

GEO. J. GOULD IS SHAKING THEM UP

Building and Acquiring Railroads
All Along the Line From
Coast to Coast.

STORY OF A BIG MAP OF WEST.

Huge Affair of 35x33 Feet Showing
All Possible Branch Lines Into
Rival's Territory.

George J. Gould and his associates apparently are getting active all along the line from coast to coast. From Denver comes the story that the D. & R. G. company is negotiating for the purchase of the Santa Fe Central railway in Mexico to complete its connections with the Southern railroad systems controlled by the Gould interests, so that traffic from the Gulf of Mexico ports to Denver and Pacific coast points may be handled all the way over all-Gould lines.

In the west also the same interests are reaching out. The Western Pacific is now practically an old story. However, it is not going to rest content with a main line through to Pacific tide-water but, if reports are correct, is intending to build in connection with a well laid scheme a network of feeders which, when completed, will serve every portion of Pacific coast territory wherever profitable business for a branch road can be found.

In this connection the Oakland Tribune prints a story to the effect that George J. Gould is having executed a huge map of territory west of the Missouri river which completed will be 35x33 feet in size. Every mile of railroad now constructed appears on this huge affair; every county line is carefully drawn; every town is located with geographical accuracy and the proposed line of the Western Pacific is distinctly delineated.

The paper printing the story professes to have seen advance sections embracing the states of Nevada, Oregon and California whereon, are shown a complete network of lines which will serve all the populous districts of the states including a line leaving the main line of the Western Pacific invading Short Line territory in western Idaho en route.

This would indicate that the big financiers of the east are at last awakening to the vast possibilities of the west. However, it is safe to assert that it will be years before such a change in the railroad map of the Pacific slope will have been transformed.

A well known map-making firm in New York has the project in hand and the utmost care is being taken to make the affair a notable triumph to topographical and geographical presentation.

When it is completed there will be several hundreds of miles of new railroad built on paper.

In the meantime Harriman is getting busy and is building and acquiring by purchase feeders which will derive earnings from ore hauls.

FIRE IN O. S. L. YARDS
Tourist Sleeper Gutted and Two Pullmans Scorched Today.

The fire department made a long and heavy run this morning out to the Oregon Short Line yards in North Salt Lake in response to a call to the effect that there was a train of cars on fire. Subsequent investigation proved that the tourist car 1012, which arrived from Oakland last night, was burning merrily and the two Pullmans, Veril, from Ogden and Havens, from Oakland, were threatened. When the fire was extinguished, the tourist car had been gutted and the two Pullmans badly scorched.

Just how the fire originated is at this time a matter for speculation and suspicion. Twining has the matter under investigation.

NEW WABASH AGENT.

R. W. Owens, Contracting Agent for the Wabash Railroad at Kansas City, has been appointed commercial agent here in charge of Utah and Idaho territory, taking the place made vacant by the sad death of the late O. Reber. This announcement made in St. Louis yesterday afternoon will put at rest all the rumors that have been rampant on Railroad Row during the past two weeks. It is understood that no less than eight local railroadmen put in applications for the position. It was offered to three gentlemen here, who have good berths for foreign roads, but they concluded to stay with their first loves.

WILL CUT OUT SPECIALS.

As soon as the new Los Angeles limited is put into commission it is the intention to retire the special train service now operating on the Union Pacific, between Green River and Cheyenne. This special service, which has been in operation for some time ago in order to take care of the big business and the trains were known as the second sections of No. 9 and 10. The cause of delay in putting on the new Chicago-Los Angeles train, it is understood, has been occasioned by the fact that the dynamo cars were not ordered until a few weeks ago and it is impossible for the Pullman company to turn them out at short order.

BURLINGTON AGAIN.

Echo Canyon Story Comes this Time From Ogden.

The following item clipped from the Ogden Standard of last evening comes under the heading of Important if True:

"The Burlington is coming to Ogden. That is assured by a statement of one of the men in charge of the surveys of that company who went down to Salt Lake yesterday to confer with Harrison officials regarding securing right-of-way through Echo Canyon into this city. Through this canyon there are at several points only a few feet of land which is not covered by the right-of-way of the Union Pacific and not enough room to construct a second track. So far this is the largest drawback that the new company has met with. The Burlington people are of the opinion that it cannot be arranged in any other way, a bridge will be constructed over the river at such points where the canyon is too narrow for two roads. At any rate the Burlington will reach this city and add one more railroad to this now large railroad center."

It is understood that the Burlington is to use the yards of the Rio Grande in Ogden.

Representatives of the Burlington have been in this section for a number of days.

"Of all the construction activities in the west, the scene along the Union Pacific, up the North Platte river from the town of North Platte, Neb., to the Wyoming line, is, no doubt, most ex-

WANT AND NEED.

There's a big difference between what a baby wants and what he needs. Deny him the one, give him the other. Most babies need Scott's Emulsion—it's the right thing for a baby. It contains a lot of strength-building qualities that their food may not contain. After a while they get to want it. Why? Because it makes them comfortable. Those dimples and round cheeks mean health and ease. Scott's Emulsion makes children easy; keeps them so, too.

SCOTT & BOWNE, 409 Pearl St., New York.

Between those points the Burlington is paralleling the Union Pacific and each has a large force of men and teams working. It is stated that at one point on the south side of the river one can see a thousand teams at work and numerous construction camps are stretched along the line for miles.

EXCURSION TO LOS ANGELES.

Considerable interest has been awakened locally regarding the contemplated excursion of the B. P. O. E. to southern California over the Salt Lake Route. Secretary Raybould of the local lodge is beginning to receive enquiries every day through the mails and everything points to the excursion being a hummer. No date has yet been set for the outing, but it is anticipated that it will occur some time during the month of February.

PAINTERS ARE COMING

The Pacific coast delegation of Painters en route to their annual convention to be held in Memphis, Tenn., are due to arrive in Salt Lake at 8:40 tomorrow morning from San Francisco. After spending several hours in this city, viewing the sights, they will leave over the Denver & Rio Grande, being joined here by the Salt Lake delegation. The party will occupy a special sleeping car and will go over the Burlington route east of Denver. Those in the party are:

H. D. Bieg, W. J. X. Robinson, C. M. Hayble and wife, G. T. Bowen and wife, W. J. O'Brien, A. F. Imperial, T. Baylis, San Francisco; W. H. Badger, Stockton, Cal.; E. F. Boyd, Petaluma, Cal.; C. M. Davis, Hoquiam, Wash.; C. W. Prindle, Aberdeen, Wash.; C. P. Montgomery, Pacific Grove, Cal.; John Stanley, San Jose, Cal.; D. M. Smith, Walla Walla, Wash.; G. E. Markham, Pendleton, Ore.; W. T. Eaton, Sacramento; W. E. Bradley, Oakland, Cal.; F. M. Dewar, Oakland; B. M. Coffin, Reno, Nev.; A. H. Gill, Hanford, Cal.; W. H. McDowell, Fresno, Cal.; J. B. Oberchain, Spokane, Wash.; T. O. Slack, Spokane, Wash.; Geo. Duclax, Santa Barbara, Cal.; J. B. Falvey, San Mateo, Cal.; H. J. Gerhard, Riverbank, Cal.; L. E. Eiman, Pasadena, W. E. Ross, Los Angeles; also S. S. Vaughn, Denver, Colo.; M. H. Wilson, Salt Lake.

RAMSEY SAWING WOOD.

New York, Nov. 28.—Joseph Ramsey, Jr., formerly president of the Wabash railroad, said yesterday that he did not think it likely that he would take any legal action in regard to the result of the recent annual meeting of the Wabash Securities Holders at which he failed of re-election as a director of the road.

Mr. Ramsey has taken offices at 100 Broadway, and is engaged in settling the affairs of the Little Kapwha syndicate.

Asked whether he had any statement to make concerning his plans, he said that so far as the inquiry referred to his entering the service of some other road, he did not think he would consider anything of that kind at present.

SPIKE AND RAIL.

G. M. Frazer, traveling freight agent of the Illinois Central, has gone to Boise on a business trip.

W. W. Dickinson, traveling freight agent for the New York Central lines, has returned from a trip to Butte.

General Agent C. A. Walker of the Chicago & Northwestern, returned this morning from a trip to New York and other eastern cities.

Kenneth C. Kerr, traveling passenger agent of the Salt Lake Route, who returned from the south this morning, reports that the turkey shipments out of Utah county this Thanksgiving will be the heaviest on record.

Vice President C. H. Schlacks of the Denver & Rio Grande on his return to Denver, apparently has been having some fun with the reporters, judging from a dash head story in the Post setting forth the fact that the branch from Bingham to the Garfield smelters has been authorized by the company, and work on it will commence at once.

Cured Consumption.
Mrs. B. W. Evans, Clearwater, Kan., writes: "My husband lay sick for three months. The doctors said that he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." Price, \$1.00. Sold by Z. C. M. L. Drug Dept.

Dr. Teudt, dentist, rm 608, McCormick Bldg.

ALLIED FLEETS AT MYTILENE.

Detachments Landed and Customs and Postal Buildings Occupied.

GOVERNOR MADE A PROTEST.

Porte Still Sparring and Trying to Secure a Modification of the Powers' Demands.

Constantinople, via Sofia, Bulgaria, Nov. 28.—Detachments from the international fleet landed at Mytilene Sunday afternoon in accordance with the instructions of Rear Admiral Ritter von Jedina and occupied the customs and postal buildings. The governor protested but his representations were not availing. During the Balm festival, beginning today and ending the evening of Nov. 30 the fleet will take no further action, but if the sultan does not utilize the interval to accede to the demands of the powers the fleet will occupy the island of Tenedos, off the coast of Asia Minor.

The porte continues its efforts to obtain a modification of the financial control scheme so as to make it more acceptable to Turkish views. The grand vizier, Ferid Pasha, the report of whose dismissal was unfounded, has informed M. Zinovieff, the Russian ambassador, that the scheme in its present shape is too unpalatable. The grand vizier offered to agree to the establishment of four new civil agents with the same functions as the existing agents of Austria and Russia, but the ambassador declared that no alteration in the demands of the powers was possible. Tewfik Pasha, the foreign minister also tried to enlist the sympathies of the German and Italian ambassadors, but his efforts were equally futile. The unanimity of the powers, including Germany, as to the necessity for compelling a full acceptance of the demands appears to be complete, and diplomatic circles are satisfied that the porte before long will realize that in the face of this unanimity there is nothing to be done but bow to the will of Europe.

ISLE OF PINES SITUATION.
Mayor Made Preparations to Resist Americans.

Havana, Nov. 27.—Persons who arrived here today from the Isle of Pines say that the meeting of Americans held there on Saturday afternoon ratified the election of a delegate to the United States Congress and the elections of territorial officers. While all were in favor of sending the delegate to Congress, the meeting was divided on the question of the wisdom of ratifying the elections of the territorial officers.

After considerable discussion the convention by a vote of 75 to 67 decided to ratify the whole of the previous proceedings. It was unanimously and distinctly understood, however, that there will be no assumption of any office except by the U. S. authority.

Letters received from the Isle of Pines picture an interesting scene at Buena Guernon Saturday. American flags were hoisted on the American flag where the meeting of the Americans was held whereupon Cuban flags were raised on every Cuban house.

The mayor, apprehending that the Americans would seize the town hall, gathered more than 100 men who were armed with machettes, some of them with fire arms and stationed them on the side building, while many other armed Cubans were in the immediate vicinity. Some of the writers say the women also were armed with knives. In anticipation of what the Americans might do, a couple of small cannons were placed in front of the town hall. Absolutely nothing occurred, however, to justify the apprehension.

SENATOR CLARK'S BIG NEW YORK RESIDENCE.

The new residence of Senator William A. Clark of Montana in New York city is one of the largest private homes in America, and although it represents an immense outlay, it cannot be called a dignified piece of architecture. The senator is reputed to have an income of about \$1,000,000 a month, and he cannot claim that the unfavorable effect is due to financial stringency. The interior, however, is admitted to be exceedingly beautiful, and the senator has spared no effort to make it the most unique and interesting in Gotham.

SCENE OF RECENT DEMONSTRATIONS BY RUSSIAN MOBS.

The Cathedral of Our Lady of Kazan in St. Petersburg, herewith illustrated, has been the scene of some of the wildest demonstrations of the Russian mob during the uprising. It is one of the most beautiful buildings in Europe, modelled closely after St. Peter's at Rome. As a rule, Muscovite architecture is too bizarre to suit western tastes, but this church is an exception and is entirely devoid of the barbaric ornamentation which is so dear to the Russian.

TEA

Your grocer returns your money if you don't like Schilling's Tea.

GOV. FOLK GREATLY INCENSED
Because Prisoner is Stockholder in Company Doing Business in Prison.

Jefferson City, Mo., Nov. 28.—Gov. Folk is greatly incensed to learn that James Hale, a federal prisoner who was removed to Fort Leavenworth prison last Friday, is a stockholder in the Central Broom manufacturing company, a corporation doing business in the penitentiary.

The stock was bought by Hale about two weeks before he was removed to Fort Leavenworth, with money he had carefully accumulated by hoarding "tips" that were given him as a prison barber. Hale was sentenced by the federal court of Indian Territory for 99 years for murder and has served six years.

HANDSOME SILVER SERVICE.
Presented to the Cruiser Pennsylvania On Behalf of Keystone State.

Philadelphia, Nov. 28.—In the presence of many state and city officials and officers of the United States navy now at the League Island navy yard, Gov. Pennypacker, on behalf of the state today presented the armored cruiser Pennsylvania a handsome silver service consisting of 143 pieces, weighing nearly 750 pounds and costing \$25,000.

GROWERS BLEED AMERICANS.
San Francisco, Cal., Nov. 28.—California orange growers and shippers will, in the future, be able to compete with the growers of Florida, Cuba and the Mediterranean in London, and on the continent of Europe. At least they will be in a position to land their products abroad at most if not quite as cheaply as shippers in the last three named districts.

The eastern connections of the Southern Pacific and the Santa Fe lines, including Atlantic steamship lines, have joined those two roads in making a \$1 per pound rate on orange shipments from California to London and other points in Europe. The freight traffic manager of the New York Central lines sent a telegram to the effect yesterday afternoon to the California local freight representative of the New York Central lines. The new rate goes into effect next Thursday.

To all points in his country outside of California orange shippers are charged \$1.25 per 100 pounds.

The California orange crop for the season just opened will, in the opinion of both growers and railroad traffic officials, yield \$5,000 carloads for shipment east of the Rocky mountains.

PROBABLY A MURDER.
Detroit, Mich., Nov. 28.—His jagular vein severed and his neck broken, the dead body of Frank W. Noetzel, aged 28, was discovered early today lying near a crossing of the Michigan Central railroad. Noetzel, who was married and engaged in the plumbing business had some out late in the evening to collect a bill amount to \$30.

BATTENBURG AT GIBRALTAR.
Gibraltar, Nov. 28.—The second British cruiser squadron, commanded by Rear Admiral Prince Louis of Battenburg, and consisting of the Drake (flagship) and the Periwinkle, Cumberland, Essex, Cornwall and Bedford, which left New York, Nov. 20, arrived here today.

JAP LOAN OVERSUBSCRIBED.
London, Nov. 28.—The British allotment of \$13,350,000 of the Japanese loan of \$125,000,000 was largely over-subscribed today that the lists were closed three hours after they were opened.

Shoot rabbits at Cedar Fort. Kill Ducks at Clear Lake. Visit Garfield Smelters on Thanksgiving. Salt Lake Route.
