

caused the partial elimination of the Nebraska regiment from the fighting forces.

PAGE OF HISTORY.

Bell rode into the center of a horse-shoe trench with one Utah gun and a dozen volunteers from the Sixth cavalry, who had gone forward to "see what they could do" in the resulting fight the men on the Utah gun where all wounded before they could unlimber, and the Nebraska regiment, which was ordered forward, rushed onto the hillside from which a deadly fire was opened at 75 yards. They recovered the Utah gun but Stotsenberg, one of the bravest fighting men who responded to the 1898 call, was shot to death with several of his staff, half of his line officers, and over 40 per cent of his men. One company lined up next morning with eight privates, and no officers or non-commissioned officers to report "all present or accounted for."

MAN WITHOUT FEAR.

It was when the volunteers were ordered home that Bell's great chance came. He called for volunteers to stay, and he attracted the dare devils, for he was known far and wide as the man most absolutely without fear or nervousness in the islands. Enough of the most daring and adventurous remained with him to make a regiment, and it became Col. Bell of the "thirty-seventh." Then he took the field, and it became Col. Bell of the "flying brigade," and there was always heavy fighting where his men were located.

Once Bell and his men were surprised while swimming and the history of the fight in which Bell swung onto his horse, attired only in his cartridge belt and gun, and led a cavalry charge into the hands of natives, to start to shoot, is retained in the annals of soldier affairs that are kept well within army circles.

The plans for General Bell's entertainment which have been completed this afternoon, and depend somewhat on the time at his disposal.

MURDER HEARING ON.

Juzo Tsukuda Being Tried on Charge of Killing Countryman, Dahari Shin.

The preliminary hearing of Juzo Tsukuda, charged with the murder of Dahari Shin, is being held in Judge Cornish's court at Garfield this afternoon. The defendant is represented by D. O. Willey, who has entered a plea of not guilty for his client. County Attorney Willard Hanson is holding up the prosecution end of the case. From the facts as presented so far it seems Shin was fighting with another Japanese when the defendant, with the tongue twisting name, became involved, and in the general melee, shot and killed Shin. He was charged with the crime of being a drunken free-for-all the case is a complicated one.

CAPT. MILLER RESIGNS.

Files Request With Governor for Retirement from National Guard.

Capt. Miller of C company, First infantry, N. G. U., has filed a request with the governor for retirement from the guard for business reasons. The captain has been with the guard ever since its organization, beginning as an enlisted man and working his way up to a captaincy, with great distinction. He has been a prominent figure in the Salt Lake affairs. He is one of the four well known Walker brothers who came from St. Louis by way of ex. train in the fifties, the others being J. R. Walker and Sharpe S. Walker, deceased, and M. H. Walker, J. R. Walker went back to St. Louis years ago to disinter the remains of his father, and remove them to this city; but found that the old cemetery had entirely disappeared and great blocks of scores and business houses were standing where he had stood in the times gone by. With him became of the bodies buried there, could not be ascertained. S. S. Walker died in this city, in 1887, and J. R. Walker died only a few years ago, after a vain search for health in Mexico and southern California. D. F. Walker removed to California early in the nineties, but still retains an active interest in Salt Lake affairs.

BAGGAGE UNDER CANVAS.

O. S. L. Depot Being Reduced to Tenets Pending Improvements.

The scene around the Short Line depot is one of demolition and active preparation for the transformation that is to be rapidly pushed to the next 15 months on the site of the new union passenger station of the Short Line railroad. The old freight houses have been demolished, and the old passenger station is being prepared for removal to the site of the old round-house turn table to make way for the new. The baggage station consists of two large tents with boarded sides, and as the track connections in front of the old depot are torn out, the tents are run out on tracks about 100 feet to the west. Of course there is more or less inconvenience in this both to the traveling public and to the railroad company, but in view of the enormous improvement in the way of future convenience, the inconvenience is not complained of. It is the remark of the Short Line railroad men that the Short Line station completed considerably in advance of the Gould road station. Gangs of men are grading and laying new tracks in all directions in the Short Line yards, so that hardly a day passes without visible evidence of the march of progress.

MRS. DALLAS SEEKS DIVORCE.

Wife of Cigar Manufacturer Enters Suit Against Husband.

John W. Dallas, a member of the firm of Whitaker & Dallas, cigar manufacturer, was made defendant in a divorce suit filed in the district court today by his wife Tina C. Dallas. The complaint alleges that the parties were married in Denver on July 9, 1891, and that for more than a year past defendant has failed to support plaintiff although abundantly able to do so. She therefore asks for a divorce and such other relief as equity may require. Dallas filed his acceptance of service in the case and took five days in which to plead.

DAVID KEITH BUYS D. F. WALKER BLOCK

Consideration is Said to Be in
Neighborhood of Sum
Of \$250,000.

David Keith completed, last evening, the purchase of the D. F. Walker block on west Second South street, opposite the Cullen hotel, for a sum, it is believed, in excess of \$250,000. The building has a frontage of 100 ft. on Second South street, and a depth of 225 ft. and is so constructed that two more stories can be added to the present four at any time. It is understood that Mr. Keith will make this addition at an early day, besides making other changes of value in the line of improvement, so that the block will be one of the most desirable in the city. Special interest is attached to this move on account of Mr. Keith's transfer, only the day previous, of his interest in the Keith-O'Brien Dry Goods company to D. F. Walker, Sr. However, Mr. Keith still retains his ownership in the building, and since that time he has been a prominent figure in Salt Lake affairs. He is one of the four well known Walker brothers who came from St. Louis by way of ex. train in the fifties, the others being J. R. Walker and Sharpe S. Walker, deceased, and M. H. Walker, J. R. Walker went back to St. Louis years ago to disinter the remains of his father, and remove them to this city; but found that the old cemetery had entirely disappeared and great blocks of scores and business houses were standing where he had stood in the times gone by. With him became of the bodies buried there, could not be ascertained. S. S. Walker died in this city, in 1887, and J. R. Walker died only a few years ago, after a vain search for health in Mexico and southern California. D. F. Walker removed to California early in the nineties, but still retains an active interest in Salt Lake affairs.

D. F. Walker, Sr., was intending 20 years ago to retire from business entirely. But his affairs took such a turn that he concluded to stay in active commercial life, and since that time he has been a prominent figure in Salt Lake affairs. He is one of the four well known Walker brothers who came from St. Louis by way of ex. train in the fifties, the others being J. R. Walker and Sharpe S. Walker, deceased, and M. H. Walker, J. R. Walker went back to St. Louis years ago to disinter the remains of his father, and remove them to this city; but found that the old cemetery had entirely disappeared and great blocks of scores and business houses were standing where he had stood in the times gone by. With him became of the bodies buried there, could not be ascertained. S. S. Walker died in this city, in 1887, and J. R. Walker died only a few years ago, after a vain search for health in Mexico and southern California. D. F. Walker removed to California early in the nineties, but still retains an active interest in Salt Lake affairs.

STILL SEARCHING FOR BODY.

Expert Swimmers Laboring to Recover Corpse of McKittick Boy.

The search for the body of the little McKittick boy, who was drowned in Jordan river, is still being energetically kept up by the police and friends of the family. All day yesterday seines and grappling hooks were used and divers searched the bottom of the river for miles but without results. This morning Officers Jim Williams and Griffin went to the mouth of the river and began to work up. Both are expert swimmers and they are putting forth their best efforts in hope of recovering the body of the unfortunate little one. Mrs. McKittick is anxiously watching the work of the officers and is almost crazed because the body cannot be found. The police will keep up their work until practically every foot of the river has been explored.

OPPORTUNITIES AT NAMPA.

Former Salt Laker Tells of Progress in Gem State.

Fred Reuter, a young Salt Laker who has recently gone into business at Nampa, Idaho, writes interestingly on the outlook for that portion of the rapidly growing state of Idaho. "This country is yet in its infancy," writes Mr. Reuter, "only a small portion being yet developed, but the great government reclamation works, when completed, will furnish water for nearly 1,000,000 acres of the most productive land in Idaho, and will transform the sagebrush lands into thousands of beautiful homes." Mr. Reuter says there is a splendid opportunity for industrious settlers in the vicinity of Nampa, and would be glad to answer inquiries in regard to the same.

UTAH'S CENSUS SHOWS INCREASE

Statistical Clerk Figures That
Population of the State
Is 346,873.

PLACES SALT LAKE AT 80,000.

There Are Now 92 Incorporated Cities
And Towns and 260 Settlements
Not Incorporated.

According to the figures compiled by Hugh A. McMillan, statistical clerk in the state auditor's office, Utah now has a population of 346,873, as compared with 276,749 in 1900, when the last government census was taken. This is an increase of 70,124 inhabitants in seven years. There are now 730 colored people in the state as against 672 in 1900. Of the total population of the state 130,393 are males and 138,239 are females. Following is the population by counties:

Beaver	4,712
Boulder	11,818
Cache	20,175
Carbon	7,175
DeWash	13,239
Emery	5,792
Garfield	3,981
Grand	1,632
Iron	4,165
Wasatch	6,175
Kane	1,987
Millard	6,350
Morgan	3,095
Uinta	2,152
Rich	2,632
Salt Lake	107,052
San Juan	920
Sanpete	18,925
Sevier	9,950
Summit	11,542
Tooele	9,625
Utah	8,660
Wasatch	26,570
Washington	6,617
Wayne	2,667
Weber	33,834

There are 92 incorporated cities and towns and 260 towns not incorporated. The population of the largest of the cities and towns is as follows: Salt Lake City, 80,000; Ogden, 23,300; Provo, 7,900; Logan, 6,100; Park City, 4,000; Spanish Fork, 3,670; Lehi, 3,663; Springville, 3,648; American Fork, 3,615; Burdett, 3,300; Richfield, 3,000; North Ogden, 2,600; Richfield, 2,500; Beaver, 2,500; Mercur, 2,300; Mantt, 2,400; Mount Pleasant, 2,372; Ephraim, 2,086; Heber, 2,000; Hyrum, 1,905; Bountiful, St. George, 1,800; Brigham City, 1,700; Panguitch, 1,600; Ogdenville, 1,200; Fillmore, 1,137; Kayville, 1,100; Forest Dale, Garfield; Grantsville, Price, Randolph, 1,000.

Blackfoot, Clear Lake and Randlett are the smallest towns in the state, each having a population of 20. The following have 25 each: Carlisle, Ameth, Grayson, San Juan county; Basin, Richardson, Grand county; Independence, Tintic, Juab county; and Blanding, county, and Sunshine, Tooele county.

WHAT HE DIDN'T GET.

T. C. Sparks Seeks to Recover Value of Some Chickens Sold.

An action was filed in the district court today by T. C. Sparks against Herman F. Wagner and wife to compel the defendants to deed to plaintiff lots 58, 57, and 56, block 1, Perkins' addition, to Salt Lake City, according to agreement made and entered into on Oct. 26, 1906. Plaintiff claims that he purchased all the personal property on the lots at the time of the agreement but that the defendants have sold some chickens and other chattels and have refused to account to him for the same. They also refuse to deliver possession of the premises and are interfering with the construction of a house being built on the lots by plaintiff. Judgment is asked for an accounting of the property and the rents, for possession of the lots and for an injunction to restrain defendants from interfering with the construction of plaintiff's house.

PERSONALS.

Chairman J. H. Brady of the Idaho Republican committee is in the city on Pocatello.

Immigration Inspector T. J. Longley left today for Boston, whence he will take an extended trip south before returning to this city.

Joseph Siegel and wife have returned from New York, and leave for Butte tonight.

LIKE A GENTLE RAIN.

Those On the Earth Beneath Grateful For Cooling Showers.

A tired mother saw her feverish babe drop off to sleep after many restless hours and was thankful for the rain.

The small boy shed shoes and stockings and went tramping merrily through the puddles in the road.

The business man walked up and down the business center more sprightly than he has been for weeks, and the horse, even, pulling drays seemed in better spirits and needed less of the whip.

For the much needed shower came last night and continued through the evening and a great portion of the night. All things were bright and fresh this morning; dust which has been accumulating for several days was being washed away. The heat of the last few months was reduced, until today is really pleasant.

Yuma and Phoenix were not so fortunate yesterday. Instead of having a refreshing shower the sun drove the mercury bubbling to 104. Chicago and other eastern cities had their daily list of prostrations owing to excessive humidity.

WILL BE NO MIDWAY.

State Fair Management to Have Only Legitimate Shows at Exposition.

The "rummy-dum-dum-dum" of the tune to which little Egypt twists and turns and all the other attractions of the midway will be missing at the coming state fair. The association decided as yesterday afternoon and made an appropriation for more legitimate shows was also made and this, while not made public, is said to be larger than usual, indicating that the fair this October will be more heavily advertised than any ever held before.

THREE HORSES BEAT ORBY.

Liverpool, July 26.—Richard Crocker's 3-year-old Orby, winner of the Derby, was beaten here today in the race for the Atlantic stakes, by Linacre, Earlston and Eastern, in the order named.

JUDGE HAS BUSY MORNING

Man Fined \$20 for Striking a
Woman During Neighbor-
hood Row.

The police are making a war on a gang of vagrants and "yegg" men who are infesting the city and they are determined to rid this community of the gang of "undesirable citizens." Many complaints of pocket picking and petty stealing have been received at police headquarters during the past few days.

Last evening Officer Simpson arrested a fellow named Pete Tutton on the charge of vagrancy. It was alleged in the complaint that the man begged. In the trial this morning the fellow escaped because the prosecution did not show that the man had begged. He was discharged by Judge Ditch, warning him to be careful in the future. It was shown, however, that the man had tried to sell some "phony" jewelry and he also had a number of begging cards on him. Before he could leave the station Officer Simpson re-arrested the man and filed a complaint against him on the charge of peddling without a license. The man will be arraigned before Judge Ditch tomorrow morning.

H. Gannon, charged with battery, will be tried tomorrow morning. Alma Sorenson, charged with the same offense, will show up with her husband. That reason I will not impose as severe a sentence as I otherwise would." Judge Ditch then fined the man \$20, which was immediately paid.

The case of Frank Martell, charged with disturbing the peace, was dismissed on motion of the prosecution. "Ordinarily, when a man is convicted of striking a woman, I impose a fine sentence," Judge Ditch said, "but in your case there are circumstances which show that there was considerable provocation, as you had been annoyed by the woman and her family. For that reason I will not impose as severe a sentence as I otherwise would."

SUIT TO QUIET TITLE.

The First National bank of Colorado Springs, Colo., today filed suit in the district court against E. A. Rogers, administrator of the estate of Jane E. Noble, deceased, and Howard C. Lyon and Richardson to foreclose a mortgage on the north half of the northwest quarter of section 24, township 2 south, range 2 west, Salt Lake meridian. The mortgage was given to the bank by Mrs. Noble in her lifetime as security for a loan of \$1,000, dated March 13, 1896, the date of the note and mortgage. Plaintiff asks for quiet title to the land, and quieted against the other defendants named in the complaint.

DECLARED INSANE.

Samuel G. Obray Committed to State Mental Hospital.

After having spent several days at the county infirmary in the hopes that his physical condition would improve and he would thereby recover his mental equilibrium, Samuel G. Obray was today committed to the state institution and committed to the State Mental Hospital by Judge Ritchie. Supt. Joseph Cottle of the infirmary testified that Obray was unmanageable and hence he was committed to Provo.

Sofia Rosander has filed a petition in the probate division of the district court asking for letters of administration of the estate of her deceased husband, P. Gust Rosander, who died on Dec. 11, 1906. The estate consists of real and personal property valued at \$800.

COURT NOTES.

Suit for divorce has been filed in the district court by Elizabeth B. Russell against William J. Russell on the ground of desertion. The parties were married in Kansas City, Mo., on May 1, 1901, and it is alleged that since Jan. 1, 1907, defendant has failed to support and maintain the plaintiff and she is now in Oklahoma City.

Judgment by default was entered in the district court today in favor of plaintiff in the case of Rieger & Lindley against W. V. Evans for \$571.15 with interest and \$11.20 costs. The action was brought to recover the amount for merchandise sold to defendant by plaintiff.

Charles Brenek filed suit in the district court today against Charles B. Clow to recover the sum of \$34.25 with interest from Nov. 23, 1901, alleged to be due for services rendered by plaintiff to defendant and against defendant in the second district court at St. Paul, Minn.

D. MCNICOL RETURNS.

Local Manager Postal Telegraph Back From Month in San Francisco.

Local Manager D. McNicol of the Postal Telegraph company has returned from a month's absence in San Francisco where he went in company with other officials and sub-officials of the company to help out in the big operators' strike there. Mr. McNicol reports the strike as entirely over, with nothing left but the strikers to do, but to return to their keys and behave themselves, as they have signally failed to carry their point. He says men who have been with the company for 15 and 20 years and who were earning \$125 to \$150 per month struck merely because a lot of irresponsible labor agitators were in the company and made them believe that the company was at their mercy. Both telegraph companies only recently advanced wages 10 per cent. In fact, in this, the men struck. The result was that expert operators were called in from along the lines, and in fact such excellent service that the letters were received at the San Francisco office complementing the local management on the excellent character of the service.

Mr. McNicol says a very bitter feeling has arisen in San Francisco against the labor unions, so that a strike breaker and a "scab" is now generally regarded as a decent man, if not a gentleman. The street car strike is a thing of the past and the ex-employees keep on parading the streets to manufacture sympathy, and still maintain their independent street car service, which is charged per passenger. The street cars are running as usual with new men and on regular time, and no more violence is being feared.

BLACK FLY BITES FATAL.

East Aurora, N. Y., July 25.—John Griffin, who has just returned from the Algonquin park locality of Canada, reports that six deaths resulted from black fly poisoning, following stings by the insects.

Mr. Griffin has hunted in the region of Algonquin park for many years, and he pronounces the pests the most numerous and deadly he has ever seen.

THE INSIDE OF SAN FRANCISCO

New Mayor is All Round Good
Man, Although Charged With
Writing Poetry.

HELPED TO FRAME CHARTER.

Selection of Edward Taylor to Fill
Schmitz's Unexpired Term Gives
General Satisfaction.

Special Correspondence.
San Francisco, July 25.—Printer, editor, steamboat clerk, doctor, politician, lawyer, poet, and mayor have been the various occupations of the latest chief executive of this city, and yet a disgruntled labor leader says that he will not do because he has not had experience enough. The district attorney, who made the selection, found his man in a bookstore and there reporters who went to interview him found him surrounded by the best books in the world, and his favorite motto, "Labor ad servum" much in evidence. A daily newspaper has already objected to him because he has written poetry, but no one as yet has found any fault with him because he has lived here 45 years, and his best poem is in praise of the city's courage in the face of disaster. If we can stand a musician for five years, we can certainly stand a poet for five months.

The selection of Edward Robeson Taylor as mayor to fill out the unexpired term of Eugene B. Schmitz, controversial and controversial, and sentenced to the penitentiary for five years will give a rallying point for those who really wish municipal decency in this so-called tried city. One of the men who framed the charter under which the city is governed, is one of the best read lawyers at the bar, and is full of fight whenever the occasion demands it. Twenty years ago when the Bay Area millions were in dispute in our courts, I remember Mayor Taylor as the most aggressive lawyer in the city, and since then he has figured in some very important litigations.

WHAT IS HIS STATUS.

Now that government by indictment is ended it remains to be seen whether government from the county fall is to have any force and effect. The printer who was going to leave the city next month was asked to accept an appointment as supervisor in is in doubt as to his official status but there is no doubt as to his salary unless his friend the extortionist pays it.

A WHITE ELEPHANT.

A union labor political club organized in one of the districts of the city has reversed the verdict of the Schmitz jury by resolving that an innocent man has been convicted. The club does not believe in the law which requires that only men whose names appear on the assessment roll shall serve as jurors. It advocates the abolition of the present method of selecting jurors and advocates strong in favor of the eight-hour day. The efforts of the graft prosecutors to get a new mayor are derided by the club. They then pass off and advice is given to the city fathers to mention is made however of the plasterers who drank champagne to the cost of \$8 a day and four hours.

DIFFERENCE OF OPINION.

A great many people think that wages are too high here and a great many who are receiving them are sure that they are not high enough. The matter is open for discussion and contractors and real estate men have been discussing it rather freely. Their discussion has been the attention of the officers of the building trades council. The wholesale stopping of building operations and the many vacant stores and houses have caused the city fathers to observe gentlemen take notice that something is wrong and as a result the announcement is made that the labor organization officials will recommend a small wage reduction.

ONE THING SCHMITZ CAN DENY.

As yet there have been no denials of the statement made in Milwaukee by a local clergyman friendly to Schmitz and his administration, President Roosevelt has not denied that he instituted the graft prosecution. Former Mayor Phelan has not denied that he is the tool of former Mayor Phelan. Judge Dunne must admit that he suffers from dyspepsia but Schmitz does not deny that he is a graft politician. The jury will have to prove that they were not capitalists, and that one of them did not have a house in the city. The jury will have to prove that they were not capitalists, and that one of them did not have a house in the city. The jury will have to prove that they were not capitalists, and that one of them did not have a house in the city.

TO HAVE A HOUSECLEANING.

The Native Sons are proposing to have a housecleaning and some of the gentlemen who have figured prominently in the graft prosecutions are to be chief subjects of the cleansing process. Former Mayors Buxton and Schmitz, Supervisors Gallagher and Coleman, Police Chief Jeremiah Dwyer, and Mayor Abbott are all to feel the weight of displeasure of the order. Abe Ruef took the bull by the horns and resigned so that saved him from a summary execution. One of the local newspapers gleefully published the fact that the Native Sons were going to expel T. L. Ford, former attorney general of the state and now chief counsel of the United railroad. This was good news for a day, but Gen. Ford, who is a good lawyer, came in with a strong plea in rebuttal, alleging a lack of jurisdiction. The order was then a member of the order and furthermore proving to all with a birth certificate showing that he was born in another state.

THE JAP SITUATION.

The local Jap situation has developed nothing startling this week though several of the little brown men have been in suspicious attitudes around the dismantled Cliff house. The American flags have been flying so high that none of the Japs have had a chance to insult them. The members of the chamber of commerce believing that good breeding is a very good way to placate hostile people are getting a deal to banquet the leading representatives of the Mikado. We are now directing our hatred towards Russia, since one of our fishing smacks returned from the Sea of Okhotsk with tales of the highway way in which a Muscovite gunboat took away her papers and prevented her from catching enough fish to keep her owner from going into insolvency.

RURAL CARRIER FOR MALAD.

(Special to the "News")
Washington, D. C., July 26.—Wallace O. Thomas appointed regular and Oscar Thomas sub rural free delivery carrier, route 1, at Malad City, Idaho.

Every day the sales increase. Every day there's new praise for McDonald's Dutch Choco- lates.

30 cents and 60 cents—no more.

KOREAN CONSTITUTIONALISTS

Say Nation Will be Satisfied With Conclusion of New Treaty.

Tokio, July 26, afternoon.—The members of the Constitutional party holding the 19th day of representatives passed a resolution today expressing their belief that the nation would be satisfied with the speedy conclusion of the new convention with Korea, whereby the roots of existing evils would be removed. Peace in the far east would thereby be effectively secured, together with the advancement of Korea upon the pathway of civilization. They subsequently cabled the resident general, Marquis Ito, the unanimous approval and gratitude of the meeting, and the prompt conclusion of the convention.

A FIENDISH CRIMINAL.

Man in Berlin Rips Open Five Little Girls.

Berlin, July 26.—A fiendish and atrocious criminal made his appearance on the streets of Berlin today and five little girls were murdered. The criminal was a man of about 40 years of age, and by a deft stroke with a knife, ripped open their stomachs. One of the children is dead. Each crime was committed in a different locality. The criminal escaped.

DELMAS' ARGUMENT IN THE LOUIS GLASS CASE.

San Francisco, July 26.—Not a seat was left empty in the courtroom of the auditorium of Temple Israel-Shereth at 5 o'clock this morning when Delphin M. Delmas, former mayor of the city, began his closing argument in defense of Vice President and General Manager Louis Glass of the Pacific States Telephone company, whose trial for bribery has been progressing for two weeks before a jury in Judge Lawler's department of the superior court. The large audience was as many women as men. Society folk and the families of attorneys and jurors maneuvered for seats. The jury was seated and half a dozen deputy sheriffs acting as bailiffs had their hands full guarding the witness stand and the jury box. Judge Lawler called Sheriff O'Neil to the pulpit and cautioned him that absolute quiet must be kept throughout the arguments.

MACKOWN IS THE MAN.

Admits That He is Wanted in Iowa for Arson and Embezzlement.

Bakersfield, Cal., July 26.—George Mackown, a local manager for Fairbanks, Morse & Co., who was arrested last night on charges from Volador County, Cal., for arson and embezzlement, admitted in the county jail this morning that he is the man the Iowa authorities name in the warrant in Volador County. He is manager and secretary of the Northwest Fair Show company, and he claims to have been involved in a bitter quarrel with the directors.

On June 15, 1906, the factory was destroyed by fire and two weeks after that time Mackown admitted that he left Iowa. He denies, however, that he embezzled any of the funds of the company or that he was responsible for the fire. He will not resist extradition and is anxious to return to Iowa and face the charges.

BACK TO JOURNALISM.

Mrs. Rose Harriet Pastor Stokes Will Return to Her First Love.

New York, July 26.—Mrs. Rose Harriet Pastor Stokes, wife of the millionaire, J. C. Phelps Stokes, has decided to return to journalism. She has signed a contract with the Vortwaite. In addition to writing an article every week on socialism, she will take charge of a column devoted to advice to girls. Mrs. Stokes, who started life as a cigar maker, educated herself and went into newspaper work, in this field she met Mr. Stokes, whose ideas agreed with hers in many ways in the betterment of working people.

A WATER BICYCLE.

Jose Antonio Oates, a Mexican Student At Cornell, Invents One.

Ithaca, N. Y., July 26.—Joseph Antonio Oates, a Mexican student at Cornell, has invented a water bicycle, on which he has taken several rides on the waters of Lake Cayuga without danger. The bicycle consists of a frame, a seat, a steering wheel, and two large waterwheels. The frame is in the rear of the contrivance there is an eight-bladed paddle wheel, which is propelled by two pedals, which move a small sprocket, and this in turn moves a long chain, which causes the wheel to revolve.

CUBAN ELECTIONS.
