

# MINING, BUSINESS AND STOCKS.

## ADVANCE IN MAY DAY STOCK.

Highest Point in Many Months Reached Today.

## YANKEE CON. IS MOVING UP.

Dalton & Lark Stronger—Tesora Weakens—Silver Shield Firmer—Ontario Active—Ajax Lower.

Exactly 45,000 shares of stock changed hands on the Exchange this morning for the sum of \$12,446.75. Dalton & Lark was active as high as 7 1/2, while May Day opened at 5 1/2 and sold up to 5 3/4. Ajax weakened to \$1.10 after opening at \$1.13. Northern Light advanced from 10 to 10 1/4 with Silver Shield selling around 12. Star Consolidated was a little weaker between 62 and 65, while Daly hung around 12.18. Tesora declined to 76, while Little Chief was active at 15. Martha Washington was unchanged around 21. A marked advance is seen in Yankee Consolidated which sold up to 26 today. Sunbeam dropped 100 shares at 38, while Lower Mammoth let go 100 at \$4.35. Ontario participated at \$10.50. Manhattan brought 1 1/4.

## BIND YOUR MAGAZINES

Old Books, Music and Magazines. Put them in strong new covers for presentation. Many records of value can be saved by having them bound. The News bindery can do the work in any form at any price.

## TEACHERS.

Dr. Talmage's new book, "The Great Salt Lake, Present and Past," should be in the hands of every educator. The amount of information it contains relating to the great saline sea, makes it an invaluable work for reference or study.

## BANK STATIONERY

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

## Autobiography of Capt. James S. Brown.

520 pages, bound in cloth. Price \$2.00; for sale at the Deseret News. Special terms to agents.

## OPTION ON THE MAMMOTH MINE.

Is in Favor of Jacob and Simon Bamberger of This City.

## EXPIRES ABOUT APRIL 16.

Price Is Better Than \$3.00 Per Share—Major Thompson Returns—Conditions at the Dalton Mine.

From absolutely reliable sources it was learned today that the control of the Mammoth mine has been tied up with Messrs. Jacob and Simon Bamberger, of this city. The option was given before Mr. Bamberger left for the East and involves about 225,000 shares of stock. The limit of stock in the deal is less than 230,000 shares and the option expires about April 16. The exact price is not stated further than that it is better than \$3 per share and less than \$3.50 per share. The fate of the deal depends on the examination which is being made by J. W. Neill and a corps of assistants who left for the mine yesterday. The above facts will cause some speculation as to where the control of the bonanza will ultimately land. The Bingham Copper and Gold company has been slated as the intending purchaser of this property in connection with the Grand Central, but it is not probable that the Mammoth will pass into the hands of the Bingham crowd. In addition to the mine the Mammoth company owns valuable water rights which pay interest on about \$250,000.

## DALTON LOOKING WELL.

### Two Foot Streak of Good Gold Ore on the 200 Level.

Manager O. R. Young, of the Dalton, returned from that Marysville property last evening and reports everything progressing nicely in the development of the mine under the option. A slight hitch occurred in the work because the parties who have the option were not doing their work as the management desired. This difficulty is now adjusted and the work is being pushed. The mine is drifting on the vein which was recently tapped from the 200 level of No. 8 incline. A two-foot streak of ore is in sight there which assays from \$5 to \$25 in gold. The mill is running and the company has about 300 sacks of concentrates piled up ready for shipment. Nothing is being done in the Comet tunnel owing to the deep snow.

## MORRISON IMPROVING.

### A Four-foot Body of Fine Gold and Silver Ore in Sight.

Major Thompson and A. E. Snow returned today from the Morrison group of claims in Humboldt county, Nev., where they have been inspecting the new developments. The company has been employing only two men lately but the force is to be doubled immediately. The ore is being pushed in the drift from the bottom of a 50-foot incline. This drift has been run 250 feet into the mountain and has opened up a body of fine gold and silver ore about four feet wide. The outlook is said to be very wide. Judge Barto, is president of the company while the Mayor is vice president. Mr. Snow says the company will push work from now on.

## Good Prospects Near Marysville.

W. G. Nebeker returned last evening from the Marysville country where he has been examining some mining property for local parties. Mr. Nebeker's errand took him to the Mountain Baldy district, where some good surface showings are said to exist. The ore is said to be principally being in quartz ledges with big porphyry dykes cutting the country. Compared with ten years ago, when Mr. Nebeker spent two months in the same district, not a great deal of improvement is noticeable, but a boom is predicted for the district in the near future. In the opinion of Mr. Nebeker the Marysville country presents a good field for the prospector, but the limited amount of work done will probably prevent big capitalists entering the district, unless some sensational disclosures are made. The district is within a few miles of the railway and it is surprising that more work has not been done on some of the croppings in sight.

## Overland Mining Company.

The Overland Mining and Milling company today filed articles of incorporation with the secretary of State. The company will have its offices at Ogden and will engage in the development of the Eureka No. 2 and eleven other mines in the Willard gold and silver mining district in Weber and Boxelder counties. The stock is divided into 500,000 ten-cent shares, of which E. N. Conroy, the president, owns 350,153. The other officers of the company are Albert Skowroff, vice president; Joe Golden, secretary; and James Wetherston, treasurer. These with C. W. Hismark, H. J. Powers and Herbert MacMillan are the incorporators and form the directorate of the new company.

## SPLENDID INDUCEMENTS.

### London Writer Much Impressed With Possibilities of Mining in U. S.

In an interesting article on the mineral resources of the United States the London Mining Journal says: Looked at from a commercial point of view, no country in the world can today give such convincing proof of its mineral wealth and diversified natural resources as the United States of America, nor can any other country boast of so large a civilized population, so large a demand for its mineral products, and so rapid and cheaply conveyed to the markets by its complete railroad system as the world has ever seen—a system which is extending its ramifications to new districts all the time on a scale calculated to materially aid in the development of those districts, and not in the half-hearted, feeble manner which characterizes railroad advance in some other countries.

Some of the material advantages we have to offer to convince ourselves of the mineral wealth of the country and the possibilities of securing fair terms for developing them to the satisfaction of a safe field for investment. We have, but of its figures presented by the government as representing the mineral production of the United States for the year 1900, which shows the entire value of \$399,800,922, the leading mine being Montana, with \$68,723,160.

## MINING NOTES.

Work has been resumed at the Diamond Con. of Tintic.

Thomas W. Jennings is expected back from Arizona tomorrow.

The Grand Central had eleven cars of ore on the market today.

J. H. Stallings has returned from his Baker City, Ore., interests.

The Ophir Hill reached the market today with eight cars of concentrates.

A 20-ton lot of high grade ore from the Utah mine is awaiting transportation at Oasis.

Reports from the Shoebridge Bonanza state that the vein appears the same as reported on Monday.

P. J. Donohue left for Nevada today to examine some mining properties for Salt Lake parties.

E. L. Goble is at the April Pool at De Lamar, Nev., making an examination of the property.

A car of copper ore will be on the market tomorrow from the Grand Gulch Copper mine.

The Taylor-Brunton sampler reported eleven cars of ore from Tintic and eight from Stockton today.

F. H. Lathrop expects to go to Bingham tomorrow to inspect the Tiewau-kee which is opening up nicely.

Dr. E. M. Bostwick is up from the Origa company's property in Millard county, with some very good samples of copper ore.

Glen R. Bothwell reports about sixty tons of base ore going through the Sacramento mill today. It seems to be leaching very successfully.

Secretary Ravenal MacBeth of the Lucky Boy Mining company of Custer, Idaho, left for the north today after a stay of several days in the city.

E. H. Buchanan, who was well and favorably known in this city, was killed yesterday afternoon in the Martha Washington mine at Tintic.

## WAS A RAILROAD MARKET.

Large Buying at Opening at Advances With Reaction Later On.

Selling Movement Spent Its Force Before 11 o'clock—Were Some Halles With Considerable Gains.

New York, March 27.—There was a large buying of all the principal railroad stocks at the opening. The first sales of Burlington were of 8,000 shares at 16 1/2 to 16 3/4, compared with 16 1/2 last night. Northern Pacific showed the effect of realizing, 6,000 shares selling at 9 1/4 to 9 3/4, compared with 9 1/4 last night. The dealings were widely distributed and very large blocks changed hands in many stocks. Profit taking sent prices down violently within fifteen minutes. The reaction reached 2 points in Northern Pacific and Burlington and from 1 to 2 in Erie common and first preferred, Sugar, Union Pacific, Amalgamated Copper and some others. Great Northern preferred was an exception, and was 1 point better. The selling movement spent its force before 11 o'clock and there was a full recovery in Northern Pacific and a rally of about a point in Burlington and other leading stocks. Prices yielded again slightly, but buying for the long account soon became general and dealings were animated when Northern Pacific and Burlington were advanced simultaneously to 9 3/4 and 16 1/2 respectively. The coalers, tractions and metal stocks also came into demand. Resultant gains from the lower end of the market were 1 1/2 in Burlington and 1 1/4 in the tractions stocks and 1 1/4 in the coalers. Some of the southwestern, the granagers, Sugar, Tobacco, Pacifics and trunk lines were also advanced sharply. Before noon the market was covered by the Western preferred gained 3. The smelting stocks, Great Northern preferred, Hocking Valley and Burlington, Cedar Rapids and Northern advanced 1 to 2 points. There was profit taking in other stocks and the market closed at a strength. Erie was rushed up to the top in the final dealings. The closing was extremely active and irregular. Bonds were firm.

## CLOSING STOCKS.
