ADMINISTRATOR'S NOTICE

HAVING been duly appointed administrator of the estate of Levi Murdock, late deceased, by the Probate Court of Salt Lake County, Utah Territory:

Notice is hereby given to all the creditors of said deceased, and all persons having claims against said deceased or estate, that they are required to exhibit the same with the necessary vouchers to the undersigned, at the office of A. Miner, Esq., Second South Street, Salt Lake City, in said county, within ten months after the first publication of this notice, or the same will be forever barred. And all persons owing said estate are hereby requested to settle their indebtedness with the undersigned without delay.

JOHN W. MURDOCK,
Administrator of said Estate.

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in the city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, **Cheaper than any other Watchmaker's in Salt Lake City.**

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

CARL C. ASMUSSEN,

Per J. NEILSEN, Manager.

Lake City, Sept 1dim

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

A delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

CHEAP DISINFECTANT!

MR. F. A. PASCOE will supply fine screened Quick Lime, suitable for disinfecting cesspools, and neutralizing all decaying organic substances for TWO DOLLARS PER TON, in large or small quantities, at his Pioneer Perpetual Lime Kilns, First North of Warm Springs, Salt Lake City.

N.B.—Building and Plastering Lime of Best Quality always on hand.

EASTERN.

A BUSY WEEK

The Most Active for Many Years in New York.

NEW YORK, 15.—The week at the Stock Exchange has been the most eventful and the dealings the largest in the history of the Exchange. Prices were the highest since the panic of 1873, and the excitement the wildest that has prevailed since war times. The magnitude of the deals may be inferred from Erie alone, which contributed 600,000 shares to the general result. These are the reported dealings. The actual business in stock was doubtless very much larger, but owing to extensive and animated trading in stocks, a large amount of business failed to be reported. There was renewed activity and buoyancy in the share list to-day, with a further sharp rise in many shares. The advance ranged from one-half to 11 per cent. and was quite general. As usual of late, the dealings were attended with much excitement. The largest transactions were in trunk line shares, which advanced. Grangers were strong and higher, with a marked advance. Coal stocks fell off slightly at the opening, but afterwards became strong and advanced. Southwestern shares were prominent in dealings and advanced sharply. Kansas and Texas 1 to 33; the old Missouri Pacific advanced from 8 to 18; Oregon advanced to 120 and later dropped to 115. Kansas City and Northern shares were not dealt in, but in their stead Wabash, St. Louis and Pacific stock were brought out. Common ranged between 46¼ and 47½, and preferred 70½ and 72½.

It was reported this afternoon that Jay Gould had bought several railroads in the southwest, among them the Atchison & Pike's Peak. Reports say he he paid $250 to $300 for the stock of the latter ($1,000,000).

On 'Change the advancing prices have had the effect of buying out more buyers, and at times there has been a very strong pressure to purchase at prices which produce no returns from the ruling rates in seaboard ports and in Europe. This has been particularly remarked in the provision trade where the prices have gone to a figure that alarms the persistent bears who have been selling short for two months. Sales of December wheat were made at 113¾ @ 17½; December corn, 39½ @ 41½; January pork, 10.57½ @ 11.40; January lard, 6.57½ @ 7.10. Closing easier all around.

In Chicago.

CHICAGO, 15.—Although one holiday, the day of Grant's reception, has interposed to make business smaller on 'Change and with the banks, yet this has not interfered with the strong advance in business and industry in every branch of trade. Indeed, it has rather added an impetus to the general prosperity and thrift that mark the progress of the business boom on every hand. Our clearings have increased largely, prices have appreciated in every commodity, and our principal manufacturers of agricultural implements, of house furniture and building material, of type and the like, are unanimous in reporting the business for months ahead has already accumulated and many orders are being turned away. So suspicious are many customers of the ability of manufacturers to fill their pressing orders in the appointed time, that it is not an uncommon thing for them to draw up a legal contract in which the most rigid section is inserted specifying that the work shall be done and the goods delivered at the appointed date. Such is the power of the business boom that is upon us.

WASHINGTON.

Annual Report of the Director of the Mint.

WASHINGTON, 15.—The report of Horatio C. Burchard, director of the Mint, was submitted to the Secretary of the Treasury this afternoon, and shows the operations of the United States Mints and assay offices during the fiscal year ending June 30th, 1879.

During the year the total deposits of gold and silver, including silver purchases, amounted to $71,179,661, of which $42,254,156 were gold, and $28,925,497 silver. Of the above amounts, $38,549,795 of gold and $26,934,728 of silver were of domestic production; $198,083 of gold and $106,779 of silver were United States coin, $1,069,796 of gold and $4,072,919 of silver were of foreign bullion; $149,881,971 of gold and $698,632 of silver were foreign coin, and $939,951 of gold and $208,609 of silver were of plate and other manufactured articles.

The amounts of gold and silver separated in the refineries of the coinage mints and assay office in New York were $20,759,549, of gold $10,987,526.97.

The coinage during the year amounted to $68,312,593, and consisted of 2,759,421 pieces of gold of the value of $10,976,912 and 27,228,850 pieces of silver.

The actual use of gold as part of the circulation consequent upon the convertibility of United States notes into coin, it was anticipated would create a demand for smaller denominations of gold coin, and durng the last fiscal year there has been larger coinage of eagles, half-eagles and quarter eagles than in any preceeding year during a period of 16 years. The coinage of eagles and half-eagles will be continued until the demand is satisfied.

The silver coinage has been almost exclusively of standard silver dollars, of which $27,257,500 were coined during the year, and the total coinage to November 1, 1879, has been $45,206,200. Total amount of subsidiary coin issued since the passage of the resumption act, $42,974,931. The full amount coined was $43,094,931, but $1,020,000 in dimes was recoined into pieces of larger denomination at the mint at San Francisco. The bars manufactured fine and unparted, amount to $22,022,814 of which $12,976,812 were gold and $9,045,982 silver. Total amount of gold bars, $12,976,812; total amount of silver bars, $9,045,805.

The director thus closes his report: The true policy of this country is such conservative action as will tend to bring the value of gold and silver to their former relations, upholding one and preventing the appreciation of the other until it can be determined whether commercial nations are willing that both metals should be yoked for equal monetary service. But in case the use of silver as money must be abandoned, it is gratifying to believe that the vast resources of agriculture and mineral wealth, the present development of mining and manufacturing interests and facilities for inland commerce, the comparative lightness of taxation and relief from heavy foreign indebtedness, and above all the productive genius, industry, inventive skill and capacity of the people of the United States will enable them to retain, or as now, draw from abroad the gold needed for monetary use, and that commercial disaster and depression threatened or feared as the result of restricting the commercial world to one metal are more likely to fall upon the nations that initiated and are responsible for the movement.

THOMAS' STATUE.

Grant's Tribute.

The Secretary of the National Association of Veterans has received the following letter from Gen. Grant:

GALENA, Ill., Nov. 11.

Alex. M. Kenady, Esq.

Dear Sir—Your letter of the 8th inst., conveying the invitation of the veterans of the Mexican war to join them in the procession at the unveiling of the statue in honor of the patriot, brave and noble, Gen. George H. Thomas, is just received. It would afford me much pleasure to accept this invitation if I could be present on that occasion, but I cannot. The distance is long and the time is earlier than I can well break up here for the winter, and I want to avoid two trips to the east so close together. I had also previous to hearing of the proposed time of the meeting of the Society of the Army of the Cumberland, accepted invitations in this State covering the time of the Society meeting. I would like to testify my heartfelt respect and admiration for a soldier who in life had no personal enemies, and whose memory will be forever revered in the history of his country.

Very truly yours,
U. S. GRANT.

Marine Parade.

Companies of boys on board the *Portsmouth* and *Saratoga* will take part in the parades on the 19th and 20th inst. in this city, during the ceremonies attendant on the unveiling of the Thomas statue. The marines of the *Saratoga* and *Portsmouth*, and those at the Norfolk navy yard will unite with the marines from the barracks and navy yard of Washington in forming a battalion on the same occasion.

The Wheat Crop.

Returns of November 1st show an increase in the wheat crop of over 28,000,000 bushels over last year. This great increase is the result of a very large yield in all the States bordering on the Ohio and Missouri rivers. The Northwestern States show very little variation from last year. Kansas and California both show decline in yield. Texas, of all the southern States, is the only one that falls off in yield this year.

Indian Commission.

The following was received today:

LOS PINOS, Col., Nov. 14.

Hon. Carl Schurz:

The commission is now organized and Chief Douglas, Johnson and Sawawich are in attendance to give testimony. All going on smoothly. (Signed) C. ADAMS,
Special Agent.

New York Notes.

NEW YORK, 15. — The recent shipment to Liverpool of 10,000 pistols attracted the attention of gunmen, and their inquiries was the starting point of the rumor that the Fenians were purchasing arms in the United States.

Boston capitalists yesterday paid $40,000 cash for the Empire mine, in Tombstone District, Arizona, of which a son of Harry Edwards, the actor, was half owner. The sale was effected by T. B. Lewis.

Suspected Murderers Arrested.

TOPEKA, Kansas, 15.—A man giving the name of Brown went into a jewelry store to-day and asked to have the name of Ella B. Dickinson removed from the case of a watch. The jeweler became suspicious, notified the police, and Brown and his two companions, Lewis and Green, were arrested. They say they came from Kansas City, and the belief is that they murdered Dickinson, a printer in that city, last night.

Unruly Students

MIDDLESBURG, Vt., 15. — The sophomore, freshman, senior and janitor classes have gone into voluntary suspension. The faculty has suspended two lower classes and probably will suspend the other students engaged in the rebellion. The trouble grows out of alleged unjust action of the faculty towards a number of the sophomore class.

A Bridge Accident.

CHICAGO, 15.—The south bound freight train on the Chicago & Alton road went through a bridge at Riverdale, near Alton, this morning, six freight cars falling into the river. The breakman was killed and engineer and fireman injured. The officers cannot account for the accident, as the bridge was new and extremely well made.

Accidental Drowning.

COLUMBUS, Ind., 15.—The wife and two daughters of Albert Woodward were drowned in Clifty river, this afternoon, while returning home with Mr. Woodward in a spring wagon. The stream had risen so that in attempting to ford it they were swept away. Woodward was washed ashore and saved.

Capsized and Foundered.

BUFFALO, 15.—The schooner *C. G. Breed*, from Detroit, with 24,000 bushels of wheat, capsized and foundered on Friday, eight miles east of Point Pelee. The crew, consisting of the captain and seven men, are all supposed to be lost.

A Defaulter.

BOSTON, 15.—Royal B. Conant, the alleged defaulting cashier of the Eliot National Bank, has been surrendered by his bondsmen, who learned that Conant was offering for sale in New York and Philadelphia his real estate here.

The Cable Steamer.

NORTHEASTHAM, Mass., 15.—The steamer *Farraday* stood out to sea, ten miles, where the cable was buoyed. It is too late and too windy for the cable to be landed to-day. Several hundered people have gathered on the beach.

The steamer *Farraday* came to anchor off Nanset Lights at ten o'clock this morning. The sea is smooth and favorable for landing the cable.

More Gould.

ST. LOUIS, 15. — An interview with Oliver Garrison and C. S. Greely, confirms the reported sale of Commodore C. K. Garrison's interest in the Missouri Pacific Railroad to Jay Gould. It is understood that the interest purchased by Gould is between three-fourths and seven-eighths of the road and amounts to much more than Mr. Garrison's stock, as the entire stock of the road is only eight hundred thousand. Jay Gould virtually owns the road.

An Old Soldier.

PHILADELPHIA, 15.—Peter Hay, President of the Pennsylvania Association of Soldiers of the War of 1812, died this morning, aged ninety-one.

THE INDIAN INVESTIGATION.

Douglas and Johnson Know Nothing.

DENVER, Col., 15.—Douglas was on the witness stand at Los Pinos at the investigation of the Ute troubles yesterday. He repeated the story of the Indians objecting to the plowing, and said that on the morning of the massacre Meeker had promised to take him to see the soldiers, but as for him, he went to the store rooms, and while there to his surprise heard the shots of the advancing party. then he went to the house, and, as he remarked, "It made me cry to think in what a state my friends had fallen." He did not see any one shoot. He afterwards saw Mrs. Meeker wandering around uncared for and he took charge of her in a spirit of charity.

Johnson swore that he did not know that there had been a massacre.

It is gradually becoming known at the agency that it was determined during the council with the hostile Utes on the ground, that they should kill Adams, but afterward decided to take the course pursued. This portion of the proceedings was not translated to him, and he is now only finding out through Ouray and other Indians. The Indians give testimony in the Ute language translated into Spanish, and then into English. The questions reverse this order.

Los Pinos Agency, 14. — Ouray carried his point at the Indian Council on the night of the 12th inst., and the principal chiefs of the White River Utes, except Jack, were present at the agency yesterday, ready to give testimony when called upon. The Indians who testify before the Commission are sworn by Chief Ouray according to the custom of the Ute nation.

Douglass was the first witness called at the order of Ouray. He arose from his seat and standing erect with his arm raised, he administered the oath to himself as follows: "By the heaven above, by the earth that will receive me; by the Great Spirit that looks down upon me; I dare not speak anything but the truth."

This was said with much force and with appropriate gesture. The oath, like all the Indian testimony, was translated into Spanish by Ouray and then into English by interpreter Townsend. At first he was somewhat nervous and very pale, but towards the close of his testimony he had regained his wonted composure. He saw nothing, heard nothing and took no part in the killing of Meeker and the employees and the fight with Thornburgh. He found old Mrs. Meeker running around loose, and took her to his house and took care of her. His time was so much occupied with the care of his wounded boy that he did not know what was going wrong. At the time the killing of the employees commenced he was in the warehouse and does not know who began the attack. He says his feelings overcame him and it made him cry to think into what a condition his friends had fallen. Meeker told him that in two days the soldiers would come. Douglass replied it would be better to have officers come to the agency and have a council and try to settle existing difficulties as the Indians were afraid of the soldiers. Meeker promised to go with Douglass in the morning and meet the officers, but while they were talking, the fight with Thornburgh was going on, though neither Douglas nor Meeker knew it at the time.

Ouray has made all the necessary preparations for the protection of the commission, and if the White River Utes should make any attempt toward an outbreak, 50 picked men, who are now encamped within rifle shot of the commission would be on hand instantly.

Secretary Schurz and General Sherman are to be congratulated on their selection of members of the commission. Three more competent men could not be found to perform the important duties assigned them.

Later.—Johnson has been on the stand all the forenoon, but knows even less than Douglas. To the question, "Do you know whether there has been any fight at White River?" he answered, "No." None of my relations were in the fight, so far as he knew, and he could not give the name of a single Indian engaged in the Meeker and Thornburgh affair.

WESTERN.

Sunk at Sea.

SAN FRANCISCO, 15.—The barkentine *Tam O'Shanter* from Seattle arrived to-day having on board the crew of the bark *Marmion*, which foundered at sea off Cape Flattery on the 8th inst. The *Marmion* left Departure bay on the 4th of November, with a cargo of coal for San Francisco. She met a heavy gale on the night of the 7th and sprung a leak. The *Tam O'Shanter* hailed her in the morning and kept her company till noon, when finding that she settled the crew of the *Marmion* took to the boats and reached her consort in safety. The *Marmion* was built in New York in 1846, was owned by Gates, Phillips & Sanderson Bros., San Francisco, and valued at $15,000. Insured for $10,000.

DENTISTRY.

DR. R. L. Davis has opened a Dental Office over Young & Marks Store, where he is prepared to execute all kinds of Dental Work in a Satisfactory manner.
