

WILL DISSOLVE PARLIAMENT

Shah Will Issue Decree Sunday
And Order New Elections
For the Assembly.

AMNESTY IS PROCLAIMED.

Refugees in Legations No Longer in
Danger—All Persia is Under
Martial Law.

Tehran, June 26.—The shah of Persia will issue a decree Sunday, dissolving parliament and ordering new elections for the assembly and senate which he will open in state three months hence.

A general amnesty has been proclaimed, and there is no longer any danger to the refugees in the legations.

The situation here is steadily improving. The bazaars are reopening. Troops today are camped on the streets and the population is orderly and quiet. Several foreigners were wounded or lost property during the recent disorders. The British and Russian diplomatic representatives have made representations on the matter to the shah, who has promised to reimburse for all damages sustained by foreigners.

The last news from Tabriz indicates that a renewal of the fighting there is imminent. The revolutionists are short of ammunition and the supporters of the shah are pressing their advantage.

Prince Meid-Ed-Dowleh, who has been appointed governor-general of Teheran, is gradually restoring order. There was no disturbance last night nor today. Patrols of Persian Cossacks suppressed all attempts at demonstration and are systematically disarming the people.

Public opinion appears to be steadily augmenting in favor of the shah, who is in almost continuous conference with his ministers at the palace with the view of devising measures to guarantee order.

UNDER MARTIAL LAW.

London, June 26.—The Times' Teheran correspondent says that the shah's proclamation declares Persia to have been under martial law from June 22, and that it gives Gen. Liakhoff, commander of the Cossacks, a free hand to deal severely with the people.

The assembling of the people and the carrying of arms are prohibited on pain of death.

Several members of the assembly are in chains in the royal camp. The others are scattered and their whereabouts are unknown. The number of prisoners in the camp is increasing hourly. Those detained are being subjected to the worst of ordeals.

Messages from the provinces are being censored, thus severing the provinces from communication with the capital.

It is difficult to pass judgment as yet, the Times correspondent adds, but undoubtedly the popular feeling is that what is regarded here as the inactivity of Great Britain and the activity of Russia probably will restore the shah's authority.

The correspondent also says that it is reported from Tabriz that the governor of that city has taken refuge in the Russian consulate there.

A DISTINGUISHED REFUGEE.

Berlin, June 26.—The Lokal Anzeiger today prints a dispatch from Teheran saying that among the refugees in British legation there is Tadjeddin Tabriz, one of the best and most highly educated speakers of parliament, whom the shah desires especially to arrest. The shah therefore has caused the legation to be surrounded by a company of Cossacks. Yesterday a patrol of Cossacks examined carefully every person who tried to leave the legation. The British minister, who previously had assured the shah that the right of an asylum would be granted only in cases of extreme danger to life, sent his government protest against such surveillance as an unprecedented insult and demanded the withdrawal of the Cossacks by 6 o'clock this evening.

All of the legations with the exception of the German and the Americans have received refugees.

OPPOSED TO INTERVENTION.

St. Petersburg, June 26.—The Russian press expresses itself editorially as opposed to any form of Russian intervention in Persia, except for the protection of the lives and property of foreigners.

CHRONIC STOMACH TROUBLE.

Another Case in Which the Tonic
Treatment Was Successful
After Other Methods
Had Failed.

A very delicate stomach requires easily digested food but nature never intended that the food should be digested before it is eaten. The stomach must be strengthened to perform its own work and what it needs is not food already digested, but a tonic. The processes of digestion are controlled by the blood and nerves, and medical science has produced no better digestive tonic than Dr. Williams' Pink Pills. This is shown by the statement of Mrs. Amos Rogers, the wife of a prosperous farmer, of Syracuse, DeKalb county, Ill. She says:

"I was a sufferer with stomach trouble for many years and was only able to eat liquid foods. I tried all kinds of medicines and the most skillful doctors but they did not help me. One doctor said I had cancer of the stomach; another ulcer, and others said it was my heart. During a visit to relatives at Oxford, N. Y., I was surprised to find that I had been cured of my trouble by the use of Dr. Williams' Pink Pills and began to take them myself. At the end of a few weeks I was eating solid food and continued to improve until cured. I had forgotten what refreshing sleep was until after using the pills, but now I sleep well every night. My general health has been good and I always keep Dr. Williams' Pink Pills in the house."

The pills are guaranteed to be safe and harmless to the most delicate constitution. They contain no morphia, opiate, narcotic nor anything to cause a drug habit. They do not act on the bowels, but they actually make new blood and strengthen the muscles so that you want good health you must have good blood.

Every dyspeptic should have a copy of our free diet book, "What to Eat and How to Eat." It contains much useful information. Send today for a copy.

signers, or to have Persia from spoliation at the hands of Turkey.

The Novo Vremya explains the shah up to the present time has observed the constitution faithfully and says the dissolution of parliament is permissible and would even be advisable.

Similar views regarding non-intervention are held at the foreign office where it was explained today that the British and Russian measures against a dynastic upheaval were not designed to interfere with the right of the Persian people to determine the form of government they should have, but merely to prevent bloodshed and the horrors of open revolution. With regard to the situation at Urumiah it is said at the foreign office, that Turkey has promised to withdraw her troops from Persian points recently occupied, though they will remain in the region which the boundary commission is now adjudicating.

The foreign office is confident that this promise will be kept.

NO NEWS IN WASHINGTON.

Washington, June 27.—Though there is a scarcity of news through American diplomatic and consular offices regarding conditions in Persia, that fact apparently is not causing the government to relax its vigilance.

As their conclusion is that they have not found it necessary to communicate anything requiring the department's attention. In fact, Minister Jackson's dispatch from Teheran earlier in the week expressed the opinion that foreigners were not in especial danger.

Nothing has come from American officials in Persia since Tuesday. On that day in addition to a dispatch from Mr. Jackson there was one from William F. Doty, consul at Tabriz, where they are fighting. United States Brings Two Suits to
Forefeit Patents.

Reyno, Nev., June 26.—A special from Carson says: In the United States District Court, Sam Platt brought two suits in the federal court against the Central Pacific Railroad company, the Southern Pacific Railroad and the United States Trust company of New York.

The suits are brought to compel the Central Pacific company to forfeit its patent to land in Nevada, on the ground that the patents were obtained by false affidavits, by sworn statements that the effect that the land on which patents were granted were non-mineral in character.

The land in question is located in Washoe and Humboldt counties. That in Washoe county is the site of the famous Rocky Hill and Harris mines, near Washoe City.

The companies have been cited to appear before the federal authorities at Carson City, on Aug. 25, and show how they the patents should not be revoked.

Atty. Platt will be assisted in the prosecution of the case by Atty. Gen. Bourne and his associates, Bush and Hall. The latter two gentlemen will be here in person when the cases are called.

NO FURTHER NEWS OF MURDERED AMERICANS

Manila, June 26.—No further word has been received from H. B. Everett of the Philippine forest service, and T. R. Wakely, a school teacher, reported to have been killed by hill tribesmen on the island of Negros.

Wakely and Everett, with their servants and two native foresters, started from the town of Cabanalan, on the mountainous island of Negros, in the early part of May, intending to examine the coal deposits in the hills about Mount Pisapi. To do this they left the beaten trail across the island, and since their departure from Cabanalan nothing has been heard of them.

Officials at the town of Bali, on the same island, now report that the party was assailed in the hills by the wild tribesmen and murdered; and, moreover, they claim to know the identity of the murderers. Beyond this statement they give no details of the tragedy.

Forester Ahern of Manila has started on the scene of the murder, where he will join forces with the constabulary in going over the trail and adjoining country, in the hope of finding the bodies of the murdered men and tracing down and arresting the murderers. The constabulary force on the island has already established camps along the trail to facilitate the search.

The horse and buggy with which Mrs. Watkins and the girl started from home early this morning for a drive, stood near the canal. The horse tied to a sign board. S.S.S. A CURE FOR RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which is carried through the circulation to all portions of the system. Every muscle, nerve, bone and joint absorbs the acid, pain-producing poison, causing aches, inflammation, stiffness and other well known symptoms of the disease. Permanent relief from the pains and discomfort of Rheumatism cannot be expected from the use of liniments, plasters, and other external treatment which does not reach the blood, where the cause is located. Such measures give temporary relief, but in order to cure Rheumatism the uric acid and inflammatory poison must be expelled from the blood. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes down into the circulation, neutralizes the uric acid and drives it from the blood. S. S. S. expels the irritating, inflammatory matter which is causing the pain, swelling and other discomfort, enriches the weak, sour blood, and permanently cures Rheumatism. In all forms of Rheumatism, whether acute or chronic, S. S. S. will be found a safe, vegetable remedy, possessing the properties needed to cure, and at the same time a medicine that builds up the entire system by its fine tonic effects. Book on Rheumatism and any medical advice free to all who write.
