LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only. No notice can be taken of anonymous communications. Correspondents' names must be given in every instance accompany their communications, not necessarily for publication, but as a guarantee of reliability.

**THEATRICAL.**—This evening "The Love Knot" will be presented, with Mr. McKenzie as Bernard, the French barber and noble emigre; Miss Adams as Marian Leeson; Mr. Graham and Mr. Hardie as Harbottle and Lavender; Mr. Lindley as Wormley; Mrs. Bowring as Lady Lavender; and Mrs. Clawson as Lady Harbottle. The comedy is a capital one, and never fails to please. "Too Much for good Nature" is the farce, with Mr. Margate as the romantic James Jenkins, Mrs. Romney as Betty, and an excellent distribution of characters.

**DISCHARGED.**—The case of James Galloway, who was arrested on Saturday, charged with larceny, was adjourned over till the beginning of the week, and on the conclusion of the examination he was discharged.

**SLIGHING.**—From the Helena Herald of the 7th, we clip the following:  
"Snow commenced falling here yesterday afternoon, and continued till this morning. The ground, covered with a snowy fleece to the depth of five inches, affords passable sleighing, and many of our citizens are taking advantage of the 'weather spell' to get a ride on runners, after the music of merry bells."

**THE LAST CONCERT.**—The concert yesterday evening was well attended. It gave more satisfaction than the first, owing to the introduction of operatic scenes. The principal *marceaux* of the concert were: "The Nightingale's Trill" sung by Madame Parepa with excellent taste and grace; the grand operatic scene from the "Trovatore," executed by Madame Parepa and Mr. Bowler; the violin solo by Mr. Carl Rosa, the son of the evening; the song, "Thou art so near and yet so far," sung by Mr. Bowler in a charming and expressive manner; and the comic duet from "Don Pasquale." The orchestra played two fine overtures from Rossini, with great precision. Sig. Ferranti was not so happy in his selections as he was on Saturday evening, but was most enthusiastically rewarded for his excellent singing and acting. Carl Rosa's brilliant execution on the violin met with a storm of applause, and he was obliged to give another delicious *marceau*.

**SALT LAKE CITY, Nov. 17, 1896.**  
Editor Deseret News.—In consequence of an unforeseen circumstance I was unable to fulfill my appointment at the meeting house in Hill Creek Ward.

Last evening, the 16th inst., I delivered my 6th lecture in the 16th Ward school house, and was much pleased with the attention the subject of silk culture commanded, and the interest it elicited from the listeners.  
It is greatly to the interest of the people of Utah to plant mulberry trees, largely, and those who have them growing upon their side-walks or in their gardens should now prune them back for cuttings, which will give additional beauty to the pruned tree, and greatly multiply trees in the country. Cuttings should be made about six inches long, and placed in a cellar among damp sand until spring. As soon as the ground is ready in the spring, it should be well prepared, and the cuttings planted and covered as you would plant and cover potatoes. Let all who have trees take cuttings forthwith, and preserve them for spring planting, that next season hundreds of thousands of trees may be raised all over the country.

After the lecture was concluded, Geo. C. Riser was elected president of the Co-operative Silk Producing Society in the 16th Ward, and Theodore McKean secretary and treasurer.

**WHITE PINE.**—White Pine is a great region, it is in Nevada, and its nearest place to procure supplies, we have been informed, is Beaver, in Utah. But the richness of White Pine it is said exceeds that of Ophir, and its silver ore produces a fabulous amount of the valuable metal to the ton. White Pine is a recent discovery, and has customs peculiar to itself. Of the kind of currency which circulates there, and the habits of the people, we extract the following from an exchange.

"Parties from White Pine tell it is a fact, that in the towns in that region lumps of silver ore are used as a circulating medium, and is found to answer very well in the absence of a sufficiency of coin. Even at the gaming tables, ore goes. The kind of ore used is the pure chloride, which is so rich as to be quite malleable. A miner with a sack of this kind of currency under his arm marches up to a faro table, takes out a chunk and plants it on a card, calling its value as he puts it down. For instance, the chunk is supposed to be worth \$5, the miner, as he puts down his lump, says: 'five dollars.' The faro man picks up the piece, looks at it, and if satisfied, says: 'five dollars goes,' then wins the lump and throws it into a gunny sack standing behind him."
