

blind ledge of white quartz resplendent with free gold. They worked into the mess, finding it to be about thirty inches in width and widening as it went down at an angle of forty-five degrees. The prospector is still there, afraid to leave the mine for fear of claim-jumpers, but his brother brought a sack of the samples to Phoenix and the assays go \$2600 in \$19 to the ounce gold. Samples have also been sent to the mint in San Francisco for testing. When Mr. Ellett was seen by the *Chronicle* reporter he did not seem disposed to talk about the mine, saying that they wished to keep its existence quiet, and had done so for two weeks, but finding that mining men from that section had already told it he narrated the story as given above. Mr. Ellett is a responsible farmer in his home state, and before September had never seen an ounce of gold ore, so he counts himself as one of the creatures on whom Fortune has smiled. The story of the dream was published in 1889 by the *Globe-Democrat* and several scientific journals in the East as illustrating the fact that former knowledge and information had nothing to do with the substance of dreams.

DEATH OF JAMES CALDWELL.

This morning the remains of Ieano James Caldwell, who died at his residence, 59 Center street, on Tuesday afternoon last, were forwarded to Tooele, his old home, for interment. The deceased was born in Eastern Canada, April 29th, 1833. He came to Utah in 1853 and located at Taylorsville where he lived three years. He then moved to Rush Valley, Tooele County, where he married Miss Eliza Russell with whom he raised a large and respected family. In 1885 he removed to Tooele where he resided until a few months ago when he brought his family to this city where better facilities for educating his children were afforded. He was well and widely known throughout Utah. He served one term as selectman in Tooele county and two terms as a member of the municipal council of Tooele city and held the last named office at the time of his demise.

He was ever known as a fearless and outspoken citizen and a courageous and honest official in whom his constituents had the most implicit trust. He was affable, kind and generous to a fault. In his youthful days he took part in many of the hardships incidental to pioneer life in Utah. He was one of the seven presidents of the Forty-third quorum of Seventies. His death was due to a chronic kidney complaint of twenty-three years standing, and though naturally he was a man of splendid physique and constitution his sufferings were intense and all attempts to give him permanent relief failed. He leaves a wife and six children and a great many warm-hearted friends to mourn his death.

The mayor and members of the Tooele city council and a large number of prominent citizens of that place met the body at the depot and accompanied it to the deceased's home, a distance of about three miles.

Funeral services were held in the Tooele meeting house this afternoon at 2 o'clock. The speakers were President H. S. Gowans and Elders Alonzo J.

Stookey and John Gillespie. They referred to the leading characteristics of the deceased and advised his children to emulate his many virtues. Their words were full of consolation and encouragement to the bereaved. The interment took place at 4 o'clock.

EMERY STAKE CONFERENCE.

HUNTINGTON, Emery Co., Utah, Nov. 9, 1892.—The quarterly conference of the Emery Stake was held in Orangeville, Nov. 6th and 7th, President C. G. Larsen presiding. Present on the stand were the Stake presidency, Bishops, the president of the High Priests' quorum, and the leading members of the Priesthood throughout the Stake.

Six meetings in all were held and a good spirit prevailed. President Larsen was the first speaker. He reported the Stake to be in a fairly prosperous condition, yet there is much room for improvement. Advised the Bishops not to take all the responsibilities of the wards upon themselves, but to counsel with their brethren and ask for the support of the Saints, which should be freely given. Vacant offices should be promptly filled, and the ward organizations kept in perfect running order.

Strong testimonies were borne, and timely advice was given by Wm. Taylorson, Teancum Pratt, Alex. Jameson, Jno. D. Chase, Presidents Howard and Seeley and others. The furnishing of the Salt Lake Temple was the leading topic, and the people expressed great willingness to furnish the apportionment of means required of the Emery Stake. In reporting the condition of the various wards, the Bishops referred with regret to the coldness and lack of faith manifested by some of the members, although as a whole the reports were very satisfactory.

The statistical report showed 1,221 children under eight years of age, out of 3,593 total of souls.

A Sunday School union was held Sunday evening, at which Superintendent of Emery Stake Sunday Schools Uriah Curtis, and others, marked out a systematic plan on which the schools should be conducted.

Much praise is due the Orangeville choir under their efficient leader, A. G. Jewkes, for the appropriate singing rendered at all the meetings.

The health of the people is good, and the crops, except potatoes, are over the average.

A. E. WALL,
Stake Clerk.

THE BOARD OF EDUCATION.

The Board of Education met in regular session last night, Vice President Nelson in the chair. The members in attendance were: Young, Alf, Newman, Raybould, Baldwin, Dooly and Pike.

OFFER ACCEPTED.

Geo. B. Emery, agent, notified the board of the acceptance of their offer of \$60 a month for two rooms for school purposes on Fifth West street, between North Temple and First North streets. Adopted.

CEMENT INSTEAD OF WOOD.

Croxford Bros. & Bryant, contractors for the First ward school building,

offered to put in cement instead of wood wainscoting at an extra cost of \$365. Committee on sites and buildings.

WHAT THEY WANT.

The committee on sites and buildings reported recommending:

That the clerk be instructed to petition the City Council to grade First North street, between Sixth and Seventh West streets, in front of the Jackson school;

That the City Council be also petitioned to grade First South street, between Seventh and Eighth East streets, in front of the Bryant school;

That the City Council be also petitioned to establish a sidewalk grade on Fifth South street, between Third and Fourth West streets, in front of the Lincoln school;

That the attic of the Lowell school building be floored over with surfaced square-edged lumber, and that the bid of the Salt Lake Building & Manufacturing company of \$296 be accepted for the furnishing of the lumber and laying of the same. Adopted.

MONTHLY FINANCIAL STATEMENT.

Treasurer Duke sent in the following report of the receipts and disbursements during October:

Receipts—	
Balance 1st of month.....	\$123,404 47
Received from F. J. Leonard, city taxes.....	2,853 24
Total.....	\$126,257 71
Disbursement—	
Paid clerk's warrants.....	\$ 51,599 23
Balance at close of October.....	\$ 74,658 48

THE NEW DISTRICT.

The committee on school work recommended that the committee on sites and building be ordered to look up and report to the board the school requirements of the district lately annexed to the city. Adopted.

OLD FOR NEW.

The same committee requested that the principals of the different schools be asked to ascertain the number of old books which could be raised for the purpose of exchanging them for the new ones. Adopted.

NO NIGHT SCHOOL.

The same committee recommended that no night school be established this winter, the additional expenses to which the board has been put in running the day schools making it undesirable and unwise for it to undertake running night schools. Adopted.

GEOGRAPHICAL TEXT BOOKS.

This committee also reported that the lot of 1000 of Byron's school geographies received were unsatisfactory as regards the Utah supplement to the book and that the book was almost useless on that account.

Young moved that the books be not accepted and that the publishers be communicated with, with the view of ascertaining how much reduction they would make on the lot in case the board accepted them, as it was thought at some future time the books might be used. Adopted.

Pike moved that the Hendy & Meyers Engineering company be instructed to recommence the work of putting in the heating and ventilating system in the Lincoln and Bryant school buildings, and that in case of the failure of the company to complete the work in the time specified by the
