

PRIMARY ASSOCIATIONS.

The Loving Work Carried on Among the Little Tots.

Thousands of Happy Children Meet in a Series of Conferences in the North.

Correspondent of the News.

WILLARD CITY, JUNE 30.—Having completed a very successful visit to the Primary associations of the Church Stake, in connection with Sister Avisia R. Rogers, president of the Davis Stake organization, I thought a short synopsis of our journeys might prove of some interest and benefit to others working in the same cause.

By invitation of the Box Stake officers, Mrs. Rogers visited the quarterly conference held in Brigham City on June 17th, and which proves to be one of special interest, as was also the entertainment given by the little men in the Open house the same evening. Great credit is due the president, Mrs. Rogers, and her capable helpers, Phoebe, Matilda, and Anna Duerler for uniting energy and perseverance in their labors among the children.

After attending the conference of the Y. L. M. I. A. of the same place on June 14th, Sister Rogers and myself visited the little town of Millard, attending a special meeting of the association and the regular meeting of the Primary. The attendance of both meetings showed decided interest. The singing was cheerful and inspiring. Miss Minnie Owens displayed valuable talent in composing musical alls of cheerful harmony, suited to the capacity of children and appropriate to our Primary hymns.

Leading Willard, we traveled into Cache Stake for the purpose attending a series of conferences designed to State, Juvenile, and Primary associations. Mrs. Rogers, and Emma Pike, committee, for the purpose of meeting the greatest number of children possible at the little ones to travel long distances to attend. Their method was to have two or three large buildings or houses every June in each town, alternately.

On Monday the 19th the Logan conference convened in the High Intermediate schoolroom. The attendance was very large and the presence and interest of the Stake presidents, their wives, Isaac Smith, Isaac Smith and Elizabeth E. Miller, was very encouraging to all present. The meetings were conducted in a quiet and orderly manner throughout the day, and the exercises were well chosen and very interesting, particularly those of a musical nature. Ten children had been born in the Stake during the year, and the parents were present to witness the birth of their new members.

Focusing twice a week to attend the meetings under the kind instruction of Brother Wallin, who has taken great interest in the musical education of the children. Would that we had more such meetings where the parents could spend their time and talent in the interest of the Primary work.

It would be impossible to mention all the creditable parts rendered on the programs, but space does not permit us to do so. The encouragement given to the children was good and interest and good order prevailed throughout the day. One of the most attractive feature, was a band of little boys with harmonicas and drums playing the most delightful music which greatly encouraged the children and officers in their good work.

Tuesday June 20, the conference convened in the High Intermediate schoolroom. The presence of many of the best known churchmen, the attendance was good and interest and good order prevailed throughout the day. One of the most attractive feature, was a band of little boys with harmonicas and drums playing the most delightful music which greatly encouraged the children and officers in their good work.

One of the most attractive feature, was a band of little boys with harmonicas and drums playing the most delightful music which greatly encouraged the children and officers in their good work.

On Wednesday the 21, we visited Parowan, where a conference was held for the children of the place, and of Atchison, and the two towns are but a mile apart, the attendance was good and interest and good order prevailed throughout the day. One of the most attractive feature, was a band of little boys with harmonicas and drums playing the most delightful music which greatly encouraged the children and officers in their good work.

At Moab, on the 22nd inst., the conference for that place, Hester and Hartung were present. The large house quite filled was a very cheering sight. The order throughout the day and lack of all confusion testifying the great maturity of children was highly creditable. The services of the choir of the ward Decatur, whose prompt attendance on such occasions is highly appreciable. We wish the services of a Deacon were deemed necessary by the presiding authorities of each place, and were always available.

At Mendon, on the 23rd, there was another scene of rejoicing, the people from Peterborough having in their exercises, which were all the more worthy,

Near the close of the meeting the large assembly was cheered by a shout of "Hooray" from the Mendon river bank, composed of the members of the Stake, who had come to see the conference, and were members of the Harmonies held years ago. We accepted this as a very fitting compliment to our Primary, and the young ones who were invited came to play the children. The leader, Brother Robert Swanson, stated that at the suggestion of the hand the boys voted to accept from all Independence Park.

After a happy, busy day in Mountain Park and Mendon met on the 24th. These great preparations had been made, and the tabernacle had been decorated with flowers and flags, and the organ and piano were in full play.

There were many present, and with a church inspection, to ascertain the work done, the boys presented all of their own work, including

the work of the Primary, the work of the Stake, the work of the Tabernacle, and the work of the Tabernacle.
