Admiral do Amaral, the New Premier, Will Reverse the Entire Dictatorship.

FRANCO'S FALL COMPLETE.

No Headway Made in Unraveling Plot Which Resulted in Murder of King and Crown Prince.

Lisbon, Feb. 4 .- Lisbon is beginning to recover from the shock and horror of Saturday's bloody tragedy, but a strong undercurrent of popular and governmental nervousness remains. The po-litical tension is slackening, although the Progressists retuse to join in the concentration cabinet which Admiral Ferriera do Amaral is forming from all the monarchial groups, because the Conservatives are in predominance. The hitch, howeve, is likely to be staight-ened out and a temporary union of all the monarchical elements attained for the purpose of getting the country back on a constitutional basis, "ending agi-tation and restoring tranquility," as ex-pressed by the leaders. Senor Bernamental nervousness remains. The potation and restoring tranquinty, as ex-pressed by the leaders. Senor Berna-dino Machado, the leader of the peaceful wing of the Republicans, agrees to a truce, provided that his friends now under arrest are liberated, freedom of the press restored and the elections or-dered. Admiral do Amaral, a devoted dered. Admiral do Amaral, a devoted friend of the queen, who assumes pow-or, is committed to the reversal of the entire policy of the dictatorship, the abolition of repressive measures and the restoration of the "the old Liberal monarchy." On Saturday, government by decree will be withdrawn, amnesty accorded political offenders not impli-cated in deeds of violence, and the em-bargo et the press raised.

DOWNFALL OF FRANCO.

DOWNFALL OF FRANCO. Franco's downfull is complete. He recognized that it was impossible to saddle the youthful king at the outset of his reign with the stern program in-volving the immediate banishment and deportation of several hundred political offenders, to which he had committed himself if he retained office. He told a friend that the assassination of the king ended his political career. He of fered his services, however, but these were refused, both Queen Amelie and the downger queen, Maria Pla, agreeing with the unanimous view of the council of state that the author of the dictator-ship must be cast aside.

That hundreds of people have tried the treatment with good results is shown by the increasing number of cures reported. Every sufferer from this most pain-ful disease who does not try this treats, ment is neglecting the most hop-ful means of recovery as is shown by the statement of Mr. E. C. Odell, of Mor-rison III

"I suffered with inflammatory rheu-matism for eighteen months before I found a cure," he says. "I had always been more or less troubled with my kidneys and stomach. The rheumatic attack came on a few years ago when I was living in New York state. All of my muscles were inflamed and I was swollen from head to foot. I couldn't walk any distance at all without resting. The pains were dull and aching and once in a while were sharp and shooting. The rheumatism began to affect my heart causing fainting spells. "I was under a doctor's treat-ment for about a year, but didn't derive any help from it and in fact I think I grew worse. I think I grew worse. I saw an ac-count of Dr. Williams' Pink Pills in a newspaper and began to use them at once. The relief was almost bm-mediate and I took the pills until cured. I have never had the rheu-matism in any form since. My wife has been very much benefited by us-ling the pills as a tonic and recom-mends them as highly as I do." Dr. Williams' Pink Pills were orig-inally a prescription used in the doc-tor's private practice and their ben-efit to mankind has been increased many thousand fold by their being placed on general sale with the doe-tor's own directions for use. They are entirely safe and contain no op-iates or other habit-forming drugs. They build up the blood, strengthen the nerves and have cured rheumai-tism in almost every form, anaemia, troubles of women and growing girls and many forms of weakness. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, post-paid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schem-ectady, N. J. H. Sanderson collected §90,748 and paid the sub-contractor who made them \$2,060. Fred H. Potter of the Audit company of New York was called to identify from his inventory of the capitol fur-nishings the furniture in the house of representatives. The testimony devel-oped that in the general crowding of the capitol with surplus furniture no system was observed, no record was kept, and as a result some of the sofas cannot be found. When it was announced that the chair had been billed at 59 feet, at \$12.90 per foot, totaling \$761 spectators gave a prolonged whistle of amazement. The chair measured 37 inches front, 29 inches deep and 91 inches high. Mr. Teller said that estimating for a lock canal is fraught with great un-certainty, although a sea level can be estimated upon accurately. He had, he said, noticed now that it is suggest-edthat the locks are to be enlarged. "If the right men had had control of this canal project in the beginning." said Mr. Teller, "there would be no need for such a suggestion for a change of plans now." He believed that the lock canal would need for such a suggestion for a change of plans now." He believed that the lock canal would cost but little less than a sea level. "I do not believe any engineer in this country today believes it can be built for \$200,000,000, and when it is built it will be a second-class canal. "Some of us will live to see this ca-nal abandoned, and some of us will live to see a sea-level canal between the Atlantic and Pacific." Mr. Teller said this discussion was ot little profit, as Congress had taken the canal out of its hands and placed the control of it in the president, and no one believed that a bill could be passed to bring it back in the hands of Con-gress.

No, he said, but instead he jumped into a lucrative position in private life, "with a letter of recommendation from he president of the United States," Mr. Williams insisted that a corpora-ion as such could not commit a crime tion as such could not commit a crime, and therefore he advocated punishing the responsible heads of corporations. "Punish one," he said, "and you will not have to punish any more." Mr. Williams said he did not like to "stand here or anywhere merely as the mouthplece of a heterogeneous body of mereditional criticism and contention."

Boulder, Mont., Feb. 4.-The state closed its case in the trial of Harry J. Gruber, charged with the murder of Engineer Frank Clow, whose train was held up by two men near Welch's Spur, last May, at 2:15 o'clock this afternoon. Litzk by link the state forged a chain of circumstances about Grüber. The accused is another example of a man who wrote and talked too much for his own good. This morning the state-ments made by the prisoner to the of-ficers of the law and to army officers on the Pacific coast were introduced in evidence, and they were damaging to the defense.
