

The Last Great Opportunity in Bullfrog!

BULLFROG RUSH MINING COMPANY TREASURY SHARES AT 55 CENTS.

Property Adjoins the Denver Bullfrog, Selling at \$1.75 per Share, and Gives Every Evidence of Excelling the Denver in Point of Size and Richness of Ore Bodies.

**MORE THAN \$6,000,000 OF ORE IS NOW BLOCKED OUT IN THIS PROPERTY
OR \$4.00 FOR EVERY SHARE.**

COMPARISONS

1ST—NO OTHER PROPERTY ON BONANZA MOUNTAIN IN BULLFROG HAD REACHED AS HIGH A POINT OF DEVELOPMENT AS HAS THE BULLFROG RUSH AT THE TIME OF ITS ORIGINAL OFFERING OF TREASURY STOCK.

2ND—THE BULLFROG RUSH HAS BEEN "PROVED UP" TO BE A GREAT MINE PRIOR TO THE PUBLIC BEING INVITED TO INVEST IN STOCK OF THE COMPANY.

3D—BASED ON COMPARATIVE SHOWINGS OF THE MINES IN BULLFROG, BULLFROG RUSH MINING COMPANY SHARES AT 55¢ ARE FAR AND AWAY THE CHEAPEST ON THE MARKET. COMPARED WITH THE MARKET PRICE OF OTHER BONANZA MOUNTAIN SECURITIES, BULLFROG RUSH SHARES ARE EASILY WORTH FROM \$1 TO \$1.50.

4TH—IT BEING PLANNED SOON AFTER THE CLOSE OF SUBSCRIPTIONS TO MAKE APPLICATION FOR LISTING OF BULLFROG RUSH SHARES ON THE VARIOUS EXCHANGES OF THE COUNTRY, AND DEVELOPMENT WORK ON THE PROPERTY BEING STEADILY PROSECUTED WITH EVERY INDICATION OF CONTINUED IMPROVEMENT IN THE PHYSICAL CONDITIONS OF THE MINE, THE ADVANCE IN MARKET PRICE OF THESE SHARES SHOULD BE RAPID AND PERMANENT, AND THEY SHOULD SOON REACH THE HIGH NOTCH THAT THEIR COMPARATIVE VALUE ALREADY COMMANDS FOR THEM.

The following is the directorate:

JOHN S. COOK = = = = = **President**

President of the John S. Cook & Co Bank Goldfield, Nevada.

THO. S. ROBINSON = = = = = **Vice-President**

Director of the Jumbo Mining Company, Goldfield Nevada.

L. M. SULLIVAN = = = = = **Treasurer**

President of the L. M. Sullivan Trust Company, Goldfield, Nevada.

AUGUSTUS TILDEN = = = = = **Secretary**

Of Campbell, Metson & Brown, Attorneys.

HON. JOHN SPARKS = = = = = **Director**

Governor of the State of Nevada.

J. D. CAMBELL = = = = = **Director**

Consulting Engineer (Formerly Engineer for Schwab & McKane.)

GILBERT E. BAILEY E. M. Ph. E. = **Engineer in Charge**

CAPITALIZATION 1,500,000 SHARES; 500,000 IN TREASURY, PAR VALUE \$1. Fully Paid and Non-Assessable.

The Company owns outright four full mining claims, or eighty acres, on Bonanza Mountain in Bullfrog Mining District, situated within half a mile of the town of Rhyolite. The claims are known as Rush, Rush No. 1, Index and Keystone. They adjoin those of the Bullfrog Denver Mines Company and the Peerless Mining Company on the North, while on the East is the property of the Bonanza Mining Company.

Development work was commenced on the Rush Group February 7th, this year, since then one of the greatest ore bodies ever opened up in Nevada has been disclosed. There are four great veins on the property, the Rush vein being over 300 feet wide, of which 179 feet will pay to mill, giving average values from \$8 to \$10 per ton.

The great Denver vein, forty feet wide, passes completely through the property. On this same vein in the Denver ground, at a depth of 300 feet a tremendous body of ore has been exposed, averaging \$60 per ton. A double compartment shaft, now down 90 feet is being sunk at the junction of the Denver and Peerless ledges, and it is expected at the 300-foot level to find even greater values than have been found on the Denver, as on the RUSH ground the two great veins come together.

The amount of development work accomplished on the Rush Group since it was taken over by the Company nine months ago is one of the wonders of the Camp. More than two thousand feet of tunnel work have been driven, besides shafts and winzes amounting to a thousand feet more. Tremendous bodies of free milling ore have been exposed and the property is justly regarded as one of the great mines of the Bullfrog District.

The development work done on the main and north lateral tunnels thus far on the Rush claims, allowing fourteen cubic feet to the ton, shows seven hundred thousand tons of good milling rock, which will average from \$8 to \$10 per ton, according to Superintendent Boston's report.

On the Index claim of the Rush group which is located on the east side of the Bonanza Mountain, extensive development work has also been accomplished, but the ore tonnage has not been blocked out as on the Rush Claim, but the various tunnels and shafts demonstrate a continuous ore body for the full length of the claim with the high average milling values of \$14 to \$16.

More than SIX MILLION DOLLARS WORTH OF ORE has already been blocked out in this property and the amount exposed will warrant the erection of the largest reduction plant in the District which the Company will build at the earliest possible date.

This great property, with huge ore reserves and tremendous veins, is more of a commercial proposition than a mine, as is generally understood, and with a proper reduction plant should be able to pay dividends of not less than twenty per cent per annum upon its capital for years to come.

Professor G. E. Bailey, former professor of mineralogy in the State School of Mines of South Dakota, later Superintendent of the Harney Peak Mining Company in the Black Hills which treated 250 tons per day in its mills, and other experts on the ground, with whom the officers of the Rush have consulted, all of whom are conversant with the history of the Homestake, have supplied facts and figures from which a comparison may be made of the Homestake with the Rush as regards ore bodies, location, proximity to railroads, nearness to water and fuel supply, and future profits in the reduction of the ore on the property and the facts apparently warrant the belief that

the BULLFROG RUSH has a tremendous advantage over the Homestake.

Estimates as to the grade of ore that can be mined and milled at a profit in Bullfrog vary from \$1.20 to \$4 per ton, and the consensus of opinion of the great mining engineers now within Nevada who have been consulted on the subject is that \$4 ore will be mined and milled in Bullfrog within the next twelve months at a profit, and this is believed to be a conservative statement. The cost of mining and milling the ore of the Homestake is from \$1.15 to \$2.00 per ton. The Oro Fino Mining Company in the Black Hills mines and mills its ore at a total cost of 90¢ per ton. The Alaska Theadwell mines and mills its ore at a cost of \$1 to \$1.25 per ton.

In the Homestake mine they are milling 4,000 tons of ore per day and drop 1,000 stamps. The Homestake is paying dividends of \$1,200,000 per year. The company is incorporated for \$22,000,000. The par value of the shares was originally \$100 and they sold for \$1. The company is paying dividends at the rate of \$6 per share per year, or 600 per cent per year profit annually on the original investment of the stockholders.

When development work on the Homestake was commenced it was found necessary to ship supplies for the mine by wagon and mule team 320 miles from Cheyenne. At the start it cost the Homestake \$1 per stamp per week for water. Water was later located thirty miles away from the mine and piped into the mill on the ground at tremendous expense. There was no wood at first to be had except from a distance of twenty-five miles.

Water can already be had in Bullfrog from a distance of three miles and is already piped into the town by three different companies, and can be had at a nominal cost.

The Las Vegas and Bullfrog Railroad is now completed to within three miles of the mine and will pass within two hundred feet of it, which will insure cheap fuel as crude oil can be landed from California, so that mining and milling can be done from 80¢ to \$1.05 per ton, and ores of even a lower value than now treated in the Homestake mills can be mined and milled in the Bullfrog District at a profit.

This property is one that should be looked upon in the light of a conservative investment, yet one which will return large dividends for many years to come.

At the price the treasury stock is now offered it is without question the most desirable investment on the market today, for not only is it certain to enhance in value from the recovery of the millions already exposed, but from the practical certainty of bonanza values being found as depth is gained.

We unhesitatingly recommend this stock to the most conservative investor. WE WILL LOAN 30¢ PER SHARE ON THIS STOCK OR BUY IT ON A MARGIN OF 10 PER CENT.

Reservations should be made by telegraph, to insure consideration and remittances in full, by bank draft or certified check, must be forwarded immediately after allotment is made. Otherwise allotment will be rendered void. The right is reserved to reduce or refuse any subscription tendered. ACT QUICKLY IF AT ALL. We do not think it will be necessary to make a second announcement of this offering.
