Upon resuming after the noon recess Mr. Holliday was recalled to the stand. On cross examination he stated that Kirker, the man who with other armed thus drove him from the property as winted in last night's "News," claimed to have located the Sunnyside mine be-fore he did. He did not know whether fare he did. He did not know whether there was any connection between Kirker and the Pleasant Valley Coal sompany. Atty. He remembered the heidents testified to by Holliday re-sarding the location of the mine. Wit-ness stated that Kirker was there four years before Holliday. Kirker held the property for a year and then left. Three years later he returned with his broth-er and together they broke open Holl-day's cabin, threw the things inside out of the door and notified the employees of Holliday that they had better quit the premises or get shot. Sortly after-ward's Robert Forrester took charge of the mine and armed guards were hep there for six months. Witness said he had land by squat-ter's right. He could not ship any coal, however, because the Rio Grande charged him \$3 a ton on freight and iformed him that they would sell coal is cheap to witness in Salt Lake as what it would cost him in freight alone.
