## THREE RECORDS SMASHED.

Iver Lawson Again the Hero, But He Shows His Endurance Has a Limit.

That Iver Lawson is after all a machine of fesh and blood, and has a limit to his endurance, and a limit to his speed, was observed by the overflow holiday crowd at the Salt Palace saucer last night. The crewd learned the fact with some portion of surprise, for they had seen him d up pust anything that challenged the through any bunch of blockers, ull they came to look upon him as invincible, and unaffected by exhaustion or over-

work. Last night they saw him wobble and fall on a clear field while Morariand fall on a clear field while Morariand fall on a clear field him to finish in shot out from behind him to finish in world's record time. Incidentally they also whot out from benna nim to much in world's record time. Incidentally they also new that there are others in the racing game, and that things ore to be expected in the future from several new favorites. Hopper and West are two of them. Hop-per put up the gament fight of his carver race with McFerland he heat him around the last lap, down the stretch and across the tast for second place in the five-mile lap race. Neither McFarland or the crowd expected it, and it was a great moment for Hopper, whose reputation took an immediate skyrocket course. THEFE NEW RECORDS.

### THREE NEW RECORDS.

THREE NEW RECORDS. Iver Lawson always was a log cater of epace in the sporting pages. He seems never to thre of hotoriery, and never to let himself slip down is to the class that are mentioned in the summary, but not in the features, because they ald well but not things that make headline sem-tences. This year five got the center of the linedight early and is staying in it late. After cleaning up sprint records, and putting Sammy's reputation down to the algo ran class, he got busy with the dis-tance records, and finally with Sammy's pulging record, and now he comes in for the wobling. "rode-to-the-lindi" record, with the sensational spill to keep the with the worbling, "rode-to-the-limit" record, with the sensational spid to keep the crowd interested and convinced that he has ridien game races to the very last. Before his finish "all-in" last night he trimmed his usual quota of records.

### SAMMY LOSES ANOTHER.

In the quarter-mile unpaced, held by samelson at 24. Iver clipped away a fifth of a second, and the other speedy bunch mished down the line, no one getting within three-fifths of a second of Sam-my's mark. Samuelson field with Down-ing and Fogler for second honors, while McFarland for some reason dropped to touch place.

McFailand for some reason dropped to youth place. The five-mile lap professional saw Law-son again ride to his limit and clip the proof of 19:23 4-5 down to 5:55. Lawson was crowded in this race to his utmost limit. The first four miles was a chass of the slower bunch after the festive lap money, and then this race to his utmost first three to shoot out, and convinced the crowd hey had a little game of run proper and the play. McFarland, Lawson and Downing took up the chase, and Agraz the sammy looked over his shoulder and saw McFarland stitting up and grin-ing as thim in the exact position a man would like to occupy who is sure he is play to win a race, why Sammy just put from sheet disgust. HOPPER A COMER.

# SORES AND ULCERS TROUBLESOME-OFFENSIVE-DANGEROUS

Nothing is more discouraging than to have an unhealthy sore or ulcer resist one treatment after another, sometimes scabbing over and apparently getting well, then returning with renewed energy and becoming worse than before. Sores and ulcers are not due to outside causes; if they were, salves, plasters, lotions, etc., would cure them. They are kept up by a diseased and polluted condition of the blood brought on by the absorption of refuse and waste matters of the body into this vital fluid. These acccumulations find their way into the blood, usually because of an inactive and sluggish condition of the system. Nature intends that they shall be carried off through the usual channels of waste, but the different members failing to perform their duties properly leave the matter to sour and ferment. The blood then, in its effort to keep the system healthy, absorbs these poisons and at the first bruise, cut or wound the sore is formed, and the constant drainage of foul matter through it keeps the place open and irritated so it cannot heal. Another cause for old sores and ulcers is the pol-

luting or weakening of the blood from the remains of some constitutional trouble or the effects of a long spell of sickness. S. S. S. begins at the fountain-head and drives out all poisonous matter and germs, and makes a last-PURELY VEGETABLE. ing cure. As soon as the system gets under the influence of S. S. S. the inflammation

gradually leaves, the flesh takes on a healthy color, and soon the place is permanently healed. Book on sores and ulcers and any medical advice without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Parkites Who Were Shut Out. Sait Lake surely has what it has long dreamed of -a baseball team that can win in luck, and in emergencies, and in case it takes playing to do it. Yesterday in a batzenfest with Park City Sait Lake drew is runs, and allowed an occasional Parkite to reach second, although most of them went to their rest at first and en route. Jensen was on the slab for Sait Lake and went in to win from the first throw. He pitched the game of his life, while Park City's new twirler. Drew, was batted all over the field. He struck out six men, but when he was reached it was good and plenty. The Park city band furnished music during the game. The summary: Batteries-Patten and Wakefield; Diseen and Armbruster. Boston turned the tables on Washing-ton this afternoon, winning by a score of 9 to 3. Young was a puzzle to the Wash-ingtons, while Hughes and Falkenberg were hit timely. Young's pitching was the feature, Score: Batteries - Hughes, Falkenberg and Heydon: Young and Peterson. A.B. R. H. P.O. A. Trinity Hall then slwoly forged to the front. Haif the distance was reached in 3.25. The Canadians then were hardly more than a quarter of a length in the rear and mak-ing desperate efforts to averhaul their op-ponente, but the repeated sprints of the visitors proved unavailing. The Trinity Hall crew always responded with a slight quickening of their stroke, and held the lead to the end after one of the best rates ever witnessed at Heniey.
