at which stocks sold ower. Daly commanded the greatest attention and seemed to be in more demand than any of the other secureties called. The stock participated in the sales, opening with a board lot going at 3.55, followed by a decline to 3.40, the closing bid. Daly-West was not any too strong. Lower Mammoth and New York Bonanza were both weak, while Little Chief exhibited a little more strength than usual. Little Bell was called, but no stock was transferred. Ajax and Sacramento were the only articipants in the open board transact The sales of the day amounted to 9,656 shares of a value of \$5,166.75.

THE FRIENDLY MOOSE.

Kineo has a sepcial attraction jus now in the shape of a cow moose, which makes herself thoroughly at home or the hotel lawns eyeing spectators mildly, or chewing her cud in the sun with evident satisfaction.

Early in October the cow put in a appearance in the vicinity of the campion of the Nighthawk club at Sugar Isl and, and very soon manifested a ed tendency to make friends with the club men. She soon became so tame as to eat out of the hands of her friends When it came time to close camps the They telephoned to Manager C. A. Jud kins of the Mount Kineo House, ask ing him if he would take her to Kineo He did and since that time she has roamed at will close to the hotel, evi dently thoroughly at home.

She enjoys the fresh green grass he lawns, watches the bustle of life willingly for amateur photographers, and, in fact, is a most obliging and congenial ghest. The intention now is o keep her here as a permanent attrac tion. It is believed that this is the only instance on record where a wild moose has been tamed in this way .- Boston Herald.

BUSINESS NOTES. Sugar has again occupied the center of the financial stage during the past week. The popularity of all sugar investments is well illustrated by the fact that a \$1,000,000 company was organized here during the week, and half the stock subscribed in a single meeting of those interested, the remaining half becent. ing placed in the east. Amalgamated

ommon has broken the record by push-

ng two points past the preferred. Coniderable Utah Sugar has changed hands during the week at prices rang-ng from \$9.90 to \$10.00 for the preferred, and \$3.85 to \$3.95 for the comm roker Burton reports the sale of a \$7,-0 block of Deseret National at \$285. Consolidated Wagon common stock created a breeze among local investors, nd gratified its holders by the news of dividend for the year ending Dec. 31 last of 61-6 per cent. As the period t the rate of 7 per cent per annum, ex-ctly the same dividend that the preferred carries. As this will establish precedent, it is not likely that it will be viated from in the future, and a boom n common may be looked for. The otal amount of common outstanding is nly about \$300,00, so that the treasury only taxed to the extent of \$21,000 b the payment of a 7 per cent dividend annually. The preferred stock outtanding is about \$1,000,000, which calls or an annual dividend disbursement of 9,000. At this rate, with the volume business the company is doing, there be little question of the permanent dividends on the common as well as

preferred. The common dividend be paid in a lump to stockholders the date the next quarterly preferred lividend is due, Feb. 10. Following are the latest quotations ecorded by local brokers, Consolidated agon common being quoted, includng the dividend:

There have been rumors current in local business circles as to two alleged business consolidations, which if carried

out would make something of a stir in the trades respresented by the houses referred to. It has been current report in grocery and produce circles for the last week, that there was a strong like-lihood of the Coscriff Resp. ishood of the Cosgriff Bres, company and the Wood Produce company uniting their fortunes, the latter concern re-moving to the fine building occupied by

the Cosgriff company. But while this proposition is regarded by the trade as more than probable, the management of the Wood Produce company emphat-ically denied it this morning. The other propert was relative to company the prohumbly.

ther report was relative to an alleged proposed consolidation of the Salt Lake Hardware company and the Scott-Strevell company. However, the manage-ment of the Salt Lake company laugh-However, the managewell company. However, the manage-ment of the Salt Lake company laught at the story, and says he has heard New York World.

dence given to fuel over all other freight except live stock and perishable goods. Notwithstanding the extensive increase in facilities during the past year some roads have been compelled to decline consignments and in many cases where a large number of cars were desired only one was provided. Earnings thus far available for January surpass last year's by 5 per

strong.

2.25@4.00.

"It is conspicuous in practically every section of the country that, despite high prices, buying is liberal and of the better quality of goods, while dealings as a rule are on a better basis. Demand for materials for building is unusually brisk for this season. Although fortunate sections are receiving a better supply of fuel, the situation is still serious and many pig iron furnaces have been added to the idle list. "New England producers of boots and

shoes are actively engaged in season-able lines and there is enough business on hand to keep most plants in operation two months at least. Trade in leather is better, domestic shoe manufacturers operating or more liberal scale while export sales of sole are increasing "Firmness has characterized the course of the leading staples, an abundant demand being in evidence, while available supplies are restricted by traffic conditions.

"Failures for the week number 265 in the United States as against 301 last year and 27 in canada compared with 28 a year ago.'
