Junction City Magnates Have Al ready Signed Players for Next Year.

THE MEETING WAS POSTPONED.

Pacific National League Magnates to Meet Last of Month or in December, at Spokane.

William rianterd of Ogden, one of the most active fans in the Junction City, visited Salt Lake yesterday on business and returned to his home last evening. While his trip here was not exactly in the interest of baseball, he had time to talk on the subject to the "News." Ho silvays has time to talk baseball. When sked what the situation was at the pres-ent time and the outlook for the fuure, he failed

ent time and the outlook for the fuure, he gaid: "We will be in the Pacific National league next year and don't you forget it. If Salt Lake remains in the league we will have to come in and liven the sport up in these parts. With Ogden in the field and the old rivary between the two cities revived, the game would be poomed as never before. We have the encessary backing to go into the organi-gation, but of course we wand to know a hing or two before we commit ourselves. We would like to see the Pacific Coast league come under the national agree-ment and we will also hold out for a sai-sry limit of \$1.500. Then there are other concessions which we will ask for and which will no doubt be granted. We want to be in the league and the league wants as."

to be in the league and the league wants "The meeting of the league magnates, which was to have been held on the 13th of this month at Spokane has been post-pond until the latter part of the month, and may not be held until some time in December. The Pacific National people are holding off to see what the so-called uithaw organization in California does by way of coming in under the national sgreement. It is now believed that the California magnates mean to take, this action, but for a time it was thought dif-ferent. Of course so long as the organiza-tion is "outlaw" it can sign any players and as many as they can get a hold of without worrying over violating agree-ments.

When I was here week before last the track was wet, but I saw its advantags and determined to come back. The result justified my ex-pectations. I knew before the race that the stallion would beat his record, but I did not anticipate a triumph so com-plete. I shall go to Oklahoma City and Fort Scott right away to keep engage-ments, and that will be the last time he will appear in public."

Memphis, Oct, 19.—The Memphis Trot-ting association tonight offered to George H. Ketchum, owner of Crescous, a purse of \$5,000 for the attendance of the cham-plon during the meeting beginning tomor-row, en condition that he go a mile in 2:00 flat.

Kearney, Neb., Oct. 19.—The opening day of the Mississippi Valley futurity coursing meet was a great success. The day was perfect and the hounds ran well. There were 114 entries in the Futurity, many coming from as far as California and Montana. Among the notable winners today were Trace Pasha, Northern Light, Lord Bright, Princess Kirk, Gold Chain, Bo-nita, Jaul Jonés, Humble Hanna and Lord Kildore.

Buckers vs Buckers.

The Court House Buckers football team

The Court House Buckers football team was defeated yesterday afternoon by the Moore Buckers. The line-up of the lat-ter was as follows: B Smith, left half back; P. Platt, right half back; L. Smith, full back; T. Driscol, quarter back; J. Platt, left tackle; J. Wise, right tackle; B. Wise, left end; C. Beckor, right end; P. Vincent, right guard; T. Lewis, left guard; F. Greek, center.

Basketball Games.

Just as soon as the basketball season is well under way, the L. D. S. U. team will line up against the Provo boys. The latter have sent a communication to the local team asking for a game next week. Captain Stanton replied that he was not ready to play now, but would meet the Provo team just as soon as the season onens.

BASSETT IS CAPTAIN. Will Play With All Hallows Football

Team This Season. Team this Season. Freeman Bassett is now captain of the All Hallows football team and devotess of the sport may look for something do-ing with this aggregation in the near fu-ture. Although the team was late in get-ting started, the hoys are now in shape and they propose to be in the state cham-pionship reckoning. The eleven's first game will be played on Saturday after-noon with the Collegiate Institute eleven, and after that they propose o get a game with he "Aggles." The thought arises that surely the camp might have afforded with backgroups for the body of Alax surely the camp might have allored suitable coverings for the body of Alex-ander and his generals. The dram-atists came close to making an effective situation out of the poisoned cups in the final act, but they missed the point by having the villain force the queen to drink at the point of his dagger. Mr. Warde's character was well portray-

Warde's character was well portray-ed, even though it gave him no real op-portunities, but it was a mistake to se-lect Mr. ames for the title role. It would have fitted a youth like Hackett, but Mr. James is too matured, and too ponderous in style for the ideal Mace-donian prince, who, history tell us, be-gan his career at 20, and ended it, a vic-tim to the wine cun at 22. gan his career at 20, and chued it, a vic-tim to the wine cup at 32. evening. Lincoln J. Caarter seldom knows what it is to play to a poor house at the Grand. Last night, although "Down Mobile" was no novelty, there was a big turnoui to greet it. Every one remem-bers the pretty scenic features with which the play is filled, and the thrill-ing features of the story. The old episodes, the Dismal Swamp, the negro plantation, the home of the witch, and the burning of the cotton mill. were as greatly appreciated as ever, even though the smoke from the fire scene-came out in clouds over the audience. The main work of the evening was in the hands of Mr. Parker, in a double role, while Mr. Eversön, Mr. DelVec-chio and Mr. Wolfe, all did capable work. All the ladies were fair, Miss Greber as Sally seeming to strike the audience hardest. The same bill goes

New York, Oct. 20 .- The Russians are very indignant with the United States government for concluding a treaty for opening Mukden to the commerce of the world, cables the Chefoo corres-pondent of the Herald. They say, he asserts, that the St. Petersburg gov-ernment will protest and maintain that the opening of this new treaty port will never take place. The Port Arthur Russian newspaper Novoe Krai, has published a strongly worded article on this subject. It de-clares that the treaty is proof of the aggressive nature of the policy of the United States. This policy, the paper declares, in-fringes the rights of Russia founded on her construction of the Manchurian railway and the concession by China to Russia of the sole commercial exploitagovernment for concluding a treaty for

rallway and the concession by China to Russia of the sole commercial exploita-tion of Manchuria. The Russian fleet has returned from Dainy. The garrison there and 20,000 Chinese laborers are building barracks for over 10,000 men. The defenses to the north of Talien-Wan are being strengthened.

ALEXIEFF ON QUESTION.

New York, Oct. 20.-Admiral Alevieff, viceroy of the far east, seems indis-posed, cables the Herald's Port Arthur

of Mukden as a treaty port. "Oh, we shall settle this question all right," he said, "maintaining our old friendship with America. International

ommerce must go on." Regarding the alleged construction of forts at Yongampho, in Corea, he em-

forts at Yongampho, in Corea, he em-phatically denied it. "These stories are all fabricated," he said, "to cause a sensation. There is no fort, not a single officer, not a single soldier and not a single cannon at Yongampho." Regarding Manchuria he said trou-ble with the briegands is constantly oc-

ble with the brigands is constantly oc-curring outside the rallway zone, espec-ially in east Manchurla, between Harbin and Vladivostock, and its robber-ridden country. He said he often re-ceived petitions from the Chinese beg-ging him to retain troops, and he would receive more petitions were not people errorized.

Taken from Nature.

From the pure fountain of nature flows the stream of energy and health, which renews and invigorates our race. In every period of the world's progress men have received their greatest strength and inspiration direct from nature. It is the greatest teacher and developer of mankind. Not only do we get inspiration from nature, but health as well. To live in the open, in the sunshine, in the fields or woods, drinking pure air into the lungs, is best for those who have the opportunity. For people who are run-down, nervous, suffering from occasional indigestion or dyspepsia, headaches, night-sweats, whose machinery has become worn, it becomes necessary to turn to some tonic or strengthener which will help them to get on their feet and put the body into its proper condition. For cenand put the body into its proper condition. For cen-turies it has been known that nature's most valuable turies it has been known that nature's most valuable health-giving agents are roots, herbs, barks and ber-ries, and some forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., found a combina-tion of roots, herbs and barks, taken from the fields and woods and made into an alterative extract, produced results in the system which was satisfactory in almost every case of blood disorder and stomach trouble. This concentrated extract of nature's vitality purifies the blood by putting the stomach into healthy condition, helping the assimilation of food which feeds the blood, and putting the liver into activity.

reeds the blood, and putting the liver into activity.⁵ Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourished blood. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby all the organs of the body are run smoothly, like the machinery which runs in oil. In this way you feel clean, strong and strenuous-you feel braced up, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting. The trouble with most tonics and medicines which have a large sale for a short time is that they are largely composed of alcohol holding the drugs in solution. This alcohol tarrly shrinks up the red blood corpuscles, and so one may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery does not contain alcohol. The proof is easy. Distill a little in a glass retort and see for yourself. Every bottle of Dr. Pierce's Golden Medical Discovery bears the stamp of public approval. For the druggist to offer you something he claims is "just as good" is to insult your intelligence. What you want is a remedy without alcohol, and one which has stood the test of time.

"It is with pleasure that I give my hearty endorsement to Dr. Pierce's Golden "edical Discovery," writes Hon. E. E. Willard, Judge of 11th District, Duval Co., orida. "It is the most successful remedy that I know of for the weakened condion of the digestive organs which excessive heat or overwork sometimes brings, caus-

nights and a complication of uncertainty and its signal which excessive heat or overwork sometimes brings, caus-nights and a complication of uncertainty and the source of the signal source of the s assimilation of food, which will soon restore health and harmony.

The dealer who tries to palm off a substitute for "Golden Medical Discovery." does so in order to make the little more

profit paid by the sale of less meritorious preparations. Insist on having Dr. Pierce's Golden Medical Discovery. The best guide to health and happiness is Dr. Pierce's Common Sense Medical Adviser. In the scope of its 1008 large pages there are discussed the great mysteries of human origin and of human destiny, and a broad path is laid out for those who would have a strong and long life. That Ogden means business is eviden from the statement made by Mr. Binford yesterday afternoon relative to the signing of players. "We have already signed some good men," said he. Asked for the names of the men he was sure of, he replied: "Well, we will have two good catchers and Hausen will be one of them. We will also have Casey at second, Gimlin in middle field, Mahoney at short. We will very likely land Plake also. In addition to these we have signed three first class pitchers, Who are they? Well, as the law-yers say, that is a leading question. I don't care to announce their names just at present. We will have four or five good 'wirlers on our staff and if we go into the league we will go in to win."

tion to stage literature. Its staging is simply superb; nothing that that gen-erous firm of providers, Wagenhais and Kemper, have yet furnished their co-stars, comes up to it in magnificence, and this is saying no small thing. Ev-ery act was a marvel of the scene painter's art, and the storm on the heights, managed entirely by electric effects, the snow fall being a clever fil-lusion, not a particle of the old time paper or cotton failing to the stage— was handled in grand style. The cospaper of cotton family to the stage was handled in grand style. The cos-tuming was not less magnificent, and the Egyptian ladies, in particular, were arrayed in styles that might have been copied from the fashion plates of Sol-Alexander Robertson, former teller of the Wells-Fargo bank, had a foretaste yesterday of what is probably in store for him by Thanksgiving time.
