of your teeth with gritty preparations. The teeth are too valuable to be trifled with. When gone, you must have false ones or "gum" yourself through life. Use SOZODONT, which contains no grit. It cleanses the mouth and vitalizes the secretions.

By the use of Fellows' Syrup of Hypophosphites the nerves become reinforced in strength, the stomach is made capable of digesting the food, the food changes to blood, the heart becomes strengthened to pump the blood, the lungs distribute and oxidize the blood, healthy blood displaces unhealthy muscle and tuberculous matter, the patient becomes vigorous, and then by using his constitution as intended by a beneficent Creator, he may live up to the ripe old age, when, like the corn ready for harvest, he drops from the husk. eod dsw

#### Coughing in Church.

No place in the world equals London for the constant barking kept up in the churches. It is like a perpetual fusillade of small arms. Why don't they take Hall's Balsam and get rid of their coughs? It is the most wonderful remedy, and the proprietors warrant it in every instance. Let all coughers give it a trial.

#### I Wish Everybody to Know.

Rev. George H. Thayer, an old citizen of this vicinity known to every one as a most influential citizen, and Christian Minister of the M. E. Church, just this moment stopped in our store to say, "I wish every body to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure. It is having a tremendous sale over our counters and giving perfect satisfaction in all cases of Lung Disease such as nothing else has done."

HALL'S SICILIAN VEGETABLE HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world. ## THE SUN for 1880.

The SUN will deal with the events of the year 1880 in its own fashion, now pretty well understood by everybody. From January 1 to December 31 it will be conducted as a newspaper, written in the English language, and printed for the people.

As a newspaper, THE SUN believes in getting all the news of the world promptly, and presenting it in the most intelligible shape—the shape that will enable its readers to keep well abreast of the age with the least unproductive expenditure of time. The greatest interest to the greatest number—that is the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read THE SUN, and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

In its comments on men and affairs, THE SUN believes that the only guide of policy should be common sense, inspired by genuine American principles, and backed by honesty of purpose. For this reason it is and will continue to be, absolutely independent of party, class, clique, organization, or interest. It is for all, but of none. It will continue to praise what is good and reprobate what is evil, taking care that its language is to the point and plain, beyond the possibility of being misunderstood. It is uninfluenced by motives that do not appear on the surface; it has no opinions to sell, save those which may be had by any purchaser for two cents. It hates injustice and rascality even more than it hates unnecessary words. It abhors fraud, pities fools, and deplores nincompoops of every species. It will continue throughout the year 1880 to exercise the first class, instruct the second, and discountenance the third. All honest men, with honest convictions, whether sound or mistaken, are its friends. And THE SUN makes no bones of telling the truth to its friends and about its friends whenever occasion arises for plain speaking.

These are the principles upon which THE SUN will be conducted during the year to come. The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political
