"Mormons" Are Not Citizens of the United States,

AND THEY KILL INFANTS.

Through Such Infamous Reports Nobs Are inspired to Beeds of Violence and Murder.

Guthrie, Ind., Sept. 21, 1900. To the Editor:

It is at the present writing two months since I left my home in Levan, Junb county, Utah, on my way to the Northern States mission. Upon my arrival in Chicago, I was appointed to labor in the Southern Indiana conference, and since that time myself and my companion, Elder F. W. Eingston, of Belleview, Wyoming, have been preaching the glad tidings of great joy in and through the counties of Green and Lawrence. We have many good friends who wish us well, and are will-We have many good ing to stand by us in defense of the giorious principles of truth, when we are attacked by the enemy; but a spirit of Indifference seems to have taken possession of the people, and though they admit the force of the argument ad-vanced for the Gospel, they don't seem to see or realize the importance of comlying with its doctrine and precepts. This indifference to true re rought about by the warring factions of sectarianism and the manuer in which the ministers distort and stul-tify the living principles of Christ, But is something about the "Mor mon" preachers, as we are called, that attracts their attention; It is the far that we preach not for money or filthy lucre, asking not for remuneration in the perishable goods of this world. But we trust in our Heavenly Father But we trust in our Heavenly Father for our reward in the world which is to come. This manner of presenting the Gospel appeals to the reason of all rightminded persons as being scriptural and in accord with the teachings of our Lord and Master. Some of the stories told about us are that the "Mormons" are not clitzens of the United States, and that they practices such Induced and that they practice such inhaman deeds as that of dashing out the brains deeds as that of dashing out the brains of little innocent children on their wag-on wheels, and some people have the simuliness of mental capacity to ac-tually wonder if this is true. But the sinister motive for all this fierce hate and lamentable falsehood is plain, and the way-faring man though a fool may see it. "The silver smiths of Ephesus are in danger of losing their traffic," and therefore raise that fran-tic cry. Men that will preach for hive and divine for money and teach the precious truths of Christ's Gospel (or and cry: "Creat is Diana of the mighty Explored to track their over to the truth and cry: "Creat is Diana of the Ephesians?" But the truth is mighty and will prevail. We are mosting with success in our conference, and the honest in heart are coming to the fold of Christ in obedi-ence to the warning voice of His ser-vants. Many opportunities for preaching the Gospel present themselves to us in this part of the conference, and the people listen with great attention to the message we bring. The use of some o message we brink. The use of some of the school houses through the country has been granted us, and through the courtesy of the mayor of Bedford City we have been given the privilege of preaching on the streads of that town. Thus the Gospel is being preached in the woods and on the highway to the near and the nearby but addees is the poor and the meek; but seldom in the synagogues of the Pharisees. We will continue the good fight against error and darkness depending on the mercy of God for our strength; trusting in His omnibotent power to guide us safely through, for we know that we are serv-ing the true and living God. Work Commenced Among Europeans at Auckland,

An Erroneous Impression Concerning that Part of the Field Corrected.

The missionary work here among the English speaking people, has not been given the attention in the past, which given the attention in the past, which we now feel that it is entitled to. In fact several have made the remark to me: "Why don't you come among the Europeans and give us an idea of the doctrine you teach? We do not know of you, except as we hear of your work among the Maoris." In order that such questions and excuses shall forever be uncalled for and without fourderton s uncalled for and without foundation, be work among them has awakened to be uncalled for April conference, six nonths ago, the question of our Euroan work came up in the Elders' enough to eting and was discussed by different of charge. Elders, who are doing European work, We contended that our part of the work had been sadly neglected, and we felt that the Lord would not be pleased with us, if we did not do our part, in the fu-ture to infuse new life into the work and warn the people of the Gospel mes. sage we have been sent to declare. So it was suggested and accepted by those doing European work, that in the fu-ture, instead of following in old ruts, we would try new methods and schemes by which to surged the slad titles. by which to spread the glad tidings of salvation. The only method in years past and gone, has been that of de-livering tracts from house to house. Of course there are many points in fa-vor of this method and many points against it. We felt at that Elders' meet-ing that a more effectual way to warn the people would be to go upon the highways and in the byways, and lift up our voices and cry out to the he augnways and in the byways, and lift up our voices, and cry out to the in-habitants of the country "Repentance." The first meeting of this nature was held upon the streets of Auckland with Elder Judd, Madson and myself present, since that meeting we have been hold-ing forth every Monday and Friday evenings. Others have taken it up in different parts where European work is evenings. Others have taken it up in different parts where European work is being done, and the work is moving along slowly but surely. On the 25th and 26th of Angust the first European conference of the Church of, Jesus Christ of Latter-day Saints convened in Auckland, at which there were present Baints from all parts of the island, some from the far north, and others from the extreme south. of the island, some from the far north, and others from the extreme south. There were present of the Elders labor-ing in New Zealand, J.E. Magleby, R. K. Hardy and A. S. Ferrin from Walka-to: N.P. Westenscow, Andrew Oldrough and Wm. Ferguson from Hauraki W. B. Erekson from Bay of Islands, A. D. Suerry, from Otago, and M. P. Driggs and myself of Auckland. The maging and myself of Auckland. The meetings and myself of Auckland. The meetings of the conference were a thorough suc-cess. On the 25th two services were held, one at 10 a. m., another at 2 p. m. The time was occupied in short address-es upon topics of the Gospel by visiting Elders. In the evening Elder Magleby delivered a lecture entitled, "Utah and Her Peenle" "Unstrated by stereontion Her People," Illustrated by stereopticon views. The hall was comfortably filled with appreciative listeners who re-turned home with a much different idea Utah and "Mormonism." On Sunday 10 a. m. and 7 p. m., meetings were id. Sunday morning the Saints had the privilege for the first time of voting to sustain the general and local au-thorities of the Church. The remaining part of the time both morning and evening was spent in setting forth the doctrines of the Church. The confer-ence closed with a Priesthood meeting on Monday the 27th, at which an enjoy-able time was realized and an excellent spirit manifest. Elders felt like going about the work with which an encode about their work with renewed energy. While we have not as yet realized any while we have not as yet realized any great results in the new movement, we have succeeded in getting before the people and giving them an idea of who we are and what we believe. Speaking for the Auckland confer-ence I can say we have, through our street preaching succeeded in gaining the respect of some of Amelandic the respect of some of Auckland's most influential men. Business men. Auckland's and men who are learned in the arts and sciences of the day, and who are versed in the Scriptures. In fact our success is so marked that Satan is aroused. He has come to realize that the same power he fought against in beaver is finding its way into the heaven, is finding its way into the hearts of those who dwell here in the islands of New Zenland. He has his forces on our track to oppose and perse, cute us. Men are using their influence against us, and efforts are being put forth to stay the progress of our work,

oung men have concerning this misyoung men have concerning this uns-sion. The idea is very prevalent at home that this mission is not capable of returning as bright and intelligent Eiders as other missions. Drottninggatan, 38 A., Orebro, Sweden,

To the Editor: At my last writing I was laboring in Upsala and continued there the entire winter. Elders Matthias Erickson, of Salina, and C. L. Anderson, of Grants-ville, were also there until March 1, 1990, when they were sont to Gelle, to open up a new branch, leaving myself and Elder G. A. Anderson, of East Jor-dan, to labor in Upsala. We were very successful in our labors and were were dan, to labor in Upsaia. We were very successful in our labors, and were well treated by the people when out on our country trips. Between the conferences held in September, 1899 and April, 1900, we were able to distribute about 4,700 tracts and baptize four persons. The people were willing to open their houses for us to preach in and during the months of January, February, March and April we held between fifteen and twenty cottage meetings monthly, be-sides the regular hall meetings. In several instances the "Good Templars" opened their halls for us free Of course we met some opposition from those who

In the city of Upsala, the Gospel has been preached for a great many years and many have been gathered from there, but a spirit of indifference seems-to prevail at present, all interest seem-ing to be centered in the students and the University which, is one of the finest in the world. They selected for their place of gathering, a grove, situated on a small creek, known as Little Stony, which is a distance of three miles from the Mut lake. In our conference we enjoyed the Spirit of the Lord, and the principles of the Gospel, which has been revealed in these the latter days, were expounded very clear-ly. Some of the people were impressed by the truth of the message which we hore, while others feit very much indif-ferent and unconcerned. But our labors were not in vain, as on the following Sunday Elder Carl A. I am always very much interested in reading the letters from the Elders in the various missionary fields. We apthe various missionary fields. We ap preclate the Descret News and with ear

I was set apart for this mission on November 15th and left Sait Lake City Nov. 16, 1899, in com-nany with twomen algobic than Fiders Tert Sait Lake City Nov. 19, 1899, in com-pany with twenty-eight other Eiders. Upon our arrival at Chattanooga, I was assigned to the Mississippi confer-ence, where I have labored ever since. I have, like all "Mormon" Elders, met with a varied experience: traveling as we do, "without purse and scrip." we necessarily come in contact with a great many classes of seconds.

necessarily come in contact with a great many classes of people. My first experience in the field was with Eider O. D. Flake at conference headquarters, which was then located in Bay St. Louis, a beautiful little city on the coast of the Gulf of Mexico, or rather, a bay of the gulf. I remained here three weeks, when I was assigned to labor as conversions Fider in Work here three weeks, which i wash-to labor as canvassing Elder in Wash-ington Parish, La., with Elder J. H. Horr, of Hartman, Miss. We labored Horr, of Hartman, Miss. together six weeks, and met with good success. We made a number of friends, together six weeks, and met with good success. We made a number of friends, and left our testimony with a great many people. Among others we visited and stayed over night with men, who three years previous had formed part of a mob, that ordered our Elders from that neighborhood. Having labored in Washington Parish six weeks me wond Washington Parish six weeks, we wend-ed our way towards the city of New Or-leans, where we arrived, Jan, 13, in time for our conference, which was held on January 20-21, 1900.

Here the Elders of the Mississippi and Louisiana conferences, twenty-six in number, met and Elder Ben E. Rich and Counselors L. H. Anderson and Christo Hyldahl, the latter accompanied by his lfe, met with us, and a most joyful me we had.

At conference I was assigned to labor with Elder M. E. Gifford of Springdale, Washington county, Utah. We labored together two months in Washington parish, La., and finished canvassing it. We endured much unpleasant weather during the white sensor but me found during the winter season, but we found the people hospitable and kind, and a few members of the Church were in this parish, who were ever ready to as-sist us in our work. We were then called to labor in St. Helenn parish, where we remained nearly two months. Here also we found a few Saints, and were instrumental in adding two more before leaving the parish, and the pleasant times we had at "Oakview," the home of Brother W. D. Morris, and at Bro. Trotter's, will never be forgot-ten. From St. Helena parish, I was called to labor at conference headquart-ers at Ackerman, Miss, where I have been now four months. There is a thriving branch of the Church here, a number of the members being old Civil war veterans, among whom may be mentioned Bro. W. G. Quinn, the ever fulthful flag bearer of the company known as the "Oktibbeha County Ploughboys." The flag, fattered and for header torn, having of recent years been dis-covered among some old war relics at Boston, was restored to Bro. Quinn, and he cherishes it as a token of many a heart-rending scene. Speaking of the Civil war, the Elders who were participants in it, and many are the tales of wee and misery we listen to from time to time; nearly all agree, that the war was unnecessary and entiroly uncalled for, and with a little better judgment might have been The number of Elders laboring in this are faithful and energotic and the work of the Lord is prospering. As a rule but little opposition is met with, and only occa-sionally do the Elders camp over night with "Uncle Sam." KNEELING OR STANDING.

An Elder's View of the Correct Position in Prayer. Elk Park, Mitchell Co., N. C., Sept. 19, 1900.

To the Editor:

Seventeen Bonths have elapsed since I left home for Chattanouga, Tenn., where I arrived April 24th, 1899. I was assigned to labor in the East Tennes, see conference, and I can say up hap-plest days have been spent among this people. I have been blessed with op portunities to preach in many school and meeting houses. I have had many friends raised up to administer to my wants. My health has been as good as I could ask for—in fact, better than I had reason to hope for. I have sometimes been asked if there

had reason to hope for. I have sometimes been asked if there are any scripture that authorizes one to pray standing. My answer is, yes, The Scriptures speak of Kneeling, ly-ing down and standing, but usually kneeling. Jesus kneit down and prayed. He also foll on His face to pray. But He speaks of the publican standing afar off and his prayer was acceptable too.-Luke, 18: 13. Jesus also says, "When ye stand praying, foi-give, If ye have aught against any." also says. When ye stand praying, fol-give, if ye have aucht against any." See Mark, 11:25. The condition of the spirit is by far the most important to be considered by us. To kneel shows to-manking more of the manner of humil-ity than to stand. To fall on one's face betokens in appearance a still greater humility, but God is well pleased with the broken and contribut heart, for He

enough to announce our meetings We have been successful in our labors here, having distributed about 4,000 tracts and baptized seven about 4,000 tracts and baptized seven persons during the summer. One of those baptized was a woman, 60 years of age, who has been sickly for sev-eral years and was so weak she could scarcely walk. She has been con-vinced of the truth of the latter-day work for a leng while, but on account of the delicate state of her health, she was afraid to be baptized. Finally, on the 19th of August, she requested bap-tism and was baptized and commenced to improve from that time. She has not used her cane since and all who are to improve from that time. She has not used her cane since and all who are acquainted with her can hardly believe she is the same person. She has im-proved so wonderfully. Of course, those who do not believe as we do will not acknowledge the hand of the Lord in this, but I simply state the plain truth, and the woman is here in Orehere a and the woman is here in Orebro, a living witness to it. We are now three

living witness to it. We are now three missionaries hers, Elder P. Sundwall, of Fairview, Sanpete Co., having ar-rived on Thursday, Aug. 23. In our travels, we often meet per-sons who have relatives or friends who have emigrated to Utab in the past and have forgotten to write. Now these persons could do an immense amount of good if they would write to their ac-quaintances here. They could dispel many of the faise notions the people have of us and thus materially assist the labors of the Elders. We hold our conference on the 29th hold our conference on the 29th

Elders See Fruit of Their Efforts to Preach the Gospel.

Deseret, Utah, Sept. 29, 1900. To the Editor:

When Elder Wm. C. McGregor and the writer left the Society Islands MISsion (August 3rd.), it was in a fairly good condition. The Elders were work-ing zeniously and gaining many friends; also making a few converts. The most of the work for the past

The most of the work for the past three years has been among the "gen-tiles" in opening up new ileids. Our mission now covers a vast extent and many more Elders are needed to prop-erly work it. The force was reduced to fourteen when we left for home. It seems that the young men of Zion are seems that the young men of Zion are father averse to going to those far off isles. Of course we freely admit that it is a hard mission-yes, the hardest and best mission field in the world! And I firmly believe, there is no better place on the earth for the studying of humanity, and the upbuilding of oneself. There you meet all classes and nation-alities—good, bad and indifferent. In-deed, it is a great school of the world as well as of the Gospel.

The mission is getting better all the time. The "groups" are all being worked now, and the unpleasantness of worked now, and the unpreasantness of opening up new fields will soon be a thing of the past. However, it takes much longer to get those people to un-derstand the Gospel than it does the more civilized classes; nevertheless they are a good people at heart, and natur-ally God-fearing.

ally God-fearing. Of course many of them are very im-moral, which seems but natural to all peoples that inhabit the tropics, yet their contact with civilization (?) has made them worse instead of better. Most of the "whites" that have found their way but have them builds are of the their way into those islands are of the class of those who live only for the class of those who live only for the gratification of their carnal natures. Is it a wonder then that such "civiliza-tion" has had a degrading effect on the simple-minded natives? There is, in-deed, great room there for the true and sincere servants of our Lord and Mas-ter—those who labor "not for flithy lu-cre," but for the work's sake, and for the pure love of humanity. For the past six months the "place."

For the past six months the "plague" scare has caused much inconvenience to trade and travel, as nearly all ves-sels from foreign, ports (especially from San Francisco) have been held in quarantine, causing much needless delay And, too, the fumigating of goods has caused great losses and made prices much higher.

To the Editor: It is by no means a fact that the work of the Lord progresses with the greatest strides where the feeling of opposition is dormant. I think that each mission-ary who has encountered bindranees and obstacles has found them to prove means to promulgate the Gospel-an opportunity which otherwise would not have been afforded him. It has been positively proven in this little land-Switzerland-which has given, and con-tinues to give, its quota to the numbers of those who unite with Israel. Still, with such results, it is to be remem-bered that our friends(?) cast a watchwith such results, it is to be remem-bered that our friends(7) cast a watch-ful eye over us, and the people are kept aware of our presence, even if we be but two in a city numbering thousands. Surely, the hosts are against Zion, and have pitched their tents along our line of march to harass and intercent us; but, for us is no retreat. There is but to "meet the enemy" and with the mighty weapons of truth in the hands of God's servants, we are certain of the
