The shipments of Emma ore to Swansea have attracted the stention of many of the eading firms in London, who seem an xious to take what we Americans call a "flyer" in Litals mining claims.

ASOTHER CIRCUS.-The great Atlantic and Pacific Circus Company perform in Ogher to-night and will make their advent here-to-morrow afternoon, when a performance will commence at two p.m., at the rear of Greenbeck's buildings, and another in the evening, commencing at eight o'clock. s combination of excellent talent and equestrian ability. NEW FIRE ENGINE. - A new fire engine, manufactured at the City Creek Machine Works, for the City Corporation was tested at the Temple Block on Saturday evening where. and we understand it worked remarkably well, throwing a stream of water nearly to the summit of the Tabernacle roof. Mr. North's magnificent charges "Mare," as also of Miss Lake's trained pony. The performances of these animals is sure to win the highest plaudits wherever they are exhibited, Mr. Woods Cook is a rider great daring and ability, and his back to back somersault, turned so neatly and gracefully, it would be impossible to exceed. The performances of the acrobats, alancer and trapesists were also first-class, and these varied features in combination with the ceaseless justs of the excellent clown, Mr. Davenport, make up a circusperformance rarely excelled by any travelbeg company of equestrians, and it is very likely that Madame Lake will find her visit to Salt Lake very profitable.

THE JUVENILSS.—A number of superintendents of Sunday schools, and about two thousand children assembled at the Tabernacle last evening, for the purpose of preparing for participation in the exercises at the coming celebration of the Fourth. In addition to the children of the city ward achools there were several wagon loads of the little oues from Mill Creek. The exercises, which were conducted under the direction of Brother George Goddard, were very satisfactory.

PREFARATIONS. - Active pesparations are being made in many parts of the city to elebrate the Fourth in grand style. The mechanical portion of the community are have making movable platforms, frames in which to hang mottoes, etc. The amount of bunting displayed on the occasion will be something immense. Flags, banners and mottoes in the vast procession and on all the principal buildings, the monster procession itself, the booming of cannon, the music from the bands and the fine display of fireworks in the evening will probably make up a scene the gayest and iiveliest that Salt Lake City has ever wit-

It is to be hoped that all who purpose participating in the exercises, especially bose who will form in the procession, will on the ground indicated in the programme punctually at the time appointed, we to prevent confusion in organizing the thousands in proper order. Every-thing seems to combine for a demonstration in paralleled in the West; the people mani-lest an intense interest, and a feeling of patriotism for the occasion, and the preparations have been accordingly ample, and the committee of arrangements have been most energetic in their efforts to have the affair as brilliant and satisfactory as possible

MUSEUM AND MERAGERER. - For the benefit of the juveniles and others a panoramic exhibition will be given at this institution to-morrow. This department has been lately fitted up with colored plates, and includes salt sage brush, see weed and other interesting specimens.

SALT LAKE CITY, July 3, 1871. Hos. Goo. Q Conson, Dean Sin.—Please notice that the Post Office general delivery, will be open to the public on the Fourth of July from 8 to 9 a. m, and from 3 to 6 p. m.

Accepant,-On Saturday afternoon a young man, named John Caster, had him let hand badly hurt by the falling of a pole upon it during the balloon ascension from the circus lot. The Brothers Benedict, who attended the young man, found it nec-essary to amputate one of the fingers.

NEARLY A FIRE AT OGDEN .- On Wedneeday last Mr. Bossed's premises at the corner of Main and Fifth Streets came near being burned down. Some foolish persons had been letting off fireworks close to his store and the wooden wall, dry as tinfler, caught fire and would soon have involved the building around in a general confugation if the fiames had not been discovered in time and promptly extinguished.
