

WILL VIEW WORK ON THE CONDUIT.

Councilmen Decide to Take a Trip up The Canyon on Sunday Morning.

DOWN GETS LIQUOR LICENSE.

Mulvey Preparing New Ordinance Restricting Saloon Business to Disfranchised by the Police

At the special meeting of the city council last night, the department pay-rolls for the last half of January, amounting to \$4,629.30, were submitted by Auditor Alf, and were referred to the proper committees for approval. President Davis announced that City Engineer Kelsey extended an invitation to members of the council to take a trip out to the Big Cottonwood conduit on Sunday morning at 10 o'clock. The mayor will go with the party and the trip will be made from the Wilhelms hotel. A number of the councilmen signified their intention of taking the trip.

WILL GET LIQUOR LICENSE.

In the committee meetings last night the license committee decided to grant a liquor license to Matthew Down for a saloon on the corner of Second South street and Sixth West streets. There was a strong protest made against the saloon by a large number of residents of that locality, but as the committee decided that Down is a reliable man and the saloon will be 10 rods from any residence, the committee decided to grant the license.

MULVEY'S NEW ORDINANCE.

Mulvey is preparing a new ordinance restricting the saloon business of the city to the area of the city now regulated by the police, so that all saloons will be directly under the supervision of the police department. The ordinance will also require an applicant for a liquor license to get the consent of a majority of the saloon houses on the block where he proposes to open his saloon before a license will be issued.

IN SPLENDID SHAPE.

County's Assets Are \$157,199.17 Over All Liabilities.

The annual report of County Treasurer Carbis and County Auditor Fisher for the year 1905 has been completed and shows the assets of the county to be \$157,199.17 in excess of all liabilities. The total receipts for the year amounted to \$358,941.08, an excess of \$12,524.28 over all disbursements.

GOES FOR PLANT.

Shirley Ware of Davis county left his night for San Francisco after C. J. Plant who is wanted in Davis county for polygamy. The sheriff has received papers for Plant but it is expected that the latter will make a fight in the courts to prevent the officer from bringing him back.

DEMURRER SUSTAINED.

University of Wyoming Wins Suit Brought by Agricultural College.

Special Correspondence. Cheyenne, Wyo., Jan. 31.—The supreme court today handed down a decision in the famous Wyoming Agricultural college case, sustaining the demurrer of the defendant. This is the case in which the Agricultural college, located at Lander, enjoined the state treasurer from the payment to the University of Wyoming, located at Laramie, of the United States appropriation for the maintenance of agricultural colleges in the several states, claiming that such appropriation should be turned over to them. At the territorial session of 1891 a vote was taken on the location of the state agricultural college and at that election Lander was given the college. The funds available, however, were not sufficient for the erection of the college buildings and the funds were therefore turned over to the state university for agricultural college purposes. Several years ago, however, a resident of Lander, having all his property for the erection of buildings for the use of the agricultural college, and the buildings were accordingly erected and the college selected. The state authorities, however, failed to recognize the college at Lander as the state agricultural college, claiming that the location had been selected under the territorial laws and that according to the state laws the agricultural college was a part of the state university, located at Laramie. During the session of the legislature of 1903, a bill was introduced in the senate, providing for the turning over of the funds for agricultural colleges to the state university, and the bill failed of passage. A suit was then brought by Lander, restraining the state treasurer from turning over the funds to the university, and the university demurred to the decision today by the supreme court, in effect giving the funds to the university.

HOME FOR WOMEN.

New Movement Given a Substantial Boost Yesterday Afternoon.

The young women interested in the founding of a Young Women's Christian association in this city met yesterday afternoon in the Y. M. C. A. building, and decided to issue an address to the public as follows: The purpose of the organization is to open an inviting and attractive home for women. Lunch will be served daily. Classes in physical and social culture will be organized, and other lines of association work will be taken up as soon as possible. Yet it will be at first a place where a headquarters for young women who come into the city as strangers, as well as for those who remain here. The committee wishes to solicit the

sympathy and substantial assistance of the philanthropic women and men of our city, and hope soon to see the Young Women's Christian association of Salt Lake City a thriving organization and a daily blessing to many young women and to the entire community.

The business portion of the city will be canvassed in the near future and all will be given an opportunity to help in the work.

MEETING OF POULTRY MEN.

Will Elect Officers and Discuss Matters for Legislation.

The Utah State Poultry association will meet tonight at the Commercial club to elect officers for the coming year, and to decide upon who shall be employed as judge of the next show. In addition to these formal matters, it is probable that the meeting will be an interesting and lively one, as the association proposes to start a campaign at once to secure the passage of a law making poultry stealing a felony, and securing recognition from the Legislature that will put poultry raising on a par with other state industries, as well as providing for an annual exhibit free from an admission charge, which will be in the nature of an institute at which all interested may see the best standards of perfection attained to date.

The fact that the last show was over twice as large as that of the year before is considered an indication that interest is growing and the association plans to secure a show of 1,200 birds in 1907. This number showed at Denver this year, where the business is only slightly advanced in years over that in Utah.

RIGHT HAND CRUSHED.

Afton Gillespie Sues Linen Supply Company for \$50,000.

A \$50,000 damage suit was filed in the district court yesterday afternoon by Afton Gillespie, a minor, by her guardian ad litem, Jane E. Gillespie, against the American Linen Supply company. The plaintiff alleges that she was employed by defendant, and on June 5, 1905, while operating a mangle, her right hand was crushed and rendered worthless. She claims that defendant was negligent in not having a proper guard on the machine, and asks judgment in the above sum.

MRS. KOLITZ WINS.

Gets Judgment Against Thomas Welshons for Breach of Contract.

A verdict in favor of plaintiff for \$320 was rendered by the jury in the case of Mrs. Anna Kolitz against Thomas Welshons yesterday afternoon in Judge Ritchie's court. Plaintiff sued for \$3,145 as damages alleged to have been paid by her to defendant for the construction of a house for her in accordance with specifications. Welshons claimed that there was \$287.10 due him on the contract but the jury found in favor of Mrs. Kolitz.

MAJOR THOMAS INJURED.

Son of Postmaster Meets With Accident at Maxfield Mine.

Major A. L. Thomas, Jr., was severely injured yesterday afternoon, by falling 12 feet from a scaffold at the Maxfield mine in Big Cottonwood canyon, and striking on the edge of a water pipe. His father, the postmaster, was notified and left for the mine last evening, with Dr. Worthington. It was feared that several ribs were broken.

CLERK WILKIN'S PLACE.

Position With Board of Public Works May Be Contested.

The new board of public works held a meeting last night, and after looking over some routine work decided to hold its meetings hereafter on the first and third Tuesday evenings of each month at 7:30 o'clock. Those present at the meeting last night were Leonard, Brooks, Rookledge and Barlow. There seems to be some question as to the status of Clerk W. H. Wilkins, of the board, and whether or not he will retain his position may become a question of law for the city attorney to decide.

OVER SEA HABIT.

Difference on This Side of the Water.

The persistent effect upon the heart of caffeine in coffee cannot but result in the gravest conditions, in time.

Each attack of the drug (and that means each cup of coffee) weakens the organ a little more, and the end is almost a matter of mathematical demonstration. A lady writes from a western state: "I am of German descent and it was natural that I should learn at a very early age to drink coffee. Until I was 23 years old I drank scarcely anything else but my meals."

"A few years ago I began to be affected by a steadily increasing nervousness, which eventually developed into a distressing heart trouble that made me very weak and miserable. Then, some three years ago, was added asthma in its worst form. My sufferings from these things can be better imagined than described."

"During all this time my husband realized more fully than I did that coffee was injurious to me, and made every effort to make me stop."

"Finally it was decided a few months ago, to quit the use of coffee absolutely, and to adopt Postum Food Coffee as our hot table drink. I had but little idea that it would help me, but contented to try it to please my husband. I prepared it very carefully, exactly according to directions, and was delighted with its delicious flavor and refreshing qualities."

"Just so soon as the poison from the coffee had time to get out of my system the nutritive properties of the Postum began to build me up, and I am now fully recovered from all my nervousness, heart trouble and asthma. I gladly acknowledge that now, for the first time in years, I enjoy perfect health, and that I love it all to Postum." Name given by Postum Co., Battle Creek, Mich.

"There's a reason. Read the little book, 'The Road to Wellville,' in plain Postum Food Coffee contains no drugs of any description whatsoever."

wrestle with. In December last the city council passed an ordinance taking the appointment of a clerk of the board of public works out of the hands of the city recorder and giving the chairman of the board power to appoint a clerk for a term of two years.

After the ordinance was passed and approved, Col. Wall, who was chairman of the former board, sent in the appointment of Clerk Wilkins, and the same was confirmed by the council. Under this appointment Mr. Wilkins claims that he is entitled to hold the

office for two years unless removed for cause. His contention may lead to a legal complication over the position.

COUNTY BOARD BUSINESS.

Light Inspectors Named and Mrs. Nichols Made Chief Janitress.

The county commissioners yesterday afternoon appointed Willard Snow as light inspector for the district north of Murray, and Neil Anderson as inspector for the district south of that town.

The office of chief janitress of the county side of the joint building was created by the board and Mrs. Anna Nichols was appointed to the position at a salary of \$40 per month.

The promotions of Mrs. Margaret Z. Wilcher and Miss Evelyn Edgington to be deputy county clerks were confirmed, upon request of County Clerk Eldredge.

County Commissioner Miller, who leaves tomorrow for the east, was authorized to investigate the various voting machines now in use in the larger cities, with a view to purchasing some for use in the election this coming fall. He was also authorized to secure information concerning the sale of the county's refunding bonds to be issued on July 1 next.

MR. BACON RESIGNS.

Engineer on Big Cottonwood Conduit Gives up His Position.

Assistant Engineer George M. Bacon, who has had charge of the work on the city's Big Cottonwood conduit and water proposition for a year past, has resigned his position, and will devote his time to promote engineering work. Since he has had charge of the conduit and water proposition Mr. Bacon has shown unusual ability and the high character of his work in that matter has been greatly appreciated by the city officials and councilmen with whom he was associated during his term of service.
