Trouble Over Soldier Travel.

San Francisco, Sept. 26 .- Trouble i San Francisco, Sept. 26.—Trouble is brewing among the transcontinental lines over the division of the enst-bound soldier travel out of this city. The difficulty grows out of the fact that the Santa Fe has not received its promised 27 per cent of the business, aince the Oregon railroad and Naviga-tion company has succeeded in divert-ing to the Portland route about forty per cent of this traffic. It is said that forty men who returned from Manila on the Grant have refused to be ticketed on the Grant have refused to be ticketed over the Santa Fe and may go cast by the Northern lines. There is a possi-bility that the agreement for a division

The Rio Grande Western earnings as issued by Auditor Theron Geddes, for the third week in September, were \$99,-700, an increase of \$13,700 over and above the same week of twelve months ago. Since the beginning of the fiscal year, July 1st to date, the gross earnings have totalled \$1,090,900, an increase of \$158,500.

BLOODHOUNDS FOR O. S. L.

Railroad Authorities Will Use Dogs to Hunt Down Train Robbers.

The Bolze, Ida., Statesmen says that a number of pup bloodhounds have been shipped from that city to various points on the Oregon Short Line. The pups came from the Idaho penitentiary. Their mother belongs to John Ellis, sheriff of Bannock county. The pups were purchased by the railroad people and will be distributed to agents at various points on the line. They will be trained for the especial purpose of trailing train robbers, and will be kept at convenient points on the railroad, so than when a train is robbed they can at once be sent to the spot. This will enable the search for the perpetra-tors of the deed to be begun without delay.

The puppies were about 2 months old and were packed in separate boxes. Two of the dogs were sent to Laramie, two to Salt Lake City and four to Pocatello.

WESTERN RATES.

Recent Conference of Presidents Not Productive of an Understanding.

New York, Sept. 26.—That the recent conference here of western railroad presidents was not productive of re-sults so far as the restoration and main. tenance of freight rates is concerned is becoming quite apparent. The absence of a Northern Pacific representative from the meeting was regarded as significant as neither the Northern Pacifi It is said, nor the Great Northern rail road has become a party to any of detailed arrangements proposed by the conference. Those arrangements were placed in the hands of special commit-tees and it is believed that something in the nature of traffic pools are to be ormed in different sections of western territory. The adhesion of the Northern Pacific

railroad is considered necessary for the accomplishment of the desired result. As already stated, it has not been se-cured and it is not likely to be. In speaking of the results of the recent meeting, an official of one of the big roads said:

"Committees have been appointed to report at the next conference, it is true, but it will be found that no conclu-sions have been reached. The stumbling block to be encountered is the low rate contracts entered into between the western reads and that more approximately approximate western roads and their central traffic association connections on business originating in trunk line territory. Nothing can be done until the expiration of these contracts which will be soon after the December conference. One of the principal items of freight covered by these contracts is the large apple crop of New York State, a large part of which will be moved west at

Prosident Mellen of the Northern Paeffic said: "We have repeatedly declared that we

"We have repeatedly declared that we have nothing to do with any pool and we shall adhere to that policy. The Northern Pacific does not propose to violate any law and get itself into trouble, no matter what other roads may do. We muintain the regular rates and endeavor to get along with as lit-tle friction as possible with our neigh-hors. Of course, we are in accord with the friction as possible with our neigh-bors. Of course, we are in accord with any effort to restore and maintain rates and I have no desire to criticise the ac-tion or policy of an other railroad. On the advise of coursel, however, we shall keep out of poling arrangements and particularly bilad pools, which is about what the appointment of those special committees means." President Mellen added that his com-pany had no agreement with the Great Northern.
