 Many who are suffering from the effects of the warm weather and are debilitated, are advised by physicians to take moderate amounts of whisky two or three times during the day. In a little while those who adopt this advice frequently increase the number of "drinks" and in time become confirmed inebriates. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea Weed Tonic. Containing the juices of many medicinal herbs, this preparation does not create an appetite for the intoxicating cup. The nourishing and life supporting properties of this valuable natural production, combined in it and well known to medical men, have a most strengthening influence. A single bottle of the Tonic will demonstrate its valuable qualities. For debility, nervousness, over exertion, or from any cause whatever, a wine glassful of Sea Weed Tonic taken after meals will strengthen the stomach and create an appetite for wholesome food. To all who are about leaving their homes we desire to say that the excellent effects of Dr. Schenck's seasonable remedy, Sea Weed Tonic, and Manly Pills, are particularly evident when taken by those who are injuriously affected by a change of water and diet. No person should leave home without taking a supply of these safeguards along. For sale by all druggists.

Forest Fire.—A small forest fire has been burning for several days a few miles east of this city. It appears to be in a gap in the mountains immediately south of Little Cottonwood Cañon.

Opera.—Thirty star opera singers will appear at the Theatre on Monday and Tuesday evenings next. The Ritchings-Bernard Troupe stands A. No. 1 in the profession, and lovers of music are on the qui vive. The box office will be open to-morrow morning for the sale of reserved seats.

Which?—"Veritas" asks a rather salty question, which it would be well if somebody more immediately concerned with the subject than we are would answer. It is this: "Does the present grand jury in this district sit to indict 'Mormons' or criminals?"

Circus.—Forepaugh's great show is on the way here, with its splendid collection of live animals, affording an opportunity for the study of natural history. Lions, tigers, giraffes, bears, rhinoceros, hippopotamus, etc., etc., the largest collection in the country. The tents will hold 10,000 persons. Three trains are used to convey the troupe and the outfit. It is an immense affair, and comprises the best equestrian and acrobatic talent in the business.

Small Fire.—Last evening some outsheds at the rear of the house of Mrs. Fanny Thatcher, South Temple Street, took fire, from the careless playing with matches of a little boy. A number of citizens kept the flames in check, by buckets of water and a small stream from a garden hose, pending the arrival of the firemen, who were soon on the spot and at once extinguished the fire. Some shedding and several rods of fence were destroyed. A large barn narrowly escaped. The damage was slight.

Is He a Fraud?—Three months ago a person giving the name of George S. Hayes, visited Jacob City, Dry Canyon, and collected \$3.50 each from a number of the citizens of that place. As equivalent for the money he promised to send a periodical called the *Home Circle*, and a beautiful chromo to each subscriber. Three months have passed away and no *Home Circle* nor chromo has reached the parties who paid the money, and they conclude that Hayes was a traveling "fraud." We are not in possession of any facts that would have the effect of changing that conclusion.

Macbeth.—Shakespeare's grand tragedy of Macbeth will be presented at the Theatre this evening, with a strong cast. Miss Rose Eytling, the eminent tragedienne, will appear as Lady Macbeth. This is the occasion of her benefit, and as she has received nothing but praise in her renditions of the part she has assumed, it is only reasonable to expect that she will be largely patronized to-night.

One of the great attractions of this play is Locke's celebrated music. This will be fully presented, over one hundred persons having been specially engaged for the choruses.

At the rehearsal last evening, Miss Eytling highly complimented Professor Thomas on the efficiency of the musical preparations, which with the business arrangements, she approved were the best she had ever seen and heard on the stage.

A dramatic and musical feast may be expected this evening. Mr. John Lindsay will sustain the part of Macbeth.

To-morrow (Saturday) afternoon there will be a grand matinee in which Miss Eytling will appear as Lady Macbeth.

Mr. R. M. Poyner, agent for the sale of R. M. Poyner's History in the City of Salt Lake, requests us to state that Messrs. W. S. Sterling and A. Case have been authorized by him to act as sub-agents in the canvass of the work.

In the Field.—By letter from Elder B. F. Cummings, Junr., we learn that he is at Lowell, Mass., with Elder Jefferson Wright. They were about to start for the western part of the State.

Elder Cummings speaks very highly of the kindness of many friends in Rhode Island. During the month of June he was unwell, and was kindly entertained at the house of Sister Martha W. Elliott, in Lincoln village. In July he baptized three persons at Providence, and rebaptized an old member of the Church. He had visited Boston, Medford, Malden, Chelsea and Salem, being everywhere kindly received. At the latter place he spent some time in examining old records for the purpose of obtaining the names of dead relatives of people living in Utah. He says:

"Again I had an opportunity to witness evidence of the great care, time and expense that are being devoted to the work of collecting and compiling information concerning the genealogy of the native inhabitants of New England. The Essex Institute and the Athenaeum of Salem contain a large number of books of great value on the subject, and there are several men in Salem who make it a profession to collect, compile and arrange family genealogies."

Life of Joseph Smith.—The second number of this work in the Danish language is now ready and contains the concluding part of Chapter 2, and Chapter 3. The contents of the latter are:

Restoration of the Melchizedek Priesthood by Peter, James, and John.—The Church is Organized at Fayette, with Six Members.—The First Public Sermon.—The First Miracle.—The First Conference of the Church.—Manifestations of the Power of God.—Persecution in Coleville.—Joseph is Arrested.—Twice—Is Tried and Acquitted.—His Again Visiting Coleville.—False Revelations.—The Second Conference of the Church.—Missionaries are Called to the Lamanites.

Joseph Smith's Leventals will no doubt prove a very interesting and valuable work to the Scandinavians. It is compiled by Brothers Andrew Jensen and John A. Bruhn of Pleasant Grove.

Bah!—Mrs. Catherine Folkman, one of the ladies arrested by deputy Marshals and hurried from her home at Plain City to Salt Lake, has the certificate of the clerk of election that she has not cast a vote for two years. She was arrested for voting last fall. So we learn from the Ogden Junction.

How important it is that the majesty of the law should be vindicated, even if women and babies have to be dragged fifty miles from home on horseback!

Entertaining.—There must be considerable enterprise in judicial matters just now, as it appears that in the Third District Court, not only are residents re-indicted on charges on which they have been previously tried and acquitted, but a dead woman is actually arraigned on indictment. Is that going ahead or astern? Won't the New York Herald make a note of it and insist that such proceedings shall be sustained by all the power of the Federal Government?

The Ladies' Excursion.—The ladies' excursion to Lake Point yesterday was a decided success. The company had a fine time of enjoyment in the ride across the valley and around the Point, in visiting the General Garfield, bathing, strolling about, sailing, music, dancing, etc., returning home at dark, abundantly satisfied with the day's pleasure.

Home Goods.—The manufacturers of home goods should be patronized in preference to those abroad. The Provo Manufacturing Company have opened an agency in the Old Constitution Buildings, with Mr. John C. Cutler in charge. The excellent quality of their goods, consisting of cloths, jeans, linens, flannels, blankets, yarns, etc., is well established.

Accident.—A day or two since Jacob Kelle, of Mant, was riding down a canon adjacent to that city, on a load of lumber, from which he fell. The wheels passed over his thigh, causing a severe comminuted fracture. He is attended by Dr. H. Davis, and doing well.

Shade.—It is hot days like these that make the shady side of the street desirable, and cause peripatetic pedestrians to exclaim, in the fulness of their feelings, and in the style of Sancho Panza, "Blessings on the man who invented shade trees!"

Live Stock.—Mr. J. Ralder, of Denver, was on his way south to purchase cattle for Martin Brothers of Chicago.

Utah will soon be again a live market for beef. The Texas stock which has almost ruined the trade here has about all run out, and our meat will be in better demand, and call for better figures. Now, stock raisers, be cheerful, but don't be foolish and drive away all buyers by inflated prices.

Curious Times.—Are not these rather curious times, when local officers are in danger of indictment for doing their duty, or trying to do it? The times we live in must be times of times.

Changed.—The place for the convening of the priesthood meeting to be held at 11 a. m. tomorrow, has been changed from the Fourteenth Ward Assembly Rooms to the New Tabernacle.
