and in communication with D. M. Smith, the outcome of which was he left with a contract for a bond on the claim and a part of the cash paid down.

Sample number eight showed: Gold, \$1.05; silver, 265 ounces; silver value, \$1.05.

The ledge is seven feet wide with a two-foot pay shute running through it. The Wednesday joins the Pittsburg on the east and cuts the big ore dyks.

CUSTOMS ON ZINC ORES.

Grievances Aired and Referred to Attor-

ney General for Opinion. Washington, Sept. 21.-A hearing was Washington, Sept. 21.—A hearing was given by Secretary Shaw at the treasury department today on the customs questions of zine ores in general and also zine ore containing a percentagof lead. There were two questions at issue. The tariff law provides that minerals, crude or not, advanced in values for the containing and the containing vides that metallic mineral substances in a crude state shall pay a duty of 20 per cent. There is dispute as to the

bearing zinc ore, which by law is duti-able according to the lead contained therein, includes all ores containing lead, even though the lead is so small a per cent as merely to exist chemicalvest were represented by a delegation rom Joplin, Mo., who argued in favor of a duty on zinc ore as a needy pro-tection to the mine owners. The other side of the controversy was presented by representatives of the New Jersey Zinc company and the Prime Western Sinc company and the frime western Smelter company. It was decided to submit the legal questions to the attorney-general for his opinion. Pending his decision the department will continue in its present practise of assessing duty on all lead contained in lead bearing zinc ere.

# SUIT AGAINST UTAH COPPER CO.

Vice Chanceller Pitney Hears Arguments and Reserves Decision for a Week.

### GOES AFTER BOTH PARTIES.

Says a Man is a Born Fool Who Goes In With Men in Whom He Has No Confidence.

New York, Sept. 22 .- Argument was neard at Newark, N. J., yesterday beore Vice Chanceller Pitney on a motion or an injunction to restrain the Utah Copper company from carrying out an agreement with Guggenheim Exploration company by which the latter concentr would become the owner of 51 per cent of the stock of the former. Enos A. Wall of Salt Luke City, vice prestpany, is the complainant. He owns 20 per cent of the stock of the company. To carry out the plan which Wall is opposing the copper company desires to increase its capitalization to \$6,000,000

and issue \$3,000,000 of 6 per cent 10-year bonds. The bonds and the \$1,500,000 new stock are to be turned over, under the plan, to the Guggenheim concern. At one stage of the proceedings the vice chancellor exclaimed:
"My idea is that a man is nothing more than a henr fool to take any stock in a company unless he goes in with men in whom he can have confidence, and who will not mean the confidence.

and who will not manage the affairs of the corporation regardless of the rights of the small stockholders. I like to see a company managed on its merits, with a due regard to the small as well as the large stockholders."

Mr. Wall has obtained several temporary injunctions restraining the copper company from carrying out its plan, and one of these will prevent a meet-ing set for tomorrow to put the new plan into execution. The vice chan-cellor reserved his decision for a week.

# WESTERN PACIFIC CAUSE OF A BREAK.

George J. Gould May be Custed From Colorade Fuel & Iren By Rockefeller.

#### MISSOURI PACIFIC IS HIT.

Wabash Also is Assailed in an Effort To Smash Gould's Trans-continental Chain of Lines.

It begins to look as though Missourt Pacific were a good investment right ow. In a mysterious manner the stock has been advancing in a fashion that would indicate that somebody was buying heavily with the object in view of taking the control out of the hands

of the Gould intersts, Those who are in a position to know aver that this is a direct sequel to the proposal of Gould to build the Western Pacific. Every effort has been brought to bear to head off the Western Paific project. As far as Harriman and ns financial associates are concerned hey have all failed at the west and of the big system. Now concerted action is being made to strike at the Keystone of the Gould system, the Missouri Pacific. If it were possible to wrest this system from the Gould control the other links in the trans-continental chain would full with a clatter. Under such conditions the Denver & Rio Grande would lead from Nowhere to the Jumping Off Junction. The Finan-cial Investor claims that the Rock Isl-and is endeavoring to get control of the

People have been inclined to scoff at the statement that Former President Ramsay of the Wabash is making trou-ble on that road and proposes to get mough proxies to carry things over

Gould's head.

It has been rumored time and time again of late that John D. Rockefeller and George J. Gould have broken.

TWO SEQUELS.

It is now emphatically affirmed that such is the case. Two important se-quels may now follow. They are: Rockefeller will oust Gould from the central of the Colorado Fuel & Iron Rockefeller may extend his Chicago

Milwaukee & St. Paul railroad from Chamberlain, S. D. to San Francisco to fight the Rio Grande-Western Pacase Rockefeller is interested n the Harriman lines and it is to he interest to head off the Western Pacific

at any cost.
In discussing the situation the Denver Times says:
The ramifications of the break between Rockefeller and Gould are innumerable, but in no other two is Denver and Colorado interested.
The report that Rockefeller and Gould had broken was published several weeks ago and confirmatory meserages of this report have been published all over the United States. That the break, however, would effect Denve and Colorado was not generally believed until today by those keeping a close watch on the fight,

lose watch on the fight. The annual meeting of the Colorado Fuel and from company will be held in the general offices of the company in this city Oct. 16. At that meeting it will be known by the people in general if Rockefeller has ousted Gould.

Long before the third Menday in October bowever, these on the land will be

tober, however, those on the inside will know the result of the quarrel between these two great fluanciers, F. J. Hearne, president of the Colorado Puel Hearne, president of the Colorado Fuel and Iron company, is now in New York, but is expected home the latter part of this week and perhaps he will be authorized to give out some official statement of the fight, but it is not generally believed that he will do so.

REORGANIZED C. F. AND L

RECOGANIZED C. F. AND I.

Rockefeller and Gould combined on numerous railroad propositions to fight those who were fighting them and the result included securing control of the Colorado Fuel and Iron company. The two men put their own men in the company, Gould himself going into the directory: while Rockefeller's son and son-in-law looked after his interests. The two financiers loaned about \$15,000,000 to the company to carry out improvements and tide it over and reaped a profit of a few millions apiece reaped a profit of a few millions apiece in the settlement of the debt. They al-so succeeded in a thorough reorgan-ization of the company and the issu-ance of millions of new stock, and apparently all was harmony—and it was Gould got mixed up in a fight with

Gould got mixed up in a fight with E. H. Harriman, controlling owner in the Union Pacific system, and J. J. Hill. the Northera Pacific-Great Northern-Burlington controlling owner, and J. Pierpont Morgan and a dozen esser lights were drawn in-o the controversy. Rockefeller's lirect interests became imperiled and

direct interests became imperiled and by Gould's manipulations, it was charged by Rockefeller. Then followed Gould's Wabash fight and the ramidentions extended into the United States Steel company and others were dragged into the controversy.

That is the merest outline of the fight. Rockefeller was hit pretty hard by Gould and determined on retailation, and Wall street firmly believes that he will not stop until he has

that he will not stop until he has forced Gould to time.

QUESTION OF RAILS.

The Colorado Fuel and Iron company is the only company in which the two are practically owners. Gould has planned to get his rails for his various reads and particularly for his Western Pacific, the extension of the Rio Grande from Salt Lake to San Fran-cisco, from the Colorado company. He could save money by it in cost of ship-ment and in a personal price and whatment and in a personal price and whatever money he paid out to the company
would naturally find its way back to
him through it. If Bockefeller can
shut him out of the company and fix
a high price on rails he has seriously
injured Gould.
Even if Gould goes ahead and builds
the Western Pacific, which is not
doubted he will do, whatever the cost
and Rockefeller, builds his Milwaukee
road through to the coast, he can crip-

road through to the coast, he can crip-ple Gould again on transcontinental business most seriously. And if, as re-ported, the Colorado & Southern is back of the Colorado, Wyoming & Idaho to build from Fort Collins, which means Denver, to a connection with this Milwaukee extension Rockefeller can get down into Gould's own territory—the Southwest.

tory—the Southwest.

There is no doubt if Rockefeller got the Colorado Fuel and Iron company it would become a part of United States Steel, which would not be an advantage to Colorado, a fact which is known to everybody. Colorado, however, would not suffer by the Colorado & Southern-Colorado, Wyoming & Idaho-Milwaukee line, but would be materially benefited, as it would also materially benefited, as it would also have the Rio Grande-Western Pacific, It would be simply another transcontinental line for Colorado.

# MARKET WAS

Selling Orders Swept Away All Opposition, Stocks Running Off Materially.
