

MINES AND MINING.

The Sales On Change Today Ran Over Fourteen Thousand Dollars.
TRADING IN CENTENNIAL-EUREKA.

Bureau and Geyser also dealt in—
New Process for the Reduction
of Ores.

Fourteen thousand one hundred and thirty-two dollars is the sum total of today's dealings on change. Gold's striking contrast to the closing business of the past few weeks, and all operations mostly by sales of the highest-priced stock on the organization's base-Centennial-Eureka. As far as the status of this stock is concerned, there is no apparent cause for the difference, the only reason conceivable is that during the week the miners were somewhat put out of sorts, so much so that they concluded to exchange their holdings for parts of them, at whatever sacrifice. There was no change in trading center, the sales being at \$17 and 50 at 37, and Brother Dawson was the seller in both cases. The former is taken up by his brother, Mr. Foster C. Dawson, while Dawson, Dominguez, Dominguez, and the like have now trouble in placing it at \$17.

Magnate closed with 100 shares and 200 shares were sold at 25. While Dawson made a contribution to the day's business in a transfer of 200 shares of the Eureka, he did not sell a share. A limited number of mineral stocks were called out, but they were handled in a half-hearted manner and no bids were received. The miners apparently thought they had made enough for the day, and decided to let it go at that.

The closing figures were as follows:

LARGEST STOCKS.

Stocks	Shares	Buy	Sell
Aurum	100	17.00	17.50
