andrew Carnegie Made Party to a Sait Involving Ownership of the Property.

New York, Jan. 18.—Andrew Carnegie will be made a party to a suit for property valued at \$2,000,000, which will be brought against the wife of his brother by helrs of Robert Stafford, the Sea Island cotton king, says the World. Papers in the action have just been prepared in this city. The suit will be to secure title to Cumberland island, off the coast of Georgia, which Mr. Carnegie and his sister-in-iaw have made a beautiful park and mid-sea home. The fact that the Stafford heirs had any claim to the property was discovered by accident. In the papers on the papers of the case it is alleged that Robert ered by accident. In the papers on the in the case it is alleged that Robert Stafford bought the Island now in dispute in 1848. He had \$300 at that time and went to the Island to raise cotton, in the second year of his work there was married. His wife was Island. and went to the island to take the in the second year of his work there he was married. His wife was kilzabeth Barmaby, famed as "the white slave." She was employed by a georgia planter and her ancestors were white, but she had been sold into slavery and an action was pending at the time to secure her freedom. Robert stafford fell in love with her, purchased her freedom, and made her his wife. It is the descendants of this woman and Robert Stafford who are now contending for the \$2,000,000.

Robert Stafford died in New London, Conn., about afficen years ago. He left four daghters, Mrs. Mary Palmer, wife of Dr. Palmer of New London, Ada, Countess Zivulki of Paris; Mrs. Madora Vosburg of New York, and Mrs. Frederick P. Engels of Lynbrook, L. I.

The property was sold by an executor The property was sold by an executor of the Stafford estate. Attorneys made a trip to St. Mary's, where the deed was on file. The deed is clearly defeetive, they say The Carnegies paid \$15,000 for the Island.

New York, Jan. 18.-Dr. W. B.Clark, ex-member of parliament for Caithness and formerly consul general of the Orange Free state in London, will ar-rive in New York on the steamship ivernia on some mysterious mission, cables the World's London correspondent. His exertions in the Boer cause have evoked bitter animosity among the "jingoes" and it is now alleged that he has gone to Washington to in-nuence President Roosevelt toward intervention. This object was attributed to him in an interview by a correspon-cent of the Paris Matin, but Dr. Clark denied having said so. Whereupon the correspondent, in a letter to the Times repeated his statements.

After Glucose Factory.

Peoria, Ills., Jan. 18.—The interests which propose the union of all the glu-cose and starch factories into one great organization have made a flattering of-fer for the purchase of the plant of the Illinois sugar Retining company at Pekin, and there seems strong likelihood that it will be accepted. This plant is independent. It was originally constructed for the manufacture of beet sugar, which did not pay, and a year ago was converted into a 12,000 bushel glucuse factory. Steps were being tak-en for increasing its capacity to 20,000 bushels per day. It is owned by Pre-toria and Pekin capitalists.

Soldier Degraded.

Portland, Ore., Jan. 18 .- A special to the Oregonian from Astoria Ore., says Frank Rakowski, a soldier in the United States army was today de-graded at Fort Canby and sentenced to 10 years in the military prison on Alcartraz Island, Cal. Rakowski had threatened to assassinate President McKinley.

Rakowski was a member of Captain Cloke's company stationed a Stevens. He was on detached duty at Fort Columbus, Wash., when he voiced the anarchistic sentiment, and after arrest by the civil authorities was turned over to the military officials at Fort Canby. He was tried before a general court martial.

TURBINE ENGINES IN SHIPS.

New Type of Power Producers Demonstrated to be of Greater Speed Efficiency Than Reciprocators.

New York, Jan. 18 .- To clip from 24 to 36 hours from the record time for crossing the Atlantic is the promise of the New York European Steamship company, a new trans-Atlantic steamship line, which offers assurance of a speedy fulfillment of this pledge, says the Tribune. This company, which has already applied for pier privileges in this city and formulated the larger part of its plans, expects by the substitution of the turbine engine for that ow in use to secure a constant speed of 30 knots an hour in its new boats. Such a speed will mean that passengers can be carried from this country to Europe in a little more than four days. The success that has attended the use of the turbine engine in Europe and especially the remarkable speed that has been secured thereby has naturally raised the question as to its adapta-bility for trans-Atlantic steamers. In this city a strong company has been organized and plans have been pretty well completed for this new line. To cut off a day in the time of crossing the Atlantic will mean to bring enormous profits to the steamship company which succeeds in doing it. Mails, not only of this country but those which are beginning to pass through from Australia and the Far East, will naturally fall to the steamship company that can handle them quickest. Delivered at Queenstown these mails could, according to the plans of the New York and European company, be carried in three days and seven hours, a reduction of two days from the pres-ent time. Of the importance and value of the turbine engine, Prof. R. H. Thurston recently spoke at length be-fore the Society of Mechanical En-

Co., the Pittsburg & Manchester and the General Electric company, in which Mr. Morgan is the controlling factor are, it is said, to be amalgamated and to be operated under a community of interest plan. The company's branches in France and Germany will according to report, also go into the hands of one central organization.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

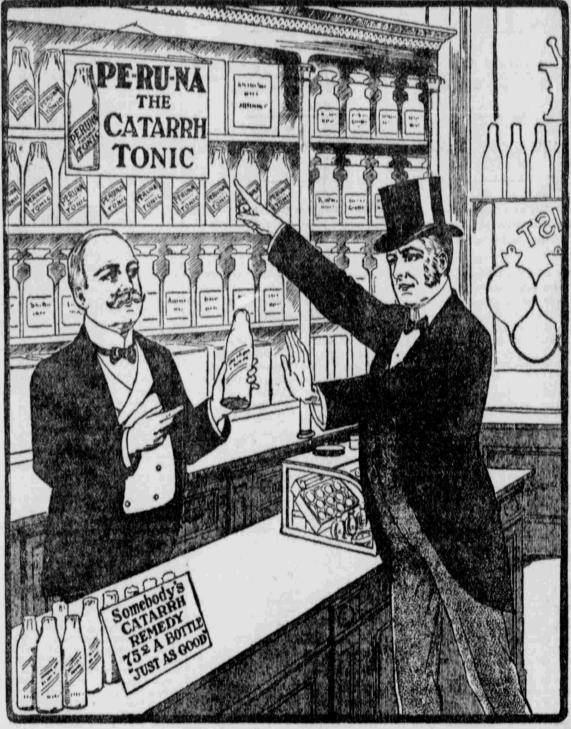

To cure catarrh, treatment must be constitutional-alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." Eugene Forses, Lebanon, Kan.

"I had catarrh in the head and throat. Had a bad cough and raised blood. My husband persuaded me to take Hood's Sarsaparilla and it has done me so much good I advise all to take it. When I began its use I could scarcely walk and had headaches. It has cured and built me up so I can do all my own housework," Mrs. Hoon RUDOLPH, West Liscomb, N. S.
