THE MUDDLE IN ONEIDA COUNTY, IDAHO.

POLITICAL affairs in Oneida County, Idaho, are in a terrible state of con--officio the Board of Dauwhio are do vassers, threw out the returns from mils." tue of which they acted. The Board formulated its order to the Clerk to issue curti-ficates to the persons having the highest number of votes, and then dissolved.

The anti-"Mormon" plotters, howmixed up that it was partly a mandate and partly an injunction, requiring the Board of Canvassers (then non-existent) to count all the returns, and restraining the Clerk from Issuing certificates to any of the officers-elect who were not found to be elected by counting all the votes, including those of the rejected precincts. This writ was after-

wards made peremptory. But the Commissioners could not be found. And the Clerk, before the mandamus was served upon him, had issued certificates to the Members of the Legislature, the District Attorney and the County Treasurer, elected as per the valid returns. The Board of Canvassers was virtually defunct. It was like serving a writ upon a corpse. The Commissioners lived, but the

Board of Canvassers was dead-dissolved. Governor Bana came to the rescue, and agreed to appoint two Commissioners to act as Canvassers, although there is not a line of law authorizing such action.

In this condition of affairs, the County Commissioners, knowing that any appeal to the law must come before Judge Morgan, who had shown in the most unmistakuble manner his bias and favor to the anti-"Mormon", clique, (the reasons need not now be discussed, but they are personal) concluded to meet and obey the mandate

the remarks of the President in rela-tion to Utah, which will be of greater interest to our readers' than any other part of the message. We do not think that his recommendation is likely to be adopted at the present session of Congress:

So the fraudulent votes-cast in defiance of the registration law-were counted in defiance of the election isw, in obedience to au illegal mandate, which not only commanded them to perform a cartain official act, but actually defined how it was to be done, and required it to be performed in that manner. A mandainus may command the performance of an official act, but the manner of its performance is prescribed by law, and that cannot be lawfully chanced or otherwise defined by man-date of a court.

Thus there are now two sets of certificates issued to the members of the Legislature, District Attorney and County Treasurer in Oneida County. while for the rest of the county officers certificates are issued under protest for one set, and the order for the isshe of their certificates and their official declaration that they are elected, are on file with the proper officer for the other

It has been claimed since the election, by the anti-"Mormon" clique who found themselves beaten because of the operations of the registration law, that the latter is unconstitutional. We understand that it requires an oash to be taken before the registration officer, and the law does not define how an embargo on emigration we would or before whom the registration officer is himself to take the oath. And this, it is argued, deprives all the registra-tion officers of the right to vote. But, as a matter of fact, it has not deprived them of that right, seeing that'in most instances they have exercised it, withallenge. The county officers will qualify on the first Monday in Jinuary. Most likely there will be then two sets of county officers, and by que verranto their rights will be tested. It is not difficult to guess what Judge Morgan's decision will be, and then the case will have to be carried up to the Supreme Court of the Territory. Meanwhile certain officers will no
