

SOLONS CONSIDER LOUVRE LICENSE

Opinion of Members That Cafe Proprietor Insulted August City Council.

THINK HE SHOULD APOLOGIZE

Merchants Petition for Relief from Paying License, but Are Turned Down—Clubs Are Amenable.

Last night's session of the city council was somewhat tame, nothing of a partisan nature coming up for discussion. The principal topic under consideration was as to whether or not the Louvre cafe should have a license to dispense liquor. The matter was argued pro and con, and in the end was not decided.

The license had been denied a week ago, the claim being made that Proprietor E. L. Wille had defied the council. At first Stewart, chairman of the license committee, was against the applicant, but last night he had undergone a change of feeling and was in favor of granting the license. Martin was strong in opposition, as well as offensive in manner of expression. He is addicted to the use of profanity in open council, and the license debate afforded him an opportunity to be vulgar.

SHOULD MAKE APOLOGY. President Davis was opposed to the granting of the license, unless Mr. Wille would come before the council and make an apology. Mr. Forstrom also was of the opinion that Wille should be rebuked in some manner; it was not so much a matter of contempt for the council, but of the Louvre proprietor had openly violated the law and insisted that he would continue to do so at his pleasure. Finally, it was decided to let the matter go over for a week.

PETITION FILED.

With only Councilman Hall voting in the negative, the petition of merchants who had asked for relief in the matter of the payment of a license, was filed. This was equivalent to a denial of the request.

A petition from Market row merchants, asking permission to continue to place wares upon the sidewalk in front of their premises, was referred to the committee on streets.

MOTION LOST.

Councilman Black asked for a reconsideration of the matter of forfeit of license & reentry for non-payment of contract. The council voted last week that the action of the board of public works declaring a forfeiture unadvised, was well taken, and the motion to reconsider was lost by a vote of 10 to 3.

A claim of \$3,000 against the city for lowering the grade in front of No. 150 Third street, was presented by D. W. James.

TO REGULATE AUTOS.

Seg. J. E. Jennings of the Salt Lake Auto club asked the council to appoint a committee to confer with a committee from the club, relative to rules and regulations for auto cars. Copies of ordinances of Los Angeles and Denver have been received by the secretary, and legislation here will be made on or less than the same lines. The special police license of C. D. Hines has been revoked by Chief Pitt, and the appointment was given to Frank Smith.

CLUBS ARE AMENABLE.

Asst. City Atty. P. J. Daly, by request of the council, rendered a verbal opinion as to whether or not the statutes governing clubs in the matter of dispensing liquors, to the effect that clubs are amenable to the law, both as to licenses and Sunday opening.

HAY FEVER AND SUMMER COLDS.

Victims of hay fever will experience great benefit by taking Foley's Honey and Tar, as it stops difficult breathing immediately and soothes the inflamed passages, and even if it should fail to cure, it will give relief in the meantime. It is in a yellow package. For sale by F. J. Hill Drug Co., "The Never Substitutes."

INSPECTED STATE FARMS.

Prof. L. A. Merrill Returns from Tour of South. Prof. Lewis A. Merrill, agronomist of the Agricultural college, has just returned from an inspection of the state experimental farms in Iron, Washington, Juab, Tooele and Sevier counties. Prof. Merrill was accompanied on the trip by Dr. L. J. Briggs, soil physicist of the U. S. department of agriculture, Washington, D. C.; Prof. W. M. Jardine, in charge of dry land investigations in the U. S. department of agriculture, and Dr. E. D. Ball, director of the Utah experiment station. The Enterprise farm in Washington county will yield, says Dr. Merrill, at least 35 bushels of dry farm wheat per acre, with results fully as good for Tooele and Juab. In Sevier county the farm has been sown in bromo grass with results so successful that Prof. Merrill thinks this can be made the staple desert crop. The grass covers the ground to a height of 30 inches.

WORKING FOR SALT LAKE

Local G. A. R. Determined to Bring 1909 Encampment to Utah—Circular Issued.

The Utah G. A. R. has issued a circular letter No. 1, relative to the forty-third session of the national encampment being held in Salt Lake, The circular says:

"The forty-second annual encampment of the Grand Army of the Republic will be held in Toledo, Ohio, during the week of August 21 to Sept. 5, 1909. The department of Utah has arranged for a special train for the accommodation of department officers, representatives of the national encampment, members of the grand army, women, a relief corps, ladies of the G. A. R., daughters and sons of veterans, and our friends, to leave Salt Lake on Tuesday, Aug. 25, at 6:55 p. m., via the Denver & Rio Grande, Rock island, Lake Shore and Michigan Southern roads."

After giving detailed information as to travel, the circular says: "Inasmuch as the department of Utah has been working for several years building up sentiment in favor of holding the 1909 national encampment at Salt Lake City, and from the present outlook there will be little or no opposition to this movement at Toledo this year, therefore the showing we make at Toledo will materially assist us in securing the encampment for 1909. We wish to ask every member that can

possibly attend, to do so. This train will consist of the entire delegations from the western states, and we are looking forward to a big turnout from the Utah press. We trust you will co-operate with us and go yourself, as well as induce all others that you think will attend, to join this train. Should you desire further information, write R. G. Sleater, commander of the department of Utah, Salt Lake City, Utah.

Enclosed in the letter is a souvenir in the shape of a key to be worn as a watch fob. It is decorated with sego lilies, with the legend in red on a background of white and green. "Come to us in 1909; Salt Lake, where the sego lilies grow." On the reverse side are the words, "G. A. R. compliments, Utah delegation, Toledo, 1909." Stronous efforts will be made by the Utah veterans to bring the next encampment here.

SHE LIKES GOOD THINGS.

Mrs. Chas. E. Smith, of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at Z. C. M. I. drug store, 25c.

CASHED TWO CHECKS.

Police Think They Have Swindler in Person of Jos. Hermann.

Joseph Hermann, said by the police to be a clever swindler, was arrested last night by Chief of Detectives Sheets and Sergeant Henry Johnston on the charge of swindling a saloon man named Dominic Bianca. Hermann came here several days ago and began making the rounds of rooming-houses and cheap saloons. He appeared to be well supplied with money and spent it freely. He claimed to be representing a large liquor house. Saturday he found himself without money and gave to Bianca a check for \$20, drawn on the First National bank of Ocean Park. The check was made payable to himself and was endorsed. Bianca cashed the check and later endorsed another check for \$25. The saloon man then became suspicious and telegraphed to Ocean Park. Word came back that the man was a crook and to have him arrested. Bianca at once reported the matter to the police and Hermann was placed under arrest.

Keep Your Blood Cool By Right Kind of Food and Enjoy Warm Weather.

It's largely a matter of selecting the hot weather diet with reason. Summer is Nature's season of activity—seed-time, growing-time, harvest-time—a time of expansion, energy—and Man is influenced to do his part—to put forth greater effort because activity is in the very air.

BUT—caution is necessary to avoid excessive heat from combustion [digestion] of heavy greasy food (Nature's way of generating body-heat in winter) in addition to the heat of the summer atmosphere.

Grape-Nuts

Is the Ideal Food for Hot Weather, because being largely predigested (and concentrated) in the making at the factory, it is quickly absorbed, a small quantity affording great endurance with little effort in digesting it.

Grape-Nuts, made of Whole Wheat and Barley, contains only the natural elements of these cereals, including the phosphate of potash grown in the grain for rebuilding waste cells, especially of brain and nerves.

Try for breakfast, lunch or supper:

A Little Fruit; a Soft Boiled Egg; Saucer of Grape-Nuts and Cream; Slice of Crisp Toast, and a Cup of Postum, hot—or iced, with Sugar and Lemon.

Surprising how cool, yet full of healthy energy and "go" one feels on such a meal, no matter what the weather.

WOMAN FALLS ON MOTHER'S BOSOM

California Romance Comes to Sudden End in Salt Lake City.

WIFE RAN AWAY WITH BARBER

Couple Located in Rooming House—Face Shaver Said to be Gay Lothario—Returns to Berkeley.

Becoming infatuated with an oily tongued barber who gives the name of Charles Evans, Mrs. Phoebe Davis, wife of a prominent man of Berkeley, Cal., deserted her husband, sold her millinery establishment for \$3,000 and eloped with Evans to Salt Lake. The pair were located last night by Detective Schulze in a roominghouse at 628 south Main street.

The woman and Evans left Berkeley last Wednesday morning and came to Salt Lake, arriving here Thursday night. They went to the Wilson hotel and registered as man and wife. The following day they secured apartments in a roominghouse and Evans secured employment at White's barber shop on east Second South street.

MOTHER FOLLOWS.

It was known to the police of Mrs. Davis, who is but 23 years of age, that she was infatuated with Evans and that she had run away with him. The young woman's mother, Mrs. Jane Wooley, and her brother, Sergeant of Police Wooley of Berkeley, followed the pair to Salt Lake. Upon their arrival here Sergeant Wooley went immediately to Chief of Police Pitt and presented a letter of introduction to that official. Chief Pitt at once detailed Detective Schulze to make an investigation of the case and if possible locate the woman and her lover. Detective Schulze had a good description of the young woman and knowing that she was expected from California went to the postoffice and waited for some time before Mrs. Davis put in an appearance. She came, however, and Schulze shadowed her to the roominghouse, where she was stopping with Evans. Schulze then notified the woman's mother and brother and the three went to the house. As soon as Mrs. Wooley saw her daughter she burst into tears and held out her arms for her wayward one. Mrs. Davis rushed into her mother's arms and sobbed. The woman agreed to forget everything and the young woman consented to leave Evans and return to her home. She also agreed to take the officers to the place where Evans was employed.

EVANS ARRESTED.

Mrs. Davis motioned to Evans to come out of the shop. He was shaving a customer at the time but when he had finished he came out onto the sidewalk and was quickly placed under arrest by Detective Schulze. Sergeant Wooley was much wrought up over the affair but controlled himself and did not assault Evans. At police headquarters the barber lady-killer was searched and a key belonging to Mrs. Davis' trunk was taken from him. Evans took his arrest quite coolly until he was placed behind the bars and then he began to realize the serious predicament he was in and worried as to the probable outcome. It was at first decided to take the fellow back to Berkeley and prosecute him, but later this plan was abandoned to avoid the scandal that would have resulted. Mrs. Wooley, Sergeant Wooley and Mrs. Davis left last night for their home in Berkeley and after they had gone Evans was released.

Another brother to Mrs. Davis, a wealthy mining man of Reno, Nev.,

knew the couple were on their way to Salt Lake and he tried to intercept them but failed. Had he been on time in all probability there would have been a tragedy.

It is said that this is not the first time that Evans has acted the part of a home wrecker and it is said that some time ago he ran off with the wife of a man named Carr of Monterey, Cal., and that the irate husband went after Evans with a shotgun. The man escaped, however, and continued his practice until he met Mrs. Davis and induced her to sell her millinery establishment and fly with him.

TEN YEARS IN BED.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time.
