

TO INCREASE WATER SUPPLY.

Council Appropriates the Sum of \$2,500 for Work in Emigration Canyon.

WILL TAP UNDERGROUND FLOW.

South Temple Paving Ordinance Referred Back—Free Telephones May be Accepted.

The city council last evening appropriated the sum of \$2,500 to investigate and develop the water supply of Emigration canyon. It is believed that the work to be done in that locality will materially increase the city's water supply. The money will be expended under the direction of City Engineer George W. Snow, and part of the appropriation will be used in repairing the sump in the canyon and the remainder will be used in sinking a shaft to tap the underground flow of water, which is believed to be of sufficient volume to furnish the city with more than a million gallons of water in addition to the flow which is at present derived from Emigration canyon stream. Should a sufficient flow of water be tapped to warrant it, an additional appropriation will be necessary in order to direct the water into the city's pipe system.

FREE TELEPHONES.

City Attorney Day submitted an opinion to the council in which he held that the city could legally enter into a contract with the Rocky Mountain Bell Telephone company, accepting free telephones in lieu of the regular license on its telephones. The report of the city and municipal laws committee, recommending that the contract with the company for 40 free telephones in lieu of the license be entered into, the same to run two years from May 1, 1904, was accordingly adopted. The contract will also include free fire alarm service to the city.

VETO SUSTAINED.

Mayor Morris' veto of the report of the markets committee granting City Sealers of Weights and Measures Richard 100 new tickets per month and awarding a license to anyone who would agree to conduct the business of his office, was sustained by the council by a vote of 8 to 4. The mayor refused to approve the report for the reason that he thought Mr. Richards should be allowed to purchase a horse and buggy for his use according to his request. The necessary vote to sustain the mayor's veto was not secured so the veto was sustained.

SKIDMORE GETS HIS MONEY.

The council, by a vote of 10 to 2, sustained the former action in appropriating \$150 to electrician O. H. Skidmore, for services rendered, notwithstanding the veto of Mayor Morris thereto. The mayor contended that the provisions of the resolution authorizing the employment of Mr. Skidmore had not been complied with, but the council decided otherwise and sustained its former action.

WALKER TO BE HEARD.

David F. Walker, by B. G. Raybould, agent, petitioned the council that the proper committee and the city engineer investigate the plans for the proposed addition of one story to the D. F. Walker block and authorize the building inspector to issue a permit for the same. Building Inspector Lewis, on June 2, annulled the permit for the addition which was issued by the former building inspector for the reason that the walls of the building are too light to support the additional story. The matter was referred to the committee on fire department and engineering with the city engineer and building inspector associated and the petitioner was notified to appear before the committee on Wednesday evening.

PROTEST AGAINST TRACKS.

Clara M. Peterson and other property owners on Third West street submitted a protest against the spur tracks on that street between North Temple and First North streets constructed by the Salt Lake & Ogden Railroad company. The protestants claim that the company has no franchise for said tracks, and that the same are a nuisance, and have greatly depreciated the value of the protestants' property. They also ask that the tracks be removed. The matter was referred to the streets committee and the city attorney.

A GOOD CIRCUS.

That is the General Verdict With Reference to the Floto Show.

The Floto circus has given general satisfaction in Salt Lake. Both performances yesterday were heavily attended, and the show is on again this afternoon before a big crowd; the engagement will end tonight. The tent is on East Temple street and Eighth South. As the parade came up the street this morning from that point, both sides of Main street were lined with men, women and children. The little folks are out in numbers that only a circus could draw.

UTAH AT THE FAIR.

Hon. Thomas Judd Says Her Exhibits Are Much Admired.

Hon. Thomas Judd, president of the state board of horticulture, arrived home last night from St. Louis, after an absence of nine weeks. Mr. Judd spent the greater part of the time assisting Director General Whitaker to place the agricultural exhibit, which, he says, is one that has excited much favorable comment among visitors. While it is not large, the products shown are clean and nice and they attract attention from the fact that they are raised under irrigation.

HOSTETTER'S

CELEBRATED
If you neglect the stomach and bowels you are going to suffer from Nausea, Sick Headache, Sleeplessness, Constipation, Dyspepsia and Indigestion. Hostetter's will strengthen the stomach, keep the bowels open and prevent these ailments. Try a bottle.

WHATEVER your experience with ready-for-service clothing may have been—good, bad, or indifferent—you will have but one sort of experience with Siegel's Clothes—a satisfaction, in every sense of the word.

Ready-for-service means with us not only good fit, and style, but the wear of the fabrics.

Here are some nice fancy Cheviot and Worsted Suits, serge lined and made well, and up-to-date, \$15.

Attractive Suits at attractive prices.

The animals are very clever in their exhibition, especially the ponies, which made a tremendous hit with the children. The same is true of the monkeys. The final performance this evening will begin at 8:15.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure Bright's disease and diabetes and even in the worst cases gives comfort and relief. It is a safe remedy in all cases. It is a safe remedy in all cases. It is a safe remedy in all cases.

CITY'S ELEVATOR SERVICE.

Doctors Condemn It and Deplore Recent Fatal Accident.

At the meeting of the Salt Lake County Medical society last evening the elevator service in the city and the present telephone situation were the chief topics of discussion. The elevator service in general was condemned and the recent accident in the McCormick block in which John Rees lost his life was deplored. The society decided to accept the proposition of the Utah Independent Telephone company at the next semi-monthly meeting. The company proposed to equip the offices and residences of the members of the society with telephone service at a rate which will save each one about \$10 per year.

Very Annoying to Some People.

People that are known to be weak and sickly, by their neighbors, are asked the question every day whether they are feeling better. Do you feel stronger? Are you gaining flesh? Their friends know if they are gaining flesh. It is one of the sure signs of returning health. If they only get a remedy that will make solid healthy flesh, recovery is assured. People with nervous troubles, loss of flesh and strength, no ambition, languid, and always tired, have their remedy. The food they eat does not nourish them, it does not make blood. If after each meal they would take Dr. Gunn's Blood and Nerve Tonic, their food would be turned into rich, red blood, making solid flesh and strength. The tablets are sold in boxes by all Druggists for 75 cents or 3 boxes for \$2. People who use this Tonic gain in solid flesh from 1 to 2 lbs. per week, they feel better and know they are on the road to health. For sale by Z. C. M. I. Drug Dept.

TALKS TO YOUNG WOMEN.

Mrs. Norton Gives Them Some Sound Advice on Housekeeping.

Mrs. Alice P. Norton of the University of Chicago began with her series of lectures before the state institute last night, her subject being "Housekeeping in the Light of Modern Science." The lecture was delivered in Burratt hall before a good audience, and in the course of her remarks the lady said:

"It is well for the young housewife to learn that adulteration is more frequently a matter which concerns the purse than the stomach, and that bacteria are of many varieties, some of which are entirely harmless. A very little knowledge in the line of discrimination would be of great value to the housekeeper. Many simple tests can be applied to the common articles of the household and much material outlay may be saved in this way. One practical use of a knowledge of the working constituents of food and their effect on the human body is that this knowledge robs household labor of its drudgery and makes home life more interesting."

TURN OVER TIME.

When Nature Hints About the Food.

When there's no relish to any food and all that one doesn't seem to do any good then is the time to make a turn over in the diet, for that's Nature's way of dropping a hint that the food isn't the kind required.

"For a number of years I followed rational work, manual, and office work of a trying nature. Meal times were our busiest and eating too much and too quickly of food such as is commonly served in hotels and restaurants, these together with the sedentary habits were not long in giving me dyspepsia and stomach trouble which reduced my weight from 250 to 160 pounds."

UTAH AT THE FAIR.

Hon. Thomas Judd Says Her Exhibits Are Much Admired.

Hon. Thomas Judd, president of the state board of horticulture, arrived home last night from St. Louis, after an absence of nine weeks. Mr. Judd spent the greater part of the time assisting Director General Whitaker to place the agricultural exhibit, which, he says, is one that has excited much favorable comment among visitors. While it is not large, the products shown are clean and nice and they attract attention from the fact that they are raised under irrigation.

The Utah building was far enough along to receive visitors the first day. The latter is much admired for its snugness and all who enter are well received and nicely entertained.

In this connection Mr. Judd calls attention to the fact that many Utah people will step in, register, and leave without making themselves known. This, he says, should not be done, as visitors to the fair are thus deprived of much valuable information which would be a great help to them in seeing the sights at the exposition. He advises those who visit St. Louis in the future to introduce themselves to those in charge of the Utah building. In order that the courtesies that are there for them may be enjoyed. The building is well supplied with Utah papers and is destined as a sort of headquarters for all who visit the fair from this state. They should also have their mail sent there and thus save themselves much unnecessary inconvenience and trouble.

In the opinion of Mr. Judd, right now is a good time to visit the fair. Generally speaking the exhibits are pretty much in place and the concessions on the pike are all in good running order. A little later it will be too hot there for comfort, and unless intending visitors can go now they had better defer the trip until along in September or October. At that time the Utah section will be graced by a magnificent fruit exhibit along the lines of that shown at the irrigation congress last year.

Mr. Judd says that if people will post themselves, there is no reason in the world why they should be imposed upon while "doing the fair." Hotel rates for the most part, are reasonable, an street car accommodations are all that could be desired. The gentleman will return to the fair a few months later.

CONTINUAL STRAIN.

Many men and women are constantly subjected to what is commonly termed "continual strain," because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, restores the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.

BEET SEED EXPERTS HERE.

Government Agents at Lehi—Recent Storms Less Severe Than Estimated.

George Austin, agricultural superintendent of the Utah Sugar company, who came up from Lehi this morning, states that the representatives of the agricultural department at Washington, arrived there yesterday and settled themselves in tents at the Saratoga farm of the Utah Sugar company, to watch the developments in the experiment of growing sugar beet seed which the government is carrying on at that point. The party consists of Prof. C. C. Townsend and his assistant, Mr. Kelso. They expressed themselves as delighted with the condition of the mother beets which had been set out, and the beets which were growing from the single germ seed. Of the mother beets planted, all had come up except one. The plan is for the representatives of the government to remain here six weeks, to carefully note the development of the beets. That seed gathered from the crop will be kept here and the experiment continued on a larger scale next year.

THE IDAHO FIELDS.

Manager Cutler of the Utah and Idaho companies has spent the last week in going over the crop in Idaho, and he is expected home tomorrow or next day. He telephoned the sugar offices this morning that the severe wind storm of last Thursday, which had been followed by a heavy frost, had hurt some of the crops of the farmers, but that, as usual, the hardy plants had been damaged least of all. The frost was severe in spots from Blackfoot to St. Anthony, but the warm sun, which followed on Sunday and Monday, had brought the plants out in good shape, and the damage will not be nearly so heavy as at first estimated. Affairs at the Fremont factory were in flourishing condition, and no doubt whatever is entertained that the factory will be ready for operation ahead of the beet crop, or by Sept. 1 to 15.

BASKETBALL AT SALT AIR.

L. D. S. U. and All Hallows College Teams Played Interesting Game.

During the dual excursion of the Liberty and Pioneer stake to Saltair yesterday the L. D. S. and All Hallows college basketball teams played a very interesting exhibition game. The L. D. S. loaned W. Lund to the All Hallows, which materially strengthened the latter team. The game resulted in a score of 34 to 11 in favor of the L. D. S. The boys are practicing daily at the L. D. S. U. gymnasium, preparing for their trip to St. Louis, and court all opposition from other local players they can get, either in private practice or public exhibitions.

BEYOND CRITICISM.

People Not Satisfied With St. Louis World's Fair Indeed Hard to Please.

\$50,000,000 SHOW FOR 50c

The Louisiana Purchase Exposition is Far Too Great and Grand To Fear Criticism.

In spite of the general chorus of wondering admiration and enthusiastic praise, there comes an occasional note of dissent from some misanthropic individual as to the surpassing beauty, grandeur and perfection of the world's fair at St. Louis.

Such as these forget that they are only paying 50 cents to see a show, which it has cost almost \$50,000,000 to place in Forest Park; they forget the year's toil of thousands of men to prepare the grounds, erect the magnificent buildings, and collect the strange and curious people from every quarter of the globe; together with an array of exhibits such as could not have been assembled without the aid of this great enterprise.

There can be no doubt as to the verdict of the vast majority of visitors. The superiority of the Louisiana Purchase Exposition to anything of the kind ever before attempted is so marked as to place it practically beyond the reach of criticism. Mankind has never seen its like before and perhaps never will again.

Yet in a few months the gates will be closed, the stately palaces leveled to the ground and, in view of this, how important becomes the "Forest City" series of World's Fair Art Portfolios, which form a complete pictorial and descriptive history of this great civic event.

The Deseret News considers itself extremely fortunate to be able to offer this series of views to its readers at the very low price of 10 cents for each part; this small sum going to defray the expense of handling, wrapping, addressing and mailing.

The portfolios are being issued in 30 parts, one each week, and each part contains 18 beautiful and interesting photographic reproductions from official photographs; with accompanying descriptions from the pen of the distinguished journalist and secretary of the exposition, Mr. Walter B. Stevens.

Parts 1 to 8 are now on exhibition at the "News" office. Any daily subscriber paid seven months in advance can have the seven free.

Ask those who have already secured the parts issued what they think of the value and interest of the work. They will tell you that you cannot afford to miss a single portfolio.

Pupils and friends of Christensen's Academy will spend June 16 at Saltair. Children's Matinee 3 to 6, Grand Ball 8:00 p. m.

THE WEARY WAY.

Daily becoming less wearisome to many in Salt Lake City.

With a back that aches all day, With rest disturbed at night, Annoying urinary disorders, 'Tis a weary way, indeed, Doan's Kidney Pills drive weariness away.

Are endorsed by Salt Lake City citizens.

Mrs. Annie C. Poulsen, of 174 1/2 West South Temple St., says: "The direct action of Doan's Kidney Pills upon the functions of the kidneys is so manifest and the results follow so quickly after a course of the treatment that the user cannot but come to this conclusion. The remedy acts as represented. I am too far along in years to ever expect a permanent cure from any medicine, but I can say with all honesty that Doan's Kidney Pills procured at the F. J. Hill Drug Co's store did me more good than all other remedies for the kidneys I ever used."

For sale by all dealers. Price 50 cents. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

CATARRH ROBS WOMEN OF HEALTH AND BEAUTY.

Pe-ru-na Makes Women Healthy and Beautiful.

Women All Over the United States Praise Pe-ru-na for Diseases Peculiar to Their Sex.

Miss Florence Miller, 402 Alabama St., Buffalo, N. Y., writes:

"I am proud and happy that I am able to praise Peruna as it deserves, for a better medicine I do not know for the ills so many women suffer from and do not know which way to turn for help. If all women who suffer as I did with periodical backache, headache and all worn out feeling would take Peruna they would soon find that it put new life into the body and took away all the aches and pains and weariness."

"That has been my experience, and I gratefully acknowledge the blessing Peruna has been to me."

MISS FLORENCE MILLER.

Disguised Catarrh.

There are a great many people who are actually invalids from chronic catarrh of some internal organ who have not the slightest suspicion that they are victims of this universal disease.

This is especially true in cases of chronic catarrh of the organs in the lower part of the abdomen or pelvic organs.

There are a multitude of women, especially housewives, and all other women obliged to be on their feet continually, who are writhed beyond description, simply because their strength and vitality is sapped away by catarrhal discharges.

Peruna is such a specific for such cases

Miss Florence Miller.

that when patients have once used it they can never be induced to quit it until they are permanently cured. It begins to relieve the disagreeable symptoms at once. The backache ceases, the trembling knees are strengthened, the appetite restored, digestion made perfect, the dull headache is stopped and the patients are gradually cured. These results certainly follow a course of treatment with Peruna.

We have on file many thousand testimonials like the one given above. We can only give our readers a slight glimpse of the vast array of unsolicited endorsements we are receiving every month. No other physician in the world has received such a volume of enthusiastic and grateful letters of thanks as Dr. Hartman for Peruna.
