

GENERAL MILES ON EVILS OF WAR.

Settlement of International Controversies by It Involves Lives of Thousands of Young Men.

VOID OF REASON AND JUSTICE.

Burden of Standing Armies and Huge Navies Already Grows Too Great.

Boston, Oct. 6.—A public mass meeting in connection with the International Peace congress was held in Park street church for the purpose of discussing the hope for reduction of armaments, as well as the menace to universal progress of great armies and navies.

Gen. Nelson A. Miles, U. S. A., retired, the principal speaker, said in 1897:

"The settlement of international controversies by the dread arbitrament of war involves the destruction of tens of thousands and sometimes hundreds of thousands of the young men of both countries. Could any rule, code or method be more void of reason and justice?"

"The great majority of wars in the world's history have been occasioned by the selfish ambition of some usurper or tyrant, the intrigue of unscrupulous men or the avarice and greed of some people. The deadly war now being waged between two powerful nations in the orient cannot benefit either country but must retard human progress."

"I have no sympathy for that sentiment of peace that would compromise and arbitrate with powerful nations and at the same time overrun, intimidate or oppress the people of defenseless countries."

"It must be apparent to all thoughtful patriotic men that the intelligent world will not long endure the burden of great standing armies and enormously expensive navies. The question is to what millions of men would be unemployed in military service, conserved by the fact that they have no producers instead of consumers. In the promotion of peaceful arts and industries our people have won a place in the world's confidence and respect in which we all hold just pride. In the splendid activities there is no room for the idle and the dying world of warring cannon and dying nations."

Congressman McCall, who presided, remarked the growing tendency, as evidenced in this country, toward peace and lamented the enormous amount of money which is yearly expended by the world's powers to maintain armies and navies.

Peter Curran, the representative of England's workmen, said that the workmen of Great Britain were unanimous in declaring for peace.

CARDINAL GIBBONS TO REV. E. E. HALE.

Boston, Oct. 6.—Cardinal Gibbons has written a letter to Rev. Edward E. Hale in which he says:

"I regret exceedingly that many religious arguments prevented me from assisting at the peace conference in Boston. Had I been able to do so, I would have made it my duty to say a word in the vindication of the policy of Belgium in the Congo state. The Italian representative, speaking of the perseverance of the king of the Belgians in the civilization and development of the Congo state said: 'For eight years he (the king) has staked his personal sacrifice for the enterprise of a generous and philanthropic enterprise.' In terms no less flattering spoke the British representative, Sir Edward Malet, and likewise 'Chas. Gordon, Lord Curzon, too, says: 'The civilization, the development, the recent prosperity of the Congo state, the peace that now nestles in its once turbulent bosom, are all the fruits of his sacrifice and his devotion.'"

"Keeping in view all this, it would be greatly regretted that a conference which was inaugurated in the interests of peace—should discuss a question which is calculated to arouse enmity."

TEA

We sell both tea and coffee; and don't care which you buy. Oh yes; there's a lot more money in coffee.

Your grocer returns your money if you don't like it.

and strife. Moreover, such discussion would of necessity be one-sided and unfair, inasmuch as the representatives of the Belgian government would have no opportunity to reply to the charges against its administration of the Congo, nor to present their own case."

ALASKA IS NEARER.

Telegraphic Communication With Far Off Territory Established.

Seattle, Wash., Oct. 6.—Telegraphic communication has now been reached between Seattle and all parts of Alaska. At 4:47 o'clock this afternoon the following official message was received here announcing the opening of the line:

"Sitka, Alaska, Oct. 6, 1904.—To the newspapers of Seattle and the Associated Press: The completion of the government cable from Valdez to Sitka, making a complete connection by an all-American line with 46 stations in Alaska, is the beginning of a new era for Alaska. Wagon roads and railways will open up the greatest mining center of the world. Other industries will quickly follow and insure this country's future prosperity."

"WILLIAM L. DISTIN, Acting Governor of Alaska."

Populists on Official Ballot.

Columbus, O., Oct. 6.—Petitions were filed today containing the necessary number of signatures to place the Populist ticket on the official ballot.

MRS. YOUNGHAUS SUICIDES.

She Leaves a Husband and Three Children.

Reho, Nev., Oct. 6.—Mrs. Fred Younghaus, wife of a well-known passenger engineer of the Southern Pacific, committed suicide at her home in the railroad town of Sparks, three miles east of here, today. Mrs. Younghaus had been ill but was convalescent, and it is presumed that while laboring under a fit of temporary insanity the act was committed. She was 45 years old and leaves a husband and three children.

Mayor McClellan Sued.

New York, Oct. 6.—Mayor McClellan today was served with a summons in a suit for criminal libel brought against him by Ben Bell, formerly a member of the municipal civil service commission. Mr. Bell asks \$100,000 damages. The suit is brought against Mr. McClellan as an individual and not as head of the city government.

Mr. Bell resigned from the civil service commission several days ago and his resignation was accepted. When the other members of the board were removed yesterday on charges instituted by the civil service reform association, the mayor addressed a letter to Mr. Bell stating that had he realized the gravity of the charges against the commission at the time Mr. Bell's resignation was received it would not have been accepted.

Steamer Boscovitz Wrecked.

Vancouver, B. C., Oct. 6.—The steamer Boscovitz is a wreck at Harborside Island, Parsons bay. She struck a rock in the night and then broke in two. Indian children, who were passengers on the steamer, were drowned by the capsizing of a small boat in which they had been placed. The other passengers, of whom 120 were Indians and six whites, were landed safely. The steamer was on her way north from this port, taking Indians and their belongings to the Skeena river, the Indians having been working in the hop fields. The Boscovitz was owned in Victoria and was worth about \$8,000.

Could Not Be Better.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by all druggists.

REPRESENTATIONS ABOUT PASSPORTS

Those Made to Russia by the United States Have Not Been Entirely Fruitless.

REFERRED TO A COMMISSION.

Matter Has to Do Chiefly With the Status of American Jews in Czar's Domains.

St. Petersburg, Oct. 6.—Contrary to general expectations the representations submitted to Russia by the United States for the recognition without discrimination of American passports have not been entirely fruitless. Foreign Minister Lamsdorff's response, communicated to Ambassador McCormick today, even creates the hope that something may actually be accomplished. After receiving consideration at the foreign office the American note was referred to the high commission for general revision of passport laws, which was created by imperial ukase in December, 1903. All matters relating to passports and the exclusion of the Jews are governed by the laws of the empire and the question is outside of the direct field of diplomatic negotiation. By referring the representation of the United States, compliance with which would involve a modification of the passport laws, to the commission, which body is competent to act thereon, upon a decision of the question may be directly reached. An official of the foreign office has been appointed by Count Lamsdorff to sit with the commission, thus ensuring consideration of the international aspect of the question. Moreover, the commission will sit under the direction of the minister of the interior, and Ambassador McCormick, who had an extended talk with Prince Sviatopolk-Mirsky, the minister of the interior, upon the subject this evening found him as might have been expected from his recent public utterances, quite sympathetic. Indeed there is reason to believe that reference of the subject to the commission was previously arranged at a conference between Count Lamsdorff and Prince Sviatopolk-Mirsky. Considering that this is the first time the Russian authorities have not brusquely declined to entertain American representations upon this question the present response to Ambassador McCormick may be regarded as another signal proof of Russia's desire for friendly relations with the United States.

Cures Winter Cough. J. E. Gover, 191 N. Main St., Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got for her a bottle of Horro's Cough Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to go on and well." Price, 50c. Sold by Z. C. M. I. Drug Dept.

VOICE CULTURE.

L. D. S. University Engages Charles F. Carlson to Give Lessons on Conservatory Plan.

The L. D. S. University announces that it has secured the services of Mr. Charles F. Carlson, for eight years past a student in the best conservatories of Boston, New York, and Chicago, a certified teacher of harmony, to give instruction in voice culture—the art of singing, and in harmony—the grammar and rhetoric of musical language. Voice culture will be given in classes, on the conservatory plan, as well as by individual lessons. Harmony will be given in class or by individual lessons, and both day and evening classes are offered. It is stated that a voice-trial and consultation will be given free to inquirers and that students taking either of Mr. Carlson's courses may take any of the vocal classes of Prof. Stephens in the University.

Right, From Collar to Heel.

No Matter What You Wear—Top Coat, Rain Coat, Over Coat, Business Suit, or Dress Suit—if it is Stein-Block make YOU WON'T BE WRONG.
