not hesitated to criticise and condemn lits public officials when in its judgment they were violating those principles and their professions of Democratic faith made before their devotion to place and power. At times measures of great interest to the people have or-iginated with us, and have been carri-ed to successful adoption by the Demo-cratic party in the State and Nation. It was by our constant iteration and dis-crass on that public attention was call-ed to the corrupt course of the repub-led to the corrupt course of the repub-tection of the requirements of the Goverriment, and at the same tention to the anecessary to American labor. We have advocated at all times a re-duction of taxation, municipal, State of the people should be lessened. of the people should not hesitated to criticise and condemn been charged that we conspired to de- the present crisis. He must subordinwas by our constant iteration and dis-ension that public attention was call-ed to the corrupt course of the repub-lican party in squandering the public domain, by which over 196,000,000 acres of public lands were given to railroad and other corporations. The tariff agitation by us resulted in drawing at-tention to the necessity of such a reduction of duty as would provide means sufficient for the requirements i of the Government, and at the same time afford that incidental pro-tection necessary to American labor. We have advocated at all times a re-duction of taxation, municipal, State and Federal, in order that the burdens of the geople should be lessened. Home rule and local self-government have always been cardinal principles of the democracy in Tammany Hall. We have differed with the State executive on the application of these principles of government, because in our judg-ment the truest democracy is where the least possible power consistent with a proper execution of the laws is s ticket, and made success certain, vic-tory which the Republican managers s snatched from the jaws of defeat, must be sought for elsewhere. Perchance a it may be discovered in the halting, time-serving Senators and Congress-ional Representatives who consented to a manufactured device unknown to the Constitution, which defeated the e expressed wish of a majority of the people of the United States. Against this frand the Tammany organization protested, and it has never ceased to . condemn the ingenious but unconsti-t tutional Electoral Commission, cun-fungly devised to avert the impending destruction of the republican party, which it succeeded in accomplishing in s 1876, by a vote of 8 to 7. No fair-minded man, who will examine these figures, can doubt the entirely loyal t support of Tammany Hall to Gen. Han-cock. With these slandlers resting upon us, and believed in great part ceven by those who are inclined to ad-fi mit our influence and power as a polit-i cal party, our opponents were alert and prepared for us at Chicago, where ment the truest democracy is where the least possible power consistent with a proper execution of the laws is taken from the people and lodged with their representatives. We have at all times opposed the centralization of power as dangerous to our republican institutions, and have not hesitated to condemn the unnecessary, unjust and undemocratic interference of the State Legislature and executive in our munitheir representatives. We have at all times opposed the centralization of power as dangerous to our republican institutions, and have not hesitated to condemn the unnecessary, unjust and undemocratic interference of the State Legislature and executive in our muni-cipal affairs. Our opposition to the abridgment of the power of the alder-men of our city, would have been just as determined had the common coun-cil been as strongly republican as it was democratic, and no alleged repre-by a republican, advocating the passage of this and other undemocratic laws un-der the delusion of city reform, could blind us to the true interest and object of such legislation. We championed the cause of anti-monopoly in 1881, and in the ensuing campaign of 1882, that resulted in the triumphaut election of the present Governor or the State. It is true the dissensions among cur ad-vocates had much to do with the great majority which he received, but the in-tense feeling in the breasts of thou-sands of workingmen against the Re-publican party for its corruption and monopoolistic legislation caused thou-and of working is not be reached with the error of the second of the seco
