

SEE THEIR HOMES SWEEP AWAY.

People of the Village of Tome,
Arizona, Watch Waters Carry
Away Dwellings.

ARE CAMPED ON THE HILLS.

Their Property, Along With Their
Crops, Destroyed—Other Towns
May Suffer.

Albuquerque, N. M., May 25.—The Rio Grande, swollen to a river almost a mile wide, is flowing through the middle of the village of Tome, 20 miles south of Albuquerque, while the 600 inhabitants of the village are camping on the hills and watching their homes being swept away.

The entire property of the villagers is destroyed, along with their crops. A strong dyke had been built along the river north and south of the village and it was believed that, no matter what the rise this spring, the village was safe. Tuesday, however, the main current began to shift toward the dyke and during the night it cut through and into the town.

Heavy damage is reported from immediately below this city to Eagle, in southern Socorro county, and fear is entertained that other river villages will suffer before the present freshet is passed. There is no danger in Albuquerque nor to property north of here.

FOUR PERSONS KILLED.

In Fight Between Jewish Workmen and Jewish Brothel Keepers.

Warsaw, May 25.—Four persons have been killed and 20 wounded in a fight here between Jewish workmen and the Jewish keepers of disorderly houses. Both sides used knives. The dead and wounded were terribly mutilated. The quarrel is said to have originated at a wedding which took place today.

FOR RECIPROCITY.

German Tool Manufacturers Want It With United States.

Wiesbaden, May 25.—The German Association of Machine Tool Manufacturers has resolved to send a memorial to Chancellor von Buelow, pointing out the importance of getting a good reciprocity treaty with the United States. The president of the association said that the conclusion of such a treaty was all the more important in view of the fact that the treaties just concluded with continental countries were not favorable to German machine tool manufacturers and in view of the fact that the demand had grown unrelentingly in Germany for the denunciation of the most favored nation arrangement with the United States. The association expressed its approval of the president's views.

SEAPOST SERVICE.

Various Towns to Get Mail Direct from Vessels.

Washington, May 25.—Bosche determining to put into effect on all vessels of the American, British and German steamship lines the seapost service for "making up" the mails for various sections of the country during the transatlantic trips, so as to expedite delivery. Second Assistant Postmaster General Schellenbarger has just completed a reciprocal arrangement with the British postal authorities by which each country is to include about 35 cities to which mail is to be shipped direct in separate bags. This is done to lighten the work of the postal clerks operating the sea routes. Heretofore only three or four of the larger cities in Great Britain and the United States have had mail sorted direct.

BABY CAME NEAR DYING

From an Awful Skin Humor,
Scratched Till Blood Ran,
Wasted to a Skeleton.

SPEEDILY CURED BY CUTICURA

"When three months old my boy broke out with an itching, watery rash all over his body, and he would scratch till the blood ran. We tried nearly everything, but he grew worse, wasting to a skeleton, and we feared he would die. He slept only when in our arms. The first application of Cuticura soothed him so that he slept in his cradle for the first time in many weeks. One set of Cuticura made a complete and permanent cure. (signed) Mrs. M. C. Maitland, Jasper, Ontario."

fect to them from other countries. The extension of the service is based on the excellent results of the service in operation for some years on several of the transatlantic liners.

GOOD CATHOLICS.

They Cannot Disagree With Pius Ninth's Famous Syllabus.

Rome, May 25.—The Observatore Romano, the Vatican organ, officially denies the statement made by the Rome correspondent of the London Chronicle, that in an interview with Prof. Chas. Briggs, the American clergyman and author, the pope expressed his intention to modify the rules of the congregations of the index and of the inquisition or that in referring to the case of Pope Pius IX's famous syllabus he observed that Catholics might disagree with various propositions contained in that document, despite its high authority, without thereby becoming less good Christians.

JAPANESE IN SIBERIA.

Ambassador Meyer Arranging For Their Return to Japan.

St. Petersburg, May 25.—Ambassador Meyer is arranging for the return to Japan of another party of Japanese settlers from the depths of Siberia. The Japanese to the number of about 100 have been so far from civilization and the ordinary means of transportation that it was impossible to repatriate them with their companions last autumn. The American embassy is also arranging for the release of the doctors and other non-combatants from the colony of prisoners of war at Medvid, province of Novgorod, Russia.

MARIE REID'S MARRIAGE.

Pope Pius Approves Decision to Annul It.

Rome, May 25.—Pope Pius X has approved the decision of the congregation of the propaganda to annul the marriage of Marie Jennings Reid of New Orleans and Washington, D. C., who is now Princess Josephine Rospigliosi to Colonel P. H. Parkhurst of Bangor, Maine. The decision of the pope will now permit the Prince and Princess Rospigliosi to contract a religious marriage.

GOVERNOR ASSASSINATED.

Prince Nakachidze of Baku Possibly Victim of Armenians.

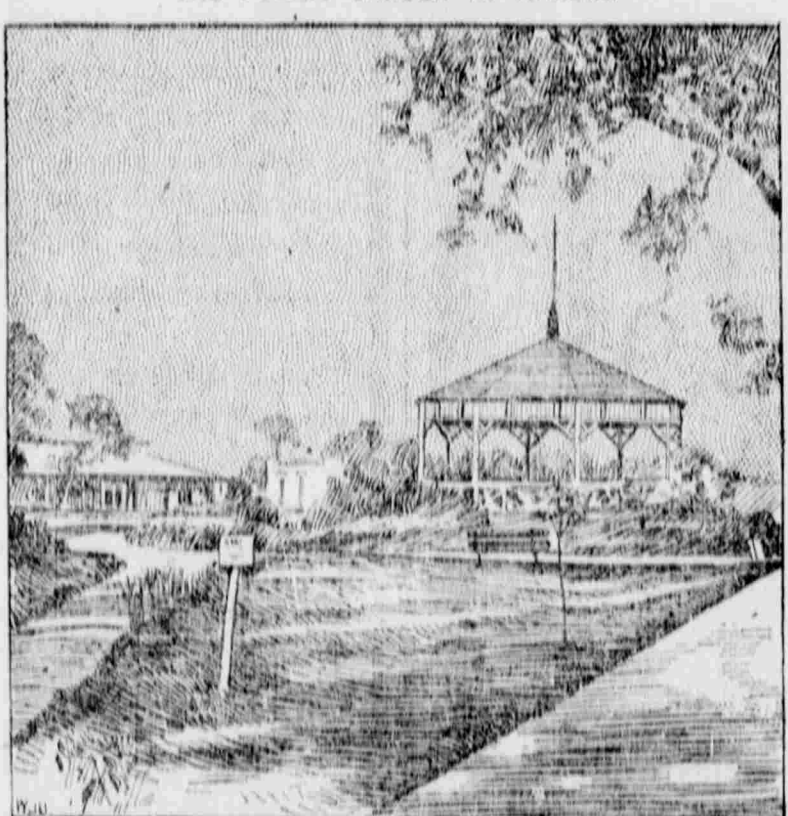

St. Petersburg, May 25, 2:40 a. m.—Though no details of the assassination of Prince Nakachidze, governor of Baku, Caucasus, at Baku Wednesday, have been received, the impression here is that the outrage was the work of the Armenian revolutionary committee in revenge for the attitude taken by the prince during the racial war between Armenians and Tartars in February last, and is not attributed to the Russian terrorists, even though the latter are at present extremely active in many parts of the empire.

UNIVERSITY OF ST. PETERSBURG, ON THE NEVA RIVER.

The picture gives a view of the University of St. Petersburg, the institution which has figured so prominently in the disturbances at the Russian capital. The university is built on an island in the Neva almost precisely opposite the Winter palace. It has about 5,000 students, and they have always shown a great willingness to embrace any cause which was hostile to the government. More than that, they have never hesitated to agitate reform in government methods whenever the opportunity offered. In the recent industrial uprising they bore a conspicuous part, and for many years they have furnished Siberia with a large proportion of its victims.

THE PUBLIC GARDEN AT HARBIN.

In spite of its isolated position and phenomenal growth, the Russian city and fortress of Harbin, in eastern Asia, as may be seen in the cut, is not destitute of parks and outdoor resorts for its cosmopolitan population. Harbin was originally a military post, and the garrison was put to work at beautifying the place. In a short time it began to boom as a railroad center, and the public improvements were continued by the railway management. It contains several parks and gardens along the Sungari river.

JAPANESE HOSPITAL SHEDS AT XENDAY.

The cut is from a photograph taken recently of a collection of sheds erected for hospital purposes at Xenday. One of the most notable features connected with the Russo-Japanese war has been the careful provision made by the Japanese government for the treatment of the wounded and sick soldiers enlisted under its banner. The success of the Japanese surgeons in the treatment of gunshot wounds has excited the admiration of the profession all over the world.

The Armenians laid the responsibility for the deaths of those slain in February at the door of Prince Nakachidze, and only yesterday suit was begun against the prince before the senate tribunal at St. Petersburg in behalf of the children of Laleli, a Baku millionaire, whose house was stormed and burned, and himself, his wife and parents killed during the riots. In the suit damages to the amount of \$12,500 were claimed, it being maintained that the governor, instead of performing his duty by stopping the massacre, actually incited the Tartars to attack the Armenians.

Prince Nakachidze was popular among the Russian element in the Caucasus. He was a man of high spirit, and in spite of the hatred of the powerful Armenian revolutionary committee, he declined military protection and appeared on the streets unattended. He refused to heed the warnings and entreaties of his friends.

MRS. STANFORD'S DEATH

Nephew Offers Reward for Arrest of Parties Responsible.

San Francisco, May 25.—The Examiner today gives an account of a reward of \$1,000 offered by Welton Stanford of Schenectady, N. Y., for information leading to the arrest and conviction of the parties responsible for the death of the late Jane Lathrop Stanford. Welton Stanford is said to be a nephew of the late Senator Leland Stanford and a beneficiary under his will to the extent of \$100,000. Mrs. Stanford in her will made no provision for the blood relatives of Senator Stanford.

The attorney here for Mrs. Stanford's estate says he can assign no motive for the offer of this reward by Welton Stanford, and that nobody in authority connected with the Stanford estate has authorized him to do so.

A NEWLY FOUND BUST OF JOHN PAUL JONES.

A long displaced bust of Commodore John Paul Jones, a cut of which is shown herewith, has been unearthed in a Boston garret, where it has been gathering dust for many years. It is undoubtedly a plaster cast from the original work done by the great French sculptor, Jean Antoine Houdon. A bust

of Jones made in 1784, when he was thirty-seven years of age, was made by Houdon for a lodge of Paris Freemasons of which the commodore was a member. Some time afterward American friends of Jones, learning of the existence of the bust, asked for plaster copies of it, and the commodore had thirteen made and sent to patriot acquaintances. One of them was given to Washington. The bust recently discovered was one of these original thirteen.
