

DETAILS OF THE SUICIDE.

Gen. Macdonald Shot Himself in the Right Temple.

EXPIRED IN A FEW MINUTES

Arrived in Paris Friday on His Way Back to Ceylon—Death Caused Great Sorrow in London.

Paris, March 25.—Major-General Hector Macdonald, commanding the British forces in Ceylon and one of the foremost officers of the British army, against whom charges based on immoral acts were filed some time ago, committed suicide today at the Regina hotel here. He shot himself in the right temple shortly after noon, and expired a few minutes later. The general was alone in his small chamber at the time of the tragedy. One of the female attendants heard the pistol shot, and, opening the door, saw the general's figure stretched out on the floor with blood gushing from a bullet wound in the head. She ran screaming to the balcony overlooking the lobby of the hotel, where many guests, including a number of ladies, were assembled. The proprietor of the hotel was the first to reach the expiring man. Medical help was immediately summoned, but was found to be useless, death ensuing quickly on the fatal act. The commissary of police was notified, and, accompanied by a doctor, proceeded to make a preliminary investigation. No money or papers of any kind were found in Sir Hector's baggage.

Two notes written in English were found lying on a table in his room, and these were taken possession of by the authorities. But it is understood that their contents have no bearing on the suicide.

In the general's coat lying on the bed were found some photographs. The British embassy and consulate were notified later, and Consul General Inglis visited the hotel, and took charge of the body, which was placed on the bed. The door was then locked, the usual general taking the key. The French officials took possession of the revolver, which was of nine millimeter caliber, and apparently new.

Sir Hector Macdonald arrived in Paris last Friday evening from London on his way back to Ceylon, where it was understood that an immediate court-martial would be held to clear up the charges made against him. On reaching the hotel at 11 o'clock, it was said that only a small and different room was available. He remained in that room until the morning of his death, when he was found by the British embassy and Gen. Inglis had advised London of the tragedy and are awaiting definite information. The general's suicide has profoundly shocked the British officials here. Those about the hotel who had conversed with Sir Hector Macdonald described him as a man of no signs of excitement or mental worry. They described him as of middle height, with dark hair and a slight gray mustache. He was dressed in a dark gray traveling suit.

It feeds the hair

Ayer's Hair Vigor is a hair food. It feeds, nourishes, invigorates the hair. That's why it makes the hair grow, stops falling hair, and keeps the scalp free from dandruff. It always restores color to gray hair, all the deep, rich color of early life. And it is an elegant dressing. \$1.00 a bottle. J. C. AYER CO., Lowell, Mass.

In contrast to the circumstances surrounding the death of Gen. Macdonald was the gaiety of the scene tonight near his death chamber. Owing to precautions taken to conceal the death from the public, the hotel was filled with guests going to and returning from the theater and opera. The body lay in an adjoining chamber. There are no watchers by the side of the corpse.

CAUSES, SORROW IN LONDON. London, March 25.—The tragic end of "Fighting Mac," who, as the son of a drummer, rose from a position of a hanger-on to become an honored general in the army, has caused great surprise and deep sorrow in London. The nature of the offenses with which he was charged had not been generally known, but had been common gossip in military circles, and although in the army and among his highlander comrades especially, there is keen grief, the feeling is that it is better to die thus than face dishonor. Sir Hector Macdonald was separated from his wife many years ago, before he got his commission. He had not lived with her since. He leaves a son, who is being educated in an English public school.

Sir Hector Macdonald's great chance came when, as a sergeant during the Afghan campaign in 1879 and 1880 with a small force, he, by a furious bayonet charge, cleared out a body of Afghans who were lying in ambush for Lord Roberts. For this feat Lord Roberts offered him the choice of the Victoria cross or a commission. He chose the latter. His greatest military achievement was leading the black Southerners brigade in the Goudan campaign against the Khalifa.

The official announcement made by the government of Ceylon on Monday that Sir Hector Macdonald would be court-martialed and the publicity given to the affair were evidently the determining motive for the suicide. His personal attributes, his devotedness to his broken heart and shattered nerves, the outcome of two campaigns in the Sudan and South Africa. An attack of dysentery and a touch of sunstroke at Pandjeh during the South African campaign left serious effects and a wound received in the leg healed badly.

It is said that he often complained of pains in the head, and in Ceylon his health and the depression he was suffering grew worse to such an extent that he was talked of as invaliding him from the service.

The newspapers comment sympathetically on the pitiful end of a brave man, and say that his countrymen will remember him best as the man who, on his return from Omdurman, King Edward, then Prince of Wales, greeted him, and said: "In 1872 you were doing sentry duty in India and now you are a general in the army, I am proud to have met you."

ELKINS ANTI TRUST BILL

Several Railroad Men Claim Its Authorship.

Chicago, March 25.—During the progress of a meeting of western railway officials for the purpose of discussing the Elkins law it came to light that Paul Morton, second vice president of the Santa Fe, E. D. Kenna, first vice president and general counsel of the same road, and A. J. Cassatt of the Pennsylvania, are authors of the bill. It is said that the first draft of the bill was made by Mr. Kenna and embodied the ideas of the three mentioned. This draft was submitted to the president, attorney-general and the chairman of the Interstate commerce commission, and was subsequently amended. As finally adopted the bill was essentially prepared from the suggestions made by Messrs. Cassatt, Morton and Kenna, after repeated conferences at the executive mansion.

Fort Sheridan Prisoners Escape.

Chicago, March 25.—With the aid of a skeleton key, which they filed from a spoon, Benjamin Adams and James Marion, two prisoners at Fort Sheridan, escaped the lock of the cell door in the guardhouse last night, then unlocked another door leading through the kitchen and escaped on a passing freight train. Both of the men were being kept in solitary confinement. A guard stationed near the door of the kitchen saw them emerge, and after commanding them to halt, fired several shots, but it is believed none of the bullets took effect. Adams was to have been returned to Texas today to serve out a sentence of three years for horse stealing.

Daring Automobile Ride.

Washington, March 25.—Three men, in an automobile, tried to ride up the steps at the east front of the Capitol today. They reached the second landing, sixteen steps from the street, when the chain of the vehicle broke and it ran backward without control. The man who acted as chauffeur gave the name of J. D. Harbison, and said he was from Detroit, Mich. His companions did not give their names, but one of them said he was a police commissioner from Hartford, Conn. The chauffeur was arrested, but later released on \$10 collateral.

WAR DEPARTMENT

THANKS GEN. WOOD

Upon Completion of His Difficult Work in Cuba.

BY PRESIDENT'S DIRECTION.

Out of an Utterly Prostrate Colony a Free Republic Was Built.

Washington, March 25.—Brig.-Gen. Wood left here today for Boston, whence he will sail in a day or two for the Philippines to assume command of the military department of Mindanao. Coincident with his departure from this city, Secy. Root today issued the following order:

"By direction of the president, Brig.-Gen. Leonard Wood, U. S. A., having filed the report which completes his services as military governor of Cuba, and as commander of the military forces stationed on that island from December, 1899, to the close of the American occupation, is relieved from further duty as such by the affairs of the former military government of Cuba.

"The administration of Gen. Wood as military governor of the division and the department of Cuba as military governor, was highly creditable. The civil government was managed with an eye single to the benefit of the Cuban people under the supervision and control of the military governor. The Cuban people themselves had an opportunity to carry out their government in a constantly increasing degree, so that when Cuba assumed her independence she started with the best possible chance of success.

"Out of an utterly prostrate colony, a free republic was built up. The new nation started under more favorable conditions than has ever before been the case in a single instance among her fellow Spanish-American republics. This record stands alone in history, and the benefit conferred thereby upon the people of Cuba was no greater than the honor conferred upon the people of the United States.

"The war department, by direction of the president, thanks Gen. Wood and the officials, civil and military, serving under him, upon the completion of a work so difficult, so important and so well done.

Idaho Miner Missing.

Boise, Ida., March 25.—News has reached here from Roosevelt that W. E. Smith, a well known miner, had disappeared. Smith was last seen in the case of a single instance among her fellow Spanish-American republics. Child Shoots Child.

Woodlawn, O., March 25.—Gertrude Whitehead, the six-year-old daughter of John Whitehead, was shot and killed today. The shot was fired either by her brother Ray, aged seven, or by a younger sister, aged 12. There were no other children in the house at the time. The sister insists that "Brother hurt sister." The boy Ray, however, is silent and insists that "She hit him." The weapon used was a revolver and was found in a bureau drawer.

I have chewed tobacco, however, since I was a boy. I have always taken a full hour to each meal, sometimes more. If people nowadays would only take the time to masticate their food properly there would not be so much trouble from indigestion and dyspepsia and they would live longer."
