

## LOCAL AND OTHER MATTERS.

FROM MONDAY'S DAILY, AUGUST 6.

**Suicide at Brigham City.**—By special telegram from Brigham City, we learn that Twa Benson, of that place, committed suicide this morning by cutting his throat with a razor. The cause attributed for the rash act is that the unfortunate man was temporarily insane.

**Thunder Storm.**—The Beaver County Record says that a terrific thunderstorm burst over the town of Minersville on Wednesday, totally demolishing corn and whatever cereals were yet remaining in the field unharvested; a "cloud also burst," if such a thing is possible, in the mountains south of town, and the streets were momentarily flooded with water to a depth of nearly two feet, filling ditches, breaking dams and cutting gulleys down the streets. Such a storm has not occurred there for nearly eight years.

**Robbery at Brigham.**—One day last week the Workmen's Co-operative shoe shop of that town was burglarized. Seven dollars in cash was taken and a coat belonging to H. E. Bowring. Notes to the value of \$100 were in the pockets of the coat. The following is a personal description of the tramp suspected of committing the theft: Height, about 5 feet 7 inches, dark complexion, heavy black moustache; is an Irishman, and speaks with a marked brogue; is about 27 or 28 years of age, and wore a coat of thin dark stuff which was very ragged.

**Reports from Other Parts.**—The telegraph brings the following:

**Corlone.**—Up to 10 a.m., 20 votes had been cast for the city and 17 for the county ticket, mixed and scratched. No excitement.

**Logan.**—The election is going off quietly. The brass band is out playing and parading the streets. Conveyances are in use conveying the voters to the polls. The indications are that the vote will be solid for the People's Party. Up to 10 a.m. 175 votes were polled.

**Park City.**—The weather is clear and pleasant. The election is proceeding quietly, with indications of a full vote. The electors are voting the straight ticket on the Territorial and county officers, with the exception of sheriff. Considerable scratching is being done on that office.

**Grand and Petit Jurors.**—In the Third District Court this morning the following were drawn to serve as Jurors for the September term:

## GRAND JURORS.

37 Alex Mulbrook	18 Hyrum B Barton
19 F H Nelden	150 Jacob Hancock
173 Jas W Burham	35 Thos Mackinson
127 David Condon	195 Thos E Harper
171 Albert F Glass	174 J H Langford
166 Enos Stookey	129 Jas X Ferguson
32 Geo Coulam	183 Kilgus Hill
111 Andrew Kilfoyle	92 Wm Sanders
3 Leonard Cottrell	158 John A Beckstead

Venue returnable Thursday Sept. 22, 1883, at 11 a.m.

## PETIT JURORS.

107 Henry Newell	28 Hyrum Strong
191 Thos Davis	151 Hyrum Bates
66 Geo W Lufkin	124 David F Park
123 J G Barry	96 John P Kelley
113 J G Watson	59 L A Eason
17 John Twilock	46 L W Barnhart
177 Chas Watson	25 E C Barnhart
88 Arch Eskine, Jr	44 Jas M Wardrob
169 Geo L Smith	145 Joseph Brown
119 E L Butterfield	141 John Clichet

Venue returnable Thursday Oct. 11, 83 10 a.m.

**B. of L. E.**—The first meeting in Salt Lake City of that well-known organization, "The Brotherhood of Locomotive Engineers," was held August 5th, 1883, in Odd Fellows' Hall, at which time and place Wasatch Division No. 222 was duly organized by Chas. McCain from Division No. 136, Evanston, Wyoming, assisted by Brothers from Divisions No. 29, 24, 199 and 191. The new division starts off with the following officers: Jas. La Rue, C. E.; F. B. Hanson, F. E.; John Foster, S. E.; G. K. McLean, F. A. E.; J. W. Stewart, S. A. E.; R. L. Mann, T. A. E.; H. W. Russell, G. and A. Kinghorn, C. Their next meeting will be held August 12th, at 2 p.m., in Odd Fellows' Hall, Scott's building. We are requested to state that all brethren in good standing are cordially invited to attend.

**The Election.**—So far as the city is concerned the election to day has proceeded quietly, there being not the slightest excitement observable, and a very limited amount of enthusiasm. The "Liberal" party ticket was dated "Tuesday, August 7th, 1883." The reason for this departure from the proper date is not

apparent. It is likely that there is some purpose underlying it, as it appears to be too stupid a blunder to be attributed to a mere mistake.

As a matter of record we append the ticket:

For Members of the House of Representatives, Parley L. Williams, J. O. Morrill, Presley M. Denny, O. K. Gilchrist, W. G. Van Horn, Geo. C. Douglas; Probate Judge, E. D. Hoge; County Clerk, J. F. Bradley; Selectman for unexpired term, J. D. Lomax; Selectman for full term, Samuel Kahn; Prosecuting Attorney, Edward P. Sutherland; Sheriff, J. W. Greenman; Assessor, Arthur Pratt; Collector, Ed. L. Butterfield; Treasurer, W. S. McCormick; County Surveyor, T. C. Bailey; Coroner, John F. Hardie.

The "Instructor."—The latest number of the *Juvenile Instructor* has the following table of contents:

"A Market-place in Tunis, (Illustrated); 'Topics of the Time,' by the Editor; 'Sectarian Logic,' by H. G. Boyle; 'Deseret S. S. Union Meeting,' 'Chapter for the Little Ones,' 'Fragments of Time,' 'Bathing,' by A. S. Rogers; 'The Model Girl,' 'George Washington,' 'Editorial Thoughts,' 'A Feilish Plowing, (Illustrated); 'Causes of the Conflict Between Science and Religion,' by J. H. W.; 'Learn to Think,' by Hagoth; 'History of the Church,' 'Remarks,' by Isaiah M. Coombs; 'The Manufacture of Buttons,' 'The Millennial Dawn,' Music by George Careless."

**Provo Points.**—While considerable sickness prevails in various parts of the Territory, Provo is at present enjoying a season of health which is duly appreciated by the inhabitants of that thriving town.

Several nice showers have fallen of late, cooling the air, laying the "alkaline," and rendering life, during the heated season, a thing to be endured.

A number of ladies and gentlemen from Salt Lake are spending a few days in Utah County canyons, fishing, hunting, resting and recuperating generally.

Deer and other wild game abound in the mountains east of Provo. The local Nimrods with loaded guns and anxious gaze, are impatiently looking forward to the advent of the hunting season, pending which their prospective victims roam their native hills, fearless in their fancied security and never dreaming of the scenes of slaughter which await them.

In excavating for the new theatre at Provo, a building which when finished will be the finest Thesplan temple in Utah, outside of Salt Lake City, a spring of clear cold water was uncovered which, being conveyed to the adjacent highway, adds materially to the local water supply.

A great deal of building is in progress just now. The new bank building is rapidly going ahead, and with other structures in its vicinity will soon give Provo a busy and industrious aspect not excelled by any town of its size in the Territory.

By the breaking of the leading bank of Leadville, Colorado, a few days since, numbers of Utah business men were victimized to the tune of various sums. It is reported that Meers, Joslin & Park, jewelers, of this city lost \$4,000, and Mr. John W. Snell \$700. The Provo East Co-op. suffered by the fraudulent event to the extent of over \$1,800. Mr. Reed Smoot, the able and enterprising superintendent, who had just returned from a business trip to Colorado, where he had, before starting home exchanged his cash collections for a check on the Leadville bank, arrived home only to receive the discouraging news that the bank had failed. The loss to the Provo institution is rather severe, but no blame can attach to anyone save those who are responsible for the breaking of the bank. Mr. Smoot's cautious action in the premises in taking a check on a house hitherto considered safe and thoroughly reliable, instead of carrying on his person a large amount of cash, and rendering himself liable to robbery in so doing, was purely business-like and commendable. He could not have done otherwise and escaped censure.

## IMPORTANT DISCOVERIES.

O. B. SHAW FINDS SOME VALUABLE DEPOSITS.

This morning Bro. O. B. Shaw called and exhibited specimens from various valuable discoveries lately made by him. Among them was a piece of practically pure silica, with just sufficient percentage of magnesia and manganese to clear it. The de-

posit is inexhaustible there being a whole mountain of it. He also had a piece of silica in a somewhat different form, with only about three per cent. of impurities or base materials. These are claimed to be as good as any materials for forming the base of glass of every kind, as can be found on the American Continent, and the balance of the constituents, mostly alkalis, are here in abundance. The only thing that it might be necessary to import in this connection would be potash. All that is needed now to establish the manufacture of glass is the wherewithal to set it in operation.

Brother Shaw also had with him specimens of silicate of magnesia, which, being infusible, is just the thing for fire-brick and crucibles. He also showed some silicate of alumina, which is nearly infusible.

Another important specimen was a piece of the purest kind of red clay, suitable for making brick of the first quality, the deposit of which is within five miles of the city, and existing in a quantity practically inexhaustible.

These are certainly very valuable discoveries only awaiting the magic touch of capital to cause them to leap into active development and be fruitful of wealth to the investor.

## PROCLAMATION.

UTAH TERRITORY,  
Executive Office. } ss.

To all whom it may concern:

Know ye that by virtue of the authority in me vested, I, Arthur L. Thomas, Acting Governor of Utah Territory, do hereby order and proclaim that the term of the Third Judicial District Court of this Territory, heretofore fixed to be held in the City of Salt Lake, County of Salt Lake on the second Monday in September, be held on the fourth Thursday of September, as heretofore.

In testimony whereof I have hereunto set my hand and caused the Great Seal of the Territory to be affixed.

Done at Salt Lake City, Utah, this fourth day of August, A.D. 1883.

ARTHUR L. THOMAS,  
Acting Governor of Utah Territory.

By the Governor:  
ARTHUR L. THOMAS,  
Secretary of Utah Territory.

## MANUFACTURE OF IRON.

A NEW COMPANY ORGANIZED FOR THE ESTABLISHMENT OF THE INDUSTRY.

In another part of the paper appears an advertisement of the Iron Manufacturing Company of Utah, of which Hon. Geo. Q. Cannon is President. The organization has been incorporated and perfected under the Territorial laws, and proposes proceeding forthwith in the accomplishment of its object. The plant of the Great Western has been purchased, a number of very extensive and rich iron claims, (in Iron County, Utah), for seven of which U. S. Patents have been obtained, are in possession of the new company, besides a number of coal claims, the product of which is admirably adapted for the manufacture of iron. The first practical operations of the company will be the erection of furnaces for the production of pig-iron, and from that branch will spring those numerous, valuable and lucrative industries that are its natural outflow.

The capital stock of the enterprise has been placed at \$250,000, and the shares at one dollar each, to be paid up in full and unassessable. The placing of the shares at an exceedingly low figure is a judicious provision, as it places the possession of an actual interest in the enterprise within the reach of all classes of the community. There is no industry that should be more popular than this, as it enters into almost every existing avenue of business, and will contribute more extensively than any other to the prosperity and material development of the Territory.

Entertaining this positive view we unhesitatingly recommend the people to step forward and take stock in one of the most important and promising enterprises ever established in Utah. We are all the more confident in making this recommendation on account of an unqualified conviction regarding the progress and success of the company.

All who wish to take stock in the

company can do so by calling upon the Secretary Mr. John O. Cuttler, Constitution Buildings.

## WHAT A CHOICE!

Editor Deseret News:

A petition is being circulated in favor of the appointment of J. S. Boreman as the successor of P. T. Van Zile as U. S. Prosecuting Attorney for Utah. It is to be hoped that the petition with its signatures will be made public before it is sent to Washington, so that the people of Utah may know at an early day who their covert enemies are. It would indeed be a public calamity to appoint this unscrupulous creature to such a position. May we be preserved from this threatened infliction.

VIGIL.

Salt Lake City, August 4th, 1883.

## PRIESTHOOD MEETING.

The regular meeting of the Priesthood of the Stake convened in the Assembly Hall at 11 o'clock this morning.

There were present on the stand Pres. Geo. Q. Cannon; Apostle F. M. Lyman, Patriarch John Smith, A. M. Cannon, D. O. Calder and J. E. Taylor, of the Presidency of the Stake; Edward Snelgrove and Elias Morris, of the Presidency of the High Priests' Quorum; R. T. Burton, of the Presiding Bishopric, and others.

Jesse Vincent was nominated and unanimously sustained as first Counselor to the Bishop of the South Jordan Ward in place of Ensign I. Stocking, deceased.

President Angus M. Cannon, said that the regular meetings of the Saints should not be interfered with by meetings of a special character. He advised that the Sacrament meetings should be devoted to testimonies from the Saints more than they were. For this reason the appointments of the various organizations of the Stake were so arranged that they would not deprive the people of bearing testimony and receiving instructions from the local authorities. The organizations of this Stake were so numerous that it was not possible to receive verbal reports from all of them, as often as could be desired.

Remarks were also made by Bishop A. Gardner on this subject. It was adopted as the sense of the meeting that it would be better to have special meetings for special purposes.

President Angus M. Cannon said that it was important that presiding officers should be upright and honorable in all their dealings.

Meetings were announced to be held at Draperville as follows: At 7 p.m. on Saturday, August 11th, of the Mutual Improvement Association, and general meetings of the Saints at 10 a.m. and 2 p.m. on Sunday, August 12th.

Adjourned, to meet on Saturday, September 1st, 1883, at 11 a.m.

## BY TELEGRAPH.

FOR WIRELESS WIRE TELEGRAPH USE.

## FOREIGN.

Paris, 3.

The Union, legitimist, says President Grevy's answer to the Pope's letter, concerning religious affairs in France, has been received at Rome.

A powder mill explosion at Anjouleme killed six persons and seriously injured several more. Damages probably 1,000,000 francs.

Berlin, 13.—All the newspapers demand an inquiry into the case of Prof. Putlitz, who committed suicide by drowning in consequence of drawing a death lot in a so-called American duel. Some papers allege that the duel was provoked by a Jewish lawyer.

Vienna, 3.—Physicians in attendance upon Count de Chambord announce that unless some unforeseen change for the worse should occur in the condition of the patient, no further bulletins will be issued.

Alexandria, 3.—Three deaths from cholera occurred here yesterday. Although the cholera epidemic continues at Ismailia, there were no deaths yesterday.

The whole gendarmerie corjon from Eltarysh to Rosetta is infected. It is hardly possible that Alexandria will escape the disease. Several painfully sudden deaths of ladies occurred Friday. The state of old Cairo is still very dangerous. There are from 150 to 200 deaths in

other parts of Cairo daily, despite official denials.

Cairo, 3.—The weather here is intensely hot, and the average temperature under canvas is 106 degrees. Several deaths from sunstroke have occurred. The troops in Hillah are constantly moving from place to place. The health of the troops at Elwerdin is greatly improved.

Belgrade, 4.—The Ministry has resigned.

LONDON, 4.—Paris correspondents of London Papers do not consider the plot to restore the monarchy in France of a serious character. Two coachmen who were arrested last papers in their possession which indicated the existence of a secret Legitimist committee of action. The Standard says this committee consisted of servants and small tradesmen. The Paris Temps treats the matter as without importance.

A dispatch from Paris says: Chancelier Lacour, Minister of Foreign Affairs, has had an interview with Marquis Tseng, Chinese Ambassador, and it is reported that the former demanded the withdrawal of Chinese troops from the Tonquin frontier.

Melbourne, 4.—Laycock, the Australian sculler, has issued a challenge to Hanian to row a race for the championship of the world on the Paramatta, New South Wales, course. Stakes £1,000 a side.

LONDON, 4.—Great excitement prevails in Hungary over the result of the trial of the Jews accused of murdering Esther Ballymoist at Presburg. A mob of anti-Semites gathered and became so hostile in their demonstrations against the Jews that the authorities were compelled to order out the military to disperse them.

The Times publishes a letter which states that the Irish National League has decided to call a series of conventions in all the counties of Ireland, with a view of choosing a central executive council. Arrangements are being made to resume the propaganda for securing an Irish parliament, peasant proprietary, and the adoption of other measures desired by the Irish. It is also intended to hold in the autumn of 1884 a general convention of Irish societies throughout the world.

Another earthquake was felt at the towns of Farlo and Ischia on the Island of Ischia at half past two o'clock this afternoon. Several houses collapsed. Three persons who were buried in the ruins were extricated alive to-day.

Queen Victoria sent a telegram to King Humbert tendering her sympathy with the Italian people over the recent catastrophe in Ischia. King Humbert in reply thanked the Queen for her sympathy, saying that the Italians regarded the English with feelings of the warmest friendship.

The Indian Government will send to Egypt seven doctors and forty assistants.

Liverpool, 4.—The new Red Star Line steamer Western Land was launched successfully here to-day. She is the largest vessel ever built on the Mersey. She is made of steel, and is 8,000 tons burthen; 450 feet long, 47 feet wide and accommodates 1,340 passengers.

LONDON, 4.—The Mark Lane Express says the weather has not been favorable for crops. Rust is spreading rapidly, and the red maggot is seriously prevalent. The acreage of wheat is much smaller than in 1882. The barley crop, however, will probably be good. Oats are in a forward state. Flour this week was difficult of sale. Trade in foreign wheat was of lethargic tendency, and was against buyers. Maize slow and unaltered. Oats dull. Off-coast wheat had little inquiry.

LONDON, 5.—The total number of deaths from cholera in Egypt on Saturday was 870, including 170 at Cairo, 27 at Rosetta, 187 in the province of Garbich, 105 in the province of Dakalech and 14 in Beni Suef. The deaths in Egypt Sunday were 728, including 160 at Cairo, 22 at Rosetta, 109 in Garbich, 44 in Dakalech, and 98 in Beni Suef. The Sunday return is somewhat incomplete but seems to be an improvement since Saturday.

Lisbon, 5.—It is reported that a military rising has taken place in the Spanish province of Badajoz on the Portuguese frontier and that the regular authorities have been arrested. Telegraph and railway lines between Badajoz and Portugal are interrupted.

Alexandria, 6.—One hundred and ten British soldiers have died from cholera in Egypt since the outbreak of the disease.

Several persons, most of them Europeans, died here yesterday from cholera.
