AMERICAN.

Wired From Washington.

WASHINGTON, 15.—Through miscalculation in surveying the lands for the Zuni Indian reservation in New Mexico, an error was made, and the intention of the government that the reservation should include the springs, which lie directly northeast of the boundary line of the reservation, was not carried out. Recently it has been stated that Paymaster Wm. T. Tucker, son-in-law of Senator Logan, and his associates have taken up six claims, three "desert" and three homestead, containing in all 2,400 acres, which embrace the springs mentioned. It is further stated that should the claims of Tucker and his associates be granted, the water supply of the Zunis will be practically cut off. In the absence of the survey of the Tucker claims, however, they are rendered void by the issuance on May 1st of an executive order amending the original order so as to include within the limit of the Zuni reservation an additional tract of land in which the above named springs are located. It was learned at the General Land Office to-day that Wm. T. Tucker, Jr., filed his application for these lands in the Santa Fe Land Office November 22, 1882.

The bill to adjust the salaries of postmasters of the first, second and third classes, and to change the commissions allowed postmasters of the fourth class, rendered necessary in view of the reduced rate of postage on letter matter from three to two cents per half ounce, provided that the salaries of the first, second and third classes should be readjusted, to take effect simultaneously with the reduction of the rates of postage from October 1st. Respecting the pay of fourth class postmasters, the act merely fixes rates which should apply to them without specifying the time when the readjustment should begin. The clerks of the Sixth Auditor's office, where the readjustment of salaries is to be made, have been working under the impression that the change in fourth class offices should take place at the same time as the other classes. Late yesterday afternoon a question arose as to the proper construction of the law, and it was argued by some of the officers of the Department that the fact that no specified time is fixed in the act for beginning the work in the fourth class offices, made it imperative upon the department to readjust the pay of fourth class postmasters, beginning with the date upon which the bill was approved by the President. To-day the Sixth Auditor submitted the question to First Comptroller Lawrence, and also conferred with Secretary Folger on the subject. Both of these gentlemen are of opinion that the readjustment of fourth class offices should have begun March 3d. This decision will compel the Sixth Auditor to take up and adjust accounts heretofore settled on the basis of the old law (numbering in all about 45,000) and commissions for each of them, so as to make them conform to the new law. After the readjustment of the pay of fourth class postmasters, beginning with March 3d, the government will owe each of them an increase of 8 to 40 per cent., according to the amount of stamps cancelled, and this increase will have to be paid quarterly until October 1st, when the act regulating postage goes into effect. The payment of this increase will necessarily involve a large deficiency for pay of postmasters for the current fiscal year.

The Treasury statement shows gold, silver, and United States notes in the Treasury to-day: Gold coin and bullion, $189,053,360; silver coin, $28,124,879; United States notes, $48,061,049; total, $308,225,134. Certificates outstanding, gold $64,677,800; silver currency, $10,260,000.

Prince Pakehito, Mr. Terahime, Japanese Minister, Captain Kurada and Mr. Takahashi, Japanese Consul at New York, were presented to the President by Sec'y. Frelinghuysen this morning.

At a special meeting of the cabinet this afternoon, all the members were present. The revised civil service regulations were finally considered, and will probably be promulgated this afternoon.

The President has appointed the following, postmasters: Wm. O Metzger, Dayton, Washington Territory; Chas. Hapgood, Marysville, Cal.; J. N. Louder, Silver Reef, Utah.

The following officers now attached to the signal corps will be relieved from duty in this city July 1st, and ordered to join their regiments: Major James W. Powell, Captain Sixth Infantry; Col. Wm. H. Clapp, Captain Sixteenth Infantry; Capt. J. M. Mills, Fifth Artillery, and Lieut. R. P. Strong, Fourth Artillery. The latter officer has been in command at Fort Whipp's since its establishment as a signal station in 1866.

The Catalogue of Crime.

Worcester, Mass., 5.—Late this afternoon, Frank Mann, of Oxford, shot Mrs. Mary E. Moore, of Middlebury, in James Dean's boarding house in Millbury. He then shot himself. Both are dead. Domestic trouble.

New York, 5.—The private postal deliveries raided yesterday are again in operation. Actions are begun against the managers for recovering penalties. The Postmaster General is asked for further instructions.

Montreal, 5.—A desperate attempt by the convicts at St. Paul penitentiary to escape was made Wednesday night. After getting out of their cells they gagged the keeper, and LeBlanc, the leader of the gang, took the revolver belonging to the guard. In a few minutes two guards who came upon their rounds were set upon by the convicts; Leblanc pressing the revolver at the head of one keeper, called upon him to surrender. The other guard had an iron padlock in his hand weighing seven pounds, and with it struck LeBlanc and fractured his skull so his life is despaired of. This ended matters. The other convicts surrendered and were locked up. Leblanc made his escape about a year ago but was recaptured.

Chicago, 5.—The Cook county grand jury to-day indicted Patrick Dunn, one of the judges of the recent town election, on a charge of altering and falsifying the returns.

St. Louis, 5.—A dispatch from Fort Worth says Major Wasson, the army paymaster who was robbed on a Texas Pacific train a few nights ago, is there aiding the detectives in ferreting out the robbers. Wasson's valise was found near the railroad track, cut open, rifled of its contents. Two tramps were arrested near Cleborne, having in their possession over $900 in gold notes of large dimensions, which is regarded as a good clue. Another man is arrested at Albany, who is believed to be one of the robbers. It is considered almost certain that Wasson was followed by "crooks" from Galveston, who knew he had money.

New York, 5.—Henry Merlott and Mary Pesuex were arrested on a charge of stealing $65,000 worth of diamonds from Frans Kramer, jeweler, of Paris. The man confessed to the robbery, and said after it was committed in March last, he and his companion went to London. Then becoming alarmed sailed for this country three weeks ago. Three parcels of the diamonds were found at the prisoner's lodgings, and consisted of two diamond necklaces, one of which had been broken, and the diamons extracted; another necklace containing 54 diamonds was found intact; a small box with 24 stones was found in the same condition as when stolen; a large pendant diamond, and considerable other jewelry.

Death and Disaster.

KALAMAZOO, Mich., 5.—A special from Ishpeming, Lake Superior iron region, says two men were killed at the Champion mine last night, knocked from a skip into the shaft by falling ice, and dashed to pieces at the bottom of the pit. The fireman at the Mitchell mine was burned by the ruin last night; it will take at least three days to recover him. All three leave large families dependent upon them for support.

Wilkesbarre, 5.—Careful investigation shows that lightning struck the wires of the bell rope at Scranton shaft, and passing down the mine ignited the gas. There was a similar occurrence during the storm last night at the Franklyn Coal company's slope, demolishing a vast amount of timber work in the pit, and doing much damage to the workings. Had the slope been in operation, there would have been serious loss of life.

Bradford, Pa., 5—Six buildings, the business part of Fairport, burned this morning. Geo. O'Neill, sleeping in the saloon where the fire started, was fatally burned, and died this afternoon.

New Orleans, 5.—*Times-Democrat* Hermosillo, Mexico, special: An engagement occurred yesterday at Tuquaech Canyon, 168 miles southeast of here, between Apaches and Federal troops. The Indians were defeated with a loss of 12 killed and many wounded. Troops loss, three killed, five wounded. The fight lasted an hour and 40 minutes.

El Paso, Texas, 5.—A letter received here to-day from one of General Crook's officers confirms the reports of his having crossed the Mexican border on the 2nd. The Indian trails being blind the utmost vigilance is impressed upon cavalry commanders. Scouting parties will be kept in the field until the result of General Crook's campaign is known.

St. Louis, 5.—A dispatch from Santa Fe says the recently reported attack by Indians on a pack train near San Augustine is untrue, and the killing of cattle near Alamos Springs was done by smugglers, not Indians. The cavalry sent out by Col. Forsy the report no Indians in that whole region of country.

SUNDAY NIGHT'S DISPATCHES.

Accidentally Shot.

CHICAGO, 6.—John and Martin Heney, brothers, conduct a shooting gallery. This afternoon, Martin slipped from behind the screen just as John fired at long range and received a bullet in his heart, dying instantly.

Horribly Mangled for Money.

Edward Donnelly, the driver of a laundry wagon, was found in bed this morning unconscious. His face and head were beaten into an unrecognizable mass with a heavy iron hinge, and his pockets rifled. There were evidences everywhere of a protracted and desperate struggle. Donnelly cannot live; no clue to the murderer.

Changing the Conduct of the "World."

ST. LOUIS, 6.—It is stated here that dispatches have been received from New York conveying the information that Jos Pulitzer, proprietor of the *Post-Dispatch*, of this city, has practically acquired possession of the N. Y. *World*. Negotiations were not entirely closed, but it was expected that a transfer of the property would be made in a day or two, when it is alleged Mr. Pulitzer will transport part of his editorial and business force hence to New York, and make some radical changes in the character and conduct of the *World*.

Another Convention—Daggers, Dynamite, etc.

NEW YORK, 6.—About a score of men and women made up the 13th annual convent on of the American Labor Reform League in this city to-day. R. H. Hume presided and E. H. Heywood offered resolutions, which were adopted. They declare that as labor is the source of all wealth, accumulation by interest or otherwise, is robbery. That to pay no rent is the banner of duty, not only in Ireland but in New York and all over the world; that czars, queens, presidents and land, railway and bank monopolists are special exponents of vast confederacies of organized robbers, who may expect to be taken off by dynamite, daggers, or whatever other means of retribution justice demands to establish the common right. The action of the Philadelphia convention was denounced as fruitless.

Sanguinary Resolutions.

NEW YORK, 6.—O'Donovan Rossa, to-day established another branch of the Irish revolutionary brotherhood in this city. About 100 members were initiated. Captain John Herwin was elected president and Dr. M. A. Farrill, secretary. Dynamite was declared to be the legitimate weapon of war. It was decided that a mass meeting would be held in two weeks to express views, on the Philadelphia convention. The majority opposed the course of the convention of the Central Labor Union to-day, and denounced the opening of Brooklyn bridge on the Queen's birthday. The mass meeting to protest will be held in the Cooper Institute.

A Flying Steamer — The "Alaska" Crosses the Atlantic in 6 Days.

The Williams & Guion line steamship *Alaska* arrived to-day. She made the trip from Queenstown in 6 days, 3 hours and 48 minutes, "knocking out" her former quickest time on record, of 7 days, 1 hour and 50 minutes. Moody and Sankey were passengers. The *Tribune* notes that on Sunday night Sankey sang in the Cooper Union Temperance meeting. The Evangelists state that they have come home for a rest and will return to their labors in October next.

Car Fire

TURNERS, N. Y., 6.—Twenty oil cars burned between Howells and Middletown.

A New Metal, Resembling Silver.

WASHINGTON, 6.—J. Edwin Sherman metallur, gist of Boston, has just concluded here a series of experiments upon a new metal recently discovered by him with a view to ascertaining its fitness compared with other metals for telegraph wire. The experiments, etc., are said to show that wire made of this metal has great tenacity, does not rust, and is superior in point of conduct vity to any wire now used for electric purposes. The metal which has nearly the specific gravity, and somewhat the appearance of silver, can be produced it is said at a cost of five cents per pound.

FOREIGN.

British Brief.

DUBLIN, 5.—Fitzharris will be tried by a special jury, as accessary to the murder of Burke, and for the murder of Cavendish. An entirely new jury panel will be summoned.

Timothy Kelly, charged with participation in the Phoenix Park murders, will have his third trial on Monday.

A man named Kinsella confessed to the police in Kilmainham jail that he was concerned in the murder of Lord Leitrim. Kinsella, it is believed, is insane.

Cork, 5.—O'Connell, committed to jail for refusing to give evidence at the private inquiry, was again called upon for testimony; he still declined, and was again remanded.

General Items.

Berlin, 5.—A marriage is arranged between the hereditary Prince of Anhalt and the second daughter of the Crown Prince.

The committee of the Reichstag, to which was referred the workman's accident insurance bill, unanimously rejected the clauses relative to organizing the system, and the allotment of 35 per cent. of the compensation provided for in the bill from the Imperial fund.

Vienna, 5.—The meeting of King Humbert of Italy and the Emperor Francis Joseph of Austria, which was to have taken place at Berlin this spring, has been postponed until the 9th of next November.

SUNDAY NIGHT'S DISPATCHES.

British Briefs.

London, 6.—Lewis Miardet, French author, is dead; age, 82.

Dublin, 6.—Judge Richard Dobey of the Court of Appeals, Ireland, is dead; age, 71.

To-day was the anniversary of the Phœnix Park murders and many persons visited the scene of the crimes.

Dublin, 6.—Since the beginning of the second private inquiry in connection with the murder conspiracy, 200 persons have left the city.

Conflagration.

Berlin, 6.—The greater part of Koniginhoff, Bohemia, was destroyed by fire.

Cuban Murders.

Havanna, 6.—An entire family of white persons, (a boy and girl only escaping) were murdered near the village of Palacios.

Alonzo Rivero, a wealthy tobacco grower, was shot dead while driving home with his family near Pinar del Rio.

BRIEF TELEGRAMS.

Dresden, Ont., 5.—Rev. Josiah Henson, Mrs. Stowe's "Uncle Tom," died to-day; aged 91.

New York, 5.—A statue of Peter Cooper is to be erected in the Public Square just south of Cooper Union.

Boston, 5.—Seven thousand people witnessed the close of the horse vs. bicycle race. Score: Horse, 911 miles; bicycles, 899. Bicycles gained 16 miles last day.

New York, 5.—Counsel for trustees of the Brooklyn Bridge, and corporation counsel of New York and Brooklyn agree that the bridge cannot be made free for any kind of travel.

Austin, Tex., 5.—The Gould party called at the Governor's office yesterday, in his absence, and left their cards. The party left for El Paso to make further inspection of the southwestern railways.

Albany, 5.—Governor Cleveland has signed the Campbell penal code amendments which practically repeal what are known as the Sunday "Blue Laws," which have been so obnoxious to a large class of New York and Brooklyn.

Havana, 5.—Gums Brothers, of Matanzas, who failed with $700,000 liabilities, were always considered of first-rate standing. It is reported the firm has made a satisfactory arrangement with their creditors. The firm did more business in general merchandize than in sugar.

Seven deaths from yellow fever last week.

Chicago, 5.—Before Judge Foley in the Circuit Court to day certain heirs contested the payment of a bequest to a priest of the Roman Catholic Church to reimburse him for saying masses for the repose of the soul of the testator. The point urged by counsel for the heirs was that the money was expended for a superstitious use. The court held that the objection could not hold, and the bequest was valid under the State statutes.

Denver, May 5.—The annual meeting of the stockholders of the Oregon and Idaho Improvement Company was held here to day. A. Caldwell, of Leavenworth, Kansas, was re-elected president; Robert Strahorn, of Denver, general manager; Col. S. B. Jones, of Omaha, treasurer.

New York, 5. Wm. H. Vanderbilt sailed for Europe to-day. He intends to make only a short stay in England on this visit, and will return to New York again in four weeks. He will, however, spend the summer and part of the fall in Europe with several members of his family.

City of Mexico, 5.—The national holiday in honor of Senor Zaragoza's victory at Pueblo in 1862, was celebrated to-day, amid much enthusiasm, at the public square. An oration was delivered by President Gonzales. The President distributed gifts to the veterans; a grand military review followed. The streets were crowded, national flags displayed, public buildings and legations decorated, and fireworks in the evening. The day was celebrated with much festivity in the interior. Several public improvements were inaugurated.

Chicago, 5.—The jury in the Circuit Court to day gave a verdict of $15,000 damages in favor of Wm. J. Connell against the Pennsylvania Railroad Company. The plaintiff on December 7th bought in Omaha a through ticket to New York over the Wabash, and Baltimore & Ohio, and Pennsylvania roads. The Pennsylvania Company on the 1st had notified the Wabash that they would not recognize its coupons, and Connell when he got east of Philadelphia was violently ejected, as it was claimed, owing to his refusal to pay fare.

New York, 5.—Geo. Brisbane, retired millionaire, 71 years old, is arrested in Brooklyn, on a charge of libelling Redilla Brisbane, his brother's wife. It appears the family was left a large amount of property, and the brothers have been in litigation over it the past forty years. Several suits are still pending in different courts. The accused wrote Mrs Brisbane a letter, in which he alleged that she was not married to his brother, and charged bigamy. She has begun suit for $50,000 against him in this city. To-day the accused gave bail to await the action of the grand jury on the charge.

A Vegetarian Diet.

T. R. Allinson, a licentiate of the Royal College of Physicians, London, contributes to the *Dietic Reformer* his experiences of a first year of vegetarian diet: "I did not like the idea of giving up my meat, not because I thought it necessary, but because I liked it. After my first struggle I went on well, and am now much pleased with the experiment. I am better every way, both mentally and bodily. It has done away with my desire for alcohol and tobacco, which are now positively obnoxious to me. My senses are acuter; my mental power is greatly increased; I work better for longer periods, and grasp ideas much more quickly than formerly. I have done more hard mental work this year than for many years; in fact, than since my final medical examination, which was passed on vegetarian diet. My bodily powers are much better, and I can take long walks without much fatigue; my spirits are lighter and I feel an almost continual flow of good humor. Bilious attacks, headaches, constipation, etc., left me soon after the adoption of this diet. I was threatened with rheumatism, but since my experiment no signs have shown themselves. I am so pleased with my diet, that I hope to continue it all my life. My own results have been so good that I wish every one else to give it a fair trial, and note the results. My friends say I am looking well upon it; and I have gained about seven pounds in weight. My food consists chiefly of whole-meal bread and fruit. I am always ready for my meals, eat them with relish, and I know I am not laying up for myself future disease."
