## Local and Other Matters.

FROM WEDNESDAY'S DAILY, AUG. 8.

**The Temple.**—Five additional full courses and a sixth course of face rock, are nearly completed on one-half the distance around the Temple walls.

**Re instated.**—And now, after all the fuss and bother about General Nathan Kimball, word comes from Washington that that gentleman is likely to be reinstated in the position of Surveyor General of Utah.

**Tannery.**—Preparations for the erection of the proposed tannery building, &c., are in progress, on the ground selected, in the 19th ward. Success to the enterprise. "There is nothing like leather."

**Wasatch County.**—This morning we were pleased to meet President Abram Hatch, of Wasatch County. Peace and prosperity prevail in that part of the Territory. Some injury to portions of crops, by frost, but not extensive. No grasshoppers.

**Laid Up.**—Uncle Robert Carter, the veteran newsdealer, is laboring under an attack of illness. In the meantime his business has to be attended to by somebody else. He hopes his patrons will overlook any inaccuracies that may occur until his recovery.

**Lost.**—Yesterday at noon, a six-year old boy, named White, strayed from his home, a small house on the old G. D. Watt property, 18th Ward, and had not put in an appearance at twelve o'clock to-day. His parents were in great distress concerning him. A party was out in search of him to-day.

**Cut His Throat.**—Yesterday, at Camp Douglas, Corporal O'Neil, attempted to exit from this "vale of tears," by cutting a slit in his wind-pipe. The timely arrival of Dr. Smart, the post surgeon, prevented his departure. He is expected to recover.

**Didn't Go.**—Yesterday, in this city, John Fleming, of Tintic, made a gash in his throat, with the intention of putting an extinguisher on his earthly career. The injury was put under repair, by Doctors Hamilton and Fowler, and he didn't succeed in going to the "other life."

**Look Before You Leap.**—Would it not be well for grand jurors, prosecuting attorneys, and other court officials to read up the judicial history of the Territory a little and avoid needlessly indicting and annoying people? What is the use of doing old judicial work of that kind several times over?

**Far South.**—A private letter from a person with the Jones company of settlers, in Arizona, states that the weather has been extremely hot there, the mercury running up as high as 114 degrees in the shade.

As soon as the necessary preparations are completed a portion of the party will move further south to another location.

**Vanquished.**—The base ball match on Washington Square, last evening, between the fat and lean nines resulted in the total defeat of the former, the score at the close being 14 to 45 in favor of the thin men. Operations on the field showed plainly that the less a base baller has to carry around the better.

The game didn't prove quite so funny as anticipated—to the fat men.

**Dull?**—Was it the dull times or the hot, drouthy weather that made the politicians and the voters somewhat apathetic on Monday, making the election much more quiet than lively?

**Very Hard.**—A gentleman recently from New York states that there are 70,000 people out of employment in that city, and consequently in a semi-starving condition. The average number of dependents upon each of those unemployed, for support, is three, which increases the number of comparatively destitute four times that already stated, running it up to 280,000.

This is a frightful showing, and causes but little wonder at men becoming desperate and riotous, other cities having a like proportion of helpless and hungry inhabitants.

**City Council.**—The Council met last evening, Mayor Little presiding.

The committee appointed to examine into the method of recording deaths, &c., by the City Sexton, recommended that the existing system be not changed; adopted.

The following bills, for July, were allowed and the amounts appropriated—Marshal's expenditures, \$208.55; fire department, \$180.80; police, \$930; gas, &c., \$1,111.80; City Hall janitor, \$30.

Council adjourned till next Tuesday evening, at seven o'clock.

**District Court.**—This morning the following persons, all we understand, from Plain City, having been indicted for illegal voting, were brought before the court and entered pleas of not guilty. The bonds were fixed at \$200 each—Emma Geddes alias Emma Stewart; Martha England alias Martha Hammond, Susannah Beddis.

Catherine Folkman (similar indictment) was released on her own recognizance, and a *nolle prosequi* was entered in the case of Elizabeth Spiers.

**The United States vs. William Butler;** prisoner arraigned and plead not guilty to an indictment for perjury; bond fixed at \$1,000.

The people, etc., vs. John Spiers, indicted for officiating as Justice of the Peace without having been appointed by the Governor, he having been appointed, for an unexpired term, by the County Court, appeared, plead not guilty, bond fixed at \$1,000.

All of the above named persons were brought to the city last evening, by deputy U. S. Marshal Cannon. One of the ladies was taken ill on the way here, caused probably by excitement over her arrest. Another lady, Mrs. Geddes, had to leave a sick baby at home. The illegal voting with which the accused are charged is alleged to have been committed a year ago.

FROM THURSDAY'S DAILY, AUG. 9.

**Voting.**—On election day 511 votes were cast in Brigham City, Box Elder County, all for the Peoples' Ticket.

**Quite Ill.**—Dr. Clinton is still quite ill, although his condition to-day is an improvement upon what it was yesterday. He is being attended by Dr. Benedict.

**Preparing for Winter.**—The Union Pacific Railroad Company is building a 260 feet string of coal shedding on the block south of the Depot, and we are informed intends to build three other and parallel strings of such shedding, of similar length.

**From Bear Lake.**—Bishop Wm. Budge, of Bear Lake, arrived here this morning. He looks hearty, feels well and reports everything lovely on the shores of the beautiful lake. We are always glad to see the Bishop, who is one of the live men of the times.

**Successful.**—J. H. Clemetshaw, whose little factory is two blocks west of the Townsend House, on First South Street, is making an excellent success of the leather trunk, valise and satchel business. His goods are better than the imported and lower in price. That's what will really make any kind of home productions popular.

**Not So Bad.**—The fire at the saw mill belonging to the United Order of Richfield, Sevier County, a short time since, was not quite so disastrous as anticipated. A good deal of the machinery that was not fire-proof, was removed and thrown into the creek before it could be reached by the flames, and was thus saved. The mill has been refitted, and has been running again for about week.

**The Lost Found.**—Little Tenmy White, the six-year old who disappeared from his home in the 18th Ward, on Tuesday at noon, returned thereto yesterday evening. On the day he left he accompanied another boy, to go fishing, to the vicinity of Sugar House Ward. His companion left him there, and in his efforts to find his home he traveled further away from it, landing, late on Tuesday evening, at the house of a family, also named White, in Mill Creek, where he remained until yesterday afternoon, when he was brought to town by the kind people into whose hands he had fallen. There was rejoicing in the White family last night, for they had mourned for the little fellow as for one that was dead, thinking something dreadful had befallen him.

**Officers Arrested.**—Yesterday evening Mr. Moroni Brown, City Marshal of Ogden, and police officer Robert Snaddon, of the same place, were brought to this city by deputy U. S. Marshal Crowe. The two gentlemen named had been indicted by the grand jury for assault and battery upon Julius Kiesel. We understand the bonds of each were placed at \$500. Mr. Brown was allowed time to procure security, but Mr. Snaddon was not so fortunate. He was at once conveyed to the penitentiary and there imprisoned.

There will be an end to such per-secutive, extra-official acts some day, or we are greatly mistaken. There is not the slightest room for doubt that a trial of the case will show that Marshal Brown and Officer Snaddon, instead of committing an actual assault and battery, were simply discharging their duty as officers of the law.

If the United States deputies who compelled several respectable women to summarily leave their homes, in Plain City, one of them ill, and another having to leave a sick baby behind, were indicted for assault and battery it would be much more consistent.

President C. Peterson and his Counselors have visited all the settlements in this Stake of Zion, except Thistle Valley, where the principal members have been absent on an exploring expedition, and, this afternoon, organized the High Council, with Pailan McFarlane as clerk and J. P. Christensen his assistant. A spirit is manifest among the Saints throughout the valley to appreciate the opportunity of being more thoroughly organized under the council and direction of President Young and his co-laborers, with a view to increased participation in the labors and consequent blessings of the Latter-day work.

**A Singular Case.**—On Tuesday last a woman who resided in the 20th Ward, died from a peculiar cause. A year or two since she was troubled with an affection of the right thigh, which was so exceedingly painful, to begin with, that her only means of moving about her room was with the aid of crutches. But for a long time previous to Tuesday she was entirely confined to her bed. In the meantime a substance had grown upon the affected part, accumulating in size until it measured thirty-five inches in circumference, or nearly three feet. Not long since Dr. Benedict took the case in hand, and, besides him, Doctors Hamilton, Fowler and Smart also examined the patient, but the case was one of very great difficulty, none of those expert and learned surgeons being able to define it in all its conditions. Operations disclosed the fact that the huge growth contained but little else than clotted blood.

By a final operation the whole mass of matter was removed. Subsequently, after the demise of the patient, while making a post mortem examination, Dr. Benedict discovered that the cause of the whole complaint was that the thigh bone had been broken in two places, a short distance below the hip joint. It is rather remarkable that a person should have had a broken thigh for so long a time without anybody being aware of it. It may be accounted for by the fact that the patient at one time had been subject to epileptic fits, and had probably received the injury in falling when in a state of unconsciousness from that cause.
