Special Correspondence.

Provo, July 23 .- The quarterly conference of the Utah stake, opened Saturday forenoon in the tabernacle, with President David John presiding. There were present of the apostles. Elders John Henry Smith, Reed Smoot and O. F. Whitney, and a good representation If the local priesthood.

After the opening services of song and prayer President John made the address of welcome, and was followed by a number of bishops' reports.

"Resignation" was rendered by El-der Wilford McAllister. Elder Smith then addressed the con-

regation on the mission of the Saints, which was to preach the gaspel to all the world. Be had no fear for the success of the work. No matter what may occur, those who have become seasoned in the troth will not falter. Practically all who have ever lost the faith have done so because of evil doing by them. Those who have received a testimony of the gospel will never leave the Church if they do not commit sin. The responsibility upon the mothers for the success of the work mit sin. was earnestly pointed out and the im-portance of their mission strongly por-

trayed. Those who are temperate and observe the moral laws of the Church will olways endure. None should worry over the outcome of the work, which is the Lord's and will prevail. Elder Smith urged the parents to provide employment for their children and to be discreet in providing amusements for them.

The choir and congregation sang We thank Thee, O God, for a pro-thet," etc. Benediction by Elder A. J. thet. Southwick.

SATURDAY AFTERNOON.

On Saturday afternoon President Jo-seph B. Keeler and Patriarch Oliver B. Huntington were the first speakers, and were followed in an interesting address from Elder Orson F. Whitney. It was the duty of the saints, he said, o acknowledge the hand of the Lord n all tihngs. The Lord is angry with none, the speaker said, save those who refuse to do this. He related an incl-ient of a captain teiling a passenger n a storm that all was well, because the machinery was in perfect condition and every man was at his post. So with "the good ship Zion." Danger is not to be feared from without. from within; yet he felt that God would never allow this work to be over-thrown. The children will be true to

the Church, they are the hope of Israe), upon whom the perpetuity of the hurch depends.

the truths that may be presented; if they do not they cannot in good taste blame the speaker for the meeting being dull. Elder Whitney related a story of Apostle Parley P. Pratt, who had just returned from a mission, and was called on another mission. He asked the prophet if he could remain to build a home for his family; the prophet told him that if he would take the responsibility he might do so; but the prophet did not feel that he could take this responsibility. The house was destroyed fire while Elder Pratt was building it, and he then went to the prophet and said he was now ready to go on a mission as he had nothing to hold him back. Such men were the men who established this Church, and who came here and redeemed the wilderness and made it possible for us to live here and find fault with the weather and complain of the dull. ciss of the meetings. Elder Whitney cited other pathetic incidents in the early history of the Church, when men were called to go on missions in pover-ty and in sickness, and had gone and preached the gospel and had been wonderfully blessed in their labors. Those were the men who laid the foundation of the Church; it never would have been established in the lackadaisical

manner that characterizes many of the people today. And it all led to the thought expressed in the great com-mandment: "Thou shalt have no other gods before me." The speaker cautioned against idolatry, consisting in the worship of money, talents and other gifts, and forgetting the Giver, and this was one of the rea-sons for much coldness and indifference in the Church-that the people wor-shipped the gifts of God instead of the

M. I. A. CONFERENCE.

In the evening a large congregation assembled to hear Elder B. H. Roberts deliver an address on "The Succession in the Presidency," presenting evidence from the Doctrine and Covenants and other sources that at the death of the Doctrine South Section the presidence Prophet Joseph Smith, the presidency fell upon the apostles, till such a time as the first presidency was reorganized. A motion by Elder Jos. A. Buttle that Elder Roberts be asked to speak further on this subject at a future date was unanimously carried.

Frank J. Hines Tells of What He Saw When Attending Convention.

Supt. of Waterworks Frank L. Hines. returned yesterday afternoon from Boston, where he attended the 26th annual convention of the American Waterworks association, on July 10 to 14. Supt. Hines says that the convention was a very successful one, there being 756 waterworks superintendents pres-Many subjects of great importance to waterworks systems were discuesed.

One of the most important points of interest visited by the members of the association was the Wachusetts dam and reservoir, which is 42 miles from Boston. The dam is built of solid gran-He masonry, 213 feet long, 95 feet high and 45 feet thick. The reservoir covers 4,180 acres of ground, and has a capaelfs of 65.00 gallons of wate The average depth of the water is 65 føet. The reservoir was built to pro vide Boston with its future supply water and will not be needed by the city for 15 years yet. At present it supplies water for several suburban towns. Mr. Hines says that it is one of the greatest reservoirs in the world and that other citles should profit by Boston's foresight in preparing for a future water supply. ----

DISPUTE SETTLED.

City and County Hereafter Will Indulge in no Trading.

The trouble between the county and city over the payment of the water tax by the county for water used at the jail was amicably settled at a meeting Smooth Grafter Meets His Waterloo in held this morning in Mayor Thompson's office. After considering the matter for an hour of so it was finally decided that the city would accept the \$500 ap-propriated by the commissioners last year in payment of all claims for wa-ter tax up to July 1, 1907, and from that time on the county will pay for the water used, and the city will pay the county for elevator service at the city and county building, and will also pay for anything else it gets from the coun-ty, and there will be no trading between the county and city in such matters hereafter

Those present at the meeting today are Mayor Thompson, Supt. of Water-works Hines and City Treasurer Swenson for the city, County Commissionars Wilson, Mackey and Miller for the county, Pormer Commissioner J. H. Anderson was also present at the meet ing. Mayor Thompson will submit a report to the council tonight in ac-cordance with the agreement reached and the matter will be approved by the

"HAMMOND" IN JAIL.

South Africa.

Members of the University club will remember a voluble smooth spoken individuable who five years ago registered at the Kenyon hotel as H. Hays Ham-mond ,and passed himself off as a brother of John Hays Hammond, the voted mining expert. This young man was certainly a college man, and had posted himself about the affairs of the Hammond family. In that way, he succeeded in "borrowing" money from several members of the club, and finfrom disappeared. It has been learned of late that this smooth person is in jail South Africa, and that his career as a borrower is about ended. He victimized not a few persons in various

parts of the country. ----

Glazier were the first speakers. 'O Turn Thee Unio the Lord" was rendered by the choir. Elder L. E. Eggertsen, stake super-

intendent of Sunday schools, reported a very favorable condition in this organization, and urged the support of the parents for the good it brings to the children in making them acquainted with the principles of the gospel. President George H. Brinnhall report-

ed the work for the past year in the Brigham Young University had been very successful. He believed the human soul to be the greatest thing in the world, and he who touches it for good or evil assumes great responsibility, and the teachers in the university re-

alized this, and the importance of their mission, and enjoyed their labor. Soul expansion and soul shrinking, whi was continuously going on, often a which most imperceptibly, was referred to and the necessity for self examination pointed out. The importance of the Spirit of the Lord in the conduct of human affairs and the relations of life be-tween the children of God, and the ease with which difficulties can be overc with the assistance of this Spirit were arnestly presented.

Elder Beed Smoot spoke of the evidences of pure and true living, which is shown in the countenances of men and women, and also the reverse when such lives are not led. Elder Smoot ex-horted earnestly against the spirit of faultfinding and gave examples of the evil of such a course, and the evil it brings to those who possess and en-courage it, and to the families where it is given a place. He closed by testi-fying earnestly to the integrity and zeal in the work of God shown in the lives of President Joseph F. Smith, and

the men associtated with him, and ask-ed that they be sustained by the pray-ers and confidences of the people. SUNDAY AFTERNOON.

The stake authorities were presented and unanimously sustained, as consti-tuted. E. S. Hinckley and J. Wm. Knight, who had been appointed alter-

nates in the high council to fill vacan-cles were the only changes from the list of officers presented at the last preof oncers products a visual structure of the stake conference. Elder Guy C. Wilson, of Juarez. Mexico, spoke interestingly and en-couragingly of the conditions in the colonies of the Saints in Mexico. The

government of the country was favor-able to the colonists and appreciative of the progress in agriculture, manufacture and education made by them. He reported that students from Mexi-can families had come as far as 1,200 miles to attend the schools of the Lat-

r-day Saints. Elder John Henry Smith spoke of the privilege and duty given the Lat-terday Saints to preach the Gospel to the world, and none could afford to shirk this responsibility. In the early days of the Church the brethren were called on missions and responded promptly and without ouestion, leaving

in many cases their families unprovid-ed for. Now there was more leniency shown by the brethren and the ques-tion was asked men if they were pre-pared to go on missions, and with the tendency to engage in business and become involved in debt, it frequently happens that years lapse before they perform this duty. This condition should be remedied and the aposties, seventies and elders should so shape their affairs that they may be prepared to perform this duty of preaching the gospel to the world. Returned missionaries were also urged to retain the spirit that influenced

them while on their missions, that they might continue to labor in the cause of truth by precept and example. Elder O. F. Whitney spoke of the in-fluence of the Spirit in presenting truths

to the hearers in the meetings of the saints, and called attention to the fact there is a divided responsibility that with the speaker and the bearer to make a meeting profitable and inter-esting. Those who attend meetings should prepare themselves to receive

At Calder's-The celebration of Pioneer day at Calders' park is expected to attract a large crowd. The management has a strong drawing card in the horse races, which, with the other horse races, which, with the other amusements at the park, will do much to muster a great throng. The name contest, which for several weeks past has excited the attention of young and old, closes tomorrow night. Thus far voting has been quite heavy, and it is expected that with the close of the polls nearly 10,000 suggestions will have been deposited in the ballot box. The directors will meet during the week and canvass the list, announcing their decision at the park on Wednesday evening, Aug. 1. The winner will get \$100.

Salt Palace Program-Manager, Halvorsen of the Salt Palace has made spe-cial efforts in signing up big attractions or Pioneer day and the week following for the patrons of this resort. The most sensational act, and the only one of its kind that has ever been produced in this city, will be a balloon ascension and cannon and surpentine dance act in mid-air by Frank Coleman. An as. cension is made in a baloon to which is attached a parachute with a cannon At a thousand feet in the air Professor Coleman is shot out of the cannon together with another parachute which drops him to the ground. Coleman aldoes the serpentins dance in mid air, which is considered the most sensation-al mid-air sct performed by the aerial-ists of today. The first performance will take place at 7 p. m. The Zeno Bros, will perform on the trapeze afternoon and evening. Held's full mili-tary band will play all afternoon and evening the most popular selections of the day. This programme is free to the people and no admission will be charged at the gate.

(Special to the "News.")

Cheyenne, Wyo., July 23 -Serious range trouble has occurred on Snake river, 35 miles north of the Mormon settlement of Afton in Uinta county, and it is feared there may be blood shed. A few nights ago unknown per-sons cut three mile of wire fence be-tween every post on the ranches of John Bearing and McNeill Bros., and the same night the camp outfit of John Erickson, who was recently shot by Mrs. Reese, was destroyed by incenderies. Ranchmon are looking for the guilty parties with guns and a rope, and if they are caught Judge Lynch

Two Colored Regulars Believed to Have Shot Moody at Shoshoni,

(Special to the "News.")

Shoshonl, Wyo., July 23 .- Two colored soldiers from Ft. Washakie will probably be arrested today, charged with the murder of City Attorney Moody and the shooting of Banker Anderson, A woman saw, colored soldiers running away from the Moody residence, and later a tohacco sack was found along the trail taken by the murderers in escaping which contained cartridges of the same caliber used in the killing of Moody. It now appears Moody was mistaken for Night Marshall McCoy WAA. who had had trouble with the colored soldiers a few nights previous to the killing. Local Masons have issued a call to the brethren in Wyoming to contribute to a fund to be used in prosscuting the murderers. Sheriff Stough is after the soldiers but will not bring them to Shosheni for fear of a lynch-Anderson's condition is improvng. ng and he may recover.

Distinction of Utah-California Pioneer Who Arrived in Salt Lake Today.

A ploneer of the western deserts, who lived out the youth of his life in the country between Salt Lake and the coast, and who went through many of the experiences which have not yet been included in the permanent records of pioneering, arrived in Salt Lake today. He came from Los Angeles to join with the Utah pioneers in the celebration of Pioneer day, and his name is Charles Colton. The town of Colton, near San Bernarding Cal, was Bernardino, Cal., was named after him. Mr. Colton has had a most interesting career, and one fraught with many ex-periences in the earliest history of Utah. Nevada and California. He was a mem-Nevada and California. He was a mem-ber of the Mormon battalion, which went west in 1846 and 1847 to Los An-geles. He enlisted after being bap-tized in the Missouri river, near Nau-voo, by the Prophet Joseph Smith, and was one of the party that went out from Los Angeles to secure the pole on which the United States flag was on which the United releed on July 4, 1847.

When the Mormon Battalion broke up in 1847, Capt. Davis led a portion of them over to Salt Lake across the southwest route, and the tralle taken Mrs. Clifford Percell, Mr. and Mrs. Lier-nan, Senator Sutherland, Mr. Will Rit-er, Mr. Austin Whitney, Miss Wells, Mr. Hedges, Mr. and Mrs. Lewis Bee-ron, the Misses Hull, Miss Luia Spence, Mr. Len Hayman and Mr. Hugh Dou-gall.
