

EVENING NEWS.

Thursday, Oct. 1, 1881.

WHOLESALE PRODUCE LIST.

Table with 2 columns: Item and Price. Includes items like Wheat, Flour, Corn, etc.

TALK OF THE TOWN.

The Fair on Monday. The cold spell has passed over. Market day. Considerable business transacted. Brigade meeting to night at 7.30. R. H. Hardy, Sec'y.

LOCAL AND OTHER MATTERS.

Sunday Services.—The Sabbath services of the Church of Jesus Christ of Latter-day Saints, will consist of the following: Sunday school at 10 a. m.; general meeting in the Tabernacle at 2 p. m.; and Ward meetings, as usual, in the evening. Missionaries will visit the country Ward.

Reward Offered.—A reward of \$25 is offered for the apprehension of a young man named George Phelps, who yesterday decamped with a watch and chain, value \$50, some \$50 in money, a pistol, and several articles of clothing from the residence of Mr. N. Groesbeck. It appears the young man had been in the employment of Mr. Groesbeck for several weeks past, and was located at his house. For the first day or two Phelps, who is about 18 or 20 years of age, complained of being sick and remained at the house. Yesterday the family left home, and during their absence he made off with the above stated articles. It is to be hoped that Phelps will be captured, and that he will be made to pay for his ingratitude.

Carriages on the Move.—We notice in front of the Studebaker establishment three fine buggies marked for shipment. One fine top Concord, for Mr. John R. Murdoch, of Beaver, and one fine Jacobs buggy, for Lorin Farr, Esq., of Ogden. The branch house is offering for a few days, special rates to cash customers and many are taking advantage of the dull days and rebates and are purchasing their outfit now, so that when the fine weather opens in the spring they will be ready to enjoy it.

"Sea of Ice."—This afternoon, at 2 o'clock, a number of gentlemen, at the invitation of Mr. John T. Calne, met at the Theatre to view the scene, "The Sea of Ice," to be produced on Monday evening, in the spectacular drama of that name. Although the scene could only be set in position—the working apparatus was exhibited to justify the opinion that this scene will be presented with splendid effect. The floating icebergs are exquisitely painted; and as the scene develops, showing the open sea and large iceberg in the distance, with a representation of the aurora borealis, or Northern lights, the sinking ship, and the crashing of ice—it will be pronounced one of the finest spectacles of the season witnessed in Salt Lake for some time. The scenery has been got up under the direction of Mr. John T. Calne; while the painting has been executed by Mr. Lambourn; and the carpenter work has been done by Messrs. Evans and Timms.

The Fair.—The most active preparations are in progress for the opening of the fair on Monday next. To get everything in readiness, the committee and workmen have been engaged late and early for several days past, and from the appearance of the grounds to-day, the opening of the fair on Monday will be an unqualified success.

The stock will enter by the gate on the west side of the Museum. The space allotted for horses is situated at the entrance of this gate, and covers about 30 by 6 rods. A large number of stalls have been fitted up for the reception of the horses, the ground has been nicely cleaned off, and the space is commodiously and wisely arranged.

Adjoining the horse department, is the space set apart for the horned stock, which is also conveniently fitted with stalls, etc.

Next comes the space allotted for swine and sheep, and leading out of this department the main yard is reached, the entrance to which is made from West Temple Street. In close proximity to the ticket office, and a little to the south of this, a large stage has been erected for the band.

The yard south of the main building will be devoted to the exhibition of imported agricultural implements of all kinds, as also wagons, carriages, etc.

The main building has been conveniently fitted up with stands for the exhibition of all kinds of articles, and to day the supervisors of the various departments have been busily engaged in receiving goods of all descriptions, and getting them placed in their respective positions.

In the east of the main building a spacious art gallery has been fitted up. The sides of the frame work have been covered with painted canvas, and a good light is admitted from the roof, which is also covered with canvas (unpainted), thus making the house for the exhibition of art a very commodious place, its dimensions being 15x30 feet.

Leading out of the art gallery is the ladies department, a building 30x30 feet. Passing from this room one lands into a large building 100x20 feet, which space is set apart for the exhibition of vegetables, flowers, fruits, etc., in one end, and for various kinds of fowls in the other end. Perishable articles must be in by 10 o'clock on Monday morning.

The whole arrangement of the grounds is very complete, and will excel anything that has ever been attempted by the society in previous years. The electric light is a great acquisition, eight of which have been fitted up in different parts of the grounds and in the main building. This will enable the society to keep the fair open in the evenings, a thing which has never been possible before. The fair will be open to the public at noon on Monday, at which hour an opening address will be delivered by Hon. G. Q. Cannon.

Everybody on the grounds is busy to-day, and it is expected that the whole of the arrangements will not be completed until about midnight. Anyway, the Society is sparing no effort to make the fair a success in every respect.

Building Operations.—The Hooper and Eldredge block is rapidly approaching completion. The plasterers are now busy at work, and before very long the whole building will be ready for occupancy. The block is certainly one of the finest in the city.

The Groesbeck building, nearly opposite the Walker House, has also made rapid progress within the last week or two. It is a handsome building and has filled up an ugly gap in that part of Main Street.

On First South Street, immediately east of the Deseret Bank Building, Mr. H. B. Clawson has just completed the digging out of the foundation of a large store. It will be a three-story brick building, of good design, and will be quite an acquisition to the street. The foundation, we understand, is to be put in at once.

Mr. David James is also building a large addition in the rear of his new store, recently occupied by the Z. C. M. I. Reading Department, a little to the north of the Deseret Bank. The front shop has been entirely remodeled, and when the part in the rear is completed, Mr. James will have a store 100 feet in depth.

Other buildings in various parts of the town, including the Academy of Music, and a large addition to the White House, are progressing rapidly.

Mortuary Report.—Following is the City Sexton's report for September, 1881:

Table with 2 columns: Cause of Death and Number of Deaths. Includes causes like Apoplexy, Consumption, etc.

childless persons only being placed upon the committee. But in view of there being several enraged unsuccessful mothers, every convenience will be made for the private and the committee, so that they may escape the consequences which might possibly ensue. It is not yet fixed on what day the exhibition will take place, but the D. A. & M. Society will give ample notice in this respect. Anyway, considerable interest will be evinced in the "baby show," and a large number of entries may be expected.

Sudden Death.—A man named John Ohlsholm died in a fit in the streets to-day, and his body is lying at the City Hall. Just as we go to press, the Coroner is preparing to hold an inquest.

SPECIAL BUSINESS NOTICES.

THE BEST PLACE In the city to buy your Men's and Boy's Winter Clothing, is Farmer's One Price Store, where all Goods are sold at the Lowest Market Price, from which there is no deviation, to the first of November.

EXCELLENT ADVICE.

It is an evidence of progress which we note with pleasure—the removal of the Corticall silk sales-room from the old quarters on Fourth Street to the Mercantile Library building on Fifth. The new place is fitted up in elegant style with unusual good taste and is doubtless superior in its appointments to any other silk house in America. This is St. Louis rewarded for the liberal manner in which it has sustained and encouraged the enterprising company, who through their agent, C. H. Samson, are sending out among the Western States numerous able and courteous commercial travelers, who are a credit to our city, and who achieve enviable results.

We give this house special notice because it illustrates what energy, enterprise and genuine merit will accomplish. We venture to predict that Corticall Silk will rapidly increase in popularity until the Corticall Silk Mills already the most extensive in the world, it will have doubled their present capacity. In fact there is no limit to the magnitude they may assume if they continue their present well-defined policy of merit, integrity and enterprise.—St. Louis Post-Dispatch.
